During our visit to Lowell we were shown through the Laboratory of our celebrated countryman, Dr. J. C. Ayer.—Scarcely could we have believed what is seen there without proof beyond disputing. They consume a barrel of solid Pills, about 50,000 doses, and 3 barrels of Cherry Pectoral, 120,000 doses per diem. To what inconceivable amount of human suffering does this point! 170,000 doses per day!! Fifty millions of doses per year!!! What acres and thousands of acres of sick beds does this spread before the imagination! And what sympathies and woe!—True, not all of this is taken by the very sick, but alas, much of it is. This Cherry Drop and this Sugared Pill are to be the companion of pain and anguish and sinking sorrow—the inheritance our mother Eve bequeathed to the whole family of man. Here the infant darling has been touched too early by the blight that withers half our race.

Its little lungs are affected, and only watching and waiting shall tell which way its breath shall turn. This red drop on its table is the talisman on which its life shall hang. There the blossom of the world just bursting into womanhood is stricken also. Affection's most assiduous care skills not—she is still fading away.—The wan messenger comes nearer and nearer and nearer every week. This little medicament shall go there, their last, perhaps their only hope. The strong man has planted in his vitals this same disease.—This red drop by his side is helping him wrestle with the inexorable enemy; the wife of his bosom and the cherubs of his heart are waiting in sick sorrow and fear lest the rod on which they lean in this world, be broken.

O Doctor! Spare no skill, nor cost, nor toil to give the perishing sick the best that human art can give.—*Galveston, Texas News.*

FOUND HIS MATCH.—We saw a good thing yesterday. In the Court of Quarter Sessions, a well known criminal lawyer, who prides himself upon his skill in cross-examining a witness, had an odd-looking genius upon whom to operate. The witness was a boss shoemaker.

"You say, sir, that the prisoner is a thief?"

"Yes, sir, 'cause why, she confessed it."

"And you also swear she bound shoes for you subsequent to the confession;"

"I do, sir."

"Then"—giving a sagacious look to the Court—"we are to understand that you employ dishonest people to work for you, even after their rascalities are known?"

"Of course; how else could I get assistance from a lawyer?"

The counsellor said "stand aside," and in a tone which showed that if he had the witness' head in a bark mill little mercy might have been expected, the judge nearly choked himself in a futile endeavor to make the spectators believe that a laugh was nothing but a hiccough; while the witness stepped off the stand with all the gravity of a fashionable undertaker.—*Philadelphia North American.*

The Boston Journal must not rely upon the American for its facts in regard to political matters in this State. It is not true that the Ward 5 poll was kept open until 7 o'clock—it was closed before 5. It is not true that "many Democrats condemned the fraud" in that Ward, for no Democrat believes that fraud was committed.—*Manchester Union.*

As to the fraud in Ward 5, it is proof enough that the Democratic Selectmen refuse to show the check list, although persistent efforts have been made to get sight of it by the Republicans of the Ward.—Besides we have not met with the first Democrat who has any regard for his word, who has the recklessness to deny the charge of frauds.—As to the time, the Union knows the polls to have been kept open till the "required" number of votes were obtained. This was certainly two hours after the result in the other wards was declared.—*Manchester American.*

The chief scourge of town and village now, as it was half a century ago, is intemperance. In nine cases out of ten, where the traveller notices a dilapidated house and a neglected farm, the primary cause, when traced out, will be found to be drunkenness.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

From the N. H. Gazette.

"Popular sovereignty" is becoming decidedly popular in many quarters not heretofore supposed to be friendly to the doctrine advocated by the Democrats from 1854 to 1858. Many of the Republicans now seem inclined to support the bill offered by Mr. Morris of Ill., (Anti-Lecompton Democrat), which discards all Congressional interference with the Territories, and authorizes the people thereof to elect their own Governor, Judges, and all Territorial officers. This is turning the political tables, if not the heads of many of the politicians who in 1856 were death on popular sovereignty.—*Journal of Commerce.*

Commenting upon this extract, the Daily Chronicle says:

"The bill by Morris, provides for a *real* popular sovereignty, in the territories. The other popular sovereignty referred to, such as Kansas *enjoyed* in '56, was a cheat, a lie, and a sham."

Ah, that is the case is it? How long is it since the Republicans found out that "*real* popular sovereignty" is the true doctrine? Anything about it in the Philadelphia Fremont Platform? Has the Republican party ever before indicated its willingness to have this "*real* popular sovereignty" extended to the people of Kansas or any other territory? Haven't they fought tooth and nail *against* the people of the territories having anything at all to do in the selection of their own institutions and the enactment of their own laws? What caucus or convention of Republicans has resolved in favor of the people of the territories being left free to choose their own officers and enact their own municipal regulations? Isn't this pretended approval of "*real* popular sovereignty" a blind by which the leaders of the opposition seek to cover the desertion of their political platform, the strategic campfire which the enemy leaves burning, while they march away in stealthy retreat!

If Republicanism be in favor of real, genuine, constitutional, popular sovereignty, we may as well move forward together as one great, harmonious, national and irresistable party, for the Democracy will not take issue with their own principles, nor with those who honestly entertain them. But we need some better proof of Republican sincerity in this matter than the scattering declarations of a portion of the Republican press. We fear the Chronicle, Statesman, Claremont Eagle and Lebanon Whig, do not "speak by authority," even for Republicanism in this State. When the Independent Democrat endorses this heresy of "*real* popular sovereignty," then we shall know that the creed of our opponents is no longer sectional and dangerous, and shall extend the right hand of fellowship, and receive them to full communion in our political church.—*N. H. Gazette.*

To this we answer, 1, that we have not said one word about the question whether *real* popular sovereignty, (in a territory,) is true or false doctrine. What we have said is, as above, that Morris's bill gives *real* sovereignty to the people of a territory,—while the kind given to Kansas, was a cheat, a lie, and a sham.

2. We speak this by no authority at all, except the authority of truth and common sense, —and we have spoken just so about it, ever since we read the Kansas Nebraska bill, even before it passed. It was a swindle from the beginning.

3. *Constitutional* popular sovereignty in the territories, is *no sovereignty at all*,—for so far as the federal constitution goes, it, (Art. 4.) very briefly leaves the whole matter in the hands of congress. By usage, and by law, the president appoints judges and governors for the territories,—and by *late* usage, he does his best to force slavery down their throats.

Delegates Elected.

Ward 1.—The Secretary of the caucus in this Ward has furnished us no list of the delegates chosen, but we learn that the following gentlemen were elected as Delegates to the State Convention: Wm. Rand, Peter Jenness, Horace Webster, Sam'l P. Treadwell, William A. Walker and Solomon Fisher.

Ward 2.—At a meeting of the Democratic voters of Ward 2, held at the Democratic Reading Room on Daniel street, on Wednesday evening, Dec. 29, Hon. Zenas Clement was chosen Chairman, and William H. Hackett, Secretary. The following named gentlemen were chosen delegates to attend the several Conventions, viz:

State Convention, Jan. 6.—Richard Jenness, Jacob Walden, Zenas Clement, Wm. Pettigrew, Robert Morrison, William Downs.

Councilor Convention, Jan. 5.—William H. Hackett, Wm Varrell, O. Trefethen, Charles S. Prescott, John G. Rand, Jr., John Norton.

County Convention, Jan. 4.—J. Warren Towle, J. G. Hadley, J. R. Reding, A. W. Simpson, Israel Marden, Jr., Sam'l W. Moses.

Senatorial Convention, Jan. 8.—W. T. Frye, John R. Hill, Richard L. Pickering, E. N. Mathes, Jas. H. Head, Daniel Walker. Each delegate were authorized to fill vacancies.

The Prudential & Nominating committee were then chosen, consisting of Messrs. Wm. T. Frye, Albert Hayes, Edwin N. Mathes, Wm. H. Hackett, Benjamin M. Parker, Augustus W. Simpson, J. Warren Towle, Jacob Walden, Thomas Norton, with power to fill vacancies. Voted to publish the proceedings of the meeting in the New Hampshire Gazette.

William H. Hackett, Secretary.

Concord & Portsmouth Railroad.—State Convention, Jan. 6.—On Thursday, Jan. 6th, trains will leave Portsmouth for Concord at 7 o'clock A. M.; New Market Junction for Concord at 7 1-2 A. M. Concord for New Market Junction and Portsmouth at 3.15 P. M.

N. B.—Extra trains will keep out of the way of regular trains at least ten minutes.

J. A. Gilmore, Supt.

Concord, N. H., Dec. 30th, 1858.

A most excellent method of celebrating New Year's day, will be to look over your library and on your table, and see what borrowed books there could have been returned long since; then restore them to their owners immediatly.

Morning Chronicle.

SATURDAY, JANUARY 1, 1859.

The Chivalry—Gov. Banks.—Some six years ago (says the Atlas) a proposition was submitted to the Legislatures of the original thirteen States, for a union of effort on their part to build a monument in Independence Square, Philadelphia, to commemorate the services of the patriots who had given us independence and the American Constitution. Massachusetts was among the first to second the movement, and Hon. Chas. Francis Adams and Hon. N. P. Banks were appointed delegates to represent the State in the Convention which was to be held.

Since then every one of the original thirteen, with the exception of South Carolina, has agreed to contribute to the erection of the monument. It appears that the subject was reported to the Legislature of South Carolina now in session.—The committe to whom it was referred reported against it, and the reasons given for this course are very lucidly set forth by several speakers who took part in the debate. The first reason was that Pennsylvania was a free State, and would not permit a South Carolina gentleman to hold slaves therein. Another was, "that N. P. Banks of Massachusetts, was among the prominent leaders in the scheme." A third was that the black Republicans would very likely elect the next President of the United States, "which would test the question whether the South would remain in the Union or not." One of the speakers said, "the kind of monument he would like to see erected in Pennsylvania was one made of iron, and on that monument inscribed, 'South Carolina has made this by the protection of iron.'"

The report of the committee was accepted, and so South Carolina refuses to open her heart or her coffers and contribute six thousand dollars for any such sectional abolition scheme as that of erecting a monument in Independence Square to commemorate the services and the patriotism of the brave and good men of the American revolution. Who, after this, would not be a chivalry man and "own a nigger?"

Washington Matters.—The Washington correspondent of the Evening Post says the statement that nothing will be done to the Tariff this season is erroneous. A bill is already maturing, and Mr. Phelps, Chairman of the Ways and Means, thinks a measure can be presented which will be satisfactory to the manufacturing interest of the North, the iron-masters of Pennsylvania, and yet meet the approbation of the Southern free-traders.

If Mr. Phelps believes all this, he must have faith altogether beyond a grain of mustard seed.

The same correspondent says there is a prospect that the House Military Committee will report in favor of a Protectorate over a portion of Mexico, the precise limits not fixed. A large number of Southern members, including almost the whole South Carolina delegation, will oppose a protectorate, preferring to stand upon the provisions of the existing treaty, which establishes a cordon of military posts along the dividing line of the two countries.

☞ Mrs. Douglas is a Roman Catholic. It so chanced that Sunday came while they were electioneering, and, duty and interest for once coinciding, they went to church. At their entrance, the crowds of Irish formed a line on both sides, between which the little giant and giantess were conducted to the Bishop's seat, and then welcomed with three hearty cheers! The Bishop's being present to perform the rite of confirmation, has given rise to the remark that "the Bishop confirmed some, but Douglas many more."

In Death not Divided.—Died, in Georgetown, Mass., 27th inst., Mr. Samuel Look, aged 78 years, 9 months 9 days; also, same day, Mrs. Nancy Look, wife of the above, aged 78 years, 7 months and 3 days. Probably a more singular coincidence of life and death cannot be found in the State, than that of this aged couple, who were born so nearly together, lived so long together, and departed on the same day.

☞ An anxious public will be pleased to learn from a Paris letter that the shape for the winter bonnet seems to be settled. The front is rather larger, and although not decidedly pointed, is brought forward over the front hair; still left very open at the sides, in order to leave room for the bandeaux and curls. The crown is also larger, and the curtain narrower, and not so full; coq feathers matching the bonnet are in favor.

A Rich Blunder.—Telegraphs and types make blunders quite often, not to mention slips of the pen. The telegraphic dispatch from Washington City, Dec. 23, said, among other great things:

The Catholic priest who opened the Senate with prayer to day was Father Boyle of St Patrick's church, Washington. The Senate was full of priests in the dress of surplice and cassock.

It turns out, however, that instead of the Senate being full of priests or saints, in crape or lawn, there was just *one* priest there, viz., Father Boyle, who was in "*the full priest's dress* of surplice and cassock." Hence the "three black crows."

☞ Extorted confessions are uncertain evidence. A case in illustration recently occurred in Indiana. Joel Gresh, suspected of being engaged in the late robberies at Crawfordsville, was seized by lynchers, and hung up to the limb of a tree by the neck, with a view of forcing him to confess. When let down he still asserted his innocence. Up he was ran again and nearly strangled. He then confessed,—his only chance to live. The confession afterwards proved to be an entire fabrication, and Gresh was innocent of the crimes charged upon him.

☞ Mr. Gough, at one of his lectures, related an incident which aroused feelings of pity, indignation, and horror, in the breasts of the large assembly.—Within the last four weeks, he had become acquainted with a man, a graduate of the Edinburg University, and whose manners were those of a perfect gentleman, except so far as intemperance had debased him. He had lost all self-control, and his friends despaired of him.—They requested Mr. Gough to try and do something with him. Mr. Gough could not, as he had to travel from place to place, but suggested if they would send the unhappy man to a certain place where he would be for four days, he would make an effort with him. The man was sent, but escaped the vigilance of Mr. Gough and procured drink: the publicans took pleasure in attending to the wants of Mr. Gough's patient as they called him.—About a week ago Mr. Gough had received a letter that the unhapy victim of intemperance had ended his career by suiside.

☞ Charles, Compte de Montalembert, one of the noblest lovers of free thought, free speech and a free press in France, is now the illustrious victim of the tyranny which oppresses that country. His constructive treason is that he spoke favorably of the English parliamentary regime in contrast with that of France. His real offence is that he had the courage to speak boldly in favor of free discussion, a dangerous matter in France, and by some tried to be made so in the United States.

☞ A singular individual, a physician who died recently at Montpelier, Vt., has for the past few years been possessed with a curious monomania. He occupied all his leisure in making violins, and had accumulated one hundred and forty at the time of his death. He set enormous prices on them, has sold only two or three of them, and evidently thought himself the Stradivarius of the new world.

☞ Col. Abraham Van Buren, of Columbia, S. C., recently sold to Col. Elisha Worthington of Chicot county, Arkansas, his whole plantation of slaves, numbering 210, for $147,000, or an average of $700. The terms of the payments are five annual instalments of $29,400 each, with interest from date. Col. Van Buren is a son of ex-President Van Buren, and married the daughter of Col. Singleton of South Carolina. Mrs. Van Buren is the sister of the late Mrs. Gov. McDuffie.

☞ The Washington Union hopes that the landing of slaves in Georgia, is only "one of those fitful gusts, which rather purify than poison the atmosphere—another Burns riot and rescue,—a partizan enterprise." How poetically and philosophically the administration organ has learned to look upon piracy. A fitful gust of pir . .

Rev. Mr. E——, who lives near Portland, was preparing his discourse for the next Sabbath, stopping occasionally to review what he had written, and to erase that which he was disposed to disapprove; he was accosted by his little son, who had numbered but three summers:

"Father, does God tell you what to preach?"

"Certainly, my child."

"Then *what makes you scratch it out?*"

John H. Warland, formerly a popular editor of Claremont, afterwards editor of the Lowell Journal, then editor in Boston, and author of some good poetry, is now in the insane Hospital at South Boston, the victim of intemperance.

SPECIAL NOTICES.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

Testimony.—Dea. J. B. N. Gould, Nice Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The R. R. RELIEF remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, is an instant, telegraphic pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, unnatural and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Salt Rheum, Coughs, &c., in a comparatively short time. And the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The R. R. R. will raise you from your bed of suffering in a few hours.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand proprietory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of Gardner's Parisian Fim ple Destroyer, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranted to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

The Original and Only London Gin Imported. This Gin, Distilled in London, rom sound Malt and Rye, under the surveiance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DERILITY, &c., whilst the weaker sex will find by its adoption a sure relief from these distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—None Other is Imported.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co, 1 Cornhill; S. E. Pocker, 20 Elm st; J. Moran, 116 Blackstone st; M. Davis & Co., 57 Blackstone st; H. For the Chronicle.

SKATING.—In answer to Horum, your correspondent of yesterday, who asks the readers of the Chronicle to propose a way by which our two securely frozen mill ponds may be flooded—it is suggested that a circular area of one or two acres might be enclosed with an embankment about six inches high, formed of snow, saturated with water, and solidly frozen. Then with a fire engine outside of the circle, the interior might be flooded with water drawn through a hole in the ice.

If the snow cleared centrally from the area should, of itself, make a sufficiently bulky embankment, then there need be no delay for changing it into ice; and the water might be pumped on at once.

Will not the city lend an engine, and cannot the whole thing be done by

ALLEN & PAINE.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Potsmouth, have just received a gross of Dr Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

Henry Bowen, Librarian of Mass. Charitable Mechanic Association Rooms, School street, Boston, says Dr. Clarke's Sherry Wine Bitters are a very valuable medicine—the best he ever used.—All medicine dealers sell them.

Mathes & Varrell sell Dr. Clarke's Bitters.

To the Hon. Judge of Probate for the County of Rockingham:

Respectfully represents, Susan T. Dennett, of Portsmouth, in said County, that she is the widow of Mark Dennett, late of said Portsmouth, deceased; that said Mark Dennett died seized of certain Real Estate situated in said Portsmouth, to wit: a Farm or tract of land containing one hundred and eight acres, more or less, bounded as follows, viz: northerly, by land of William Roach and others, by land of heirs of Aaron Hodgdon and land of Butterfield Carkin, east, by land of Butterfield Carkin, by the lane leading to said farm from North Road, so called, the land of Benjamin Murray and land of Benjamin Hodgdon; southerly, by land of Benjamin Hodgdon and land of Wm. Roach and others; westerly, by land of William Simes and others, and of Wm Roach and others; together with a Dwelling House, Barn, and other out-buildings thereon; which property at the time of said Mark Dennett's death, and long prior thereto, was occupied by him and your petitioner, as his wife, as his and their home and dwelling; that your petitioner has continued to occupy the same as her home and dwelling, ever since the decease of her said late husband, and that she has never waived or released her right of homestead therein;—Wherefore she prays that a homestead to the value of Five Hundred dollars may be assigned and set off to her out of said Estate, agreeably to the provisions of the act of 4th of July, 1851.

SUSAN T. DENNETT,
by her Attorney, J. M. EDMONDS.

Dated December 22, 1858.

ROCKINGHAM, ss. Probate Court at Exeter, in said County, Wednesday, Dec. 22d, A. D. 1858. Upon the foregoing petition, it is *Ordered*, that a hearing be had thereon at a Court of Probate to be holden at Exeter, in said County, on the Wednesday next following the third Tuesday of February next, at ten o'clock, A. M. and that the Petitioner notify all persons concerned or interested therein, to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least thirty days prior to said Court. By order of the Judge.

SAMUEL D. WINGATE,
Register of Probate.

GRAND ENTERTAINMENT

—OF—

Vocal & Instrumental Music,

AT THE TEMPLE, IN PORTSMOUTH,

TUESDAY Evening, Jan. 18th, 1859.

Tickets, One Dollar.

1000 numbered Tickets will be sold,—and at the close of the Musical Exercises, a Committee of three gentlemen chosen by the audience, will distribute among the ticket-holders,

TEN NEW SEWING MACHINES

from the celebrated Manufacturing Co. of

GROVER & BAKER.

The Programme of the Musical Performances,—which will be of a superior order—will be shortly announced.

C. C. WHITTEMORE,
Agent for Grover & Baker Sewing Machine Co.
Portsmouth, Dec. 24, 1858.

THE GROVER & BAKER

SEWING MACHINE CO.,

18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;

PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They HEM, FELL, GATHER, AND STITCH in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of FIFTEEN HUNDRED STITCHES A MINUTE, and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

The following remedies are offered to the public as the best, most perfect, which medical science can afford. Ayer's Cathartic Pills have been prepared with the utmost skill we know medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any medicine then have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor—health—flows from them through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been protracted with bilious complaint and his body-tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has breed in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every nauseous drug humanity could suggest. Give him these Pills, and mark the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see the hope that is kindled in his heart; see him him whose angry humors have planted rheumatism in his joints and bones; more him, and he screeches with pain—he too has been soaked through every muscle of his body with liniments and salves; give him these Pills to purify his blood; they may not cure him, for, alas! there are cases which human power can not cure. But he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gastric stomach has long agonized every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man—he has that was radiant with health and loveliness blasted and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, secretion or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these Pills to stimulate the wind pipe into new renewed vigor, to cast off the obstructions, and infuse a new vitality into the blood. Now look again—the roses blossom on her cheek and where hollow sorrow has long reigned from every feature. See the sweet infant wreathed with worms. Its wan sickly features tell you without disguise, and painfully distinct, that they are eating its lifeaway. Its pinched-up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows—Give it these Pills in large doses to sweep out the vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the sum of all this life? And yet they are done around you every day.

Have you the less serious symptoms of these Dumpers, they are the more dangerous. Jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, (good and kindred complaints) Arise from the derangements which these Pills rapidly cure—Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the lame fox of old—they must burrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1.

Through a trial of many years and through every nation of civilized man, Ayer's Cherry Pectoral has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of medicine, have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to disease of the lungs and throat. Here a cold had settled on the lungs—The day, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all who are intimate with him, he tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more daily. He has coughed till he tears the Cherry Pectoral now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have made the Cherry Pectoral an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Tickling in the Throat, Whooping Cough, and all irritations of the throat and lungs are easily cured by the Cherry Pectoral if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

In addition to the above, they have a large Stock of

BOYS' CLOTHING OF ALL KINDS.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1858.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN—Owing my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become very much thinned, and nearly white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it, soon found it was improving my hair, and I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now confidently say that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy, and it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above statement I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of this letter, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

BATHMAN, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood | Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effect of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and the words can express my obligations to you in giving to the afflicted such a treasure.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, I feel no hesitancy to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to a fever in my head, which has been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, imparting food to digest well, **purifying the blood,** giving tone and vigor to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is of importance to many, the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents nightmare.

Only one dose taken at night, loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose often repeated is a sure cure for **Cholera Morbus,** and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for **Jaundice** removes all yellowness or unnatural color of the skin.

One dose taken a short time before eating, gives a keen relish to the appetite and makes the food digest well.

One dose often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few doses will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Bilious Fever,** and all Fevers of a **Bilious type.** It operates so gently, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Manufacturer of this Roofing labored many year to combine articles which would answer the above purposes, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now *after Five Years of the severest trial*, we feel confident we can attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects it most strongly and truly assert that ITS EQUAL IS NOT KNOWN!

This Roofing can be readily applied to roofs of every description, either Shingle or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved worse than useless; but we do not confidently and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*. It has stood a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to conduct the drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of the State. Every thing will be drawn every Saturday throughout the year, all orders received being filled in the drawing next after the date of their receipt, if they will be according to the scheme one ticket in every ten must draw a prize Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $70,000; every prize being drawn, and result of drawing forwarded to all purchasers

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following newspapers: Boston Weekly Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Herald*. Write your orders plainly, and direct to S. SWAN & Co., Augusta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and he can truthfully and boldly assert that more are incribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent to any part of the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS.

These Pills are now universally known and appreciated, and are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by venders of vile spurious article under some spurious or fictitious name. They are entirely useless, having been got up by unscrupulous pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured through prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From Hon. Chas. Mason, Commissioner of Patents.
U. S. PATENT OFFICE, Feb 23, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.
CHARLES MASON, *Commissioner.*

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, L. D. GALE, S. H. LANE, T. R. PEALE } *Principal Examiners.*
THOS. T. EVERETT, F. SOUTHGATE SMITH, WM. C. LANGDON. } *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues. W. P. N. FITZGERALD,
Late Principal Examiner of Patents.

An Old and Interesting Document.

Our friend, Sam'l Langdon, Esq., of this city, hands us a manuscript, yellow with age, which he found among the papers of his Revolutionary ancestor, Capt. Sam'l Langdon. It is a subscription paper, and contains the names of the patriotic grandfathers and great-grandfathers of many of our citizens, and as it may be interesting to our readers as a relict of "the time that tried men's souls," we present it to them. It will be recollected, that at the date of this subscription, the continental dollar was depreciated in value, how much we are not now able to say.

SUBSCRIPTION

For raising a Bounty for Six Men, to serve in the Militia going to join the Continental Army, for the Fourth Company of Militia, commanded by Capt. Samuel Langdon.

On the back of this paper, probably in the writing of Capt. Langdon, is the following memorandum:

April 9th, 1785. This Day the snow is so deep that there is no such thing as to pass the Roads.

From the Portsmouth Journal.

ORDINATION AT YORK.—On Tuesday, December 28th, Rev. Wm. W. Parker, late of Andover, was ordained as an Evangelist, and has accepted an invitation to labor with the people of the 1st Parish in York, as a stated preacher. The following were the order of exercises:—Invocation and Reading of the Scriptures, by Rev. Mr. Partridge of Kittery; Prayer, by Rev. John Colby of Hampton, N. H.; Sermon, by Rev. Lyman Whiting of Portsmouth, N. H.; Ordaining Prayer, by Rev. Otis Holmes of Elliot, Me.; Charge, by Rev. Giles Leach of Wells, Me.; Right Hand of Fellowship, by Rev. Franklin E. Fellows of Kennebunk, Me.; Address to the Church and People, by Rev. J. B. Cook of Wells, Me.; Concluding Prayer by Rev. Mr. Dinsmore of North Hampton, N. H.; Benediction by Mr. Parker.

At the studio of Mr. French this week we saw a very correct model of the bust of Rev. Dr. Burroughs, made for a marble statue, which is now under the chisel. The block is very clear, and the skill of the artist promises a perpetuity of that cheerful and expressive countenance which has for half a century met the welcome of our citizens generally—and imparted by good words a richness to those deeds of philanthropy and charity which have imparted happiness to thousands.

RAMBLES.—We have the volume in press, and are printing some copies more than we have subscription for, which those who forward their names early will be entitled to receive. The book will have several rambles which have not been and will not be published in the Journal. There are yet subjects for future Rambles, which will be resumed in the Journal in the Spring.—*Journal.*

A correspondent, who does not reside at Exeter, suggests that if there is any lack of candidates for Congress to be brought before the Convention at Dover next week, there is no man in Rockingham county who would command a larger vote by the than Hon. JOHN SULLIVAN, of Exeter.—*Journal.*

GREAT BRITAIN.—The European Times says: "No stronger proof of money being 'a drug in the market' need be cited than the last step taken by the Bank of England. The rate of discount is now reduced to 2 1-2 per cent.—an extraordinary contrast to the state of things which prevailed this time last year. The Bank has hesitated so long in coming to this determination that people believed the idea had been abandoned. In the coffers of the Bank gold has largely accumulated, while the rise of the foreign exchanges has given feasibility to the step rendered necessary by the large mass of unemployed capital.

We never remember a period, considering the low price of money, when there was less tendency to reckless speculation—a proof how the public have been bitten in previous cases of this kind."

SPAIN.—The independent press of Madrid expresses unanimously the opinion that the honor of Spain has been too much injured to admit of the government still employing pacific negotiations either with Mexico or Morocco.

It appears from letters from Spain that the expedition to Mexico will be on a larger scale than was supposed.

A correspondent who seems to have straddled Pegasus bare-backed, and imagines himself possessed of the "divine gift" of poesy, has sent us a beautifully written *"Ode to California—the Golden Staight,"* and says if this is published he will send us *"Thots on jupiter"* and a *"Sunet on Bleedin Cassus."* He had better dismount from his nag, put him up to oats, and exchange his goose quill for an axe, and go to chopping cord wood.—*Eastern Times.*

GAS TEST.—A very simple test by which to ascertain the purity of gas, is given by the Memphis Bulletin:

"Make a solution of sugar of lead with pure rain or distilled water, and in it saturate a clean, white sheet of paper, and expose it to the gas issuing from a burner not ignited. If the gas is pure there will be no discoloration. If it is not, the paper will change to a reddish, dark brown, growing darker the longer it is held in the stream of gas."

Morning Chronicle.

MONDAY, JANUARY 3, 1859.

A NEW TRACT SOCIETY AT HARTFORD.—A new society, called "The City Tract Society auxiliary to the American Tract Society at Boston," has just been formed at Hartford, Conn., and on Wednesday evening a public meeting of the society was held at the Centre Church, a report of which we find in the Evening Press. Rev. Joel Hawes, D. D., the President of the society, presided, and said by way of personal explanation:

The position I now occupy is not one of my own courting, nor have I expected it. I may say, however, that I cannot give my support to a society which professes to publish evangelical doctrines and sound morality throughout the world, and then ignores, decidedly and pertinaciously, one of the greatest abominations in this or any other land—as Wesley called it, the "sum of all vilainies"—declaring that it will not publish a single page on the subject, though that page be taken wholly from the Bible itself. I think this is wrong, very wrong, and decidedly hurtful to the cause of sound morality throughout the country. I cannot have anything to do with it.

Hon. Albert Day offered a resolution pledging the cordial co-operation of the Hartford Society with the American Tract Society of Boston, on the basis of independent action adopted by the latter at its last annual meeting, which was unanimously adopted.

Rev. Mr. Alvord, Secretary of the Boston Society, reviewed the history of that society, and declared that it was resuming its original national character and orbit.

Rev. Dr. Patton of New York showed by statistics that the London Tract Society circulated more tracts and at a very great saving of money, because it was not a publishing house, but gave out its contracts for paper, printing, binding, etc., wholly by contract, to the lowest bidder, dispensed with agents and colporteurs and their salaries, and, as far as possible, sought the regular channels of trade.

Rev. Dr. Kirk of Boston would have both sides be charitable and attend to the abundant work before them. The Boston Society has not urged itself upon Connecticut, but now that this demonstration is made, he remarked, 'we shall take the field that is open to us. We shall clear away all excuses for those who did nothing because there was no society in which they had confidence. Ours is not a *Bible Society*, though it publishes many extracts from the Bible; it is not an anti-slavery society, but it will not hesitate to publish a fair proportion of anti-slavery tracts." The diocese, he continued, was the whole land, but he expected that the southern branch of the trade will be somewhat limited so long as negroes bring $1500 each. The next demonstration would probably be in New York itself.

Rev. Dr. Leonard Bacon of New Haven made a powerful speech, and Rev. Dr. Turnbull expressed his entire acquiescence in the purposes of the meeting. The Evening Press remarks:

There were in attendance many of the solid and earnest men of various churches, and the new society starts under the most favorable auspices. As it coincides with the views of four-fifths, if not nineteen-twentieths, at least, of the Congregational and Baptist clergymen of the State, there will doubtless be similar movements elsewhere."

☞ Is it generally known, asks the Traveller, why the first of January, of all the days of the year, should have been selected for New Year's Day? It happened in this wise: When Julius Cæsar reformed the Roman calendar, the basis of the reform was that the commencement of the new era should coincide with the first new moon after the shortest day; and the shortest day of the year 46 B. C. was the 24th of December, and the first new moon fell on the eighth day succeeding, and from that day, January 1, the new era received its date. Thus the institution is more than 1900 years old, and is a Pagan institution, connecting us with the very commencement of the Roman empire.—Those who make a holiday of the time may be said to pay tribute to Cæsar, in observing a day that owes its peculiar significance to his action, to the part he took in effecting a most useful reform. His work lives after him, and promises ever to endure.

☞ The Missouri Democrat publishes the facts in the election dispute between Mr. Blair and Mr. Barrett. They show that the latter was elected through the most stupendous political fraud ever perpetrated in this country. The House of Representatives never can allow Mr. Barrett to misrepresent the St. Louis District. He must be the very incarnation of impudence to think of taking a seat in that body.

A JURY REBUKED.—Cases are becoming quite too common in which criminals evidently proved guilty of murder are convicted of manslaughter only, by juries whose compassion outweighs their sense of justice. An instance of this sort occurred recently in Dane county, Illinois. A German named Melchior Stoppal had been proved guilty of murder. It is said that there was not a defective point in the evidence to hang a doubt upon, but the jury returned a verdict of manslaughter. Judge Dixon, is pronouncing sentence according to the verdict, gave vent to his indignation in plain language. Addressing the prisoner, he said:—

"You have been brought to the bar of justice charged with the high crime of murder. You have had a trial according to the *forms* of law, and have by a jury been adjudged guilty of manslaughter in the third degree. With the facts in your case I have nothing to do, and such is my position that until the present time I could express no opinion upon them. Now, however, I can do so without infringing upon your rights or those of the public.

In my opinion, if any man ever was guilty of wilful, premeditated murder, it was you, in taking the life of John Ritmeir. The proof in your case established it clearly, positively, and beyond reasonable doubt. It showed conclusively that, for days before you murdered him, you premeditated and designed doing so. * *

As you are a stranger, unacquainted with our laws and language, for your own information I should say that the crime of murder once existed in our laws, and was recognized in our courts. It was once even punished in Wisconsin, but now, I fear, such is no longer the case. Criminals of your cast are put upon their trial only to be relieved from the penalty of their crimes. * * * *

For the offence of which you have been convicted, the highest punishment prescribed by law is four years in the penitentiary. In being obliged to pass the sentence upon you, I feel as it every rule of reason, law and justice is violated. The sentence of the law in your case is that you be punished by confinement in the State Prison at hard labor for the period of four years from this day at noon, and that you be solitarily imprisoned for the first ten days of each and every month of said term.

☞ The national government's organ, though it does not venture to advocate the revival of the African slave trade, thinks those who landed the Wanderer's cargo on this "free soil" did a good thing for the said cargo. Perhaps so, but we would like to have the point settled in accordance with the principles of "popular sovereignty," and let the Africans vote upon it.—The decision should be by the head and hand of each African, and not by the heads and hands of Americans, which have too much to do with arithmetic, and the whip to be strictly impartial. We doubt if any man would vote himself into slavery even if he were assured that in so doing he should civilize his whole race.

SENSIBLE.—The Boston Board of Trade has received a report, from one of its committees, which, among other things, urges that the chief market for the sale of cotton should be in Boston instead of New York. On this point the Lowell Citizen observes:

We have an amendment to offer to this proposition; it is that the goods made in Lowell be sold *here*, the products of Lawrence *there*, and of Manchester be vended in that city. Our manufacturing cities are languishing under the same system of "absentee landlordism" that used to form one of Ireland's greatest grievances.

Give us some direct connection with the owners of our mills, some community of interest, something more like an independent existence, and, as a great step towards this, give us a *home market* for the products of our people!

☞ The Aroostook country is about to have the benefit of a settlement of Friends or Quakers, therein. The Friends make good colonists, and good citizens, but they are not apt to vote very regularly. They will thrive in Maine, and then we shall hear of a "Quaker vote" there, as well as in Pennsylvania.

A clergyman was endeavoring to instruct one of his scholars on the nature of a miracle. "Now, my boys," said he, "suppose you were to see the sun rising in the middle of the night, what would you call that?" The mune, please sur." "No, but," said the clergyman, "suppose you knew it was not the moon but the sun, and that you saw it actually rise in the middle of the night—what should you think?" "Please, sur, I should think it was time to get up."

OBEYING ORDERS.—"Edward," said his mother, to a boy of eight, who was trundling a hoop in the front yard, "Edward, you mustn't go out of that gate into the street."

"No, ma, I won't," was the reply. A few minutes afterwards his mother had occasion to go to the window. To her surprise saw Edward in the street, engaged in the very edifying employment of manufacturing dirt pies.

"Didn't I tell you not to go through the gate," she said angrily.

"Well, I didn't, Mother," was the satisfactory reply. "I climbed over the fence,"

QUITE BRIGHT.—Mr. John Bright, in a recent speech upon reform in England, made the following excellent points:—

You remember that the gentry—the West Enders, including even the ladies—have been subscribing ten guineas apiece to invite a clever farmer from Ohio to show them how to tame a horse? [Loud laughter and cheers.] Anything but politics—[renwed laughter]—you may delight yourselves with their charming poets, if you like—with Bryant, Whittier and Longfellow; you may interest an instruct yourself by their great historians, Bancroft, Prescott and Motley—but if you ask how free popular institutions are working among your own countrymen on the American continent, you are denounced as unpatriotic, and at any rate treasonable to the House of Lords. [Cheers and laughter.]

"CAMBRIDGE!"—A few evenings since, Theodore Parker delivered a lecture in Boston on Washington. In the Boo's report of it we find the following capital anecdote:

"Washington distrusting the capacity of the negro to be a good soldier, or, at any rate, to be placed on guard, one night put on an unmilitary coat, and advanced to a colored sentry, and heard the challenge, "Who goes there?" "A friend." "Friend advance, without arms, and give the countersign." Washington said "Roxbury." "No sare." "Medford," "No sare." "Boston." "No sare. I tell you what, massa Washington, no man go by here without he say *Cambridge*." [Laughter and applause.] Washington said "Cambridge," and passed by, but gave orders that the colored man should be relieved of his duty as sentinel after that.

DETROIT, Dec. 31.—A fire broke out here early this morning in the building occupied by the Detroit Daily Tribune, destroying the building with all its contents. Loss $25,000. Insured about $20,000. The publication will not be suspended.

Any person sending us five new subscribers shall receive a sixth free.

For $6, we will furnish the Daily Chronicle and the Atlantic Monthly, for one year.

For $3, we will furnish the Weekly Chronicle and the Atlantic Monthly, for one year.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

Henry Bowen, Librarian of Mass. Charitable Mechanic Association Rooms, School street, Boston, says Dr. Clarke's Sherry Wine Bitters are a very valuable medicine—the best he ever used.—All medicine dealers sell them.

Mathes & Varrell sell Dr. Clarke's Bitters.

SPECIAL NOTICES.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

TESTIMONY.—Dea. J. B. N. Gould, Niles Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The **R. R. R RELIEF** medicine are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, enlarged, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The **R. R. R.** will raise you from your bed of suffering in a few hours.

R. R. R. Office, 302 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Redway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED. THIS GIN, Distilled in London, rom sound & Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, GRAVEL, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the DISPEPTICS, WEAKLY and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of weather and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'. None genuine is IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st; J. Moran, 116 Blacketone st; M. Davis & Co., 57 Blackstone st; R. A CARD TO THE LADIES.

DR. DUPONGO'S

French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those suposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by JOSEPH H THACHER, in Dover by Chas. A. Tufts, in Exeter by O. A. Merrill, and in Newmarket by J. A Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Por Office.

N. B.—Ladies will be particular in asking for *Dr. Dupongo's Golden Pills.* Observe the signature *J. Dupongo* is upon each box. You will then obtain a Pill you can rely upon.

LOCAL.

☞ "Let him that thinketh he standeth, take heed lest he fall." The words of the apostle are very applicable at the present time, when one can hardly walk through the street, without being mistaken for a person under the influence of the 'ardent.' Sometimes, however, both serious and ludicrous accidents happen. For instance, we noticed the other day a Hibernian gentleman passing through the street, and all at once we were startled by a sudden noise, and on looking round found that the perpendicular had assumed the horizontal.—There he lay on his back, with a basket by his side, which prior to the aforesaid accident, contained a jug of molasses, and a few packages of groceries, but lo! nothing was left of the jug, save the handle, and the molasses diffused itself among the snow and dirt on the pavement. Nothing daunted, he gave the molasses to a brother "gintleman" from the Emerald Isle, if he would scoop it up! which gift was undoubtedly fully appreciated. He will probably "take heed to his ways" in future.

MUTUAL IMPROVEMENT TEMPERANCE SOC.—A Temperance Lecture will be delivered at Academy Hall, on Wednesday evening, Jan. 5th, at 4 before 8, by Rev. J. Hall.

☞ The funeral of Mrs. Charles Tappan will be from the house of Henry H. Ladd, Esq., at 11 o'clock, this morning.

MANCHESTER, N. H., Jan. 1.—Two men, Samuel Cargill and Charles F. Bunker, were instantly killed last evening in No. 1 Manchester Print Works. They were torn to pieces between the large wheel of a mill and a post. Bunker was showing Cargill how to make nightly examination of the wheels, and it is supposed that he, Bunker was caught in the wheel first, and that Cargill in trying to save him was also caught. Bunker was a native of Barnstead, in this State, aged 28, and leaves a wife. Cargill was a native of Jefferson, Me., aged 42, and leaves a wife and two sons.

SCHOOLS IN MISSOURI.—A letter from St. Joseph, in the Boston Journal, says:

A few school houses are visible in this part of the State. We passed *one* that was occupied, on our journey. The provision made by law, for public education in Missouri, is really very liberal; but few localities avail themselves of it. The State was principally settled from the South;—the people have no adequate idea of the importance of a system of free schools; and it seems utterly impossible for them to become familiar with its practical workings. This city, the second in the State, and boasting of a population of eight thousand, has not a single free school, though it has several distilleries, and drinking saloons without number! Churches (in the country) are not so rare; but the buildings are generally small, often dilapidated, and the doors are always open.

☞ In a recent case in England, on the subject of the auction purchase of a horse, Lord Campbell said, that "if an owner bid at an auction, a real bidder, to whom the lot was knocked down, might avoid the contract, on the ground that he had been imposed upon and his bid forced up to an improper mark."

FINANCES OF HARVARD COLLEGE.—The receipts of Harvard College for the year, according to the report of Amos A. Lawrence, Esq., the Treasurer, have been $301,014 35, including $18,244 40, cash on hand at the commencement of the year. The expenditures have been $275,524 38, and there remains on hand in cash the sum of $25,517 47. The salary of the President of the College is $2500 and his house rent; of Professor Huntington $2500, and most of the other Professors $2200. The amount of property belonging to the College, exclusive of the College and the grounds adjoining, is valued at $1,009,636 40. Of this amount $563,104 85 is in notes and mortgages, and $168,559 68 in real estate.

☞ The danger of taking hot bricks for bed fellows was illustrated in Orono a few nights since, when two young ladies wrapped one in cloth to toast their feet with in the foot of the bed. They woke up in the night nearly suffocated, and found the bed on fire, the brick having burst out and burnt through five quilts, portions of the skirts lying upon the foot of the bed, a hole in the mattrass, a portion of a night gown upon one of the ladies, and discolored their feet with smoke.

EDUCATION.—Thewal thought it very unfair to influence a child's mind by inculcating opinions before it should have come to years of discretion and be able to choose for itself. I showed him my garden, and told him it was my botanic garden. "How so?" said he; "it is covered with weeds." "Oh," I replied, "*that* is because it has not yet come to its age of discretion and choice. The weeds, you see, have taken the liberty to grow, and I thought it unfair in me to prejudice the soil towards roses and strawberries."—*Coleridge.*

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Ship Sagamore, Gerrish, old Mobile 24th ult, for Liverpool.

RAILROAD ACCIDENT.—*Augusta (Ga.) Dec.* 31.—This morning the train from Macon ran off the track two miles from Columbus, a fireman and woodpasser were killed, and G. W. Smith, engineer, had his jaw broken. None of the passengers were injured.

The morning train to Macon ran off the track at Adams' Mill, in consequence of the culvert being washed out. J. H. Miller, engineer, the fireman, woodpasser, and trainhand Snell were killed, and several of the passengers were drowned; but their names are as yet unknown. About a dozen were saved. It is supposed about 30 were aboard.

The following bodies were recovered:—Two Misses Guiges of Salem, Ala.; W. H. Snell, train hand; a lady and three children, of Texas; two ladies of Columbus, names unknown. The other bodies have not been recovered.

Twelve persons have been saved. Dr. Walker, of Columbus; Dr. Phillips, of Ala.; S. W. Blake, of New York; Conductor Snell; a gentleman from Texas, and one from Alabama; and four others unascertained. Among the killed, it is believed, are Thomas O'Brien, of Charleston:—Laura West, of Ga.; Miss Van Wass, Celeste Sharp, and W. P. Dupee, of Houston Co., Ga.

WASHINGTON, Dec. 31.—Late and direct intelligence from Havana reiterates that much excitement prevails there concerning the President's Message but affords no basis for the belief that a revolutionary movement is contemplated. The general tone of the advices is such as to warrant the assertion that the intervention of the French Government has not been requested for any purpose, while it is repeated that the authorities of Tampico have, through the efforts of the Captain General of Cuba, satisfied the claims of certain Spanish subjects, this being an insolated case. The additional statement is made that the difficulties between the government of Spain and that of Mexico are in a fair way of early adjustment. From another source of information in this city, there are, doubtless, good grounds for the recent telegraphic statements from New Orleans concerning fillibuster movements against Cuba.

NEW YORK, Dec. 31.—Michael Canceni, the murderer of policeman Anderson, was to-day sentenced to the Penitentiary for life, by Judge Ingraham.

The public reception, to-day of Senator Douglas, at the City Hall, was largely attended, notwithstanding the storm.

Grant Thorburn, the florist, has been selected to take charge of the grounds of Mount Vernon estate.

Mrs. Brown, who kept a fashonable establishment in 19th street, was shot last night by a paramour, in a fit of jealosy.

It was still raining here at dark. With a heavy fog;—the streets are filled with slosh.

AUGUSTA, Ga., Dec. 31.—A bailiff named Webb, being shot and killed to-day at noon, by W. N. Choice, a public meeting was held at the Court House this evening, to determine whether the law should be allowed to take its course, or Choice be hanged immediately. They decided upon the latter, and a mob is now assaulting the calaboose.

NEW YORK, Jan. 1.—New counterfeit twenties on Columbia Bank of Boston, and also twenties on the South Berwick Bank of Me., were put in circulation last evening.

☞ The sloop of-war Cyane arrived at Rio Janeiro Nov. 16; all well. The two ships of the American squadron, previously at Rio Janeiro, had already sailed for the La Plata to join the Paraguay fleet.

To the Hon. Judge of Probate for the County of Rockingham:

Respectfully represents, Susan T. Dennett, of Portsmouth, in said County, that she is the widow of Mark Dennett, late of said Portsmouth, deceased; that said Mark Dennett died seized of certain Real Estate situated in said Portsmouth, to wit: a Farm or tract of land containing one hundred and eight acres, more or less, bounded as follows, viz: northerly, by land of William Roach and others, by land of heirs of Aaron Hodgdon and land of Butterfield Larkin, east, by land of Butterfield Larkin, by the lane leading to said farm from North Road, so called, the land of Benjamin Murray and land of Benjamin Hodgdon; southerly, by land of Benjamin Hodgdon and land of Wm. Roach and others; westerly, by land of William Simes and others, and of Wm. Roach and others; together with a Dwelling House, Barn, and other out-buildings thereon; which property at the time of said Mark Dennett's death, and long prior thereto, was occupied by him and your petitioner, as his wife, as his and their home and dwelling; that your petitioner has continued to occupy the same as her home and dwelling, ever since the decease of her said late husband, and that she has never waived or released her right of homestead therein;—Wherefore she prays that a homestead to the value of Five Hundred dollars may be assigned and set off to her out of said Estate, agreeably to the provisions of the act of 4th of July, 1851.

SUSAN T. DENNETT.

by her Attorney, J. M. EDMONDS,

Dated December 22, 1858.

ROCKINGHAM, ss. Probate Court at Exeter, in said County, Wednesday, Dec. 22d, A. D., 1858. Upon the foregoing petition, it is *Ordered*, that a hearing be had thereon at a Court of Probate to be holden at Exeter, in said County, on the Wednesday next following the third Tuesday of February next, at ten o'clock, A. M.; and that the Petitioner notify all persons concerned or interested therein, to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least thirty days prior to said Court.

TEN NEW SEWING MACHINES

from the celebrated Manufacturing Co. of

GROVER & BAKER.

The Programme of the Musical Performances,—which will be of a superior order—will be shortly announced.

C. C. WHITTEMORE,

Agent for Grover & Baker Sewing Machine Co.

Portsmouth, Dec. 24, 1858.

THE GROVER & BAKER

SEWING MACHINE CO.,

18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;

PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They HEM, FELL, GATHER, AND STITCH in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of FIFTEEN HUNDRED STITCHES A MINUTE, and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

C. C. WHITTEMORE,

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor,—health courses through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaints; see his brain, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose food lodged like a load on his stomach till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every panacea, and nothing could suggest. Give him these Pills, and mark the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see that late leper that is clean. Give them to him whose angry humors have produced rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these Pills to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can cure. Mark the man who walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose growing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man.—See back that was racked with pain and aches bent and limbs blasted and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, assimilation or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these Pills to stimulate the vital principle into renewed action, to remove the obstructions, and infuse a new vitality into the blood. Now look again—the roses bloom on her cheek, and where lately sorrow and joy hurried from every feature. See the sweet infant wasted with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they are eating its life away. Look at its hand—and nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows.—Give it the Pills in honey, and see how soon these vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these diseases, they are troublesome—Costiveness, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout and Indigestion, which all arise from the derangements which these Pills rapidly cure.—Take them perseveringly, and under the counsel of a good Physician if you can, if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the spirits of old—they must burrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of hope, have had their health restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs.—The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to the practiced listener. He tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The destroyer is checked, and he is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The countless colds and coughs to which it checks the seed which would have ripened into a dreadful harvest of incurable disease. Influenza, Croup, Bronchitis, Hoarseness, Tickling in the Lungs, Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish a new edition annually, and scatter them broadcast over the earth, in order that the sick every where may have before them the information it contains. Druggists and dealers in medicine generally have them for distribution gratis, and also for sale these remedies, prepared by Dr. J. C. Ayer, Practical and Analytical Chemist, Lowell, Mass.

Sold by WM. R. PRESTON, and all Druggists in Portsmouth, and Druggists everywhere.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been used with the aged of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage, to make this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forests of Genesee Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" is a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends, is the best of its recommendations.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply its proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Coughs, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Mobile, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

MOBILE, ALA., Jan. 20, 1856.

PROFESSOR O. J. WOOD—Dear Sir:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I commenced using it on your hair restorative, and used it. I soon found it was proving what I had wished. I used it regularly ever since. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and whiskers, the hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty five years. I am now sixty years old; my good health at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of your invention as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 28, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FELIX JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodist Church at Brookfield, Mo. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, Jan 19, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing dandruff, cleansing the head, and a natural tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was beginning gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

Compounded Entirely from GUMS,

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These **Gums** remove all obstructions from the liver, stomach, and bowels, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, **purifying the blood,** giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are easily and speedily prevented by the use of this medicine. The occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and **cures costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will **cure** and relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

E. P. RUSSELL'S

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Inventor of this Roofing labored many year to combine articles which would answer the above purposes, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now offers it to the *severest trial,* we would invite the careful attention of all interested in such matters, believing it will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN.

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind* which has yet appeared, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State, and prizes will be drawn every Saturday throughout the year, all orders received being filed in the drawing next after the place of the name comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $70,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers: Boston Post, Boston Herald, *Register,* Charleston *Standard,* Nashville *Gazette,* Atlanta *Intelligencer,* and New York Weekly *Day Book.* Write your orders direct to and direct to S. SWAN & Co., Augusta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m181y

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain diseases, which a little skill would suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than a hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three times that number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicine will be sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMEDIES are the most popular and rivalled in efficacy and superior virtue in regulating all female irregularities Their action is specific and certain, producing relief in a short space of time. They are acknowledged, to be the best in use.

The Dr. cautions the public to beware of impostors that are being produced by unprincipled and spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine article, the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for ITS GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their commercial interest, to bestow upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

PATENT AGENCY.
SAMUEL COOPER,
Late Principal Examiner of Patents in the United States Patent Office, at Washington.
OFFICE IN
WEBSTER BANK BUILDING,
13 EXCHANGE STREET, BOSTON.
PATENTS secured in the United States, and in all other patent-granting countries. Specifications and drawings prepared. Caveats filed.—Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extension procured, and in general, all business connected with the Patent Office transacted with care and promptness.
British and other foreign patents procured through prompt and confidential agents in London and Paris.
Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.
He begs leave to refer those unacquainted with him to the following testimonials:—
From Hon. Chas. Mason, Commissioner of Patents.
U. S. PATENT OFFICE, Feb 23, 1855.
I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.
CHARLES MASON, *Commissioner.*
From the Examiners of the Patent Office.
The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.
HENRY B. RENWICK, L. D. GALE, S. H. LANGE, } *Principal Examiners.*
T. R. PEALE, THOS. T. EVERETT, F. SOUTHGATE SMITH, WM. C. LANGDON, } *Assistant Examiners.*
From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues. W. F. M. FITZGERALD,
Late Principal Examiner of Patents
Boston Jan. 7 1858 1y TuTh & Sat.

TUESDAY, JANUARY 4, 1859.

BRIDEGROOM KILLED.—The city of Portland, Oregon, has been the scene of an excitement caused by the murder of a young bridegroom, named Mortimer Stump, by his father-in-law, Mr. Damforth Balch, a well-to-do farmer. It appears that Stump eloped with one of Balch's daughters and married her at Vancouver, from whence he took her to his father's house, some ten miles from Portland.

On the day of the trouble, Stump and his wife had come to Portland, for the purpose of buying some necessary articles with which to commence housekeeping. Balch was armed with a double-barrelled shotgun; he did not, however, carry his gun with him through the streets, during the day, but had it put where it could be handy in case of need, thus proving that the whole thing was a premeditated affair.

In the afternoon, when Stump, having made all his purchases, loaded them in a wagon, which proceeded to and got on the ferryboat, Stump and his wife walked down to it, and while assisting his wife to the seat on the front, Balch walked down to the boat, stepped up to the after part of the wagon, and when Stump looked round he levelled his gun and deliberately shot him, the whole contents of the barrel—a heavy charge of buckshot—taking effect in the neck. Balch was immediately arrested by the bystanders, before he had an opportunity to use the other load, which it is said he intended to do on the person of his daughter!

☞ The New York correspondent of the Buffalo Commercial says Rev. Dr. Tyng, of St. Georges, was solicited to preach at the Academy of Music, Sunday evenings. "No," said the Doctor, "I have been in that place during the present revival, as you call it, and have not been able to discover, in those gilded boxes, or in that velveted parquette, any of the poor and vicious who wander on the highways and byways of the city; the persons who attend for the most part have pews in regular places of worship, but prefer to have their churches closed in the evening, in order that they may visit the theatre, and enjoy the novelty of the scene. I shall not preach to such people. Drive them out and invite in persons who are not in the habit of going to church, or who are afraid to go there, having no money to buy a pew, and you are welcome to my services, not only on Sunday, but on every evening in the week."

ODD FELLOWS.—This institution has, during the eight years just past, expended for charity, in different ways, in the several States of this Union, the sum of $5,600,000, and assisted 235,074 of its members, during the same time, besides its widows and orphans, who received their special care. It numbers at the present 178,000 members, and the sum of $20,000 is required annually by the grand lodge of the United States to perform its necessary functions, in collecting its statistics and paying its members, who are required to meet once a year at Baltimore. At its last session it was voted to have a national celebration, and a large committee was raised to carry it into effect. It is to occur in New York city, the last week in April next.

☞ From the annual report of the "Mayor's Squad of Police," New York, it appears that the arrests of lottery dealers, gamblers and mock-auction swindlers, numbering 632, have not resulted in a single conviction. The raid against bogus gift enterprises resulted in the breaking up of 185, and the amount of money intercepted at the post office between $20,000 and $30,000. It is estimated that the support of gambling, swindling, low drinking and brothel establishments, absorbs $130,000, to be distributed among about 20,000 persons, or $650 per head.

THE CUBA REVOLUTION STORY.—The Washington correspondent of the New York Times writes that the rumor prevailing there on Thursday evening that our government had anticipated the rumored revolution in Cuba, was erroneous. The State Department have had not the slightest reason to anticipate such news, and the whole story is deemed highly improbable, not to say ridiculous. Dispatches received from Havana make no reference to either present or prospective trouble.

☞ The number of deaths in Boston, during the year 1858 was a little rising thirty-eight hundred—a decrease over 1857 of about one hundred and twenty-five. As usual, consumption was the leading disorder.

GIVING AWAY LIQUOR DECLARED A CRIME IN CERTAIN CASES.—The Vermont Legislature, at its late session, passed the following amendment to the Liquor Law of that State:—

"The first section of the act approved December the 6th, 1853, entitled an act to amend an act to prevent the traffic in intoxicating liquors for the purpose of drinking, approved November 23, 1852, shall not be construed to authorize or allow any person to furnish or give away any intoxicating liquors or any occasion of the assemblage of persons for the purpose of erecting any building, or any frame of any building, or for the purpose of moving any building, furnishing or giving away of any liquors on any such occasion shall be punished as provided in the act to which such act was in amendment."

CHRISTMAS AT CHELSEA.—We learn that the services at the church of the Nativity (Universalist) at Chelsea, Christmas Eve, were of an unusually interesting character. A short and appropriate discourse was delivered in the church by the Rev C. H. Leonard the pastor, after which the congregation retired to the vestry, when the veritable (Mrs. Partington) Santa Claus stalked in among them to the astonishment of the little folks, gray and hoary, and staggering beneath a load of presents that made the children leap with joy. They at once surrounded Santa Claus, when each received a present, leaving enough still to give one to every teacher. The whole ceremony was conducted in the best taste and gave all concerned unbounded pleasure.—*Charlestown Adv.*

QUAINT DEFENCE OF SELF CONTRADICTION. Mr. Ruskin, recently addressing an audience in England, said: "some of my hearers, this evening, may occasionally have heard it stated of me that I am rather apt to contradict myself. I hope I am exceedingly apt to do so. I never met with a question yet, of any importance, which did not need, for the right solution of it, at least one positive and one negative answer like an equation of the second degree. Mostly, matters of any consequence are three-sided or four-sided, or polygonal; and the trotting round a polygonal is severe work for people any way stiff in their opinions. For myself, I am never satisfied that I have handled a subject properly till I have contradicted myself at least three times.

☞ In Massachusetts, the Committee on Pardons of the Governor's Council have been for some time past considering the case of Charles E. Jones, convicted of the murder of a pedlar at Russell, near Westfield, about a year since, and now under sentence of death. The defence at the time of the trial was insanity, and the circumstances described in the evidence, pointed to a partial insanity or imbecility on the part of the murderer. The committee reported to the Council in favor of a commutation, and the Council accordingly advised the Governor to commute his sentence to imprisonment for life. Gov. Banks will undoubtedly comply.

☞ The Pennsylvanian, Mr. Buchanan's home organ, "pitches into" Col. George of New Hampshire, and handles him and his "letter of acceptance," without gloves. It tells him, virtually, that as a member of Congress, if he ever gets there, he must vote to protect slave property in the territories, otherwise he is no Democrat. The Pennsylvanian admits no "straddlebags,"—but eschews all popular sovereignty, except so far as the name may be used to represent the most abject slavery.

☞ On Saturday morning, Mr. M. Roby, who worked in Blaisdell's new mills at West Goffstown, met with a fatal accident. He was the first one at the mill, and when the other men came, he was found knocked senseless, and the mill was running. It is supposed a clapboard flew off and hit him. A doctor was sent for, but life had departed. He leaves a wife and children.

☞ We perceive by the News Letter, John Lowe, Esq. has resigned the post of Agent in the Exeter Manufacturing Co. which he has held for 28 years,—in which time no mistake of a cent in money, or a yard in measure of cloth, can be found on his books. The new agent is Mr. Norris from Maine.

☞ The statistics of the criminal calendar of the City of New York, for the year now closed, disclose the startling fact, that there were upwards of sixty murders in the city during that period, and in all that time only one murderer (Rogers) was hanged.

☞ The Commercial Bulletin, a new and elegant weekly sheet, began its career in Boston Jan. 1. It is a nice paper for items of correct information in its proper line. It is to be "devoted exclusively and generally to commerce, manufactures and trade in the broadest sense, and to the minutest detail."

It was only in 1807 that the city of London was first lighted by gas, and not until 1823 that the darkness of the streets of New York was dispelled by the now universal luminator.

A FAST FIT FOR A CARDINAL.—The Dublin Catholic Layman describes an entertainment given to Cardinal Wiseman by the Roman Catholics of the town of Dundalk, on Friday, the 3d day of September, 1858. For the information of those who may be curious to know what kind of a banquet is considered suitable for a Cardinal on a fast day, in those parts, we will state that His Eminence had only forty-one different dishes prepared with all due regard to his epicurean palate and the necessities of religious fast. We should think he might manage with such a bill of fare to worry through one of the church fasts.

A SWEDISH COLONY.—At Bishop Hill, Henry county, Illinois, there is a community of Swedes, who sought refuge there in 1846, on account of religious persecution at home. In 1850 their leader died, since which time they have had no head ruler, but the management of affairs has been vested in seven trustees, who are elected and hold office during good behavior. The colony consists of 800 souls, men, women and children; a good many trades are carried on, but the chief occupation is agriculture, and in this 700 to 1000 acres of land are planted in broom corn, of which, some years, 200 tons are raised.

SPEECH BY SENATOR DOUGLAS.—Senator Douglas made a speech, Friday evening, to his friends from the balcony of the Everett House, New York. He defined his position on the Clayton-Bulwer treaty and our foreign policy generally, but carefully avoided recurring to any question of a personal character as between himself and the Administration, and made a tame, not ornamental speech, meaning very little, and that little, capable of two interpretations, after the manner of a Delphic oracle.

COST OF LIGHT.—John Fallon, a chemist in the Pacific Mills, has been experimenting with the photometer, we see by the Lawrence Courier, to ascertain the cost of a given quantity of light. He finds common gas, *naphthalized*, to be cheapest; common gas in its simple state costs one third more, when sold at $3.50 per 1000 feet. Kerosene oil costs 16 per cent. more than plain gas, sperm oil 24 per cent more, lard oil 44 per cent. more, and burning fluid 47 per cent. more.

☞ The Mariposa Gazette reports that C. K. Garrison, the banker and steamship man, has bought a one-fourth interest in Col. Fremont's "grant," and will take part in the mining business of the "Pathfinder." The two will erect the largest quartz mill in the State.

Col. Fremont has lately been placed in complete possession of the Josephine quartz vein, about which there has been so much contention between himself and the Merced Mining Company.

☞ A letter from the Military Institute near Frankfort, Ky., states that quite a row came off there about the 8th ult. It appears that two of the students were fighting a duel with pistols and were parted by Col. Morgan, the General Superintendent of the institution. From this the dissatisfaction commenced. Twenty-seven students left immediately, and thirteen more were soon to follow.

☞ On Christmas night, Jack Mills, a free colored man, and his wife, residing near Halifax, N. C., while indulging in strong drink, had a quarrel, after which the man lay down and went to sleep. His wife then took an axe and deliberately chopped his head off. The deed was witnessed by a boy who gave the alarm, and the woman was arrested.

☞ The Milford Journal states that Charles Spear of Bellingham started from Woonsocket for home on the 29th ult., in a state of intoxication, and the next morning he was found by the side of the road a corpse. His horse returned home in such a bruised and mangled condition that it was necessary to kill him.

☞ A man named Ricker, who recently eloped (with, and married a fair damsel at Milford, Mass., where he passed by the name of Morrow, has been arrested for cattle-stealing at Rochester, N. H., where he also has a wife, to whom he will now have an opportunity of explaining his absence from home for the last six months.

THE GEORGIA RAILROAD ACCIDENT.—*Columbus, Ga., Jan.* 3.—The body of Allen E. Eli, of the firm of Durrie & Eli, Beekman st., New York, was recovered yesterday. C. J. M. Dickson, of England, is missing. His effects have been found in the Creek.

CORNING, N. Y., Jan. 3.—A shanty occupied by Patrick Boyle was burned here last evening. Mrs. Boyle and her two children, one seven years and the other six months old, were burned to death.

☞ When the house of Mr. Preble, of Bath, Me., was burning a few evenings since, some over zealous friends tore out the oven mouth and fire frame to save them from burning up, while a bed and bedding were allowed to go to ashes in the next room.

☞ A few years ago it was exceedingly rare for a whaling captain to be accompanied by his wife and children, but now it is now very common. An examination of the list of whalers shows that no less than 42 are now in the Pacific. Just one-half the number are now in Honolulu.

☞ Five students of the Brown University have been expelled from that institution, for the grave offence of attending a funeral of a classmate at Roxbury, after permission to do so had been expressly refused them by the President.

Any person sending us five new subscribers shall receive a sixth free.

For $6, we will furnish the Daily Chronicle and the Atlantic Monthly, for one year.

For $3, we will furnish the Weekly Chronicle and the Atlantic Monthly, for one year.

The money to be paid in advance, in all cases, of course. The price of the Atlantic is $3 per year—the Daily Chronicle $4, the Weekly $1 per year.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Potsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

Henry Bowen, Librarian of Mass. Charitable Mechanic Association Rooms, School street, Boston, says Dr. Clarke's Sherry Wine Bitters are a very valuable medicine—the best he ever used.—All medicine dealers sell them.

Mathes & Varrell sell Dr. Clarke's Bitters.

SPECIAL NOTICES.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

TESTIMONY.—Dr. J. B. N. Gould, Niles' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state, of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The R. R RELIEF remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the afflicted, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The R. R. R. will raise you from your bed of suffering in a few hours.

R. R. R. Office, 182 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to be the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from round Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its use a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the great medical authority, pronounces Charles' London Cordial Gin, "not only superior to any water, but the best article of the kind he has ever tasted."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NEW ORLEANS IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st; J. Moran, 110 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Broad st.; Delano & Sparrow, 24 Elm st, and others. In Portland, Me., of H. H. Hay & Co., C. W. Atwell, and C. C. Mitchell & Son.

A CARD TO THE LADIES.

DR. DUPONCO'S French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by JOSEPH H THACHER, in Dover by Chas. A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N. B.—Ladies will be particular in asking for *Dr. Duponco's Golden Pills.* Observe the signature *J. Duponco* is upon each box. You will then obtain a Pill you can rely upon.

LOCAL.

☞ We learn that a few days since, two young rowdies riding out in the outskirts of this city, met an Irishman, and attacked and beat him in such a manner that he applied for relief to an apothecary, who furnished him with a plaster for his bruises, which were very severe.

In a few days the Irishman died. He had before the assault been able to labor, in shovelling coal. We do not hear that he was either a diseased or a dissolute man; but that he was a steady laboring man. He did not complain of the rowdies, for *fear* they might inflict greater injuries. And it would not be easy, perhaps, to prove that the beating caused death, or even hastened it. With every man, this would be a matter of opinion.

We have heard of no provocation for the assault, and suppose it might have been slight or even imaginary, as we understand the looseness of morals, and recklessness of some loafers; they take courage from frequent failure to execute the law on such persons, and they know well that if they commit any crime, however great, they *may* escape by some petty quibble. We bespeak a change in this respect,—but a great revolution must take place before the desired change is effected.

We do not even suggest a prosecution in this case: we only bring it, as we hear it, before the public, that sober men may ask, why do we maintain 200 loafers and 20 or 30 groggeries?

☞ Our Correspondent, "Newington," who complains of drunkenness and disorder on and near the bay, is requested to give us his *name*,—not for publication, but for our satisfaction and safety. The abuses he complains of should be exposed, and may thereby be abated,—but statements, purporting to be facts, without a responsible name, are worthless, or worse.

MRS. MACREADY.—This talented lady is to appear at the Temple on Friday evening. We shall publish the programme to-morrow, and shall have something to say with reference to her wonderful talent as a delineator of character in a subsequent issue.

MUTUAL IMPROVEMENT TEMPERANCE SOC.—A Temperance Lecture will be delivered at Academy Hall, on Wednesday evening, Jan, 5th, at ½ before 8, by Rev. J. Hall.

☞ Our new city government is to be organized this day: a much more convenient season for all concerned, than April.

☞ Probate Court in this city, next Tuesday.

R. H. EDDY, ESQ., SOLICITOR OF PATENTS.—We have before spoken in commendation of Mr. Eddy, the importance of his business, and the eminent success that has attended his efforts, during a long and extensive practice; and we again desire at this time, to call the attention of inventors and others, to his well conducted agency for securing Patents. Probably there is no man who is more familiar with the inventive genius of the country, or who is more thoroughly acquainted with the innumerable patents granted,—their condition and value,—from the formation of our government to the present day. Mr. Eddy procures Patents also in foreign countries, and executes all documents necessary to secure the rights of inventors, who may rely upon him as highly honorable, prompt, and entirely devoted to their interest. He is constantly employed on cases that have been rejected, and his success in securing patents after all others have failed, is well known; his drawings specifications, and other writings are prepared in the most thorough and business like manner, and his charges for professional services will be found very moderate indeed. The advertisement in another column gives full particulars, and we recommend all who are in any way interested in patents and inventions, to give it a careful perusal. *

PRUSSIA.—The Prince of Wales has returned to England from Berlin, taking with him the Order of the Black Eagle, conferred on him by the Prince Regent of Prussia.

RUSSIA.—The Empress Dowager of Russia is suffering from a severe attack of bronchitis.

A powerful party is said to have been formed among the nobility to frustrate the Emperor's emancipation scheme.—They have a project for diminishing the power of the Emperor, and increasing that of the nobility.

MURDER IN NEW YORK.—*New York, Jan.* 2.—Early yesterday morning a young man named Jeremiah Looney, was stabbed through the heart by a *drunken* companion named Patrick Lane.

John Bruenhausen, engineer of steamship Empire City, who was beaten on Friday by George Carter, died yesterday of his injuries.

The Italian, Massino Bassanti, who was stabbed on Wednesday by a fellow countryman named Bosquet, died yesterday.

MARRIED.

In this city, Jan. 2, by Rev. Mr. Parker, Mr. John H. Walton, to Miss Mary Annah Newman.

In this city, Jan. 1, by Rev. Thomas Holmes, Mr. JOEL W. SHAW to Miss EMILY EMERY, both of South Berwick, Me.

DIED.

In this city, Jan. 1st, Mr. Samuel Stickney, aged 84.

Funeral this (Tuesday) afternoon, at 2 o'clock, from his late residence, No. 2 Green street.—Friends and relatives are invited.

In Dover, Charles E. Dunn, aged 1 year.

In Rochester, Mrs. Mary Garland, aged 96.

WASHINGTON ITEMS.—The correspondent of the N. Y. Tribune writes under date of Saturday:

The President is greatly troubled by the opinion which many leading members of Congress have expressed, that it is not probable that a new tariff can be agreed upon this session. He has informed several members within a few days that if this Congress does not so modify the tariff as to furnish more revenue, he will convene the next Congress in an extra session early in the summer. He has expressly notified Mr. Phelps the chairman of the Committee on Ways and Means of this determination.

The States says that it has satisfactory assurances that Lord Napier's recall was caused by his sympathy with Southern men in the slavery controversy, and that he himself regards transfer to the Hague as a degradation.

We clip the following items from the Washington correspondence of the New York papers of Monday:

Gov. Medary of Kansas has made a requisition upon the President for military aid in suppressing the disturbances near Fort Scott. Important dispatches were received yesterday from the Gulf of Mexico, which led to prolonged consultations between the President, Gen. Cass, and Mr Preston, the Minister to Spain.

The official report relative to the late troubles in Kansas was considered by the Cabinet on Thursday, when it was determined to bring Montgomery and Brown to speedy justice, and orders for that purpose were dispatched to the Marshal of the Territory.

☞ The America at Halifax, has Liverpool dates to Dec. 18. Cotton advanced 1-8d.—Breadstuffs dull but steady. The Atlantic Cable company have held a meeting, and adjourned without important action.

The Belfast Mercury says there is little doubt the Phœnix Club is entirely seditious, and made up of the dregs of young Irelandism. Seventeen persons have been arrested at Belfast, in addition to those at Cork. Government, it was expected, would issue a special commission for the immediate trial of the prisoners.

The Protestant Alliance, having memorialized Lord Malmesbury to interfere with Rome in the case of the Jewish boy Mortara, Malmesbury replied that while the government was indignant at the outrage, it did not think interference by a Protestant power would do any good, after the failure of a Catholic power like France.

A prospectus has been issued in London, of the Canada Landed Credit Company, with a capital of £200,000, the object being to encourage the flow of capital to Canada, by making advances on mortgages of land.

EXPLOSION IN WORCESTER.—*Worcester, Jan.* 2.—A two story brick Engine house, in this city, was blown up so thoroughly, yesterday afternoon, with all its contents, that not one brick remains upon another. A fire had been made in the engine-house the night before, and it is supposed that the gas, which had been smelling strong on the premises for a day or two, had communicated from the main pipe to the cellar, and when it reached the room where the fire was, the explosion occurred, completely shattering the building to atoms. The large school house, not 20 feet distant had its windows on every side almost entirely blown in, and the building itself otherwise seriously injured. All the neighboring houses suffered in the same way,—bricks, stones, and refuse generally, flew in every direction. The concussion was perceptibly felt in every part of the city, causing general consternation. The damage will probably be at least $10,000.

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.
Prepared from a prescription of Sir Jas. Clarke M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the U. S. United States.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

THE GROVER & BAKER
SEWING MACHINE CO.,
18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing the CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;
PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Be there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

THE RECENT EARTHQUAKE IN PORTUGAL.

A private letter just received from Portugal, in the N. Y. Times, contains the following graphic description:

LISBON, Thursday, Nov. 11, 1858.

MY DEAR —: It is of God's great mercy that this letter does not carry you the news of the sudden destruction of all you hold dear on this side of the Atlantic. At 10 minutes past 7 this morning a fearful earthquake shook Lisbon to its centre. It lasted a minute and some seconds, and was vertical. T. and I were asleep; we awoke, of course, and sat quite motionless, holding each other by the hand, feeling the house shaking violently, and expecting instant death by the giving way of everything. The sound that accompanied it was very awful. T. tells me that the most fearful part of it all, to him, was the increasing violence of sound and motion—the rapid crescendo. Each instant we expected the roof and walls to fall in upon us; then the sound diminished sensibly, and again increased in violence. A minute seems a short time, but it was a lifetime then. T. says he never before felt himself in the immediate presence of destruction, and his thought was, "Death is immediate and inevitable; now I shall learn the great mystery." When it was over, he said, "K., that was very awful." I jumped up and ran to M—. The partition walls of M.'s dressing-room, bed-room, her maid's chamber, the two spare-rooms and the dining-room—in fact all that support the walls of that side of the house, are cracked from top to bottom with rents in which you may lay your hand. A few seconds more and the whole would have come down with a mighty crash! [The walls of the Lisbon houses are solid masses of masonry, some three and four feet thick.] After breakfast I went to the Viscountess A's, to see if any accidents had happened in her house. Part of Mlle. De S.'s room had fallen in, and is now quite uninhabitable, but nobody was injured. People were flying to and fro, thinking and talking of nothing else. Many persons were killed by falling of walls; many houses have been shaken down entirely. One of the columns of the beautiful Estrella church has fallen, as well as several of the Saints from their niches within. Two columns of the Theatre Dona Maria Segunda have also toppled down, and it is said that the whole building is so injured that it must be rebuilt. It is believed that if the earthquake had lasted a few seconds longer, it would have been as fatal as that of Nov. 1, 1755. At 84 there was another shock much slighter, and yet far beyond anything you have ever experienced in Portugal. When one met friends to-day it was with much emotion, a grasp of the hand, and, "Thank God, we are still alive!" The shock was felt very distinctly in the fleet. On the Coligny the commander rushed on deck, believing that another vessel had dashed into him, and carried away part of the ship.

Nov. 12.—We can still talk of nothing but the fearful earthquake. The damage done to this rambling old house is greater than we knew at first. The whole northern wall is torn away from its fastenings, and T.'s dressing room has a huge rent four inches wide;—in the corner of my room, also, the wall is cracked from top to bottom. In the kitchen the walls are badly broken, and a great mass of brick and mortar fell from the top of the chimney, crushing in the range. As for the breakage of crockery and the tumbling of things from the etagres, that is not to be considered. T. says the house has suffered so severely that he considers the northern side not only unsafe, but dangerous, in case of anything shock. May God avert it! The night before, being sleepless, I heard the sentinels, "Alerta!" and the distant answer "Alerta e I" and the text came into my mind, "Except the Lord keep the city the watchman looketh but in vain." How a few hours brought it home! The day previous Dr. Pazado, Chief of the Observatory of the Polytechnic School, had announced that it was almost certain that an earthquake would take place within twenty-four hours; he judged from the variations of the magnetic needle. He timed it, and found its duration one minute and four seconds. If this seem short, take your watch, and try to think the house is falling for that space of time. I can give you no idea of the sound; besides the creaking and groaning of all the timbers, there was a rattling beyond the noise of any machinery I have ever heard, and then the roar of air the voice of a mighty rushing wind, though not a breath stirred. In the different towns near Lisbon it has been very bad; at Villa Franca many houses fell, and some persons were killed.

Nov. 13.—The news to-day from Oporto is very sad; the shock was felt there most severely; several public buildings were destroyed, and sixty persons killed. At Trafaria a new church fell.—The barracks at Val de Perreira are greatly damaged and will have to be rebuilt. A curious thing took place on board a Brazilian steamer. Sailing from Southampton on the 9th, she was in the Bay of Biscay on the 11th. That morning the needle of the compass suddenly went round and round in a manner most inexplicable and alarming. The captain scarcely knew where he was, and declared to the passengers that something very remarkable was taking place on land—I cannot yet say *terra firma*, my confidence in its stability has been shaken.

On Thursday a memorial was presented in the Senate from George Washington Greene, the grandson of Gen. Nathaniel Greene, stating that the private and official correspondence of his grandfather contains important materials for the general history of the revolutionary war, and the only authentic ones for the history of the Quartermaster General's Department, and of those brilliant campaigns which rescued the Carolinas and Georgia from the enemy; that he has been engaged for more than ten years in collecting and arranging these documents; that they consist of more than six thousand original letters, upwards of two thousand of which were written by Gen. Greene; that the whole work will make ten volumes, which exceeds the bounds of individual enterprise; and it asks Congress to give its aid to the publication by taking two thousand copies, at the rate of three dollars per volume. The memorialist points also to the resolution of Congress of the 8th of August, 1786, directing a monument to be erected to the memory of Nathaniel Greene, Esq., at the seat of the federal government, and citing the inscription to be placed on it; and yet that monument was never erected, and not a stone remains to show where the ashes of the hero of the South mingled with the soil of the country which he saved.

SUDDEN DEATH OF A JUDGE.—Hon. Charles B. Phelps, Judge of Probate for Litchfield Co., Conn., died very suddenly last week, while in session with the Committee appointed by the Legislature to erect a monument to Col. Seth Warner, the compatriot of Ethan Allen at Ticonderoga and Crown Point. He was in the act of explaining to the committee some of the financial transactions relating to the monument. Suddenly he was observed to hesitate in his speech as if thinking for a word, and then he passed his hand feebly to his head and fell back in his chair. His pulse was hardly perceptible, and except giving a single gasp he showed no signs of life. A physician was at once sent for, but soon after being placed on the bed, he gave another gasp and died.

THE GREAT WONDER
Of The Nineteenth Century
PROFESSOR WOOD'S
HAIR RESTORATIVE.
Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks strongly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Doctor needs no encomiums, nor unless puffery from the press:
BATH, ME., Jan. 20, 1858.
PROFESSOR O. J. WOOD & Co.:
GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I commenced using your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.
The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as your direction, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.
BALTIMORE, Jan. 23, 1858.
WOOD'S HAIR RESTORATIVE.
Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
Yours truly, FINCAL JOHNSON.
The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church in Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.
Brookfield, Jan. 20, 1858.
Professor Wood—Dear Sir; Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing dandruff, and allaying that painful tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was beginning to turn gray, to its original color. I have used no other article with anything like the same pleasure or profit.
Yours truly, J. K. BRAGG.
The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 30 per cent. more than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!
PREPARED BY DR. SANFORD,
Compounded Entirely from GUMS.
IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.
These **Gums** remove one dose often removed so bad substances from the system, supplying in their places a healthy flow of bile, invigorating the system, each causing food to digest well, **purifying the blood**, giving tone and health to the whole machinery removing the cause of the disease, effecting a radical cure.
Bilious Attacks are cured, and when better prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent its souring, from rising and souring.
Only one dose taken at night, prevents **nightmare.**
Only one dose taken at night, loosens the bowels gently; and cures **costiveness.**
One dose taken after each meal will cure **Dyspepsia.**
One dose of two teaspoonfuls will always relieve **Sick Headache.**
Only one dose immediately relieves **Colic.**
One dose often repeated cures **Cholera Morbus**, and a preventive of **Cholera.**
Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.
One bottle taken for **Jaundice** will cure sallowness or unnatural color from the skin.
One dose taken a short time before eating gives vigor to the appetite and makes the food relish well.
One dose, often repeated, cures **Chronic Diarrhea** and **Diarrhea**, while **Summer** and **Bowel Complaints** yield almost to one dose.
A few bottles will cure **Dropsy** by exciting the kidneys.
We take pleasure in recommending this medicine as a preventive of **Ague, Chill Fever,** and all Fevers of a bilious character. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
All who use it are giving their unanimous testimony in its favor.
Mix water in the mouth with the Invigorator, and swallow both together.
PRICE, ONE DOLLAR PER BOTTLE.

Patent Mastic Roofing.
Impervious to Water, and a Sure Protection against Destruction by Fire.
THE Inventor of this Roofing labored many year to combine articles which would answer the above purpose, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Gumming in use; this he succeeded in doing, and now *after Five Years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will be fully convinced of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN!
This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.
We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article we now offer to bring to your notice is *far superior to anything of the kind yet discovered*, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

LOTTERIES.
THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawing, and certify that everything is conducted with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to parties who run the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, and orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $20,000; every prize being drawn, and result of drawing forwarded to all purchasers
☞ A list of the numbers that are drawn from a wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Louisville *Courier*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.
Prizes paid in full—no percentage deducted from prizes as in other lotteries.
All communications strictly confidential. m18ly

DR. J. B. HUGHES,
KNOWING that there are at this moment thousands in this and the adjoining towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most invidable secrecy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which had been improperly treated by empyrics have come under his care, and more than three-fourths of this number are in merited disgrace with as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing curiosity.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with the vile decoctions retailed at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine may be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtues, being in all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article, purporting to contain the same name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only pills in Boston which have the genuine in for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy3 dly

THE HAPPY HOME.

A Hymn sung at the meeting in Boston, Dec. 5, 1858, of the Parent Washington T. A. Society.

Oh, is not that a happy home,
Where love all hearts engages,
Where wine, the mocker, never comes,
And strong drink never rages?
This is the home we dearly love,
Whence fear and shame are driven,
And Temperance daily spreads the feast,
And virtue's pledge is given.

Oh, is not that a happy home,
Where gentle words are spoken;
Where oaths profane are never heard,
And faith remains unbroken?
It is the paradise we love—
The sweetest under heaven,
Where temperance daily spreads the feast
And virtue's pledge is given.

Oh, is not that a dismal home.
Where brothers dear are taking
The drunkard's path, and day by day,
Poor mother's heart is breaking?
Give us the home we dearly love—
The sweetest under heaven,
Where temperance daily spreads the feast
And virtue's pledge is given.

Oh, is not that a gloomy home,
All brightest hopes entombing,
Where fearful children hide away,
When father's tread is coming?
Give us the home we dearly love—
The happiest this side heaven,
Where temperance daily spreads the feast
And virtue's pledge is given.

MOVEMENT OF NEGROES.—Two hundred and seventy negroes passed through Cattanooga *en route* for the cotton regions of the Southwest, on the evening of the 17th inst. The Chattanooga Representative says the emigration of Africans from the old to the new States through that place is very large. The average is from six to eight hundred per week.

☞ Wm. H. Words, of Nashua, N. H., recently discovered a hen's nest in a secluded place in his yard, containing *one hundred and seven* eggs. His biddies evidently meant to surpass him.

☞ The Boston Shipping List has been enlarged and greatly improved, every way. It comes very near to completeness, in its peculiar line.

In the Chicago Post Office mails are received daily from twenty railroads. *Thirty-five hundred* mails, the Press says, are made up every day.

The only New England port, save Boston, that distributes cotton, is Providence, R. I.

The total number of British troops now serving in India, is close upon 100,000 men of all ranks.

Gutta Percha is proof against water, acids and oil substances, dampness and decomposition.

Five hundred and one new buildings have been erected in Cincinnati this year. Their value is $1,233,000.

Watches complete are now manufactured in Macon, Ga.

In New York there are 330 miles of main gas pipes laid and 11,200 street lamps supplied.

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will find its proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved to inventors.
TESTIMONIALS.
I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.

WEDNESDAY, JANUARY 5, 1859.

THE INDIAN STATES.—The progress of civilization in several of the Indian tribes, occupying Territories west of the States, will soon bring up a new question for the decision of Congress. What shall be done with the Indian Governments or States that are now fully organized?

The Cherokees organized a regular government as early as 1839, copying the peculiar features of the Constitution of the United States. The forms of legislation and the arrangements of the courts of justice so nearly resemble those of the States that, but for the tawny skins around him, the traveller into the Cherokee territory would scarcely find any indication of having passed its boundary.

The Choctaws formed their government, taking the institutions of the United States for their model, in 1854. Imitating their more progressive neighbors, last year they revised their constitution and adopted the most minute forms of government and the names of officers which prevail in each of the States of our confederacy.

The Chickasaws, lately separated from the Choctaws, have also followed the above example; thus the third government, with institutions identical with our own, exists on the borders of the Southwestern States, occupying territory ceded to them by the general government.

The Creeks are taking steps to create a fourth independent organization of a State form of government, and will soon present an example of the influence of civilization in subverting the customs and traditions of the race indigenous to the continent.

A CALIFORNIA PANTHER.—On the evening of the 9th of November, the family of Mr. White, near Soda Springs, was aroused by a startling noise near by, and on proceeding to investigate, found that the noise proceeded from a pine tree near the house, and looking up beheld one of their young calves in the mouth of some animal, but what it was, they could not discover in the darkness. Henry White, having brought out his rifle, fired at the glaring eyes, being the only part distinctly visible, when down came the calf, and along with it the largest panther ever shot in the country, measuring from the nose to the tail, (the latter not included,) nine feet and three inches. That was a pretty large animal, even supposing that the Yreka Union had allowed the tail to be measured and included in the "nine feet three."

☞ One of the New York Harbor Policemen, Mr. Gibson, has recently been promoted from the position of commander of a row-boat to that of commander in the Navy. He was one of the officers who were "dropped" by the Naval Retiring Board, and finding himself poor and without employment, gladly accepted an appointment on the Metropolitan police force. He has now been recalled to his former rank in the navy.

☞ An English pamphlet addressed to woman, takes of the fashions in graphic rhetoric. It speaks of the "contracted bonnet, hung on on *the last three back hairs;*" of "a short, stumpie woman," whose "body resembles a pin cushion and her head a pin stuck in it" of a tall lady, "who looks like the monument thrust into the dome of St. Paul's;" and "of the monstrous innovation" of the hooped skirt, which "like a restless spectre invades the domestic hearth and stalks abroad, a gaunt and grisly phantom, whose *bones are marrowless!*"

SYMPATHY.—We observe floating about among our exchanges the following paragraph:

A Sad Case.—Some months since it will be recollected that a party of men and women turned out in Rockport, Mass., and entered several shops where liquor was sold, took possession of the same, and emptied the fluids in the streets. Among those who suffered by the mob, to the amount of $1500, was Mr. William P. Burns. He sued some of the parties for damage, but the case was decided against him, and therefore Mr. Burns lost all the property he was possessed of in his stock of wines and liquors. For a few months past, on account of his troubles, he has been bordering on insanity, and yesterday his friends were obliged to remove him from his home, in Rockport, to the Asylum at Somerville.

This is a terrible retribution; yet the poor man's traffic had caused many other men to *border on insanity*, and many women and children to *border on misery*. It is a dreadful border, all round.

☞ It is estimated that not less than fifty canal steamers will be ready to ply on the Erie canal by spring.

ANECDOTE OF WEBSTER.—A correspondent of the Courier has the following of Mr. Webster:—

"Mr. Webster married the woman he loved, and the twenty years which he lived with her brought him to the meridian of his greatness. An anecdote is current on this subject, which is not recorded in the books. Mr. Webster was becoming intimate with Miss Grace Fletcher, when the skein of silk getting in a knot, Mr. Webster assisted in unravelling the snarl—then looking up to Miss Grace, he said, 'We have untied a knot, don't you think we could tie one?' Grace was a little embarrassed, said not a word, but in the course of a few minutes, she tied a knot in a piece of tape and handed it to Mr. W. This tape, the thread of his domestic joys, was found after the death of Mr. Webster, preserved as one of his most precious relics."

EXAMINATION INTO THE CASE OF THE WANDERER, suspected of carrying slaves into Georgia, indicates a state of feeling in relation to the slave trade in that section, not unlike what exists in the liquor trade. There is no doubt of the piracy—that negroes were stolen on the coast of Africa and imported into Georgia. The negroes have been seen, and the fact is clear; but some of the witnesses are not to be found and others testify unwillingly. The United States law is sufficiently strict if it was enforced. The penalties are, for importing the negroes, or abetting it, a fine of not more than 10,000, nor less than 1000, for each negro, and imprisonment not more than seven, nor less three years. Whoever purchases or sells one of these slaves after they are introduced, is subject to a fine of $1000, or imprisonment till it is paid. It is not probable that any body will be convicted in the case.—*Newburyport Herald.*

☞ From the Feejee Islands come the details of outrages and horrible cannibalism, including the murder, cooking and eating of two Ovalau citizens by the natives of the islands of Naya. A missionary paper says there is a piteous demand for "more missionaries" among the Feejees, but whether it comes from those who have just cooked and eat "two citizens" is not stated.

☞ A colored man named Roberts, who killed his wife at Hartford, he being under the influence of intoxicating drink at the time, had been convicted of murder in the second degree, and sentenced to the State Prison for life. The deceased, according to the Hartford Times, preferred hanging to imprisonment for life.

☞ "The Olive and the Pine," a neat and attractive volume of anonymous Poems, just published by Crosby, Nichols & Co. Boston, and advertised by J. H. Foster this morning. Spain and New England are here beautifully presented in a collection of word-paintings, which show the thoughts of the two countries in pleasing contrast.

☞ The Wheeling (Va.) Intelligencer says that at a Christmas Eve party, given at Mr. Stam's, a few miles in the country, an old lady 97 years of age, took the floor and waltzed around the room until her partner, a young man of 25, was completely exhausted, and had to sit down.

RELEASED FROM IMPRISONMENT.—Mr. Geo. French, formerly first officer of the ship Waverly of Boston, and Mr Weeks, the second mate, who were condemned to ten years imprisonment for endeavoring to suppress a mutiny on board that ship, and in which so many coolies lost their lives at Manilla, have just been liberated from confinement by the Spanish government, through the intercession of Mr. Dodge, the U. S. Minister at Madrid.

☞ At a shingle mill in Chicago, recently, a circular saw meeting with some obstruction, flew out of a shingle machine and striking a Swedish workman cut his body in two.

HARTFORD, Jan. 3.—Henry L. Ellsworth has given by his will all of his large property, except about $100,000, to Yale College. It is estimated that the College gets $700,000.

☞ The fifth annual award of the premium paintings by the Cosmopolitans Art Association was promptly made on the evening of the 1st of January, at their Western Gallery, Sandusky, Ohio.

A girl at school would like to have two birthdays a year. When she becomes a woman, she objects to even one.

☞ An attempt was made to kill Mrs. D. A. Delancy, at Norwich, Conn., on Saturday night last, by firing a pistol at her as she was passing from one room of her house to another.

A gentleman at New Orleans has been fined $43 and costs, for enclosing a letter in a newspaper.

☞ Gov. Morgan has ordered the withdrawal of the military from the New York Quarantine Station, Staten Island.

The orange crop in Portugal is a fair average this year, but in other contiguous places it falls short from one-third to one-half.

☞ There are 4000 shade trees in Portland, as reported by Mr. Joseph Batchelder, the "City Forrester."

LOCAL.

☞ Schooner Z. Secor, (of Orland, Me.) Patridge, from Buckeville, S. C., for this port, with a cargo of 65,000 feet of hard pine lumber, went ashore on the south side of Cuttyhunk, 31st ult., during the heavy south-east gale and thick weather. The Z. Secor anchored off the south side of Cuttyhunk 29th, wind north, and vessel leaking very badly, although able to keep her free. During the night, the wind canted to south and east and blew very heavy; found it impossible to ride at anchor much longer, and to save the lives of those on board, slipped the chains, (two anchors out) and went ashore. The vessel lies head on, is in an upright position, full of water, and will probably be got off after discharging cargo, which she lies in a position to do. The Z. Secor is 125 tons, six years old, and is probably not insured.

☞ On Tuesday we had one of the regular old-fashioned snow-storms—one of the kind which supercedes all business, and laughs at railroads, &c. The train due here from Concord at 10, arrived about 3 o'clock. We had no train from Portland till very late, if at all—the train due here at 11 being blockaded in Saco at 4 o'clock. The afternoon train from Boston was stuck in a drift at Salem about the same time.

☞ The Chronicle has been issued under some little difficulties, for a day or two. First the junior editor went off to enjoy opera, &c., and before he had descended to the commonplace earth again, the senior ("the hoy-day in whose blood" has by no means become "cool,") went off to join the temperance men at Concord; then the junior had to join the Common Councillors at home,—he mail-clerk, editor, reporter, foreman, book-keeper, cashier, and all, in one day. Besides, the cars and our foreman got blocked up by the snow, and we had to depend on our own resources for picking up and "getting up" the news.—However, we *were* enabled to give receipts for all the money brought *in*,—and we are hoping to get things to rights in a day or two.

☞ It will be seen that Mrs. Macready offers an excellent programme of Readings, or rather Recitations or Declamations, for her entertainment on Friday evening. All who can appreciate good elocution, will of course be there.

☞ The Portsmouth Cornet Band are to give a Benefit Concert to their leader, on Thursday Evening, Jan. 13th, at the Temple. The tickets are put at the low price of 15 cents—not half the *concert* is worth, to say nothing about the *object*. However, those who wish to encourage the Band, needn't call for the change back on their quarters.

☞ We this morning advertise the great musical attractions to be offered at the Sewing Machine Concert, in this city, on the 18th inst. These are certainly more than are common here in *two* entertainments; and some folks may regard the chance of getting a $100 Sewing Machine as worth a trifle.

☞ Some folks don't approve of "drawing" anything — which must include "sweetness long drawn out." Well, not of it? There are others, who take exceptions to insurance of all sorts—and with equal reason too—for the same objections are equally applicable to both. W.

☞ A number of the new Mayors of Massachusetts are rather shy of the Prohibitory Liquor Law. The Mayor of Newburyport, however, has something to say upon the subject, and also Mayor Calhoun, of Springfield. It will be seen that our most worthy Mayor altogether ignores direct mention of the subject, in his inaugural.

It is with unfeigned sincerity that we wish all the readers of the Daily and Weekly *a happy new year*. We are not particular what kind of a *present* they return us. A year's subscription with advance pay, would suit us as well as anything. To those who *steal* the paper we wish an enlargement of soul, and more honesty, as the only foundation of true happiness.—*Bath Times.*

SOCIAL LEVEE.—The Ladies' Charitable Society of Greenland will hold a Levee at the Academy Hall, this (Wednesday) evening, Jan. 5th. Admission 25 cents, Collation free. A general invitation is extended.

☞ Rev. Thomas Williams, a missionary to the Feejee Islands, describes a public execution. The prisoner was first shot, then roasted, then *eaten!*

A gentleman who, under the least excitement, would exclaim "there is a crisis a coming!" was considerably amused at being gravely informed by a little four year old son that the *cry sis* had come and was in bed with mother!

MARRIED.

In Sandwich, Mr. William C. Mudgett to Miss Dorothy A. Tappan.

In Charlestown, Mass., Mr. Nathaniel F. Goldsmith, of Boston, Mass., to Miss Mary E. Keith, of Conway.

DIED.

In this city, Jan. 5th, Warrington Moulton, aged 19 years, son of Mr. John Moulton.

In this city, Jan. 1, Miss Mary Ann Perkins, aged 31 years, daughter of Mr. Elias Perkins.

Funeral on Thursday, at 2 o'clock, from her father's house, on Lang's Road.

In Rye, Jan. 1, Miss Mary Moulton, aged 94.

SPECIAL NOTICES.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

TESTIMONY.—Des. J. B. N. Gould, Nues' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The R. R. RELIEF remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators invigorate every organ to a healthy action. Let not the sick linger in pain. The R. R. R. will raise you from your bed of suffering in a few hours.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original receipt has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED. THIS GIN, Distilled in London, rom sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces "Charles' London Cordial Gin," not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of weather and air.

For sale in quarts at seventy-five cents, and in pints (thirty eight cents, by all druggists, grocers, fruiterers and country retailers. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

OUR NEW CITY GOVERNMENT.

By a most seasonable and sensible amendment of our City Charter, our fiscal year now for the first time commences with the civil year. On Tuesday morning at 10 o'clock, the new City Officers elect, assembled at the Court House, and were duly organized. On account of the severe storm, but very few spectators were present.

The Common Council was called to order by Justin Hanscom, the Clerk last year, and Charles T. Emery was elected President *pro tem*. S. H. Goodall and Charles H. Hayes were appointed a committee to inform the Mayor and Aldermen that the Common Council had organized and were ready to meet them in Convention.

The oath of his office was then administered to the Mayor elect, Hon. Robert Morrison, by His Honor Ex-Mayor Greenleaf. Mayor Morrison then qualified the new City Council by administering the oath of office.

The Common Council then proceeded to elect a President. Whole number of votes, 23. A. H. Hoyt, (who is not a member,) had 1; S. H. Goodall 8; and William H. Dennett, (of Gravelly Ridge) had 14 votes, and was elected.

Justin Hanscom was re-elected Clerk of the Common Council, by 22 votes, to 3 for William H. Hanscom. This was intended for a unanimous vote—the three scattering votes being on account of mistaking Mr. Hanscom's name. In Convention, John Bennett was re-elected City Clerk, by 29 votes, to 2 for Jeremiah D. Goodrich; and received the oath of office from the Mayor.

Prayer was offered by Rev. Dr. Peabody; and Mayor Morrison addressed the City Council as follows:

MAYOR'S ADDRESS.

Gentlemen of the City Council:—

In entering upon the duties of the new year, I cannot but congratulate you on the improved condition of the city as compared with its situation at the commencement of the last.

At that time, the wheels of mechanical labor had been suddenly checked; and every branch of industry in our city was seriously affected by the general prostration of business that extended throughout the country. Calls for assistance by those thrown out of employment were numerous; and both private charity and the finances of the city were frequently called upon to give relief.

At this period, however, both individual and corporate efforts were made to give work to the unemployed. Extensive improvements were planned and executed in some of our public buildings; the Steam Factory resumed its operations, affording relief to a large number of operatives; employment was given to others in our ship yards, although the capital invested promised an uncertain return; many laborers and mechanics found employment in the work connected with the construction of the new Custom House; and a still larger number at the Navy Yard.

By these means, after a few months of darkened prospects, a better day seemed to dawn upon us; business appeared gradually to revive; and the currents of industry once more began to find their accustomed channels; so that the inhabitants of this city have been made to feel at least, as lightly, the effects of the late stagnation in business, as those of any other place of the same population.

By an act passed at the last session of the legislature, in amendment to the city charter, the time for holding the municipal election has been changed from the second Tuesday of March to the fourth Tuesday in November; and the inauguration of the city government from the fourth Tuesday of March to the first Tuesday in January.

This alteration in time, has separated the city from the state elections, and has made the municipal to correspond with the civil year.

I am happy to recognize in the present members of the City Council those who before have had the experience of serving in the same capacity; who are familiar with the duties of their respective offices, and who know the condition of the city and the wants of its citizens. I shall therefore, at this time, offer but few suggestions; but shall take occasion from time to time to recommend to you such measures as may appear to be conducive to the interests of the city.

FINANCES.

No part of your official duties will require more careful inquiry, closer observation or more vigilant oversight, than the appropriation and disbursement of the City Revenue. Ample appropriations should be made to meet all the expenses accruing in the several departments under the city government; and it should be the aim to have a surplus left at the end of the year to be applied towards paying the city debt.

In making up the general appropriation bill, it will not be good policy to reduce each specific appropriation to the lowest sum that may possibly be sufficient; for unseen causes of expenditure occur every year; and if the appropriations are found to be insufficient to meet the demands upon the treasury, the unavoidable consequence must be, an increase in the city debt: whereas, the city debt should, if possible, be annually diminished; for it is as ruinous to a city, as to an individual, to be encumbered with an accumulating debt.

As the financial year is now made to close on the last day in December, the time between that and the first Tuesday in January, renders it impossible to make a report of the condition of the City Finances at this time. From what is known, however, I have reason to believe that there will be enough to pay the bills against the city as they become due; also to pay the overdraft of $2,000 at the Bank of New Hampshire, negotiated by a city ordinance.

During the past year $500 of the city debt which became due, was paid; also $608, for expenses prior to 1858, making the sum of $1108, for which no appropriation had been made.

I would call your attention to making provision for the payment of $5,500 of the city debt that becomes due in March next, for which 5½ per cent. interest has been paid; and for $2700 due in August, bearing 6 per cent. interest. It is quite probable that a new loan could be obtained to meet these payments at a much more favorable rate.

I am happy to say that all cases of litigation in which the city has been a party, excepting two, have been brought to a close.

One of these is for damages for injuries said to have been sustained by Henry Palmer in stumbling over lumber near Middle Street Church, in November, 1855. The several Boards before whom the claim has been presented, deeming it unjust, refused to pay it; and a suit was brought which has been continued to the next term of the S. J. Court.

The other is a claim for damages for land, formerly belonging to the Brackett estate, on State street, taken for a street; which damages were paid to James Smith, administrator of the estate; which payment some of the heirs refuse to acknowledge.

Besides the usual appropriations, $500 was paid towards furnishing a Bell for the North Church, which the city is to have the free use of for city purposes in all future time.

The Court House has undergone thorough repairs; the roof has been shingled; the grand jury room altered to meet their wants; and the Court room greatly improved to suit the purposes for which it is used. The expenses was $793.19, which was $142 19 above the appropriation.

POLICE.

The number of cases brought before the Police Court from January 1, 1858, to January 1, 1859, was 102; of which 84 resulted in conviction. Of the latter number, 20 were bound over to the Supreme Judicial Court. The number of persons brought before the same Court for the last quarter was only ten, six of whom were convicted.

During the two years of my official services, I have had no occasion to change my views in regard to the manner in which the police regulations should be administered. A firm yet conciliatory course has been attempted to be pursued; and if there be any improvement in an evil which a former custom has entailed upon us, it is to be attributed more to an enlightened public sentiment than to any physical force that has been or could be brought against it.

STREETS.

The good condition of the Streets is a subject which, at all times, should claim a share of your attention; not only that our citizens and the public generally may be accommodated, but also from motives of economy; since the city is held responsible for their being kept in good repair.

The amount expended on the streets the past year was $2122.22; while the appropriation was only $1800; leaving an excess of expenditure over the appropriation of $322 22.

The sum usually appropriated is barely sufficient to keep the hundred streets in our city in tolerable repair, without making many permanent improvements.

I would recommend that a more liberal sum be raised, sufficient to grade and pave the water course of some portion, at least, of one of the principal streets each year. This, in a few years, would show its economy as well as utility; since such portions would need but little repair for a long period.

The street at the corner of Market and Penhallow streets has been widened, at an expense of $76. Several new sidewalks have been constructed and others relaid; the expenses of which are within the appropriation for that purpose.

ROADS.

The sum appropriated the past year, for Roads out of the compact part of the city, was $1000; while the sum drawn from the city treasury for that purpose, was only $890.32, making a saving in the expenditure less than the appropriation, of $109.68.

Of the sum expended, $259.62 was laid out for ordinary repairs by the Road Surveyor in District No. 1; $175 by the Surveyor in No. 2; $215.42 in No. 3; and $124 was expended on Belmont (Sodom) Road to remove an indictment against the city.

BRIDGES.

Extensive repairs have been made during the past season, on Liberty and Sagamore Bridges. The expense of the former was included under that of Streets; but for the latter, a specific appropriation of $300 was made; while the expenses incurred exceded that sum by $91.67. But expenditures like this, can never be governed by an appropriation, at the city is held responsible, at all times, for their safety.

OVERSEERS OF THE POOR.

It is gratifying to know that the expenditures of the department of the Overseers of the Poor have fallen far short of what they were the year previous. Although there are still many calls for assistance among the poor in the city, they are much less than last year

The number of inmates at the Alms-House, the past season, has been much smaller than the year before; the expenses have been considerably reduced and the season has been favorable to the principal crop of the farm.

For an account of the Alms House and City Farm, I would refer you to the Overseers' and Superintendent's Report.

FIRE DEPARTMENT.

It gives me pleasure to speak in terms of high praise for the continued efficiency of the Fire Department. Fortunately for our city, their services have been needed the past year, only in a few instances. But they then answered promptly to the call.

Each of the companies is under good discipline, well equipped, having a good engine and suitable apparatus; and the best feeling prevails between the members.

The engine houses are in good condition; but another building is much needed for the Hook & Ladder Company, and for storing the Hose.

A city that has suffered so much by extensive conflagration, can hardly estimate too highly the value of a well organized and efficient Fire Department.

PUBLIC SCHOOLS.

Our Public Schools should continue to receive, as they have heretofore, the fostering care of the City Government; and suitable provision should be made for their support: for in them are contained the germs of the future men and women, who are to give a character to our city; and whose influence will be felt through succeeding generations.

It is sufficient to say, they continue to merit the high reputation that has been so justly awarded to them.

I would suggest for your consideration the propriety of erecting or purchasing a suitable building for the accommodation of the Female Grammar School in district No. 1, that would also accommodate a primary school: as the rent now demanded is considered unreasonably high.

Having alluded to some of the principal subjects that will come under your supervision, I cannot conclude my remarks without expressing the deep obligations I feel myself under to my fellow citizens for the liberal tokens of their confidence in electing me for the third time to an office of such important trust.

I shall be happy to co-operate with you in whatever may tend to promote the interests of the city; hoping that a wise Providence may guide us in our deliberations, prosper our efforts, and continue to bless our city.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor,—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula or kindred humors; see the pimples, blotches, or sores, or lines in anguish. He has been drenched inside and out with every potion which humanity could suggest. Give him a box of these Pills, and mark the effect; see the scale fall from his body; see the new, fair skin which has grown under them; see the late leper that is clean. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every manner of his body with liniments and salves; give him these Pills to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and bent as he was, he can go; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man.—See her that was radiant with health and loveliness, but wasted and sunk away under the slow waves of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, and alas! in addition to all this, she has their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. Now look again—the roses blossom on her cheek, and where lately sorrow sat joy bursts from every feature. See the sweet infant it was born with worms. Its wan sickly features tell you without diagnosis, and painfully distinct, that they are eating its life away. Its pinched-up nose and ears, and restless sleeping, tell the doubtful truth in language which every mother knows.—Give it the PILLS in large doses to sweep these vile pests—the PILLS in small doses. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these distempers, they are the easier cured. Jaundice, Costiveness, Headache, Pain in the Side, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout and kindred complaints all arise from the ferments which the AGUE AND FEVER PILLS cure. Take them perseveringly, and under the counsel of a good PHYSICIAN if you can; if not, take them judiciously by such means as they give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must burrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1.

Through a trial of many years and through every nation of civilized man, AYER'S CATHARTIC PILLS have been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and to the world in good health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Rare cases had settled on the lungs—The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him CONSUMPTION. He knows every thing. The fatal disease is seated at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL and has stopped his cough and made his breathing easy; he sleeps in sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any disease is more to be dreaded, which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a fearful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough and all diseases of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious approach of disease, as the parent sheep from many a fleck, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish three millions, and yearly there broadcast over the earth, in order that the sick every where may have before them the information it contains. Druggists and dealers in medicine generally have agencies for distributing gratis, and also for sale these remedies, prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

Sold by WM. R. PRESTON, and all Druggists in Portsmouth, and Druggists everywhere.

To the Hon. Judge of Probate for the County of Rockingham:

Respectfully represents, Susan T. Dennett, of Portsmouth, in said County, that she is the widow of Mark Dennett, late of said Portsmouth, deceased, and said Mark died seized and possessed of certain Real Estate situated in said Portsmouth, to wit: a Farm or tract of land containing one hundred and eight acres, more or less, bounded as follows, viz: northerly, by land of William Roach and others, by land of heirs of Aaron Hodgdon and land of Butterfield Larkin, east, by land of Butterfield Larkin, south, by land of said farm from North Road, so called, the land of Benjamin Murray and land of Benjamin Hodgdon, southerly, by land of Benjamin Hodgdon and land of Wm. Roach and others; westerly, by land of William Sines and others, and of Wm. Roach and others, together with a Dwelling House, Barn, and other out-buildings thereon; which property at the time of said Mark Dennett's death, and long prior thereto, was occupied by him and his family as their home, and his and their home and dwelling; that your petitioner has continued to occupy the same as her home and dwelling, even since the decease of her said late husband, and that she has never waived or released her right of homestead therein;—Wherefore she prays that a homestead to the value of Five Hundred Dollars may be set off and set off to her out of said Estate, agreeably to the provisions of the act of 4th of July, 1851.

SUSAN T. DENNETT.
by her Attorney, J. M. EDMONDS.
Dated December 22, 1858.

ROCKINGHAM, ss. Probate Court at Exeter, in said County, Wednesday, Dec. 22d, A. D., 1858. Upon the foregoing petition, it is *Ordered*, that a hearing be had thereon at a Court of Probate to be holden at Exeter in said County, on the Wednesday next following the third Tuesday of February next, at ten o'clock, A. M.; and that the Petitioner notify all persons concerned or interested thereto, to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Christian Intelligencer, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least thirty days prior to said Court. By order of the Judge,

Indian Physician.

Dr. B. S. GOODWIN

Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Marcy street, (Old Ball Alley,) and respectfully invite all in need of Medical advice to call on him.

ADVICE FREE.

Dr. Goodwin would assure all that his Medicines are purely vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.

THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.—Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Dysentery, Piles, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism, and all kindred Diseases.

No Mercury! No Bleeding! No Blisters!

Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair restorative. Such evidence must have its effect, when coming from a reliable source. It contains the guarantee of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured another bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty five years. I am now sixty-four years old; my wife, at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will faithfully use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am well acquainted with every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. Yours truly,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a blessing.

FRANK JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan. 13, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing the dandruff from my scalp, and the tendency to itching with which I have been troubled from my childhood; and has also restored the hair, which was becoming gray, to its original color. I have used no other article with anything like the same satisfaction.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 30 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These **Gums** remove the old decaying matter from the system, supplying in their place a healthy one; they cleanse, invigorating the stomach, causing food to digest well, **purifying the blood**, giving a healthy tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and what is better prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, operates on the bowels gently, and **cures costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two lozenges will cure **Sick Headache.**

Only one dose immediately relieves **Colic.**

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow the mixture together.

PRICE, ONE DOLLAR PER BOTTLE.

E. P. RUSSELL'S

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Inventor of this Roofing labored many year to combine articles which would answer the above purpose, and overcome the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now *after five years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will find the *fullest assurance* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN.

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we now bring to your notice is *far superior to anything of the kind yet discovered*, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the authorities of Georgia, and have from commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a fair and honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same come to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $70,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia

Prizes paid in full—no percentage deducted from original amount of prizes.

All communications strictly confidential. m18ly

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain pestiferous maladies that will suffer from the reluctance to make known their complaints, and consult a physician, he would state that the Doctor's Medicine can be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of the number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, Boston, Mass., post paid, will find all the country, carefully concealed from scrutinizing friends.

No difficulty in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, the vital principle.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS,

rivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been put up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston

IKE PARTINGTON'S COMPOSITION.—"Plymouth Rock," being the subject given out for the exercise of the school, the teacher and boys were astonished at the following luminous composition by Ike Partington, which displays great historical acumen, and a most astonishing chronological facility.—*San. Eve. Gaz.*

Plymouth Rock.—This rock was brought to this country in the Mayflower, in the year 1492, by the Pilgrims, under direction of elder Osman Browster, who afterwards moved to Boston, and became an alderman of that city. It was on this rock that Gov. Carver first shook hands with Samosot, who said: "Welcome Englishmen!" It is recorded that when Samoset came up, Governor Carver asked him if he was a real Ingine, or only a member of an Ingine company.

The rock has long been regarded as a famous place. The American Eagle for a great many years used to come and whet his beak on the rock, but in 1653 Miles Standish, in order to keep it from being stolen, carried it and put it in front of Pilgrim Hall, where it remains at the present time, invested with great interest and an iron fence. The fence bears the names of all the Pilgrims in cast iron letters that can't be rubbed out.

The rock is a good deal worn out by the allusions touching it that are thrown off by Fourth of July orators. Plymouth Rock is the corner stone of the cellar wall of our Republican structure, paragoically sperking, and the spirit of Liberty site upon it with a drawn sword in one hand, and the torch of freedom in the other; and if foes invade the shore of Plymouth at high water—for they can never get in at low tide—the people will throw this rock in their teeth. It is a precious legacy from the Past to the Present, and from it may be reckoned the Pilgrim's Progress.

☞ John Willman died suddenly at Brooklyn, New York, from the effects of a dose of tartar emetic, administered by a physician who was attending him in a case of typhus fever.

Several ship-loads of horses have gone from Buenos Ayres to India. They cost $20 a piece, and about $100 for transportation, and sell in India for $200 or $300.

☞ The Supreme Court of Vermont has decided that adultery committed by an insane person is not a sufficient cause for divorce.

The tax levy of New York for 1859 is $7,840,000. The tax last year was $8,620,926; so there appears to be a saving of nearly eight hundred thousand dollars.

☞ Hon. Joseph White, who was elected Superintendent of Schools in Lowell, has declined, on account of the inadequacy of the salary.

The expenditures of the British government for the financial year ending March 31st, 1858, averaged one million dollars a day!

☞ During the past year there were received at New York 191,170 beef cattle; 10,202 milch cows; 32,709 veal calves; 450,787 sheep and lambs.

No fish have now to be sent to market by first hands from Gloucester, Mass.; it has become the great market for the Union.

☞ The Congregationalist raps Ward Beecher hard for his sneer at the doctrine of total depravity before a Boston audience.

Queen Victoria's income is about £384,000 a year; Prince Albert receives £40,000 per annum from the British Government.

☞ A young man in New York having advertised for a wife, received word from eighteen married men that he might have theirs.

Another Crystal Palace, for a grand exhibition of the world's industry, in 1861, is talked of in London.

Eleven thousand males and six hundred females were imprisoned for debt, in England, in 1856.

Taxes of the city of Milwaukie are $78,566 less than they were in 1857.

American clocks are now sold, in nearly all the great markets in the world.

There is said to be not one unmarried man in the town of Yarmouth, Mass.

It is said that 800 buildings are now in the process of erection in Brooklyn, N. Y.

You had better find out one of your own weaknesses than ten of your neighbors.

From Hon. Chas. Mason, Commissioner of Patents.
U. S. PATENT OFFICE, Feb 23, 1855.
I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged in Solicitor, and has been in that capacity in constant correspondence and intercourse with the office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office; a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with the office with whom I am acquainted.
CHARLES MASON, *Commissioner.*
From the Examiners of the Patent Office.
The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.
HENRY B. RENWICK, L. D. GALE, S. H. LANE, } *Principal Examiners.*
T. R. PEALE, THOS. T. EVERETT, F. SOUTHGATE SMITH, WM. C. LANGDON, } *Assistant Examiners.*
From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues. W. F. W. FITZGERALD,
Late Principal Examiner of Patents
Boston Jan. 7 1858 1y 12Th & Sat.

Morning Chronicle.

THURSDAY, JANUARY 6, 1859.

POLITICAL DISABILITY OF BLACKS.—In twenty-four of the thirty-two States, negroes are allowed no privileges whatever that place them on an equality with the white race. Eleven of these twenty-four States are free. New York practically excludes them by a freehold qualification and a long residence before voting. Two more States—Maine and Rhode Island—exclude them by requiring all voters to be citizens of the United States. Massachusetts and New Hampshire are about the only States that make no distinction of color or race. Negro equality is confined to those States.

THE NEW HAMPSHIRE REPUBLICAN STATE CONVENTION.—By reference to our report of the Republican State Convention of New Hampshire, it will be seen that Hon. Ichabod Goodwin, of Protsmouth, was almost unanimously nominated for Governor, and that the action of the Convention was very harmonious. It was the fullest Delegate Convention ever held in this State, and this notwithstanding the severity of the snow storm, which detained many of delegates.

☞ A dispatch from New London, Ct., reports that the steamer C. Vanderbilt went ashore at Race Point, Fisher's Island, Tuesday morning. She is partly full of water, with three holes stove in her.—Her passengers were landed in safety on the island. Steamers which went to her assistance were unable to reach her on account of the heavy sea.

☞ A French paper contains an account of a fatal crinoline catastrophe. A lady's dress took fire, but her enormous hoops protected her person until the flames reached her waist. Her lady friends were so profusely enveloped in petticoats that could not approach to aid her, so she rushed to a kitchen, got a bucket of water and extinguished the flames herself. She was found upon being undressed to be so severely burned that she cannot recover.—Punch says the proper name for crinoline is fire balloons.

☞ Spurgeon, the London sensationist preacher, sometimes gets off a good thing out of the pulpit. A London letter to the Portland State of Maine says, "A brother minister called to see him one day, rang the bell, and when the servant came to the door, the Rev. told him to inform Mr. S. that a servant of the Lord wished to have an interview with him. The message was delivered to Mr. Spurgeon. 'Hum, ha, servant of the Lord—tell the person I can't see him, I am very busy with his master.'"

☞ Mr. E. Merriam says that during the past year, so far as he has been able to learn, fifty-three persons have been killed by lightning, and sixty-eight injured.—There are also three accounts where it is reported, "several persons were killed." Thunder and lightning storms occurred on sixty-one days in the three summer months.

☞ Mr. Moorse Roby of West Goffstown village was killed on Saturday morning at Blaisdell's saw mill. He went first of any one to the mill in the morning, and was found senseless, with his skull badly crushed by a stick of wood hurled by the circular saw. He breathed for an hour. He was about fifty-five.

REV. DR. NICHOLS, the venerable senior pastor of the First (Unitarian) Parish in Portland, died at Cambridge, on Sunday, January 2d, in the 75th year of his age. He was ordained as colleague in 1809, and his connection with the society has extended to more than 49 years. In January, 1855, the present pastor, Rev. Horatio Stebbins, was settled as his colleague.

Dr. Nichols was born in Portsmouth, July 5, 1784. When he was but 5 or 6 years old, his parents moved to Salem, Mass.

☞ Speaking of Washington, Rev. Theodore Parker regards it as "rather a refreshing fact that this cool, cautious, diplomatic man could once in a while swear. It is a relief to the mythical grandeur of the great chieftain with which men have invested him, that he can break through the proprieties a little, and prove himself a man by revealing the imperfection of man."

THE BENNETT DIVORCE CASE.—*New Haven, Jan. 4.*—Judge Waldo this evening granted the application of Mary A. Bennett for divorce from George Bennett and assigned to her the custody of the children, three in number, with the sum of $4,000 alimony, to be paid within sixty days.—The Judge was severe upon Dr. Bennett and some of his witnesses.

REPUBLICAN STATE CONVENTION.

The Republican State Convention for New Hampshire assembled at Phœnix Hall, Concord, on Tuesday, for the nomination of candidates for Governor and Railroad Commissioner, to be supported during the coming campaign, which is to terminate by the election, on the second Tuesday of March. As was expected, Hon. I. Goodwin of this city was nominated for Governor; and A. Twichell of Milan for Railroad Commissioner. The following was the result of the ballot for candidate for Governor:

Whole number of votes,	373
Necessary to a choice,	187
Illegible,	1
Geo. W. Nesmith, of Franklin,	1
John Sullivan, of Exeter,	1
Nathaniel S. Berry, of Hebron,	2
Ichabod Goodwin, of Portsmouth,	368

And Hon. Ichabod Goodwin was declared to be the nominee.

SPEECH OF W. H. Y. HACKETT.

W. H. Y. Hackett of Portsmouth was called upon to respond in behalf of Mr. Goodwin, who was not present.

He alluded to the fact that Rockingham county had furnished *seven* Governors for New Hampshire, all of whom proved men of integrity and ability. He had known Hon. Ichabod Goodwin for years; had known him when he first began his career on the ocean; and did all know him as well as he knew him, his opponents would be as scarce as Buchanan's supporters. He then spoke on national politics, showing the corruption of the administration, and the evil effects of its favorite measures, including its action on the slavery question, in regard to foreign affairs, and the internal and financial affairs of the government. He characterized the government as despotic, and one which the people will not bear, when an opportunity for constitutional relief occurrs.

The Committee on Resolutions (which included Geo. G. Fogg of Concord, and J. P. Morse of Portsmouth) reported a long declaration of faith, which was adopted without discussion, and the Convention adjourned.

A DONKEY AMONG THE BEES.

OR, MIND YOUR OWN BUSINESS.

A laughable occurrence took place a day or two since upon a farm in the outskirts of Worcester, Mass., in which a donkey occupied a very prominent part, and showed himself to be a far less intelligent animal than the one "we read of," who, when penned up in the farm-yard with the chickens, remarked, as he trod them under foot, "Every one for himself, and God for us all."

This modern donkey, being penned up in a yard, under circumstances quite similar to those of his ancient prototype, undertook the more dangerous experiment of treading on the bees; so he thrust his ugly nose against the hives, and made a determined onset on the whole row, as if each individual hive was a trough of meal. Not relishing such familiarity with their domestic arrangements, the bees rushed out in swarms and commenced their assaults upon him in such a savage manner as made the poor beast think he must leave in a hurry, which he accordingly did. But the bees, not content with merely acting on the defensive, seemed determined to punish him for his temerity, and give him a lesson which should last him through life. Literally covering his whole body, they stung him on the nose, they stung him in his ears, they stung him in his eyes. Upon his back and upon his belly, upon his neck and upon his legs, they fastened themselves by hundreds and by thousands, and wherever a sting could penetrate, the poor donkey had to take it.

Frantic with rage and pain, the animal brayed and bellowed, and ran, and jumped, and lashed his sides with his tail; and finally, as if in utter despair of getting rid of his assailants, he threw himself upon the ground and rolled over and over in an agony of pain. Finding this to be of little use, and that his assailants seemed to multiply rather than diminish, the poor donkey picked himself up again, and seeing the kitchen door open, with ears and tail erect, and eyes glistening with tears and terror, he made a rush into the house. Thither the bees followed him, and such a scene as then ensued has seldom, if ever, been enacted. In vain the donkey rolled upon the floor—in vain he jumped over the cook-stove, overturned the chairs, and upset the table—the bees had not done with him yet, and it was not until the whole household, summoned by the noise, had worked vigorously for some minutes, with napkins and dusting brushes, that poor John Donkey was sufficiently rid of his enemies to be able to leave in safety by another door than that which he had entered.

This is no fable, reader, but a veracious narrative; yet there is a moral to it as good as if it were a fable, and one which the strong, who attempt to oppress the insignificant and apparently weak—and the meddlesome, who are inclined to poke their noses into other people's business, and the covetous, who hanker after that which does not belong to them, would do well to consider, for all such are liable to the same experiences as the donkey met with among the bee-hives.—*Worcester Spy.*

☞ The Governor of Massachusetts has commuted the sentence of Jones, the murderer, now lying in jail at Springfield, from hanging, to close confinement in the State Prison for life.

THE CREED.—You change; and that which changes is not the truth.—*Bossuet.*

A SONNIT TO MY SEWING MACHINE.

Composed on it, and sewin' a little now and then.

Written for the Ohio Farmer.

O, you grate thing you! yu be so useful and
Handylike tew wimmin folks—ya deserve a Pome,
Ya dul and I'll rite a node on ye, cause others
don't;
Tho' I beant much for varses.
Mi Rime doant seem jest as it should,
But as I was sayin'—you grate thing you!
You prodigus help—you mity worker, ya do up
My hemps of sewin' quicker, yas ya du! and
Yare bettern medicin when lime poorly, and
Kraced with work, for to make me Krank agin.
Yare cheap to—konsiderin' how you go it; if
My man did jaw sum, about a payin'
More's a hundred dollars down for ye,
O alas I glad I got ye when I did?
I dunno what on airth I did before ye cum.
Yare smart—& you don't get tired,
Nor cross nuther, like Common seamstresses
And tell quare tales about us tew the neighbors.
You aint partikular wot ya sow, like sum,
Wether its trouser-loons, or tater bags or collars,
or sum of my gals finery, or the baby things,
Or sewin' for poor folks, or the heathens, or jest
some fixin
Over of old garmints.
Why yu take it, an dew it, in jest about 10 minits
Or less, an don't make no complaint;
O ye grate and amazin animal, or insec rather,
for yure cheerful bus do seems to me
Like noise of livin' cretur,
Which when alone, I'd rather hear
Than the jabberin of sum folks.
Wats franklin? Wat's field? Wat's columbus?
to them as manufactured my machine?
And in the words of another,
"The one ime in lore with is Grover & Baker."
Now when my Sue was married—
(An i don't know but what the feller's likely enuf
if he didn't smoke continually,)
I done up her sewin', wat wasn't done afore,
in less than no time, say about a week,
And she done down with her Bo in the parlor
Makin a button Hole now and then
And takin walks, an rides, and such like.
And if she didn't look jest like a Rose bud—
O well—its no matter.

Now, neybor Jenkins over the way
Is as close as the Bark of a tree or more so,
Iee allers glad my husband want Bill Jenkins,
(Tho I might have had him if I wanted,)
But as he says, he bed his darter Ann,
he couldn't ford a machine tew do her weddin'
sowin,
An so she'd set, poor oretur, at the Winder,
a sowin an a sowin til it made my eyes ake
A seein her
A stichin, & a runnin, an a fellin, an a hemmin,
to say nuthin of an over an over stich, and gatherin'—
And her mother a helpin all the time,
Why she didn't get done them, in no season,
And the pore thing was all worked
An strung up, an run down, an Gin Out,
And she looked jest as she she had been drawn
Thru a Not-hole
When she stood up tew be married.
Well—she's been feble ever sence,

Is Uncle Sam short that the fishermen's bounty is paid in *rags*, when government is so exact about *tin*? The old gentleman should not allow any but the genuine metallic currency to be used in liquidation of his outstanding dues. If bank bills are to be brought into requisition to purchase the bounty drafts, it would be no more than fair that all our banks take a fair start and share the benefits equally. There is a story of an old parson whose flock lived by wrecking. As he was one day attending to the labors of his Master, he saw through an open door a vessel drifting fast towards the breakers. Directly one after another of the faithful saw the prize, and began gently to slip out of the side doors. "Stop, servo the Lord first and yourself afterwards," screamed the preacher, but it was no go. Failing to bring back his dispersing flock, he said, "Well, if you *must* go, *let us all have a fair start!*" So we say of the banks; if rags *must* take the place of gold, let them all fare alike.—*Bath Times.*

A SPIRITUAL INFANT.—John M. Spear, the apostle of "Self-Development," has been living in a small shanty at Kiantone, N. Y., for some time, with his spiritual bride, Miss Hinckley. Recently, between the two, in some mysterious way, "a son of man has been made manifest in the flesh," as Spear says, and they both declare that it is wholly a spiritual development, with nothing natural or material about it. It is noticed, however, that the thing cries and nurses, and does other things peculiar to material babies, and some go so far as to say that it looks like its father. Mr. Spear is well known in Boston, where he formerly resided, and where he commenced his spiritual career.—*Boston Herald.*

"Johnny," said a mother to a son nine years old, "go and wash your face; I am ashamed to see you go to dinner with so dirty a mouth." "I did wash it, mamma," and, feeling his upper lip, he added, gravely, "I think it must be a moustache coming!"

CHARLES LAMB, in one of his whimsical moods, divided mankind into two classes, borrowers and lenders—the former masters and tribute-takers, the latter servants and tributaries.

$3000 Worth of Clothing
WHICH MUST BE SOLD!!

E. GREEN & CO.,

Take the pleasure of returning their sincere thanks to their patrons and the public generally, for past patronage, and hope for a continuance and increase of favor in future. Now as it is a well established fact how cheap we have let clothing slide during the past month, the public will be satisfied that it is no humbug, if we hold out still greater inducement in offering Clothing without regard to cost. Therefore, for your advantage we call your attention.

Come to see us soon, while the Stock is large; we assure you that if you are a judge of Goods, you'll not leave our place without buying, on account of the quality and price. This inducement, corresponding well with the present season, we expect this enlightened community will give us as great a rush for Gent's Wearing Apparel, as last month.

A CARD TO THE LADIES.

DR. DUPONCO'S
French Periodical Golden Pills,
FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are warned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by JOSEPH H THACHER, in Dover by Chas. A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietary price, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N. B.—Ladies will be particular in asking for *Dr. Duponco's Golden Pills.* Observe the signature *J. Duponco* is upon each box. You will then obtain a Pill you can rely upon.

SPECIAL NOTICES.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the protposition.

TESTIMONY.—Dea. J. B. N. Gould, Niles Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The R. R. RELIEF remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the system takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, in an instant, telegraphs its receiving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. Find the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The R. R. R. will raise you from your bed of suffering in a few hours.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have tried almost every cosmetic or toilet tony tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their obnoxious contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.—THIS GIN, Distilled in London, rom sound Barley, under the supervisions of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of many eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, GRAVEL, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st; J. Morgan, 116 Blackstone st; M. Dawes & Co., 81 Blackstone st; E. LOCAL.

☞ The Republicans of the State feel sure of electing our worthy and eminent citizen, Hon. I. Goodwin Governor of New Hampshire, next March—and probably nobody doubts but that they will.

The Democrats also feel certain of sending another of our honored citizens, Hon. Daniel Marcy, to Congress from this District—though this last depends somewhat, we think, on whom the Republicans nominate against him. It would not surprise us, however, if our good city should be the residence of both a Governor and an M. C. next year.

☞ The friends of Hon. Ichabod Goodwin, in large numbers, with the committee appointed by the Convention to inform him of his nomination for Governor, waited on him at his residence, on Wednesday evening, accompanied by the Cornet Band; and were received most graciously. The compliments of the occasion were exchanged, and a very pleasant hour was passed by all.

☞ We learn from the Congressional Convention at Dover that, on account of many delegates being prevented by the storm from reaching their destination, the nomination has been postponed till to-day.

SKATING.—*Messrs. Editors:*—In the Chronicle, we noticed a recent article by "Horum," in relation to Skating, and soliciting propositions whereby the same might be obtained during the winter season. "Volunteers" answers, by procuring *an engine* and flooding the ice on either of our mill-ponds when the same is rough or covered with snow. A skating field undoubtedly, might thus be prepared at a small expense, if a Club was properly organized.

We would, therefore, suggest that a "*Union Skating Club*," be formed at once, for the purpose; that a paper be drawn up; a small assessment levied upon each member; and two or three directors elected to effect this object. Or such a Club might very easily flood the snow or ice upon the North mill-pond by obtaining permission to close the culverts at the Creek, at certain times, thereby raising the body of fresh water constantly pouring into this Pond to a height sufficient to conduct this water by means of spouts over the surface of the pond below.

Come, "Horum" and "Volunteers," now is the time for action. Get up a club, raise the cash and cut DIDOS.

HO FOR SKATING!—It is proposed to shovel the snow from a couple of acres of of the ice on the South Mill Pond. In five hours, fifty shovels dexterously wielded, can accomplish it. A score or two of strong hands have already volunteered to devote this, Thursday, afternoon to the object, and they ask additions to their ranks. The ice beneath the snow is excellent, and once cleared, it is proposed to keep it in order throughout the season. Let all who are willing to aid in setting the ball in motion, whether skaters or not, see that at least one shovel is wielded at the expense, either of their money or their muscle.—Snow will begin to fly at 1 o'clock, P. M.

☞ A friend to the boys, and a lover of good skating, invites all interested in this subject, to meet him on the South Mill Pond, at 1 o'clock this (Thursday) afternoon, to aid in cleaning the ice.—The more shovels and brooms the better.

FRIGATE CONSTITUTION.—*Messrs. Editors:*—The Boston Herald of Wednesday says "the Constitution is still in Dry Dock at Charlestown, has been coppered, and her outside repairs nearly completed."—Please let me say, for the information of the Herald, and all such, that Old Ironsides lies at *this* Naval Station, and has been coppered *here*, and her outside completed—and is only waiting orders from the Department to fit her for sea. She lies in the Piscataqua—*and her head is not mutilated, either!* W. B. R.

Portsmouth, Jan. 5, 1859.

☞ A meeting of the Young Men's Christian Association will be held this (Thursday) evening, at 7 1-2 o'clock, at the hall over J. A. Grace's store, Market street, entrance on Commercial Alley. All persons feeling an interest in the objects of this organization, are invited to attend.

☞ The train on the C. & P. Railroad, which was due at about six o'clock Tuesday evening, arrived in this city on Wednesday morning at half past six.—The railroads are now passable, and trains run regularly.

☞ We learn that Conductor Noyes who was jammed between two cars, last Saturday, on the Concord & Portsmouth Railroad, is rapidly recovering, and will probably be out in a few days.

☞ The Concord and Manchester papers are in raptures about Mrs. Macready's performances. The Mirror gallantly devotes about a column a day to her wonderful delineations of character, and the papers at the Capitol, disagreeing upon almost every other point, all join in one harmonious pæan to this talented lady. Our Portsmouth readers, aware of her merits and remembering her successes of a few years since, will not fail to attend her entertainment on Friday evening.

☞ The Funeral of Mr. Warrington Moulton will take place from the Universalist Church on Friday afternoon at 2 o'clock.

MARRIED.

PHYSICAL TRAINING.—It is matter of common observation that English women unite with their mental accomplishments far greater robustness and strength of physical constitution than are usually found in the females of this country; and all are ready to admit that the human form, in classic antiquity, far exceeded in perfection of symmetry and vigor the ordinary development of the present day. The race that gave to the world an Apollo and a Venus is still regarded as furnishing the best examples of physical strength and beauty; and perhaps those who are familiar with the social customs of the ancient world will concede that this perfection was the result of the systematic training and exercise of the body, then made an essential part of education. In the ages of chivalry, too, when a man held it a greater honor to excel in feats of arms than in scholarship, we read of wonderful achievements of physical strength.

But all the lessons of the world's experience in such matters seem to have been lost in our modern civilization, at least in America. Look at the women in our higher circles, with their thin and willowy forms, their pale and sallow faces, their inability to endure the slightest exposure or fatigue. Observe in all classes how early the cheek loses its youthful freshness; how common are complaints of 'delicate health'; how universal the appearance of fragility. It is true that public attention has within a few years been in a degree awakened to this subject; but as the light in Milton's infernal prison only served to make darkness visible, so this attention has only exposed the utter and fatal neglect of this duty—a neglect almost everywhere apparent.

We would advocate, or rather insist upon, the attachment of a gymnasium to every school; and if one were in every house, it would prove an actual saving of more than its cost, in physicians' bills, medicines, and nurses' wages. A frolic every day with the "reclining board" or the "parallel bars," would put to flight many juvenile ailments, banish the physic bottles from the shelf, and shed a glow of cheerfulness through the household. The benefits that would result to the community and to future generations from such a system, are absolutely incalculable.

The evils of a hot-bed education, where culture of the mind is attempted, with neglect of physical development, are not so universally recognized as they should be. The dependence of the integrity of the brain on the health of the body—the need that organ has of rest as well as exertion, ought ever to be borne in mind. Nature should be allowed her bent in harmonizing the employment of the intellect with physical activity, by alternate exercise. And no school deserves patronage where this subject has not due consideration.

It was never designed by our Creator that the life of a human being should be made miserable by ill health. Strict observance of his wise laws will secure health; indeed, we would not be afraid to say that any children born of healthy parents, allowed abundance of exercise in the open air through childhood, and preserved in youth from injurious habits, may be sure of immunity from disease, till nature's great debt becomes due in the course of events. Entire freedom from headaches and indigestion, with its train of diseases, will be his portion whose early life has had this judicious training.

Think of this, mothers and teachers, and when you opine that an infant "must have worms," or note symptoms of languor in a pupil—ask yourself if the young creature is not suffering from privation of the blessings God gives freely to the poorest, and which cannot be denied without entailing a train of miseries upon such a portion of your life as your neglect may leave to the child under your care.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which has been known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and diffuse health and cheerfulness through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his best sip, tottering form straighten with strength; see again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose full blood is corrupting in his veins; tell his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ignorance could invent. Give him the Pills, and mark the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see the late leper that he is now; give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body, with liniments and salves; give him these Pills to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten every thing from his face and every muscle from his body. See his appetite return, and with it his health; see the new man.—see how that was radiant with health and freshness banished and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion and elimination, and they have spoiled their office ill. Her blood is vitiated, her health is gone. Give her these Pills to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. Now look again—the roses blossom on her cheek, and where lately sorrow satiny buried from every feature, the light of joy has taken root and with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they have gone its way; its pinched-up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows.—Give it the Pills in large doses to sweep these vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these distempers, they are the easier cured. Jaundice, Indigestion, Headache, Sick Headache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, Rheumatism, Costiveness, and other forms of derangements which these Pills rapidly cure.—Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are lost out like the dark clouds of night—they must burrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1.

Through a trial of many years and through every nation of civilized man, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Where a cold had settled on the lungs, the day, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but the Consumptive, the tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL now; it loosens his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dark cloud has been on side broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have sent for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The counless colds and coughs which CHERRY PECTORAL prevents from ripening into a dreadful harvest of incurable disease. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish the cheapest, and deliver them broadcast over the earth, in order that the sick every where may have before them the information it contains. Our agents and dealers in medicine generally have them for distribution gratis, and also for sale these remedies, prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

Sold by WM. R. PRESTON, and all Druggists in Portsmouth, and Druggists everywhere.

MY MOTHER'S SALVE

This celebrated preparation has obtained an extent and world-wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relief and cure to thousands of sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to all and poor, that all afflicted may avail themselves of its healing qualities.

"**My Mother's Salve**" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"**My Mother's Salve**" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, BLOTCHES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"**My Mother's Salve**" for Burns or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"**My Mother's Salve**" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using "**My Mother's Salve**" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportion to their at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck, BURRILL & HUNTING, SOLE PROPRIETORS,

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have the effect of placing this article on a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably from debility and nervous shock of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it would keep my hair from turning, but I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to your friends that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above testimony I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this county, and have been here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of my name, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

E. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood | Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my feelings to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

Brookfield, Jan 13, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled for several years, without any, I have restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasant effect.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and sells for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent more than the medium, retails for $3.

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These **Gums** remove most morbid or bad matter from the system, supplying health for the blood, a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying **the blood**, giving tone and health to the whole system. In removing the cause of the disease—effecting a radical cure, namely,

Bilious Attacks are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

One dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose often repeated is a sure cure for **Cholera Morbus, Diarrhea** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cleanse the system of exciting the absorbents.

We take pleasure in recommending it as a medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, without nauseating or griping to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix one ounce of the Liver Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE inventor of this Roofing labored many year to combine articles which would answer the above purposes, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now *after Five Years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN!

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or 1 in. at much less expense than the first, and at about half the cost of the latter.

Be aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most confidently and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*, and after a severe test of many years, it stands reliable and as good as when first put on, without change or decay.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment. Between 226 parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have the legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the plan of a number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $70,000; every prize being drawn, and result of drawing forwarded to all purchasers

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to SWAN & CO., Augusta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

DR. J. B. HUGHES,

KNOWING that there are at this moment hundreds and thousands of our fellow citizens in towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the repetition of those known to their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, that three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are incurable in consequence of such treatment.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with the fallacious medicines at the expense of destroying what is the great pillar of life, a healthy constitution.

These Medicines may be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled for certain and superior efficacy in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some specious pretext or false name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the effects of medicine.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 diy

Dye your Hair and Whiskers.

By using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

A Revolution in the Hunting World.

Reuthe's Patent Spring Gun Animal Trap.

More certain of its prey than the most perfect Rifle in the hands of the most experienced marksman, without lessening the value of Pelts or Skins, as is the case in ordinary modes of shooting, it effects the capture of the animal either dead or (if preferred) alive: the barrels discharging themselves, simultaneously with the hooks imbedding themselves in the mouth.

It is simple, yet strong and perfect in its construction neither cumbersome nor difficult to arrange.

There are three different sizes, which will effectually operate on Minks, Woodchucks, Otters, Wildcats, Lynx, Foxes, Wolves, Deer, Panthers, Tigers, Bears, Buffaloes, etc.; in fact, on all animals which repay hunting.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under act of 1836.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has every reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

FRIDAY, JANUARY 7, 1859.

BODY SNATCHING IN TROY.—There is considerable excitement in Troy, N. Y., in consequence of the discovery of the body of a man named Michael Price, who died on the 19th of December, 1858, in a dissecting room of that city, and of the fragments of another body. A mob of a thousand assembled, and tore the room all to pieces. It may not be pleasant to have the body of a friend stolen, even to advance medical science; but how much less a crime is this, than to kill the live men, by furnishing them poison. A few months since, a tavern keeper near this same Troy, had a bear which ate two men who while drunk had lain down in his reach. We didn't hear of any mob of a thousand men then. We don't set a very high value on men who get drunk, but it would seem that now as in old times, a "live dog is better than a dead lion."

☞ East Haverhill, N. H., was visited on the 31st ult. by a most terrific gale of wind. In its passage it entirely demolished almost everything in its way, taking along with it houses and barns, chimneys and trees, from the sapling to the most sturdy oak. The gale lasted about one and a half hours. There was also a vein that passed through Benton, about five miles distant, which did some damage to the buildings in that place, taking new barns of the best structure and entirely demolishing them; also unroofing others, while within a mile of where the gale passed it was perfectly calm.

A CURE FOR DRUNKENNESS.—Dr. Beck, of Dantzic, has made a curious discovery. He has found an antidote, or rather counter-poison for ardent spirits. It is a mineral paste, which he encloses in an olive, and which, once absorbed, destroys not only the rising effect, but likewise, the disastrous consequences of drunkenness. He tried several experiments on a Pole, an irreclaimable drunkard. This individual, named Radovil, swallowed three bottles of brandy in succession, and after each bottle ate an olive prepared by the doctor. He experienced neither the effect of drunkenness, nor the slightest sickness.

Pshaw! The best antidote for poison, is not to take it—the most effective cure for drunkenness, is teetotalism,—the surest way to get out of jail, is to keep out.

☞ The Annual Meeting of the New Hampshire State Agricultural Society, was holden, Dec. 29, in City Hall at Dover.

The following officers were chosen:

President, William F. Estes, of Dover; *Secretary*, Aaron Young, of Dover; *Treasurer*, Frederick Smyth, of Manchester.

Directors.—James H. Butler of Nottingham; Nathaniel W White of Concord; David Buffum of Walpole; Dana Woodman of New Hampton; Kendrick Dickinson of Alexandria.

Hon. Henry F. French, of Exeter, favored the Society with an able and practical Address upon the English mode of farming, which was listened to with marked interest.

☞ Rev. Dr. Nichols, formerly of Portland, who died in Cambridge on Sunday, was carried to Portland for interment. Funeral services were performed at his late residence in Cambridge on Wednesday, after which his remains were conveyed to Portland, where public services were held in the church of which he was so long pastor — Dr. Peabody, of this city, preaching the sermon.

EX-PRESIDENT PIERCE.—Intelligence from ex-President Pierce, is dated Naples, Dec. 2, where he had remained a week, but was making preparation, in obedience to medical advice, to go to the Island of Capri, for the benefit of Mrs. Pierce, whose health has suffered much from the damp, cold air of Florence and its surroundings.

☞ A young lady of Washington, fifteen years of age, eloped on Monday of last week from Philadelphia, with a student of that place, eighteen years of age. She planned and proposed the elopement, but the couple were overtaken by an officer of the law, who, while carrying the miss to her mother, himself received a proposition from the antic girl for another elopement.

FOREIGN COMMERCE OF PORTLAND.—The number of foreign entries at Portland, for the year 1858, was 421, of which 230 were American and 191 foreign. Number of foreign clearances 569, of which 374 were American and 195 foreign. Amount of duties collected, $252,444 46, an increase of $11,767 26 on the previous year.

RATHER STRONG.—They have manufactured a liquor in New York that has to be kept in bottles—for it eats through barrels in fifteen minutes.—*Temp. Vis.*

THE "CHIEF PLEASURES OF THE BLESSED." An orthodox minister in Cincinnati, in commenting upon the glory of heaven, recently, assured his congregation that one of the "chief pleasures of the blessed" would consist in the knowledge that the damned were suffering the most horrible tortures in the fiery lake; that the "pure spirits would look down from the portices of God's palace, and receive new joy from the contemplation of burning souls agonizing in the sea of flame, to which an angry and outraged deity had *mercifully* consigned them." Not more than half a dozen ministers entertaining such amiable ideas of heaven's mercy, would be necessary to drive a city of believers into the rankest atheism.—*Exchange.*

A sensible *conclusion*—but we don't believe any minister ever made such a statement; any more than we believe that Theodore Parker commended profanity, in Washington, or any one else, as is stated in a newspaper item. We are sorry to say that newspaper reports "from Washington," are not the only ones that are unworthy of credence.

CONGRESS.—In the Senate, on Thursday Jan. 5, Mr. Seward of New York, offered a resolution instructing the Judiciary Committee to enquire if it is necessary to amend the laws for the suppression of the African Slave Trade—which was adopted.

Mr. Wilson of Massachusetts, offered a Resolution that a Committee of five be appointed to enquire whether any employes in any Department of the Government, since March 1857, was required to contribute a portion of his pay to defray the expenses of, or influence any election during that period; or whether any employee has been removed for not so contributing, and what legislation is necessary to prevent the thus influencing of elections.—Laid over.

The Pacific R. R. Bill came up and Mr. Bigler of Pennsylvania addressed the Senate. Mr. Bigler's remarks were stopped by a Message from the House announcing the death of Gen. Quitman.

THE NORTH AMERICAN REVIEW for January is received from the editor, Rev. A. P. Peabody, D. D., of this city. Its contents are — Canonical Compurgation and the Wager of Battle; The Mount Vernon Memorial; Edmund Burke; Life and Writings of De Quincey; Abelard; Thompson's History of Boston; Bible Revisions; Cotemporary French Literature; Thompson's Life of Stoddard; White's Shakespeare; Critical Notices.

SONS OF TEMPERANCE.—At a meeting of the Grand Division S. of T. held in Concord, Jan. 3, the following officers were elected.—Moses T. Willar G. W. P.;—E. P. Tenney, G. W. A.;——True Osgood, G. Scribe;——Albert Webster, G. Treas.—Luther P. Durgin, G. C.;——F. S. Crawford, G. S.;——Elisha Adams, G. Chaplain.

Also at a meeting of Concord Division, No. 25 S. of T. held Monday evening, Dec. 27, the following officers were elected for the ensuing quarter:—W. P., Stillman Humphrey;——W. A., George H. Briggs;——R. S., Hiram F. Smart;——A. R. S., John C. Webster;——F. S., J. S. McFarland;——Treas. David C. Morgan;——C., Charles A. Bradeen;——A. C., Robert G. Stewart;——I. S., A. S. Granger;——O. S., N. M. Carter;——Chaplain, George G. Thomas.

☞ The Sound Steamer C. Vanderbilt, which went ashore Monday night, in the snow storm, near New London, Ct., (within a mile of the place where the steamer Atlantic was lost with so many of her passengers several years since,) will be a total loss, though the machinery may probably be got out.

The Vanderbilt was a stout, well furnished boat, having been lately repaired, and was on her first trip East, after going again upon the route. She is valued at about $150,000, and not insured. The scene of the wreck in its wintry aspect is described as sublime in the extreme, the surf as it beat upon the rocks and shore striking up for fifty feet or more.

The crew and passengers were all saved, with the baggage; also the mail—and much of the freight will be rescued.

☞ The Atlantic Monthly is meeting with great favor from all sources. Though the publishers printed nearly *thirty thousand* copies of the January number, this large supply was entirely exhausted on the very day of publication, thus compelling many new subscribers and others to wait a few days before obtaining a copy.

For $6, we will furnish the Daily Chronicle and the Atlantic Monthly, for one year.

For $3, we will furnish the Weekly Chronicle and the Atlantic Monthly, for one year.

The money to be paid in advance, in all cases, of course. The price of the Atlantic is $3 per year—the Daily Chronicle $4, the Weekly $1 per year.

Any person sending us five new subscribers shall receive a sixth free.

NEW HAMPSHIRE POLITICS.—*Dover, N. H., Jan.* 5.—The Republican Convention of the First District met here to-day. On the first ballot

Gilman Marston of Exeter had	92
Joel Eastman of Conway	69
Scattering	32

Second ballot—

Marston	99
Eastman	82
Scattering	12

And Gilman Marston was nominated.

Manchester, Jan. 5.—The Republicans of the Second Congressional District, after a long and rather exciting Convention here to-day, adjourned to the 19th inst., without making any nomination for Congress.

West Lebanon, N. H., Jan. 5.—The Republicans of the Third Congressional District, at their Convention here to-day, nominated T. M. Edwards as their candidate, by a large majority.

N. H. DEMOCRATIC STATE CONVENTION.—*Concord, Thursday, Jan.* 6.—Convention met at 11 o'clock, in City Hall. Number of delegates very large. Albert R. Hatch, of Portsmouth, chairman, pro tem. General harmony prevailed. The morning session was adjourned before the Convention was permanently organized. This afternoon at 2 o'clock is specially assigned for the nomination of Governor and Railroad Commissioner, which will be Asa P. Cate, of Northfield for Governor, and Frederick Vose of Walpole for Railroad Commissioner, as there is no opposition.—*Dispatch to Trav.*

☞ The Democrats cry 'Concord Clique' now, the same as the Whigs did formerly. The Manchester Union Democrat says, under the head of "The Clique Nomination Ratified:"

We have before alluded to the fact that a few men met at Concord, a few weeks since, and made out the programme for the "Republican" party for the ensuing campaign. Yesterday, the rank and file "went through the motions" of actual sovereignty at Concord; the result was, of course, the nomination of Ichabod Godwin by an almost unanimous vote. We hear also, that Mr. Fogg, of the Independent Democrat introduced a series of resolutions, of a very radical Abolition character. So it seems that a lot of Old Whigs are to be rode into power upon Abolition hobbies.

* * * We like the nomination. Whatever Mr. Goodwin may profess, under the circumstances, we are satisfied that he is intrinsically a safe and conservative man.

THE DEMOCRATIC PARTY commence the campaign with high hopes and a settled determination to succeed. They feel that they have a powerful and unscrupulous enemy to contend with, and that no small effort is required to redeem the State from the hands of the place-hunters, and spoils men who now control its political destinies and abuse the confidence of its people; but all the indications show them ready and determined to make all the effort that is required; and judging simply from the signs and indication open to every observing man, we are fully convinced that the Democratic party has a fair, and perhaps we should say, a more than even chance to carry the election of this State next March. At all events, it is evident they mean to try.—*N. H. Patriot.*

ILLINOIS POLITICS.—*Springfield, Ill., Jan.* 5.—Hon. S. A. Douglas, was this afternoon re-elected United States Senator from Illinois. The vote stood, Douglas 54, Lincon 46.

Hodges (Democrat) was yesterday elected to Congress from the Fifth District.

FOR THE CAMPAIGN.—We will furnish the Daily Chronicle, (to new subscribers) from this time till we publish the report of the March election, for 75 cents cash. And to all persons not now on our list, who pay us $3, we will make a present of our Daily during the campaign. True, ours is not a party sheet, and such only are usually campaign papers; but perhaps we shall give as full and reliable reports of the politics of the State, as less independent sheets.

☞ Subscribers to the Weekly Chronicle will please remember, that we send no papers without payment *in advance*. And we stop all papers at the expiration of the time for which payment is made. Terms $1 per year, 50 cts. for six months, 25 cts. for three months.

FROM WASHINGTON.—*New York, Jan.* 6. The Tribune's Washington correspondent says, the House Committee on Foreign Affairs have under consideration a proposition for purchasing Cuba, but the prospect for a favorable report is not flattering.

The Committee of Ways and Means propose in their modification of the tariff to transfer brandies and other liquors, on the 30 per cent., to the 50 per cent schedule. This change would add a million to the revenue.

The Administration have authorized the Marshal of Kansas to offer a reward of $250 each for the capture of Montgomero and Brown.

The Haven Divorce Case is settled.—The bonds of matrimony are dissolved between the parties. The lady is free to find another old husband, or at least to look for one. We have had no faith in the Doctor's case since it was proved that he had refused his wife a new bonnet a few weeks after their marriage. A man who could be guilty of that atrocity, does not deserve any sort of a wife.—*Prov. Jour.*

GRAND ENTERTAINMENT

—OF—

Vocal & Instrumental Music,

AT THE TEMPLE, IN PORTSMOUTH,

TUESDAY Evening, Jan. 18th, 1859.

The Portsmouth Cornet Band,

WITH

A Brilliant quartet Club

COMPRISING

MR. H. S. THOMPSON, now of Boston,

The well known popular Composer and Singer, and

Mrs. NEWELL, of Boston,

A splendid vocalist,—will furnish the Music on the occasion.

Tickets, One Dollar.

1000 numbered Tickets will be sold,—and at the close of the Musical Exercises, a Committee of three gentlemen chosen by the audience, will distribute among the ticket-holders,

Ten New Sewing Machines,

VALUED AT

$100 Each,

from the celebrated Manufacturing Co. of

GROVER & BAKER.

The Programme of the Musical Performances,—which will be of a superior order—will be shortly announced.

C. C. WHITTEMORE,

Agent for Grover & Baker Sewing Machine Co.

THE GROVER & BAKER

SEWING MACHINE CO.,

18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;

PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of FIFTEEN HUNDRED STITCHES A MINUTE, and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

ON EXHIBITION

AT ROOM NO. 1 FRANKLIN HOUSE.

This Machine takes a stitch that cannot be pulled out, and is the best machine before the public.—The people of Portsmouth are requested to call and examine the machine and its work, whether they wish to purchase or not.

Being the sole Agent for New Hampshire and Vermont, I can sell you a machine at the same price you will have to pay in Boston or New York, and save all the expense of going to purchase one, and also the expense on the same.

Any lady having stitching to do, will please call and have it done on the Machine free of charge. **IRA MITCHELL,**

$3000 Worth of Clothing

WHICH MUST BE SOLD!!

E. GREEN & CO.,

Take the pleasure of returning their sincere thanks to their patrons and the public generally, for past patronage, and hope for a continuance and increase of favor in future. Now as it is a well established fact how cheap we have let clothing slide during the past month, the public will be satisfied that it is no *humbug*, if we hold out still greater inducement in offering Clothing without regard to cost. Therefore, for your advantage we call your attention.

Come to see us soon, while the Stock is large; we assure you that if you are a judge of Goods, you'll not leave our place without buying, on account of the quality and price. This inducement, corresponding well with the present season, we expect this enlightened community will give us as great a rush for Gent's Wearing Apparel, as last month.

☞ Those indebted to us, we wish to "call at the Capt's office and settle." We are ready to meet all demands against us as soon as presented.

EPHRAIM GREEN,

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

Henry Bowen, Librarian of Mass. Charitable Mechanic Association Rooms, School street, Boston, says Dr. Clarke's Sherry Wine Bitters are a very valuable medicine—the best he ever used.—All medicine dealers sell them.

Mathes & Varrell sell Dr. Clarke's Bitters.

SPECIAL NOTICES.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

TESTIMONY.—Dea. J. B. N. Gould, Nikes' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

R. R. R.

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quickly as possible, and not let the victim linger in pain. The **R. R RELIEF** remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick commences to take place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, is an instant, telegraphic pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, energy to the feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The **R. R. R.** will raise you from your bed of suffering in a few hours.

R. R. R. Office, 162 Fulton street, New York.

N. B. — For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty and health, by the eruption of pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN FIN PLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending opera and assemblies.

The original recipe has been purchased by the present proprietors, and is guaranted to the ladies of America to be the best Parisian Fin ple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

To the Citizens of New Hampshire,

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound I. Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable medicinal properties of the Juniper Berry, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians as invaluable in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from the distressing annoyance which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Western States, as well as to travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of immitations. Buy only CHARLES'.—NONE OTHERS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st; J. Moran, 116 Blackstone st.; M. Davis & Co., Faneuil Hall Market; Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 73 Broad st.; Deland & Snow, 34 Elm st. and others. In Portsmouth, Mathes & Co., C. W. Atwell, and C. C. LOCAL.

Messrs. Editors:—I am glad to notice that our citizens are to have another opportunity to listen to Mrs. Macready, the eminent dramatic reader. I attended her entertainments in this city, in 1854, and was favored with another opportunity of hearing her, last Summer, in Chicago, at which time I was even better pleased with her exhibition of elocutionary and vocal powers than in the first instance. In Chicago, she read to overflowing houses, although the price of admission was double that announced for Portsmouth. I hope to see a full house.

Horrible.—A young married man, intelligent, very capable, and but for rum a valuable citizen, was found dead at the gate of our City Farm, one night last week. He had frozen to death while drunk. If some theology is true, the fellow who sold him the liquor won't freeze "after death," sure. There are plenty more following this victim as fast as their maddening appetites can carry them.—Must these things be?

Messrs. Editors:—It was with pleasure that I observed your announcement of the coming of Mrs. Macready to Portsmouth again. It brings with it a pleasant memory of her visit with us some years since. The entertainments which she then afforded us were of the highest order. I have listened to the never-to-be-too-much praised Fanny Kemble, and I must say that the impressions left upon the mind by the readings of Mrs. Macready are fully as strong and quite as pleasant as from the great tragedienne.

Mrs. Macready has a pleasant voice of great compass, capable of the sweetest and most touching pathos, or of the greatest vehemence of declamation, and yet without sickening sentimentality or ear-wounding rant. It is said that she has much improved since she was in Portsmouth, which was near the commencement of her career as a public reader. I hope that many of our citizens will avail themselves of the coming opportunity of looking in upon her fair face and superb head, and of listening to her cultivated voice. Y.

☞ There is no insurance on the schooner Z. Secor, of Orland, Me., before reported ashore on the south side of Cuttyhunk. Her cargo of hard pine lumber is insured for $1300, and on the freight money $600. The Z. Secor is 125 tons, built at Orland, Me., in 1852, where she is owned.

☞ The brig John A. Taylor, (of St. George, Me.,) Giles, from Georgetown, S. C., for this port, with lumber, was wrecked on Georgetown bar, no date. Vessel and cargo a total loss. The John A. Taylor, was 196 tons, built in 1850 in St. George, Me., where she is owned.

☞ A hundred or two of men and boys responded to the calls for aid in clearing the South Mill Pond, Thursday afternoon, and the skaters have now quite a good field for Horum and Didos.

☞ The Funeral of Mr. Warrington Moulton will take place from the Universalist Church on Friday afternoon at 2 o'clock.

Social Levee.—The Levee of the Ladies' Charitable Society of Greenland, was postponed, on account of the weather; and will be held on Wednesday next, Jan. 12th, at Academy Hall. Admission 25 cents. Collation free. A general invitation is extended.

☞ The Syracuse Journal, wishing to tell the editor of the Albany Knickerbocker that he lies, avoids that vulgarity by the severer method of a Scriptural reference, and assures the Albany man that "he is perfectly well aware that he is guilty of the sin for which Ananias was struck down by an indignant Deity."

☞ There are telegraphic accounts of all sorts of rows and fights in Kansas. It is said Gov. Medary has ordered out four companies of dragoons. The trouble is said now to come from the Jayhawkers, or free State men, who are retaliating for the pro-slavery outrages of last year.

☞ There is trouble in the Probate Office in Essex county, Mass.; the old Register claiming he was elected and qualified for a term ending in 1860, and the newly-elected officer is sustained by the Judge.

New Cents.—Cents of the new emission are an improvement upon the older issue of the new coin; the female head, and the head of liberty, having been substituted for the eagle, or turkey buzzard, as it is sometimes denominated.

Campaign Daily.—The Manchester Union Democrat will issue a Daily paper for the State campaign.

To be studious of pleasing ourselves, is a poor way of pleasing others.

THE PRESS.

By Ebenezer Elliott, the Corn Law Rhymer. Written for the Printers in the procession that celebrated the passing of the English Reform Act.

God said "Let there be light!"
Grim darkness felt his might,
And fled away.
The startled seas, and mountains bold,
Shone forth all bright in blue and gold,
And cried, "'Tis day, 'tis day!"

Hail, holy light! exclaimed
The thunderous cloud, that flamed
O'er daisies white;
And lo, the rose, in crimson dressed,
Leaned sweetly on the lily's breast,
And, blushing, murmured "Light!"

Then was the skylark born;
Then rose the embattled corn;
Then streams of praise
Flow'd o'er the sunny hills of noon;
And when night came, the pallid moon
Poured forth her pensive lays.

Lo! heaven's bright bow is glad!
Lo! trees and flowers all clad
In glory, bloom!
And shall the mortal sons of God
Be senseless as the trodden clod,
And darker than the tomb?

No, by the mind of man!
By the swart artizan!
By God, our Sire!
Our souls have holy light within,
And every form of grief and sin
Shall see and feel its fire.

By earth, and hell, and heaven,
The shroud of souls is riven;
Mind, mind alone
Is light, and hope, and life, and power;
Earth's deepest night, from this blest hour,
The night of minds, is gone!

The second Ark we bring:
The Press all nations sing;
What can they less?
Oh! pallid want; oh! labor stark;
Behold we bring the second ark—
The Press! the Press! the Press!

The nomination of Mr. Goodwin is not received very cordially by some of the opposition in this city. One of them thinks he "might as well vote for Cate and done with it"—in which opinion we concur.—*Manchester Union Democrat.*

Well, we don't believe the Republicans nominated their candidate to suit "the opposition"—nor will his election suit them any better.

☞ The Maine Legislature organized at Augusta, on Wednesday, by the choice of C. W. Goddard of Danville, President of the Senate, and Wm. T. Johnson of Augusta, Speaker of the House. The Clerk and Secretary are the same as last year.

☞ The North Carolina Methodist conference has expunged from the general rules the one forbidding the buying and selling of slaves.

☞ The President's Message is printed in full, in most of the leading British journals, and is variously commented upon, but of course approved by none of them.

☞ A barn belonging to Geo. W. Jackman, in his shipyard, Newburyport, was set on fire and destroyed on Wednesday evening. Loss $800.

"I know I am a perfect bear in my manners," said a fine young farmer to his sweetheart. "No, indeed, you are not, John; you have never hugged me yet.—You are more sheep than bear."

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy in the power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they remove waste the fountains of life and vigor,—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features bloom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, a living lie in sunlight. He has been drenched inside and out with every potion which ingenuity could suggest. Give him these PILLS, and mark the effect; see the scabs fall from his body; see the new, pink skin that has grown under them; see the late leper that is clean. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, see his wretchedness with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, let alone! there are some cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, roar, laggard dyspeptic, whose gnawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man; see her that was radiant with health and loveliness blasted and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, and stagnation or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. Now look again—the rose blooms on her cheek, and where lately she was sad yet burnt from every feature. See the sweet infant wasted with worms. Its wan, sickly feature tell you without language, and painfully plaintive, that they are eating its lifeway. Its pinched up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows.—Give it the PILLS in large doses to severe these vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are not these the marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these distempers, they are the easier cured. Jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, Low Spirits, Evil Nervous, Gout and kindred complaints all arise from the derangements which these PILLS rapidly cure.—Take them perseveringly, and avoid the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they care, which afflict so many millions of the human race, are cast out like the devils of old—they must, burrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were reduced beyond the reach of human aid have been restored to their friends, and usefulness, to good health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs.—The dry, hacking cough, the glassy eye, and the pale, thin features of a man who was lately lusty and strong, whisper to all but him Consumption. He tries every thing; but the disease is gnawing at his vitals, and every day he lingers the faster and more over all his frame. He taking the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases, Consumption, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Parents can secure themselves by them, and they will find it an invaluable protection from the insidious prowler which carries off the pastoral sheep from many a flock, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in AYER'S American Almanac, of which we publish three millions, and scatter them broadcast over the earth, in order that the sick every where may have before them the information it contains. Druggists and dealers in medicine generally have them for distribution gratis, and also for sale of these medicines, prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

Sold by WM. R. PRESTON, and all Druggists in Portsmouth, and Druggists everywhere.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has already a world wide and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving much suffering, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage, to offer their Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Properties never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all who use it will bear testimony. RHEUMATISM, ERYSIPELAS, GOUT, SCALD HEAD, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" is a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in precisely the manner at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. BECK, BURRILL & SHUTTING, Sole Proprietors,

No. 6 Tremont Street,
(Two doors south of Court st.,) BOSTON.

Will be found at all Apothecaries and Family Stores in the country. o15 ly

Indian Physician.

Dr. B. S. GOODWIN

Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 3 Market street. Dr. Goodwin respectfully invite all in need of Medical advice to call on him.

ADVICE FREE.

Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.

THE FOLLOWING ARE SOME OF THE DISEASES successfully treated by Dr. Goodwin: Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Fever, Fever and Ague, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsy, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.

No Mercury! No Bleeding! No Blisters! Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of expression and evidence; our Medicines, the unfoundled Forest. Portsmouth, Oct. 14, 1858

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Mr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates the guarantee of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has disappeared both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty five years. I am now about sixty; my age will be at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the past fifteen years, and am known by many of your one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, and will be cheerfully all paid to the nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodist Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 19, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent; in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which has become gray, to its original color. I have used no other article with anything like the same pleasure or profit.

J. B. FLOWER, Jr., Editor Ledger.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds a quart, and retails for $2; the large holds a quart, 49 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all the solid or bad matter from the system, supplying in their place a healthy secretion, invigorating the stomach, causing food to digest well, **purifying the blood**, and giving the whole machinery, removing the cause of the disease—effecting a radical cure.

Billious Attacks are cured, and what is better, prevented by the occasional use of the Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken at night, prevents **nightmare.**

Only one dose taken at night, cures the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will **relieve Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose often repeated cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the system to action.

We take pleasure in recommending this medicine as a preventive and a cure for **Ague, Chill Fever,** and all Fevers of a Bilious nature. It operates with certainty, and thousands are writing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Inventor of this Roofing labored many years to combine articles which would answer the above purposes, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use. This has succeeded in doing, and now *after Five Years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN!

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on by any Ordinary Hand, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kind of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with them is conducted strictly honorable and honest manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are chartered by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $70,000; every prize being drawn, and resulted drawing immediately after the drawing.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 ly

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by unprincipled pretenders, were in his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent to any over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is special and unfailing; they are safe at all times, and at all of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by those who, unfortunately, are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. ly2 diy

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

To the Hon. Judge of Probate for the County of Rockingham:

Respectfully represents, Susan T. Dennett, of Portsmouth, in said County, that she is the widow of Mark Dennett, late of said Portsmouth, deceased; that said Mark Dennett died seized of certain Real Estate situated in said Portsmouth, to wit: a Farm or tract of land containing one hundred and eight acres, more or less, bounded as follows, viz: northerly, by land of William Roach and others; easterly, by land late of Aaron Hodgdon and land of Butterfield Carkin, east, by land of Butterfield Carkin, by the lane leading to said farm from North Road, so called, the land of Benjamin Murray and land of Benjamin Hodgdon; southerly, by land of Benjamin Hodgdon and land of W. Roach and others; westerly, by land of William Sines and others, and of Wm Roach and others; together with a Dwelling House, Barn, and other out-buildings thereon, which property at the time of said Mark Dennett's death, and long prior thereto, was occupied by him and your petitioner, as his wife, as his and their home and dwelling; that your petitioner has continued to occupy the same as her home and dwelling, ever since the decease of her said late husband, and that she has never waived or relinquished her right of homestead therein;—Wherefore she prays that a homestead to the value of Five Hundred dollars may be assigned and set off to her out of said Estate, agreeably to the provisions of the act of 6th of July, 1856.

SUSAN T. DENNETT.
by her Attorney, J. M. EDMONDS,
Dated December 22, 1858.

ROCKINGHAM, ss. Probate Court at Exeter, in said County, Wednesday, Dec. 22d, A. D., 1858.
Upon the foregoing petition, it is *Ordered*, that a hearing be had thereon at a Court of Probate to be holden at Exeter, in said County, on the Wednesday next following the third Tuesday of February next, at ten o'clock, A. M.; and that the Petitioner notify all persons concerned or interested therein, to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least thirty days prior to said Court. PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed.—Reconsiderations procured, of applications that have been rejected upon improperly prepared papers. Interferences prosecuted. Re-issues and extension procured, and in general, all business connected with the Patent Office transacted with care and promptness.
British and other foreign patents procured through prompt and confidential agents in London and Paris.
Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.
He begs leave to refer those unacquainted with him to the following testimonials:—
From Hon. Chas. Mason, Commissioner of Patents.
U. S. PATENT OFFICE, Feb 23, 1855.
I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.
CHARLES MASON, *Commissioner.*
From the Examiners of the Patent Office.
The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.
HENRY B. RENWICK, L. D. GALE, } *Principal Examiners.*
S. H. LANE, T. R. PEALE, THOS. T. EVERETT, F. SOUTHGATE SMITH, WM. C. LANGDON, } *Assistant Examiners.*
From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues. W. P. N. FITZGERALD, *Late Principal Examiner of Patents.*

SATURDAY, JANUARY 7, 1859.

TEMPERANCE PRIZE ESSAY.—About two years since, John M. Barnard, Esq., of Boston, offered a premium of one thousand dollars, for the best essay on Temperance legislation, together with the outline of a law embodying the opinions of the writer. About forty essays were sent in and were submitted to a committee consisting of ex-Gov. Clifford, Rev. Dr. A. H. Vinton, Nahum Capen, and Peter Cooper, whose decision, which has recently been returned to Mr. Barnard, is, that no one of the essays is, in their judgment, of sufficient merit to justify them in awarding to its author the prize or the preference.—*Atlas.*

The reader will please to take notice that Mr. Barnard is a distiller, and *of course* in favor of license laws: he is able to pay the thousand dollars: 40 men wrote essays;—and yet, in the opinion of this honorable and remarkable committee, *no one* of them is entitled either to prize or preference.

How true it is of rum, as it is of slavery, that no eloquence and no sound argument can be brought out in its favor.—Eloquence and argument are wholly on the other side.

THE WAGES OF AFRICAN COOLIES.—The French government has provided that the term of service of the 20,000 *free* Africans to be obtained on the coast of that continent, and transported to Guadaloupe and Martinique, shall be six years. They are to be bound to give 26 days work for every month, and their wages are to be $2 37 a month. Women are to receive $1 19 a month, and children, from 6 to 14 years of age, 59 cents a month. One half of the wages is to be paid at the end of each month, and the other half at the end of each year. They may allow ten per cent. of the wages to remain with their masters if they choose, which shall entitle them to be returned home at the end of the six years service, if they so desire.

CONGRESS.—In the Senate, Jan. 6, Mr. Seward of N. Y., presented the constitution adoped by the late constitutional convention held at Leavenworth, Kansas, which was referred to the Committee on Territories.

On motion of Mr. Crittenden, the French Spoliation Bill was taken up by a vote of 24 against 18.

The special order, viz., the Pacific Railroad Bill, coming up, the spoliation bill was postponed without action.

The debate on the Railroad bill, was quite animated. Mr. Iverson of Georgia made a pro-slavery disunion speech, without any "straddle bug" to it.

He traced the slavery agitation from its rise among a handful of New England fanatics of both sexes, in its present monstrous proportion, and referred to the *demon* of *abolitionism* in its onward march *to power*. He also referred to the Rochester speech of Mr. Seward, and says he knows but little of the human heart who imagines that anti-slavery agitation will stop short of total abolition of slavery by the action of Federal Congress.

To live and reign, it must go on till it attains the Presidency, and both Houses of Congress, the Judiciary, and the abolition of slavery, or the Union be dissolved. Witness the result of the late elections. He did not consider the return of Mr. Douglas to the Senate a victory to the Democracy. It was only a victory of free-soil Democracy over abolition-Whiggery. He would not turn on his heel to choose between the Wilmot Proviso and the Squatter Sovereignty of the Senator from Illinois. Mr. Iverson professed himself in unmistakable terms, a disunion man under the aggressions of the North. Let the Senator from New York (Seward) be elected President, and in his (Iverson's) opinion, more than one Southern State would take immediate steps to secede.

In the House, Mr. Colfax of Indiana introduced a bill providing for the territorial government of Colona. Referred to the Committee on Territories.

☞ On Christmas eve, the friends of Rev. Dr. L. W. Putnam, of Middleboro', Mass., to the number of about 160, made him a visit. The whole company partook of a bountiful repast furnished by the ladies; and the evening was passed in social conversation, singing, &c. A beautiful easy chair, rich silk dress for Mrs. Putnam, and other articles, amounting to $54 in value, together with a purse of $84, was the result of the visit.

☞ Mrs. M. Knipe, midwife and doctress of New Bedford, has attended the births of 85 sons and 63 daughters, including five pair of twins, during the past year, without the loss of mother or infant.

——— SEMINARY, Jan. 1, 1859.

Friend F.:—The readers of your social little Daily at our school, wish you a happy New Year, and all sorts of nice times, as the spring, summer and autumn follow each other in quick succession, during this the last of the fifties of this century. Our class like your paper better than almost any other, because you have so many funny, spicy little articles. We girls don't like long, prosy articles on politics, markets, and such sleepy subjects—perhaps you may say because we are not able to understand them. We don't care a bit, though, what you or even the old editor of the Ballot may say; we like little bits of news on most any important subjects, such as foreign fashions, elopements, marriages in high life, &c., &c.; and I don't see why you don't have more of them. Why, one of our girls from New York, once in a while has a copy of the New York ———sent her; and such times as we have—it is so full of such nice things. We think the editor must be a darling of a man.

Oh! such fun as we have had about a notice in your paper—"Wanted, a girl that loves babies." Who ever heard of one that *didn't?* Why, there is not a girl at our school that would not jump at the chance, that is, if Pa and Ma would have no objection. Once in a while we have a call from some one at the village, who brings a little darling with her; and there! it does seem as if it would be eaten up before its mother could rescue it. It seem so very funny to have to advertise for a girl that loves babies!

Oh, my! our rules are so strict! Once in a while we have a call from a lord of creation; but they are few and far between; and most of our class will have to stay here till another New Year. How long it does seem! This Latin and Greek, and fussy old Pro.'s; and being shut up so long. Take pity on us, and write all the funniest things you can in your paper; and do tell the man who advertises for a girl who loves babies, that there are over two hundred at our school who love them to distraction.

The bell rings, and I must close this letter. Some of the girls say that perhaps you may print it, as some of those funny editors do sometimes; but I don't care a bit if you do—only don't tell who or where it comes from. L.....

P. S.—Please send two more copies in our bundle, and tell the man who advertises for a girl that loves babies, that he has our individual sympathies.

A married man in New York State recently sold his farm, preparatory to a Kansas expedition. His wife being in ill-health and crippled, and likely to prove an encumbrance rather than an agreeable companion on his journey, he agreed to take off $500 from the price, if the purchaser of the property would promise to maintain her for the future. The conditions were accepted.

This seems brutal enough, certainly—but is it a whit worse than the marriages for money or anything else save love, which occur every day, without exciting the disgust of all to whose knowledge they come, as they should?

VIOLENCE IN NEW YORK.—The rowdies of New York inaugurated New Year' day in a very significant manner. No less than three murders were committed in the city on that day, and there were as many more shooting affrays. Upon this state of things the Courier remarks:

"We begin, in fact, the year 1859 with the legitimate result of mal-administration of criminal justice during all the year 1858. Immunity from the gallows was the premium offered for murder by our Courts in 1858, and with this fact before them, the murderers of 1859 have commenced their work. No one can say that it has not been commenced well—three murders on New Year's day are a forcible commentary on the criminal justice of the Old Year. We wait to see how the criminal Courts will commence their work for 1859. If they will only commence with half the vigor and thoroughness that the murderers have commenced theirs, we shall have some hope that in 1859 they will redeem the character lost in 1858, and that prompt punishment of offenders will give our citizens some margin for safety of life in 1859."

☞ The N. O. Picayune says a hunter of alligators who captured four hundred in the swamps near that city since May. He goes into the swamps at night with a pan of fire, and shoots them as they crowd around the light. The skins are sold at 75 cents each, and make the very best boots. The oil, tusks, and hides of these four hundred captured animals have netted the captor $560 in three months.

☞ While pleasantly slumbering in his room in a Cincinnati hotel, an Indiana gentleman was robbed by an entry thief of his loose pocket money—about $3000.

☞ A clerk in the Navy Department at Washington had been for some time keeping or attempting to keep company with a fascinating widow who "did or did not, as the case may be," countenance his attentions. The supposition is that on Monday she mittened him, which so affected him that he went home to supper, bid his friends all good bye, asked a friend to sleep with him that night, to which the friend consented. Tuesday morning he arose, arranged his toilet, took a vial from his pocket, put the contents into a glass, and saying to his friend, "here's to your health," drank it, and in three-quarters of an hour his quietus was made. He had drank more than an ounce of prussic acid.

☞ Not long since a gentleman in New York received information that certain merchandise belonging to him had been found in a river thief's possession; it was identified by his private brand; he was summoned twenty times to a dirty court room to testify against the robber, and on each occasion the trial was postponed. At last it came on; the thief escaped conviction by a quibble, and then prosecuted the plaintiff for false imprisonment, and the latter eventually had to compromise the affair by paying thrice the amount of the property stolen. This is a very bad specimen of New York justice.

TRUTH. — A Washington letter-writer says:

"If Mr. Buchanan were not a bachelor, he would be less of a politician. As it is, his evenings are not devoted to business, or reading, or profitable society, but are mostly spent in a bachelor's room at the White House, the habitues of which discuss over their cigars the prospects of the Democratic party."

If the people ever again elect to the Presidency the worst half of a man, they deserve to have just such another President as Buchanan. The influence of a good wife is illustrated in the case of Douglas, whose course upon the Lecompton outrage was prompted by his better half.—*Ex.*

HOOPS, FALSE HAIR, HIGH HEELS, AND MATRIMONY. — An act was introduced into the English Parliament in 1770, "that all women, of whatever age, rank, profession or degree, whether virgins, maids or widows, that shall, from and after such act, impose upon, seduce and betray into matrimony any of his majesty's male subjects by the use of scents, paints, cosmetic washes, artificial teeth, false hair, Spanish wool, iron stays, hoops, high heeled shoes, bolstered hips, shall incur the penalty of the law now in force against witchcraft and like misdemeanors, and that the marriage, upon conviction, shall stand null and void."

☞ The Bath Times says, "Many politicians *are* honest men, but the *mere* politician—the politician *per se*, who knows no other mode of life, and who sticks to the party as a leech sticks to a horse's legs—for the blood he can extract—as was once said to us by a Mississippi gentleman, 'is meaner than a professional horse-jockey!'" Fact.

☞ A sheriff recently ascended Mount Washington to put an attachment on the Tip Top House. He found the house nearly covered with snow, the frost a foot thick on the glass, and several inches thick on the furniture. It is the first winter ascent of the mountain ever made, and a terribly-dangerous adventure.

☞ The paper manufacturers of Gardiner, Me., who send paper to Bath for shipment, find it for their interest to employ horse teams, in consequence of the high rates per railroad, and to transport their coal and stock from that point by the same means.

THE FIRST DRINK.—This it is which leads to mischief. Drink not the first glass, and you can never become a drunkard. Remember this, young man, as you are tempted to raise the poisoned chalice to your lip. Drop that bottle. It may seem hard to forego the pleasure, but drop.—*Temperance Visitor.*

☞ The most valuable span of horses in the United States is said to be owned by Com. Vanderbit, of New York. They cost him $7000, and he has been offered $9000 for them.

☞ The New York quarantine buildings are to be built on an artificial island made on Old Orchard Shoals, at a cost of $135,000.

The newly formed Temperance Alliance at Barre, Mass. have called upon nine rumsellers in that town, and requested them to discontinue their traffic in liquors, to which said dealers have agreed.—*Temp. Visitor.*

Messrs. Wood, Eddy, and other prominent persons engaged in the lottery business in New York, have been held to $3000 bail.

It has been well said of the home of the scolding wife, that 'It's a bad hen-coop where the hen crows louder than the cock.'

TOUCH NOT THE BOWL!

BY DAVID BARKER.

Touch not the bowl—beware the risk,
Though joy attends the minute;
More deadly than the basilisk,
A serpent lurks within it:
Touch not the bowl.

A demon lingering in that bowl,
Thy funeral dirge is hymning,
And thousand woes to curse thy soul,
Upon that bowl is swimming:
Touch not the bowl.

BEAUTY.—Socrates called beauty a short-lived tyranny; Plato, a privileged nature; Theophrastus, a silent cheat; Theocritus, a delightful prejudice; Carneades, a solitary kingdom; Domitian said that nothing was more grateful; Aristotle affirmed that beauty was better than all the letters of recommendation in the world; Homer, that 'twas a glorious gift of nature; and Ovid, alluding to it, called it a favor bestowed by the gods.

A GROWTH IN BEAUTY.—If a person could only believe it, there is a wonderful beauty even in growing old. The charm of expression arising from softened temper or ripened intellect, often amply atones for loss of form or coloring; and consequently to those who never could boast of beauty, these latter years give much more than they take away. A sensitive person often requires half a life to get used to this corporeal machine, to attain a wholesome indifference, both to its defects and perceptions, and to learn at last what nobody would learn from any teacher but experience, that it is the mind alone which is of consequence; that with good temper, sincerity, and a moderate stock of brains—or even the two latter only—any sort of body can, in time, be made useful, respectable, and agreeable, as a travelling dress for the soul. Many a one who was plain in youth thus grows pleasant and well looking in declining years. You will hardly ever find anybody, not ugly in mind, who is repulsively ugly in person in middle life.

"I know I am a perfect bear in my manners," said a fine young farmer to his sweetheart. "No, indeed, you are not, John; you have never hugged me yet. You are more sheep than bear."

THE GROVER & BAKER

SEWING MACHINE CO.,

18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;

PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of FIFTEEN HUNDRED STITCHES A MINUTE, and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

$3000 Worth of Clothing

WHICH MUST BE SOLD!!

E. GREEN & CO.,

Take the pleasure of returning their sincere thanks to their patrons and the public generally, for past patronage, and hope for a continuance and increase of favor in future. Now as it is a well established fact how cheap we have let clothing slide during the past month, the public will be satisfied that it is no *humbug*, if we hold out still greater inducement in offering Clothing without regard to cost. Therefore, for your advantage we call your attention.

Come to see us soon, while the Stock is large; we assure you that if you are a judge of Goods, you'll not leave our place without buying, on account of the quality and price. This inducement, corresponding well with the present season, we expect this enlightened community will give us as great a rush for Gent's Wearing Apparel, as last month.

☞ Those indebted to us, we wish to "call at the Cap'n's office and settle." We are ready to meet all demands against us as soon as presented.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

Henry Bowen, Librarian of Mass. Charitable Mechanic Association Rooms, School street, Boston, says Dr. Clarke's Sherry Wine Bitters are a very valuable medicine—the best he ever used.—All medicine dealers sell them.

Mathes & Varrell sell Dr. Clarke's Bitters.

SPECIAL NOTICES.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

TESTIMONY.—Dea. J. B. N. Gould, Niles' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The R. R. RELIEF remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators will purify every organ to a healthy action. Let not the sick linger in pain. The R. R. R. will raise you from your bed of suffering in a few hours.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becomes obstructed, prevents the from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America, the same as used by the "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the skin. For sale by Druggists and Fancy Goods Dealers.

To the Citizens of New Hampshire:

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.—THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the very able kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh acrid taste, which renders the article known as Hollard Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, GENERAL DEBILITY, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its administration were relief from these distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he ever met with."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE ORIGINAL IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; H. S. Burr & Co., 1 Cornhill; S. K. Coles, 20 Elm st; J. Morse, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. A CARD TO THE LADIES.

DR. DUPONCO'S

French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended, fully and explicit directions accompany each box.

Price $1. Sold in Portsmouth by JOSEPH H THACHER, in Dover by Chas. A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N. B.—Ladies will be particular in asking for *Dr. Duponco's Golden Pills.* Observe the signature *J. Duponco* is upon each box. You will then obtain a Pill you can rely upon.

TRAGEDY OF REAL LIFE—TERRIBLE SEQUEL.—The Buffalo Commercial publishes a series of letters detailing a terrible sequel to a life of crime. One of the parties is a Mr. Harlow Case, well known in Buffalo, who some 12 or 14 years ago held the position of Assistant Postmaster. He was a member of a church, married, and the father of a family, and, in all his walks, enjoyed the respect and confidence of the whole community. Removing to Sandusky, Ohio, he received the appointment of Collector of that port under Mr. Fillmore. While holding that office he was intimate in the family of Mr. F., one of his assistants. Mrs. F. was young, beautiful, impassioned, and a fatal attachment grew up between the two, which remained unsuspected until the truth was made known by the sudden elopement of Case with Mrs. F., and the simultaneous discovery that he had absconded with government funds to the amount of some $34,000. From that time forward nearly all trace of the guilty pair was lost. The family of Case, bereaved and betrayed, remained hopeless in their grief. Mr. F. engaged in a long but fruitless chase of the fugitives.

And now from off the sea come tidings, a broken, half-told story of lonely wanderings in foreign lands, a full recital of a never-ceasing remorse, pitiful and solitary deaths in far-away islands, and on the stormy waters of Indian Ocean. Mrs. F., the unfortunate victim of illicit love, died in Ceylon, in June, 1856, of a disease of the climate, in the deepest mental agony, after exacting incessant promises that her child—her dear little daughter—which she had taken with her in her flight, should be returned to the arms of its bereaved father.

This promise Case endeavored faithfully to fulfil, and started with her himself for England, in order to put her in charge of parties who could carry out the last request of her dying mother; but the child, who had been failing since her mother's death, was unable to survive the passage, prolonged and aggravated by severe storms, and on the 19th of July, 1858, died, and was buried at sea. The letter is written as if from out the depths of the bitterest anguish, is full of self-reproaches and evidences of sincere penitence, while his expressions of never-failing sympathy for those whom he has so deeply wronged, show that he is fully sensible of the enormity of his crimes.

BUTTER MAKING.—In all the various changes through which milk passes before it becomes butter, *utter cleanliness is indispensable.* Milk and cream want pure sweet air; no one should cover a cream pan, or put cream in a large high stone jar or crock, if they intend making first quality butter.

The Milking.—This should be done with clean hands and short finger nails. The same cows should be milked by the same hands as much as possible, and as quick; much conversation or singing should not be tolerated during milking time; the times of milking should be twelve hours apart as near as possible.

Milk should be strained as soon as it can be brought in the buttery or cellar, and I am of opinion that if the milk of several cows is a little mixed it will produce butter of a more uniform color. Six or ten quart pans made of tin are in common use; glass would be better. Milk should not sour under thirty-six hours, if in a right temperature; if it does your milk pans have not been well scalded and cleaned.—When your cream is taken from the milk, let a little milk pass along with it in the cream pan. Milk should not sour, and cream should not be of the consistency of sole leather.

The Churning.—This should be done every day in a dairy where there are eight cows or more. At a temperature of sixty-two degrees, butter will come (if the cows have salt regularly) in about thirty minutes. I would not have it come sooner if I could; churns that propose to bring butter in five minutes are a humbug.

NEW YORK, Jan. 7.—(Herald Washington correspondence.)—Senator Bigler is authorized by the Committee on Commerce to report against a ship canal around the Falls of Niagara.

The House Committee on Foreign Relations have referred to Mr. Branch of North Carolina the bill placing a million of dollars at the disposal of the President for the purchase of Cuba.

FROM WASHINGTON.—The correspondent of the Tribune says:

The news of the re-election of Senator Douglas causes great enthusiasm among his partisans here, who have raised money by subscription and made extensive preparations to receive him on his arrival from Baltimore.

There were symptoms in the Senate today of an intention on the administration side to shirk Senator Johnson's proposition for retrenchment Mr. Stuart offered a resolution on the subject, the effect of which would be the indefinite postponement of the whole matter.

The correspondent of the Times says:

The House Committee on Foreign Affairs have now under consideration a proposition for purchasing Cuba, but the prospect for a favorable report is not very flattering.

The Committee on Ways and Means will cut off the estimates of the Treasury building, and reduce the estimates for the Springfield and Harper's Ferry armories from $300,000 to $150,000.

It is now understood, from Secretary Cobb's estimates, that there will be a deficiency in the Treasury, on the 1st of July next, of $7,000,000. The Committee of Ways and Means, I understand, will propose a transfer of certain articles to higher schedules. For instance, brandies and other liquors, which pay thirty, to be transferred to the fifty per cent. list. This single change would add nearly $1,000,000 to the revenue.

The administration have authorized the Marshal of Kansas to offer $250 reward each for the capture of Montgomery and Brown, and to increase his posse to any number desired.

A CURIOUS CURE.—A correspondent of the Clinton Courier, in Westmoreland, relates a very singular cure:

"Mrs. B., some two years since, was thrown from her horse, and sustained an injury to her hip which from that day to this has baffled the skill of the physicians of this vicinity; gradually her limb shortened, so that standing upright her toes touched the floor, and by the aid of crutches it was barely possible for her to take a dozen steps, perhaps, each day. From paining her severely only at intervals, she came to be at last in constant agony; and at night it was only by her husband placing his feet around her foot, and pushing the limb towards the foot of the bed, that she could obtain rest. About three weeks since, as her husband was relieving her in this manner, as was his wont, *the limb suddenly gave way*, Mrs. B. uttered a fearful cry of pain, and the bone slipped into its socket. For two years she had been suffering from a hip out of joint. The lady soon regained the use of her limb, and is now almost as well as ever."

NEW YORK, Jan. 7.—Both wings of the Democracy met last evening and arranged separate organizations for the current year. Postmaster Fowler is the chairman of the Tammany branch.

"Unquiet meals," says Shakespeare, "make ill digestions," and the contrary is produced by easy conversations, a pleasant project, welcome news, or a lively companion.

FOR THE CAMPAIGN.—We will furnish the Daily Chronicle, (to new subscribers) from this time till we publish the report of the March election, for 75 cents cash. And to all persons not now on our list, who pay us $3, we will make a present of our Daily during the campaign. True, ours is not a party sheet, and such only are usually campaign papers; but perhaps we shall give as full and reliable reports of the politics of the State, as less independent sheets.

For $6, we will furnish the Daily Chronicle and the Atlantic Monthly, for one year.

For $3, we will furnish the Weekly Chronicle and the Atlantic Monthly, for one year.

The money to be paid in advance, in all cases, of course. The price of the Atlantic is $3 per year—the Daily Chronicle $4, the Weekly $1 per year.

Any person sending us five new subscribers shall receive a sixth free.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which mankind have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor, health courses once through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent-up, tottering form straightens with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give him these Pills, and what the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see the late leper that is clean. Give them to him whose angry humors have planted themselves in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle and the body with liniments and salves; give him these Pills to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and were he able to stand alone they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten away smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man.—See that this consumptive, with health and loveliness blasted and too early withered away; victim of exercise of mental anguish, or some lurking disease, has deranged the internal organs of digestion, assimilation or secretion; till, after an hour's office lift. Her blood is vitiated, her health is gone. Give her these Pills to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. Now look again—the roses blossom on her cheek, and where lately sorrow sat joy bursts from every feature. See the street urchin with his face all worm. Its wan, sickly features tell you without disguise, and painfully distinct, that they are eating it life away. Its pinched-up nose and ears, and restless sleeping, tell the fearful truth in language which every mother knows.—Give it the Pills in large doses to sweep these vile parasites from the face. Give them again and see the ruddy blood of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these distempers, they are the easier cured. Jaundice, Costiveness, Heartburn, Headache, Indigestion, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout and Rheumatic complaints all arise from the derangements which these Pills speedily cure.—Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously, by the LARGE BOXES and give your, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must burrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends in health and usefulness, to enjoy health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs.—The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him Consumption. He tries every thing; but the disease is grown at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL that is to cure his cough, and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The disease has entered his side fatally ken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an honorable name. Its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The coughs, colds and troubles which it cures are the seed which would have ripened into a dreadful harvest of incurable disease. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all kindred affections of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it a faithful friend and protection from the insidious prowler which carries off the parent from them from a dock, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish three millions annually, that them broadcast over the earth, in order that the sick every where may have before them the information which it contains. Druggists and dealers in medicine generally have them for distribution gratis, and also for sale these remedies, prepared by Dr. J. C. Ayer, Practical and Analytical Chemist, Lowell, Mass.

Sold by WM. R. PRESTON, and all Druggists in Portsmouth, and Druggists every where.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its cures of Piles, Burns and Sores, and has been the agent of relieving so many sufferers, restoring them to health and happiness, that the proprietors feel it a duty they owe to the public, for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Vegetable Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is a Certain, Instantaneous, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, TOOTH-PILES, and such like diseases, will find the most great relief, and in most cases a Permanent Cure.

"My Mother's Salve" is a BURN OF SCALD, takes out the fire, soothes the smarting pain, and heals wounded more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands who have used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other diseases, rub the parts affected with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case where pain is good, result follows the use of this Salve. Prepared by A. M. Beck, BURRILL & HUNTING, SOLE PROPRIETORS,

No. 6 Tremont Street,

(Two doors south of Court st.,) BOSTON.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, and we feel safe in a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become very grey, nearly one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was anything what I had been taught. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now say to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a resident of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 27, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1853, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no wonder I can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me the pleasure to say, that its effect has been excellent. It removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These **Gums** remove all morbid or bad matter from the system, supplying instead a healthy flow of bile, invigorating the stomach, causing food to digest well, and **purifying the blood**, giving tone and health to the whole machinery.

One dose after eating is sufficient to regulate the stomach and prevent the food from rising and souring.

The Gums taken before retiring, prevents **nightmare.**

One dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose (two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose often repeated is a sure cure for **Cholera Morbus,** and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effect of medicine after a long sickness.

One bottle taken for **Jaundice** removes all callowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and promotes the food digest well.

One dose, often repeated, cures **Diarrhœa** in its worst form, while **Summer and Bowel Complaints** give almost to the first dose.

A few bottles will cure **Piles,** by exciting the absorbents.

We take pleasure in recommending it to the public—believing it to be a preventive for **Fever and Ague, Chill Fever, and all fevers of a Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Inventor of this Roofing labored many a year to combine articles which would answer the above purposes, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, which he found to be. Rust of Tin, Leaks in Pitch and other Cements now in use; this he succeeded in doing, and now *after Five Years of the severest trial*, we would invite the careful attention of all interested in the matter, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN.

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or 1 in. at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and substantially assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*, and after a several years' trial, we can now offer it available and as good as when first put on, without change or decay.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and everything that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders to Charleston, Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all original tickets published in the drawing must take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and one dollar on one ticket can fall to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $70,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia.

Prizes paid in full for the percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m181y

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, we would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have fallen into his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter for the insidious diseases of Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing eyes.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of your health, and in the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all those irregularities to which female is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name, and by unprincipled venders who have been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 d1y

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

A SONNIT TO MY SEWING MACHINE.

Compozed on it, and sewin' a leetle now and then.

Written for the Ohio Farmer.

O, you grate thing you! yu be so useful and
Handylike tew wimmin folks—yu deserve a Pome,
Yu dul and I'll rite a node on ye, cause others
dou't;
Tho' i beaut much for varses.
Mi Rime doem seem jest as it should,
But as I was sayin'—you grate thing you!
You prodigus help—yu nity worker, yu du up
My hosps of sewin' quicker, yas yu du! and
Yure bettern modein when iny poorly, and
Krazed with work, for to make me Krank agin.
Yure cheap to—konsiderin' how you go it; if
My man did jaw sum, about a payin'
More'n a hundred dollars down for ye,
O aint i glad i got ye when i did?
i dunno what on airth i did before ye cum.
Yure smart—& you don't get tired,
Nor cross nuther, like Common seamstresses
And tell quare tales about us tew the neighbors.
You aint partikular wot yu sew, like sum,
Wether its trouser-loons, or tater bags or collers,
or sum of my gals finery, or the baby things,
Or sewin' for poor folks, or the heathens, or jest
some fitin
Over of old garmints.
Why yu take it, an dew it, in jest about 10 minits
Or less, an don't make no complaint;
O yu grate and amazin animal, or insec rather,
for yure cheerful biz dew seeme to me
Like noboe of livin' cretur,
Which when alone, I'd rather hear
Than the jabberin of sum folks.
Wats franklin? Wat's field? Wat's columbus?
to them as manufactured my machine?
And in the words of anuther,
"The one me in love with is Grover & Baker."
Now when my Sue was married—
(An i don't know but what the feller's likely enuf
if he didn't smoke continually,)
I done up her sewin', wat wasn't done afore,
in less than no time, say about a week,
And she sat down with her Bo in the parler
Makin a button Hole now and then
And takin walks, an rides, and such like.
And if she didn't look jest like a Rose bud—
Well—its no matter.

Now, neybor Jenkins over the way
Is as close as the Bark of a tree or more so,
Ice allers glad my husband want Bill Jenkins,
(Tho i might have had him if i wanted,)
But as Ise sayin, bout his darter Ann.
he couldn't ford a machine tew do her weddin'
sowin,
An so she'd set, poor cretur, at the Winder,
a sowin an a sowin til it made my eyes ake
A seein her
A stichin, & a runnin, an a fellin, an a hemmin,
to say nuthin of an over an over stich, and gath-
erin'—
And her mother a helpin all the time,
Why she didn't get done then, in no season,
And the pore thing was all worked
An strung up, an run down, an Gin Out,
And she looked jest as tho she had been drawn
Clar thro a Not-hole
When she stood up, to be married.
Well—she's been feble ever sence,
and her mother, Good sole!
Died of influenzy last week.
Folks perteed that I haint nuthin to dew with it,
but I know, twas kase she *overdid*,
And didn't have a Grover & Baker!

But enuf of this—mi node is dun.
O mewe, farewel, an farewel tew deer reeder,
An if you like this Pome, jes Rite
An yu may here from me agin,
For now i dunno hardly how to spend mi time
An evenin. Wy i rite instead of darnin,
Good by my friends, remember what i tell ye
an Praktis on it Tew, and buy a masheen
An then like me, you'll rite
An dew a site of readin,
An giv the Publick Pomes an Sonnits,
an now an then an Essay——
farewell.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1857.*)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove this; none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Morning Chronicle.

MONDAY, JANUARY 10, 1859.

RESOLUTIONS.

The Chronicle this morning contains, on the 4th page, the resolutions passed on Tuesday last, at Concord, by the Republican State Convention; and in another column, on the inside, the Resolutions of the Democratic Councillor Convention, for Rockingham, and an abridged account of the Democratic State Convention copied from the N. H. Gazette, including the principal resolutions passed, and also those rejected.

We invite a careful comparison of the resolutions, by every reader who wishes to vote understandingly;—and we give them both in one paper, for the purpose of a fair comparison.

In the Republican resolution on the Tariff, there is a singular error, as it was borrowed in type, viz. in the last line, where it reads "objects in its factory cause." it should read "objects of its fostering care."

The Republican Resolutions are distinctly and unmistakably anti-slavery, in a conservative and constitutional way, as copied from the resolutions of pass days, and endorsed by both the older parties.

The Democratic State Convention's Resolutions are not all published in full, by the N. H. Gazette, and there are only slight allusions to the hot debate they had in the Convention.

To supply this deficiency, we abridge a report of the debate from the Traveller.

After Dr. Stackpole had offered his *substitute*, (endorsing Mr. Buchanan,) Col. Jenness, of Strafford, said he had opposed the resolution, being a member of the committee, but a majority had seen fit to report it.

Hon. Geo. W. Kittredge said he looked on the resolution, as reported by the committee, as a direct insult to the administration. He had never before attended a State Convention where the national administration had not been endorsed, and he wished to know, and hundreds of others in the State would like to know, if the administration was to be snubbed in this way.

Abner Greenleaf of Portsmouth also favored the substitute, and Dr. Stackpole defended it in some earnest remarks.

Judge Minot said he was willing to endorse the administration, but he was acting as Chairman of the Committee on Resolutions, and was one of the representatives of the whole party of New Hampshire.

Mr. Treadwell of Concord took the stand and attempted to speak, but his voice was drowned by the cries of the audience. As soon as he could be heard, he said he thought he was in a Democratic meeting, where free speech was allowed, and he hoped he had not been mistaken.—He was opposed to the amendment. If New Hampshire wanted niggers she ought to have them, and all other States should be treated in the same way. There was not a clause in the Constitution that gave Congress the right to act with reference to slavery. The Democratic party must adhere to non-intervention if they would maintain their power.

Ex-Gov. Steele supported the amendment in some remarks, and said he could not and would not vote for the resolution reported by the committee. Buchanan was not the man of his choice—he preferred Pierce, or, he was free to say, Douglas.

Hon. Geo. W. Kittredge said he was not to be bluffed down by any howling cries of "question." Men had spoken on extraneous subjects, and he *would* speak to that resolution. He continued in some strong remarks.

The debate was further continued by Mr. Jenkins, Collector of Portsmouth, Mr. Jenness of Strafford, and Mr. Rundlett of Portsmouth, in favor of the *amendment*, and *against* the *resolutions* as reported; when the question was taken, it being to strike out all after the word resolve.

The motion was rejected—yeas 41, nays 140; and then the original resolutions were adopted by a very decisive vote.

The reader will see, by the Resolutions reported in the Gazette, that the Democratic State Convention *refused* to endorse Mr. Buchanan, and that his party there were only 40, mostly from Portsmouth, Dover, &c.; while the great body, 140, went for Douglas and non-intervention. With those Douglas men, went Gov. Steele, T. P. Treadwell, and the Committee on Resolutions.

The Democratic Standard, says, speaking of the action:—

The Douglas faction, under the lead of the Clique, succeeded in rendering the Convention disordant and quarrelsome. These fellows are determined to destroy the unity of the party, and will do so to a certainty, if the masses do not rush to the rescue.

It would seem, that if 140 men are a faction, 40 must be a smaller faction—and that if the resolutions had been passed without Mr. Buchanan's name or allusion to him, *unity* might have been preserved.

☞ It is said that the wife of Senator Douglas is a Catholic.

☞ Mr. Spratt, (no relation to Jack of that State,) who has made himself so indelicatously conspicuous as a slave trade revivalist, lately admitted, in a speech made in the South Carolina Legislature, that there was scarcely a woman's heart in all this land that responded to what he said. This being so, Mr. Spratt had better turn his attention to some practical purpose, for if all the women are against his scheme, how can he expect success? and if he cannot succeed, why should he labor? Mr. Spratt may think the business he is engaged in a "fat" one, but Mrs. Spratt evidently thinks it a "lean" affair, and will have none of it.

☞ Kansas has again become the scene of great disorder, and Gov. Medary is preparing to restore order by an imposing display of military force. For a country that has been so often "pacified," Kansas manifests anything but a pacific spirit.—These troubles are caused by certain persons called "Jayhawkers," who are punishing the pro-slavery men for their former misdeeds. The root of bitterness is to be found in the old prosecutions.

☞ Rev. Dr. Morrell, an Episcopal clergyman, preached to the members of Congress at the Capitol on Monday last. The lessons of the past, says the New York Express correspondent, were impressed upon the Honorables in a very forcible manner. He alluded to the scenes in the old hall, the stains of blood and the dishonorable conflicts which rested upon it. He hoped and prayed that before a brother's hand, lifted against a brother, should fall on its victim, he might be struck dead in the act. In regard to the code of honor and duelling, he branded it willful murder of the first and worst degree.

☞ Congress resumed its labors on Tuesday, the 4th of January, after a recess of eleven days, and evinced a disposition to go to work at once. The Senate bade adieu to its old hall, and went to the new one. The occasion was "improved" by Mr. Crittenden, who spoke of it as a solemn one, and alluded to the illustrious men who had labored in the old chamber. No man is more entitled to speak on the subject than the venerable Kentuckian, who was a Senator more than forty years ago, long before either Webster, or Calhoun, or Benton, or Wright, had been thought of in connection Senatorial life. He is almost the last survivor of the great men of a great age.

☞ Some months since there arrived on board the receiving-ship North Carolina, at Brooklyn, N. Y., five or six men who were sent home as mutineers from the United States frigate St. Lawrence, Admiral Forrest's flag-ship on the coast of Brazil. They had been tried by court-martial on board that vessel, and had been sentenced to State Prison, but have been confined ever since on the North Carolina, without anything definite being done as to their disposition.

American House, Boston.—We take pleasure in calling attention to the advertisement of this house in to-day's paper. It has won a reputation as a hotel, under the direction of its landlord, Mr. Rice, which has secured it a poularity with the travelling public not surpassed by any similar house in the United States. It is spacious, conveniently arranged, well superintended in all its departments, and presents as many comforts for the enjoyment of its lodgers, as can be found between the four walls of any dwelling for the wayfarer.

☞ There are reports that the protectionists are moving energetically to carry their point. The President is said to have declared his determination to call an extra session of Congress if the present Congress should expire without having done anything for the increase of the revenue, &c. As Congress can have no more pay with an extra session than without one, this threat may set members at work in earnest.

☞ The barque Homer sailed for Liberia on the 7th inst., having on board, in parts, the whole of an Episcopal church, calculated to hold six hundred persons.—The cost of the concern is $3500, all of which was raised by the Sunday school children belonging to Rev. Dr. Tyng's (St. George's) Church.

☞ The French Spoliation bill has been taken up in the U. S. Senate. It is that reported last year by Mr. Fessenden, and provides for the payment of $5,000,000, or less, to claimants. Judging from the age of this question, the bill may be said to relate to the "spoils of time," spoken of by the poets.

CONGRESS.

Thursday, Jan. 7.

Senate.—Mr. Hammond presented the credentials of Mr. Chesnut, as Senator from South Carolina till 1865.

The Senate then agreed to take up the French Spoliation bill, 1 y yeas 30, nays 23.

Mr. Davis of Miss. had the floor, the Senate refusing to postpone the subject—31 against 30. Mr. Davis being sick, however, the Pacific Railroad bill was taken up.

Mr. Shields spoke in favor of a northern route to Puget's Sound, setting forth its advantages over all others.

House.—Mr. Stephens of Ga. announced, in respose to numerous enquiries, that the Oregon bill is in his desk, and that he is ready to report it the first time the Committee on Territories shall be called. He will then request immediate election on the bill, and he trusted it would be reached by Tuesday next.

Mr. Washburne, of Ill., wished to know whether Mr. Stephens would press the passage of the bill without discussion.

Mr. Stephens replied that he was willing the debate should continue as long as the House desires.

Mr. Phillips of Mo., from the Committe on Ways and Means, reported a bill making appropriations for fortification.

The House then went into Committee of the Whole on the private calendar, Mr. Colfax, of Ind., in the chair, and passed eleven bills.

☞ A Washington letter to the Boston Advertiser, dated Jan. 6, says:—

Quite an amusing colloquy has occurred this morning, caused by a declaration of Mr. Bryan of Texas, that his State was disgusted with this Union, and would very likely be glad to quit it in case an appropriation of several hundreds of thousand of collars, to be expended among the Indians there, should not be passed. It was suggested in reply, that as Texas came into the Union by a joint resolution, it might possibly be able to go out by its repeal, and he was advised to make a motion to that effect. It is long since such demonstrations by excitable Southern members have ceased to be greeted with any reply, except ridicule and laughter.

The French spoliation bill, which came up in the Senate to-day, is under order for consideration in the House on the 15th.—Its fate cannot be predicted.

The Fishing Bounties.—The Washington correspondent of the New York Post states that the House Committee on Commerce has voted to take final action on the Senate bill for the repeal of the fishing bounties, on Wednesday next, when it is understood that a majority will be in favor of reporting it to the House as it came from the Senate, with the recommendation that it do pass. The correspondent adds:

If the fishing bounties are repealed this session, it is considered that it will be mainly owing to the public announcement, made in a Boston paper, that the member of the Committee of Commerce to whom it was referred had obtained possession of it, and would be inactive in reporting upon it, and that it would therefore be killed. This fact became known to the committee, and the consequence has been that he has been pressed to report it back to them for action.

☞ Washington dispatches of Saturday night say the President has nominated Townsend Harris, now Consul General, to be Minister resident of Japan.

At a Republican caucus there was a general understanding that the bill admitting Oregon is to be opposed while the English bill of prohibition stands with regard to Kansas. Thayer of Mass. was the only dissenter.

The agents of Pennsylvania iron masters ask specific duties of $7 per ton on pig iron; $10 on railroad iron, and $15 on bars.

☞ The Union learns by a letter from Rome that on the 28th of November Mr. Cass, who has been for some years the American Minister at that place, took leave of the Pope and presented Mr. Stockwell as his successor. Upon this occasion the Pope expressed very kind personal feelings towards Mr. Cass, and as a testimonial of his regard he sent him the next day a magnificent marble bust of himself.

☞ Two bills are before the Legislature of North Carolina, which is now in session, which taken together, give to the free colored people resident therein, the choice of removing out of the State in two years, of choosing an owner for themselves, or of being sold at public auction for the benefit of common schools.

☞ The wife of the late Commodore Perry has just received from China a magnificent silver candelabrum. It was to have been presented by the American residents of that empire to Commodore Perry, as a recognition of his services in the East, but death overtook the gallant officer before he received this well merited tribute.

☞ The Cape Town (C. G. H.) Monitor of Nov. 10 says that Dr. Livingstone, the African explorer, has arrived in safety as far up the Zambezi as Tette, and he and his whole party were in perfect health and high spirits.

1838 - - - January 6th. - - - 1859

Just Twenty One years ago this day, appeared in the Portsmouth Journal my first advertisement to the citizens of Portsmouth and its vicinity, under the head of

"A NEW APOTHECARY STORE,"

a young man's first appearance before the public, soliciting a share of their patronage in an important era in his lifetime; and it was with no small degree of diffidence, mingled with hopes and fears for the result, that I commenced life for myself, as an utter stranger among strangers.

But friends and patrons soon responded liberally to my call; and as I look back upon this long series of years, I recall to mind many, very many, warm friends and patrons, many of whom are still living, while many others have been called to that bourne from whence no traveller e er returns; yet their memory still lives, and their deeds of kindness ever bring to recollection my warmest gratitude.

To all my patrons I extend my sincere and heartfelt thanks, and in soliciting a continuance of their favors, I assure them in return my most devoted attention.

GRAND ENTERTAINMENT

—OF—

Vocal & Instrumental Music,

AT THE TEMPLE, IN PORTSMOUTH,

TUESDAY Evening, Jan. 18th, 1859.

The Portsmouth Cornet Band,

WITH

A Brilliant quartet Club

COMPRISING

MR. H. S. THOMPSON, now of Boston,

The well known popular Composer and Singer, and

Mrs. NEWELL, of Boston,

A splendid vocalist,—will furnish the Music on the occasion.

Tickets, One Dollar.

1000 numbered Tickets will be sold,—and at the close of the Musical Exercises, a Committee of three gentlemen chosen by the audience, will distribute among the ticket-holders,

Ten New Sewing Machines,

VALUED AT

$100 Each,

from the celebrated Manufacturing Co. of

GROVER & BAKER.

The Programme of the Musical Performances,—which will be of a superior order—will be shortly announced.

THE GROVER & BAKER

SEWING MACHINE CO.,

18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their Celebrated Family Machines, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;

PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of FIFTEEN HUNDRED STITCHES A MINUTE, and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

SPECIAL NOTICES.

An Enemy Conquered.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

Testimony.—Drs. J. B. N. Gould, Niles' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

WHY SUFFER WITH PAIN?

When we see the sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The **R. R RELIEF** remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhœa, or Pains of any sort, R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the sufficinted, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrobula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The **R. R. R.** will raise you from your bed of suffering in a few hours.

R. R. R. Office, 102 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Rheumatism, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevent them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of Gardner's Parisian Pimple Destroyer, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Tetter, and most of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY &c., while the weaker sex will find its adoption a sure relief from these distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at twenty-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only Charles'.—None Other is Imported.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Cobb, 26 Hanover st; J. Morse, 136 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. The Great English Remedy.

SIR JAMES CLARKE'S

Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke M.D., Physician Extraordinary to the Queen.

This invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the U. S.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysteria, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

LOCAL.

☞ We observed several men shoveling snow in the streets on Saturday, who did excellent service at small cost, in levelling down lumps of ice and snow, filling dangerous holes, and improving the crossings. We suppose this was done at the cost of the city, by direction of the proper officers. If the ice should remain with us, or if a sudden thaw should turn it to water again,—the city would do well to pay $100 to 100 laborers, in 10 gangs, to level the snow or get off the water. The $100 would do quite as much good in this way, as if given at the alms-house, or city rooms, or in charity.

☞ We regret to learn that Mr. E N. Anderson, of this city, who is employed on the Navy Yard, slipped on the ice near one of the ship-houses, one day last week, and in his fall broke both bones of his left arm near the wrist, so that they protruded through the skin.

A young lady in this city, slipped down on the ice a few days since, and sprained a wrist so severely as to require a splint to keep it in shape. An old gentleman also met with a similar accident, which renders one hand useless for a long while.

☞ Mrs. Macready announces an excellent programme for this evening. Among other selections, a humorous poem by our own "Mrs. Partington." It may not be generally known that the scene of the piece entitled "Parson Storer in a fix," is laid in Portsmouth, and that some of the partners to this story are still in our midst, and can hardly fail to recognize their photographs as taken by the good old lady. Extracts from Sheridan Knowles' play of "The Love Chase," and Walter Scott's "Lady of the Lake," will, we are sure, be capitally rendered, and better selections could hardly be made. Poe's "Song of the Bells" in its rendering by Mrs. Macready has been highly complimented by many of our exchanges. We anticipate a delightful entertainment.

☞ Tickets for Mrs. Macready's entertainment can be procured at C. C. Harvey's book store.

DIVORCE SUIT BY MRS. CORA V. HATCH. Mrs. Cora V. Hatch, the spiritual trance medium, has commenced a suit for divorce from Dr. Benjamin Hatch, her husband, on the ground of ill-treatment. The allegations in the complaint, now on file, form an extraordinary narrative, which may be summed up as follows:

Mr. and Mrs. Hatch were married in Attica, N. Y., on the 7th of August, 1856. Before their marriage, he represented to her that, during the previous three years, he had been a practising physician in New York, and that his practice was worth $10,000 a year; that, when married, he would supply his wife with all the comforts, advantages, and refinements of life, which would be expected to belong to a wife of a physician in good standing, and which would be required by the society in which she would be expected to move.

Notwithstanding these representations, he has not practiced as a physician since their marriage, but has been depending for his support entirely upon her labors. In October, 1854, by his request, she gave, and has since given lectures in various cities, the proceeds amounting to $6000, which he confiscated to his own use, except the sum of $700 and what he expended for their mutual support. She consented to give the lectures on the condition that he should provide for her mother, to which he assented, but he never paid her more than $10, she being, in the meanwhile, in want of the necessaries of life.

During the whole time she was engaged in lecturing, although he provided expensive and strong garments for her, as a public sign, he never furished her with flannel garments, though often requested to do so, but has left her destitute of suitable under garments, exposed to the inclemency of the weather, endangering and impairing her health thereby. He often refused to provide for her riding to and from her lectures, and has compelled her to walk in inclement weather.

The bill of complaint filed by Mrs. Hatch, specifies at length numerous other charges of similar nature to the above.—The defendant is now residing in New Hampshire.

☞ Col. Hiram Fuller, late editor of the New York Mirror, sailed for Europe by the Asia. He goes to London, with a view to establish a cheap daily journal on the American plan.

☞ The police recently entered a picture shop in Paris and gruffly ordered the removal from the window of a portrait of Charles Dickens, which they mistook for a caricature of the Emperor.

☞ George G. Thorburn, and not Grant Thorburn, his father, as reported by telegraph, will take charge of the grounds of the Mount Vernon estate, when it shall be purchased by the ladies.

☞ In New Orleans a man was fined twenty-five dollars for beating a slave man, and attempting to pass through a funeral procession of colored persons.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

FRIDAY, Jan 7

Arr sch Samuel, Amee, Boston.

Ship Anna Decatur, Parsons, Boston, arr at Mobile 29th ult.

MESSAGE OF THE GOVERNOR OF MAINE.—Governor Morrill, in his message delivered to the Legislature on Friday, first adverts to the financial condition of the State. He says it demands the most exact economy in the public service; expenditures have been constantly augmenting, until ordinary receipts are behind the annual demands. The expenditures now average $160,000 over the annual average ten years ago.—This increase is attributable to a more wise and liberal policy for the promotion of education, agriculture, &c., but still needs great vigilance and watchfulness.

The receipts of the year are estimated at $368,000, expenditures $431,000. The Governor urges a large reduction in legislative expenses, and recommends biennial sessions; he then speaks of the need of the of the agricultural interest and the capacities of settling lands; refers to Aroostook emigration, but without definite recommendation as to State aid. He leaves the matter with the Legislature.

He recommends State Normal Schools, also a renewal of authority to the Land Agent to grant permits to cut timber on the public lands. He refers to an official investigation of alleged frauds in the recent election at Madawaska settlements, and suggests additional legislation to preserve the purity of the ballot box. He closes upon Federal relations, and says that State rights should be vigilantly guarded. He regards the new policy of the Federal government upon the slavery question as injurious to the rights of the free States, and calls upon the Legislature and people to maintain their resistance to the extension of slavery.

ARREST OF A VIRGINIA STATE SENATOR.—A correspondent of the Richmond Dispatch, writing from Rockingham, Va, Dec. 30, 1858, says:—

"The State Senator from this District, Mr. George E. Deneale, was arrested and lodged in jail on Tuesday evening last, on the charge of swindling the bank at Staunton of several thousand dollars, as well as several citizens of this county. Mr. Deneale has been dealing very largely in cattle for the last two or three years, and not being able to pay for all he bought, had resorted to means which led him into this difficulty. He gave a mortgage a few days since, to pay this indebtedness, which, we understand, amounted to $70,000. He was taken to Staunton on Wednesday evening, where he will have his trial. The affair has created the greatest excitement throughout the county. He has represented the District composed of Rockingham and Pendleton counties for the last eight or ten years, and there was some talk of running him for Congress.—We hear some talk that there will be other developments made, but will say nothing of them until out. His wife accompanied him to prison and remained there with him. She also accompanied him to Staunton, and seems determined to stand by him to the last."

☞ John T. Hatcher, keeper of a slave yard in New Orleans, whipped a negro woman named Eudora for an hour and a quarter, on the 23d ult., from the effects of which she died in a short time. Hatcher fled, and at last accounts, had not been arrested.

☞ Bela Squires and Mrs. Mary Cromac, whose united ages amount to 130 years, and who were married at Hartford last week, rejoice in the present possession of twenty-seven children.

Democratic State Convention.

We shall publish the official proceedings of the State Convention next week. Notwithstanding the bad travelling the Convention was a large one, many prominent Democrats from all parts of the State were present. Albert R. Hatch of this city was chosen temporary chairman, and WILLIAM BURNS of Lancaster was elected President of the Convention. Mr. Burns made a handsome speech on taking the Chair, and the Convention was also favored by Walter Harriman with a wide-awake, hammer and tongs, stand-from-under address, which was received as the stump speeches of that well-known campaigner, are always received.

Some music was made by the introduction of of the national resolutions, amendments, &c., and several patriotic and eloquent gentlemen entertained the Convention with speeches, vastly full of devotion to Democratic principles, popular sovereignty, the Administration, and other good things. On the whole, the affair passed off admirably. Resolutions endorsing the Administration in all its prominent acts, were passed by a very large majority, and the Convention broke up with enthusiastic cheers for the Democratic ticket, and for the Administration. These are the resolutions as passed:

Resolved, That the present national administration in its successful efforts to advance the means of communication between remote sections of our country—to improve our treaty relations and extend the fields of commercial enterprise—in its firm maintenance of the freedom of the seas—and the sanctity of the American flag—and in its efforts to promote the general interest of our country, commends itself to the hearty support of the Democracy of New Hampshire.

Resolved, That we heartily re-affirm the platform of principles adopted by the Cincinnati Democratic Convention, and we reiterate with renewed energy of purpose our unabated confidence in the correctness of the great principle of popular sovereignty, and we utterly repudiate the claim put forth by the self-styled Republican party, that Congress has any constitutional power to interfere with or control the domestic institutions or local affairs either of the States or Territories.

Two other resolutions were reported, the one endorsing the nominees, the other expressing an opinion of the Republican party.

Dr. Stackpole of Dover objected to the resolution in regard to the national administration, and moved an amendment as follows:

Resolved, That the Democracy of New Hampshire cordially and heartily endorse and approve of the measures and the policy of the administration of James Buchanan, and that they believe the same to be eminently wise, patriotic, just, and well calculated in their practical operations to enhance the prosperity of our common country, and maintain its honor untarnished at home and abroad.

This amendment after a spirited debate was voted down, yeas 41, nays 140, and the original resolutions were passed by a nearly unanimous vote.

Dr. Stackpole of Dover moved the following resolution which was unanimously adopted:

Resolved, That the Democratic party of New Hampshire firmly adheres to the just and well established principle of a tariff for revenue, and are entirely opposed to protection in any form or to any interest, except such as is incidentally afforded by duties levied purely to meet the necessary expenses of the government.

A resolution was adopted to hold the next Democratic State Convention in Concord on the second Tuesday of October next.—*N H. Gazette.*

ROCKINGHAM DEMOCRATIC COUNCILLOR CONVENTION.

Mr. Carter, from the committee on Resolutions, reported the following, which were unanimously adopted:

Resolved, That a manly acquiescence in a reasonable taxation, and a willing performance of those duties which the wants of the government require, is the duty of every citizen; but, in the opinion of this Convention, the enormous increase in State expenses, and the extraordinary imposition of taxes by the party now in power in this State, calls loudly upon each and every citizen to exert himself to wrest the control of our State from the hands of the men so reckless of public interest, and so determined to use their political power for personal interest and individual gain.

Resolved, That the cry of "Freedom, Temperance and Reform," which marked the advent of the Know Nothings and Abolitionists into power, in this State, has proved, in practice, as but "sounding brass"—mere hypocritical pretension; for with their despotic and arbitrary enactments in disregard of private rights; the high taxation consequent upon an expensive judiciary system; the depriving the poor man of the means of earning his daily bread for the protection of the rich merchant; their wide-mouthed sympathy for the poor blacks, with their utter disregard of the rights of the white citizen; their generally corrupt partizan legislation attempted to be enforced by partizan Judges; their trampling into the dust the claims of all candid and sincere men among them; their creating, sustaining and patronizing more tippling, tumselling and intemperance than was ever before known in this State,—all prove that the selfish leaders of that party are corrupt and dishonest, and that they are only seeking to promote and advance their own selfish interests and designs.

Resolved, That the good people of Rockingham County have abundant reason for serious reflection upon their share of the general expenses of the State government,—the cost of the Palace for the Prostitutes of Manchester and vicinity; the extraordinary increase of County expenses, and the County Jail, shamefully and infamously managed for the sole pecuniary benefit of a few desperate speculators, and at a cost vastly beyond its necessities, the profits of which are now in active operation in that excellent temperance movement, the manufacture of a beverage styled by their own organs "Dutch Swill."

Resolved, That it is the duty of every Democrat to labor zealously for the restoration of our State to its former proud position as the Banner State of the Democracy, and to that end, to lay aside all past differences and personal animosities, and plant himself upon the broad platform of the party, ever bearing in mind the good old Democratic motto—"Union, Harmony, Concession. Everything for the cause, nothing for men."

Resolved, That the success of the administration of President Buchanan, in our foreign relations, will secure to him a brilliant page in the history of our country; and as we believe he has sought, in the settlement, adjustment, and management of the various complicated, difficult and troublesome questions which have occurred during his administration, to adjust the same in such a manner as he conscientiously believed would promote the best interests of the Country, we therefore declare it as the opinion of this Convention, that his administration is justly entitled to the support and confidence of the Democratic party.

Resolved, That we still adhere to and abide by the principles and doctrines of the Democratic party, as laid down in the Cincinnati Platform.

Resolved, That we have full confidence in the Democracy of ALBERT BLAISDELL, this day nominated, and will use all honorable means to secure his election.

DEATH OF COL. STEPHEN TUCKER.—We learn from the Boston Journal that on Friday last Stephen Tucker, Esq. a well known resident of Ward eleven, died at his residence, in the fifty-eighth year of his age. Mr Tucker has been an invalid for several years. He took an active interest in municipal affairs, and was often called upon by his fellow citizens to fill various offices in the ward. He was a member of the Common Council during the years 1846, '47 and '48, and subsequently (for five years) was Superintendent of Public Lands. He was afterwards employed by the board of Land Commissioners to oversee the filling up of the new lands east of Harrison avenue, so as to secure a faithful observance of the contract. In all these capacities he was a faithful and intelligent public servant. As a man he was much esteemed by his friends and neighbors.

Col. Tucker was a native of Plaistow, in this State, where he was buried. He was formerly teacher of the North School in Portsmouth, well known and esteemed here by a circle of friends.

REPUBLICAN STATE CONVENTION AT CONCORD.

THE RESOLUTIONS.

George G. Fogg, Esq. of Concord, from the Committee on Resolutions, reported the following which were unanimously adopted:

Whereas, the Republican party was called into being by a great public danger and an urgent public necessity—the danger of subjecting our vast national territories to human slavery—and the necessity of resisting and arresting that calamity:

And whereas the surrender of those territories to slavery would be a national wrong and a national crime—a wrong to the millions of free laborers, whose blood and treasure purchased those territories for themselves and their posterity—and a crime against liberty, civilization and human progress, therefore

Resolved, by the Republicans of New Hampshire in State Convention assembled, that standing by the platform of American Independence, erected by the Republicans of the United Colonies in 1776—the national equality and inalienable rights of all men to liberty—

Standing where the Republicans of the United States stood in 1787, when by an irreparable ordinance they prohibited slavery and involuntary servitude forever, in all the then existing territories of the Union—

Standing where the Republicans of New Hampshire stood in 1820, when by the unanimous voice of both branches of Legislature, they declared that the existence of slavery in the United States is a great moral, as well as political evil, the toleration of which can be justified by necessity alone, and that the further extension of it ought to be prevented by the due exercise of the power vested in the General Government—

Standing where the Democracy of New Hampshire always professed to stand during all their existence down to 1849, in which year they passed unanimously, through both branches of the Legislature, the following resolutions:

"*Resolved*, That, opposed to every form of oppression, the people of New Hampshire have ever viewed with deep regret the existence of slavery in this Union; that while they have steadfastly supported all sections in their constitutional rights, they have not only lamented its existence as a great social evil, but regarded it as fraught with danger to the peace and welfare of the nation.

"*Resolved*, That we are in favor of the passage of a law by Congress, forever prohibiting slavery in New Mexico and California, and in all other Territories now acquired, or hereafter to be acquired, by the United States, in which slavery does not exist at the time of such acquisition."

Standing by the great landmarks of the past, by the pressing duties of the present, and the coming shadows of the future, we here to-day renew New Hampshire's oft-given pledge of devotion to freedom, and of everlasting hostility to the extension of slavery.

Resolved, That while the Republican party of New Hampshire will adhere firmly at all times to the policy of our fathers in respect to domestic slavery, they will also at all times respect the just rights of our sister States, and claim no power to interfere by national legislation with the institutions within their limits.

Resolved, That the popular sovereignty of the Kansas-Nebraska bill was delusive and fraudulent, as clearly shown by the Cincinnati platform, the Dred Scott decision, and the policy of the present Federal Administration; and that we recognize in the more recent expulsion of Stephen A. Douglas, the author of that bill, a repetition of the same delusive attempt designed to produce Northern acquiescence in doctrines fatal to the grandest idea of our free Constitution.

Resolved, That the doctrine propounded by the Federal Supreme Court in the Dred Scott case, making all national territory slave territory under the constitution, being in conflict alike with popular sovereignty and Congressional sovereignty, and equally in conflict with a long line of decisions by earlier and greater Judges of the same Court, cannot bind the judgement or control the action of Congress, or the American people; on the contrary, it furnishes new reasons for re-asserting the Jeffersonian doctrine of power and duty of Congress to prohibit slavery in the territories of the United States.

Resolved, That the attempt of the present Federal Administration to force Kansas into the Union under a slave constitution never authorized by her people, but indignantly repudiated as a usurpation, is but the national climax of a long series of wrongs and iniquities instigated by the same spirit, and all looking to the subjugation by the aid of the Northern Democracy, of our whole country under the control of the slave power. And while rejoicing over its defeat, we realize that the scheme was once the less felonious because of the energy and firmness by which the Republicans and those who acted with them in Congress and in Kansas were enabled to baffle and crush it.

Resolved, That the Democratic party during the last eight years has had but two controlling ideas—the enjoyment of the offices under the Federal Government, and the extension of human slavery as the price of those offices. The only way, therefore, to put an end to agitation, for the extension of slavery, is to put an end to the Democratic party by putting an impassable gulf between it and the price of its treason to liberty, justice and the Constitution.

Resolved, That the enormous and alarming increase of the national expenditures during the last and the present administrations, call loudly for retrenchment and reform—for the curtailment of all unnecessary offices and appropriations—for an utter reprobation of all plunder schemes—and finally, for the establishment at the head of the Government of a Chief Magistrate who will administer affairs in the most prudent and economical manner consistent with the great objects for which this Government was established.

Resolved, That we recognize the constitutional power of the general government to protect the free labor and industry of the country by legislative enactments; and that it is the duty of the government through its revenue laws, to discriminate in favor of all these great industrial interests, which are the proper objects in its factory cause.

Resolved, That we accept as the mission of the Republican party the restoration of the government to its ancient purity—to rescue the Constitution from the perversions of Slave Democracy—to restore to liberty its lost nationality—to vindicate and protect the interests of free labor, and to make our whole country the land of free men.

Resolved, That in the Hon. Ichabod Goodwin, this day nominated as the Republican candidate for Governor, we present to the people of New-Hampshire a citizen of eminent private virtues, great experience in public life, and in all his relations honest, honorable, and without reproach.—As such we pledge him the cordial support of the Republican party, and a triumphant election.

Victoria's proclamation of sovereignty over India is published. It strictly charges and enjoins "all those who may be in authority under us that they abstain from all interference with the religious belief or worship of any of our subjects on pains of our highest displeasure."

THE GREAT WONDER
Of The Nineteenth Century.
PROFESSOR WOOD'S
HAIR RESTORATIVE.
Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:
BATH, ME., Jan. 26, 1856.
PROFESSOR O. J. WOOD & CO.:
GENTLEMEN:—Having my attention called a few months ago to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably owing, while white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was acting upon what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can sincerily tell the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.
The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of this above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,
A. C. RICHARDS.
BALTIMORE, Jan. 23, 1858.
WOOD'S HAIR RESTORATIVE.
Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.
FINLEY JOHNSON.
The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.
WM. DYER.
Brookfield, Jan 12, 1858.
Professor Wood—Dear Sir: Having made trial of your Hair Restorative, I gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching, which I have been troubled with from childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or result.
Yours truly, J. K. BRAGG.
The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small. The large holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

E. P. RUSSELL'S
Patent Mastic Roofing.
Impervious to Water, and a Sure Protection against Destruction by Fire.
THE Inventor of this Roofing, labored many year to combine articles which would answer the above purposes, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now *after Five Years of the severest trial*, he would invite the careful attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN!
This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin, at much less expence than the first, and at about half the cost of the latter.
We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most confidently and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*, and after a experience of many years, it stands as reliable and as good as when first put on, without change or decay.

LOTTERIES.
THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that 11 persons have the legal right to send orders for tickets to Georgia; as the lotteries of Samuel Swan & Co. are authorized by the Legislature of this State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to puzzle the buyer. Prizes vary from $40 to $70,000; every prize being drawn, and result of drawing forwarded to all purchasers
☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers—New York *Daily Herald*, *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & CO., Savannah, Georgia
Prizes paid in full—no percentage deducted from prizes as in other lotteries.
All communications strictly confidential. m18 1y

DR. J. B. HUGHES,
KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the iniquitous inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to any place near or other than, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
DR. HUGHES can with safety say during the last year or thirty months in Boston, more than two hundred cases of disease which have been improperly treated by empyrics have come under his notice, some of which have been of a number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path to health by the experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMEDY, NOVATING PILLS. These pills are unrivalled in efficacy and superior virtues in curing all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are now being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 d1y

Dye your Hair and Whiskers.
BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her grey hair.
Look at that gentleman's whiskers—Hutchins' Hair Dye makes them look so handsome.

UNITED STATES AND FOREIGN
PATENT AGENCY.
SAMUEL COOPER,
Late Principal Examiner of Patents in the United States Patent Office, at Washington,
HAS REMOVED HIS OFFICE TO
WEBSTER BANK BUILDING,
13 EXCHANGE STREET, BOSTON.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed.—Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extension procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured through prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From Hon. Chas. Mason, Commissioner of Patents.
U. S. PATENT OFFICE, Feb 23, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with the office with whom I am acquainted.
CHARLES MASON, *Commissioner.*

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY S. RENWICK,	*Principal Examiners.*
L. D. GALE,	
S. H. LAKE.	
T. E. TWEE	*Assistant Examiners.*
THOS. T. EVERETT,	
F. SOUTHGATE SMITH,	
WM. G. LANGDON.	

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues. W. P. N. FITZGERALD,
Late Principal Examiner of Patents
Boston Jan. 7 1858 1y TuTh & Sat.

Morning Chronicle.

TUESDAY, JANUARY 11, 1859.

HISTORY SET RIGHT.—The N. H. Gazette of Saturday speaks of—

"W. H. Y. Hackett, Esq., a very ancient federalist, a coadjutor of Alexander Hamilton, and, if we remember right, one of the Secretaries of the Hartford Convention."

Uncle Toby happens to remember when Mr. Hackett first became a voter, which was not until the federal party had been dead and buried some years,—and not until long after Hamilton was killed by Aaron Burr.

Now as a coadjutor is a helper, it is somewhat difficult to see how Mr. H. could help a man who had gone the way of all the earth.

Once more, the Hartford Convention closed its session when Mr. Hackett was a school-boy, so that he must have been a most juvenile secretary, and might have been making pot-hooks and trammels in his first writing-book.

If this is to be taken as a fair sample of accuracy in personal matters, and of political men, the Gazette will be *invaluable*, as standard authority.

HIGH PRAISE FROM AN OPPONENT.—Speaking of the Republican nominee for Governor, the N. H. Gazette says:

Of Mr. Goodwin, the nominee, we have, at the present time, but little to say. His private character is above reproach, and as a neighbor and citizen he is deservedly esteemed. Many necessitous people and worthy objects have been the recipients of his unostentatious charity and generosity. As a business man, he has been successful, and has a reputation for liberal enterprise and honorable dealing which no one will gainsay. So much, and perhaps more, we feel it proper to say with regard to his private virtues; but as a politician, &c.

The Concord Democratic Standard says, speaking of the Republican Convention:

Hon. Ichabod Goodwin, of Portsmouth, was nominated for Governor. Mr. Goodwin was formerly a whig, and is altogether quite a respectable gentleman, and without doubt the most popular man in the party. On account of the treachery and duplicity of the Butterfield conspirators, he will receive many Democratic votes, though we shall not be classed in that number.

☞ The funeral of Rev. Dr. Nichols, of the Unitarian Church in Portland, took place on Friday in that city. Rev. Messrs. Frothingham and Stebbins performed the devotional services, and Rev. Dr. Peabody of this city preached the sermon. The Advertiser says of it:

The discourse of Dr. Peabody was chaste and simple in style, and was heard with the most profound attention. It was founded on 3d Timothy, 1: 10:

Our Savior Jesus, who hath abolished death.

Strong language this, yet not mere rhetoric. It was a literal transcript of the apostle's faith. The life of Paul hung on the caprice of the terrible Nero. Yet it was jubilant and triumphant throughout. Death is destruction, not annihilation. A death which leaves the principle of life unchanged, is not death. The sensualist does die and will die. Our departed friend has died in form, not fact. It is not death. There has been no change in the essential character of his work: it is only a new blooming—an enlargement of thought.—Faith cannot die. It renders death powerless—effete—impossible. Seldom has one departed who had so little of life to leave.

☞ In Congress, on Saturday the *Senate* did not sit; in the House, after some business had been done,

Mr. Vallindingham of Ohio, reminded the House of the fact that this was the anniversary of the battle of New Orleans, that the Senate had set a patriotic example by adjourning over, and that from his information Congress had not sat on such an occasion for fifteen years. For these reasons he moved that the House adjourn.

Negatived. 86 against 93.

Some other business was attempted, and a little transacted, when

Mr. Davis of Miss. moved that the House adjourn.

Mr. Morgan of N. Y. demanded the yeas and nays, saying that he wished to show for what the Administration Democrats are wasting time.

Mr. Leiter of Ohio remarked that if the Democrats are determined that no business shall be done, the House had better adjourn.

The question was decided in the affirmative by 7 majority, and the House adjourned.

☞ Speaking of the Democratic Convention, which ignored President Buchanan and his administration, the Democratic Standard says:—

It such is the position in which the Democracy of this Congressional District and State are to be placed, we think that portion of the Democracy who have faith in the policy of the President, and sustain his administration, will be quite likely to set up new candidates, on a platform in conformity with the Cincinnati Platform as interpreted by Mr. Buchanan, or, so far as they are concerned, permit the election to go by default.

☞ A vessel has arrived New York, from Cuba, bringing back from that island thirty-two American citizens who had been induced to go to work as laborers on the railroad from St. Jago to Trinidad, but who on their arrival out, found they had been deceived. The Cuban government had caused them to be sent home at the company's expense. It was the presence of these men in Cuba which gave rise to the recent rumors of an intended revolution by Americans in that island.

☞ Madame Kiesselhorff, the lady of the Russian ambassador to Paris, is so exceedingly beautiful as to have been called the "Rose of Russia." She is so ardent a defender of woman's rights, that her husband does not dare to present himself at her grand entertainments unless he receives a written invitation. She dresses in black lace or velvet, with a profusion of rich jewelry, and is an inveterate and very successful gambler.

☞ Mrs. Warren Fisher, of Boston, the daughter of Dr. Winslow Lewis, who was so severely injured by the singular accident at Danniell & Co.'s store on Summer st., caused by the falling of an avalanche of snow through a skylight, together with the heavy fragments of glass, of which the window was composed, died Thursday morniag, at about three o'clock, after lingering for over three days in great suffering.

☞ Another version of the Kansas troubles, comes to us *via* Washington, whence the Traveller's correspondent writes:—

"The report that Gov. Medary of Kansas has called on the President for a regiment, or 1000 troops, as some have it, to put down border troubles, is, I am satisfied, without further foundation than is found in the dispatches of Gov. M., giving an account of the lawlessness of those who were brought there by Titus Buford, and others, and who now have to live by their swords."

DOUBLE TRAGEDY.—In Barry county, Michigan, a few days since, a singing master had a difficulty in his school with some rowdies, and dismissed the school.—As the master was going out, one of the rowdies stabbed him dead on the spot. A young man caught up a stick, and, striking the assassin a blow, killed him instantly.

☞ The New York ship Isaac Wright, while at anchor in the river Mersey, all ready for sea, with passengers on board, caught fire below, but all hands were saved. The vessel was nearly destroyed.

The barque Kate Wheeler, from Genoa for Boston, with a cargo of marble, was abandoned 13th ult. and all hands saved.

PORTLAND MUNICIPAL COURT.—Jan. 7. John McCulloch for illegally selling intoxicating liquors, was sentenced to pay a fine of $10 and costs. From this judgment he appealed.

The liquor and vessels seized at the store of Enoch Jones on Fore street, were declared forfeited to the use of the city, no one appearing to claim the same.

☞ We believe it has been customary to pay the Fishing Bounties in December, but the Washington correspondent of the Boston Herald under date of 7th inst. writes, that "the Treasury will have no money for the payment of fishing bounties until about the 25th inst."

☞ The Philadelphians are petitioning Congress for an enlargement of the Navy Yard in their city. The yard is now but 16 acres in extent, while the one at Brooklyn is 119 acres, the one at Norfolk 80 acres, and the Boston yard about the same. Portsmouth, N. H. Yard, about 60.

☞ Rev. Theodore Parker, of Boston, had an an attack of bleeding at the throat or lungs, last Sunday morning, and probably will not preach again very soon, if ever.—He is to sail for the West Indies, for his health.

☞ Rev. Charles Robinson, pastor of the Unitarian Church in Peterboro', has tendered his resignation, which has been accepted, with the understanding that Mr. Robinson shall supply the desk for the next six months.

It is said that it has cost the public over forty thousand dollars to convict Cancemi of manslaughter in the first degree.—This is certainly an expensive justice.

Truly it is: and wonderfully strange is the verdict too. He was a murderer of the deepest dye.

☞ In Milford, Mass., during the year 1858, about 115,000 cases of boots were manufactured, or 1,380,000 pairs, valued at about three millions.

IMMORTELLES.

SELECTED OR WRITTEN FOR THE CHRONICLE, BY ALBERT LAIGHTON.

A WINTER SCENE.

But Winter has yet brighter scenes;—he boasts
Splendors beyond what gorgeous Summer knows;
Or Autumn, with his many fruits and woods
All flushed with many hues. Come, when the
Have glazed the snow, and clothed the trees with
ice,
When the slant sun of February pours
Into the bowers a flood of light. Approach!
The incrusted surface shall upbear thy steps,
And the broad, arching portals of the grove
Welcome thy entering. Look! the massy trunks
Are cased in the pure crystal; branch and twig
Shine in the lucid covering; each light rod,
Nodding and twinkling in the stirring breeze,
Is studded with its trembling water-drops,
Still streaming, as they move, with colored light.
But round the parent stem the long, low boughs
Bend in a glittering ring, and arbors the
The glassy floor. O! you might deem the spot
The spacious cavern of some virgin mine
Deep in the womb of Earth, where the gems grow,
And diamonds put forth radiant rods, and bud
With amethyst and topaz.

CHILDREN.

Ah! what would the world be to us
If the children were no more?
We should dread the desert behind us
Worse than the dark before.

What the leaves are to the forest,
With light and air for food,
Ere their sweet and tender juices
Have been hardened into wood,—

That to the world are children;
Through them it feels the glow
Of a brighter and sunlier climate
Than reaches the world below.

Longfellow.

ON FORTUNE.

Will fortune never come with both hands full,
But write her fair words still in foulest letters?
She either gives a stomach, and no food,—
Such are the poor, in health; or else a feast
And takes away the stomach.—such are the rich,
That have abundance, and enjoy it not.

—Shakspeare.

Weekly Chronicle Correspondence.

WEARE, N. H., Jan. 1.

To Friend Torrent, down to Chronicle:

I have followed your winding and much perplexed course from the Head of the White Mountain Torrent, through all your tribulations, down the valley of the Merrimac, over rugged and dangerous places, (although at some periods your path looked smooth,) until I have seen you safely anchored in the pleasant Harbor of Portsmouth. I must now bid you adieu, and retire to rest for a time.

Friend Editor, Guardian of the Chronicle, please strike off my name from your list of subscribers, (as I think we are even in account,) and you will oblige your friend

J. D. C.

P. S.—"Husband," says wife, as she came along and looked over my shoulder, "what in the world art doing? What! stop my paper! Thee knows I don't read much in any other—and all the Temperance paper we have too. This looks like backward tracks. Why not stop some of our political, and continue the temperance paper a while longer?—it would suit me much better?"

Friend Miller,—you see what pleases wife. Will you please accept this dollar, which I enclose; send a receipt, and continue my name for a season on your list. Always please the wife if a dollar will do it.

☞ The Chicago times, the home organ of Mr. Douglas, and which always speaks by authority, says:

"Mr. Douglas will not ask a nomination at the hands of the Charleston Convention If is that body his friends should present his name, and he be nominated, he will not feel at liberty to decline it; if his friends should not present his name, then the nominee of the convention will receive his support. The use of his name by any men or body of men, as a candidate for the Presidency or any other office, independent of and hostile to the nominations of the Democratic party, is altogether unauthorized by Mr. Douglas, will never receive his sanction, and is wholly repugnant to his wishes and desires. We say this much with a full knowledge of its truth, and knowing that we express in this particular his own sentiments."

BANKS OF NEW YORK.—The bank note circulation forms but a comparatively small part of the business of the country. As an illustration, it is remarked that all the bank notes in the State would hardly suffice to pay the fare of each citizen once over the railroad from Albany to Buffalo.

Bonds and Mortgages have been found inferior to stocks for securing the circulation. Although furnishing ultimate security, they lack immediate convertibility.

It is a noticable fact that while the amount of bank capital has risen, in round numbers from $45,000,000 in 1849, to $110,000,000 in 1858, currency has presented a slight comparative increase, with occaional fluctuations, until it has fallen back to within nearly $3,000,000 of the amount in 1849.

☞ The New York Independent says that nearly four hundred church members of Mr. Beecher's charge were convicted for, by the recent letting of pews at his church, so great was the demand.

☞ The Brunswick Telegraph states that the father of the boy (Morse) who assaulted his school teacher, Mr. Stanwood, has settled the matter by paying something like $500 damages.

☞ The whole number of deaths in Concord last year was 165. The oldest person was 92.

NEW YORK, Jan. 10.—Reports from Washington state that the troubles in Kansas continue to cause the Administration considerable anxiety. A special messenger from that territory reports that Montgomery and Brown, with their partisans, were determined on making a desperate stand.

The action of the Missouri Legislature in calling out volunteers against them had caused great exasperation and was likely to result in a bloody civil war. This interference of Missouri is deprecated in influential quarters in Washington, and it is considered the duty of the President to prevent it. An extra Cabinet meeting to discuss the matter was held Saturday night. The course of action resolved upon has not yet transpired, but it is thought that the interposition of the government troops will be ordered.

☞ Speculators are in Chicago selling lots at $20 each, whose pretended location is at Pike's Peak, the new gold country, but real location nowhere. The lands have not even been surveyed.

☞ The whole number of deaths in Fitchburg last year was 128. Ten of the deceased were between 80 and 90 years of age, and ten were over 90.

Sewing Machine Concert.

There will be a
GRAND ENTERTAINMENT
—OF—
Vocal & Instrumental Music,
AT THE TEMPLE, IN PORTSMOUTH,
TUESDAY Evening, Jan. 18th, 1859.

The Portsmouth Cornet Band,
WITH
A Brilliant quartet Club
COMPRISING
MR. H. S. THOMPSON, new of Boston,
The well known popular Composer and Singer.
TENOR, AND BALLADIST,
Mrs. JOHN N. NEWELL, of Boston,
A splendid vocalist,—late first soprano at Charles St. Church,
Mr. WINGATE N. ILSLEY, Bass,
and an accomplised Alto—will furnish the Music on the occasion.

Tickets, One Dollar.

1000 numbered Tickets will be sold,—and at the close of the Musical Exercises, a Committee of three gentlemen chosen by the audience, will distribute among the ticket-holders,

Ten New Sewing Machines,
VALUED AT
$100 Each,
from the celebrated Manufacturing Co. of
GROVER & BAKER.

The Programme of the Musical Performances,—which will be of a superior order—will be shortly announced.

THE GROVER & BAKER
SEWING MACHINE CO.,
18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing the CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;
PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of FIFTEEN HUNDRED STITCHES A MINUTE, and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

SPECIAL NOTICES.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption after three years' standing, by using Dr. Clarke's Patent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

TESTIMONY.—Drs. J. B. N. Gould, Niles Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

R. R. R.

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state, of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The R. R RELIEF remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous inability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most of obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The R. R. R. will raise you from your bed of suffering in a few hours.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worm, Barber's Itch, Bolls, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin,

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom ground Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article so common so disagreeable to the taste.

Though not intended solely as a medicine, it is recommended by many eminent physicians, especially in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from the distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority in America, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Western States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER is genuine.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co, 1 Cornhill; S. K. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 75 Hanover st.; R. H. A CARD TO THE LADIES.

DR. DUPONCO'S
French Periodical Golden Pills,
FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by JOSEPH H. THACHER, in Dover by John A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and will send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N. B.—Ladies will be particular in asking for *Dr. Duponco's Golden Pills.* Observe the signature *J. Duponco* is upon each box. You will then obtain a PILL YOU can rely upon.

LOCAL.

☞ A correspondent recommends that the City should buy the South Mill Pond, and the lands around it, which are not used for dwelling houses: that they fill the pond, dig out a liberal channel for drainage; grade the grounds, plant trees and flowers on the lower part, lay out streets, and sell the higher land for house lots. If the city decline, he recommends the same measures to a company of citizens, who might use their money in doing the work, giving employment to many laborers, and get their reward from the proceds of the garden, promenade, and house lots.

The writer says, "while spending some of our leisure hours in walking in scenes resembling the garden of Eden, we may reflect that for the scenes like those about us, our Creator made man in his own likeness."

Tobacco.—We gladly give place to the following notice, from the author of the most telling and unanswerable series of tobacco tracts ever published. We hope to hear him this way, ere long—there is need enough of it, where the conduct of probably a majority of the adult male population, proves that "they love 'the weed' more than the ladies."

Editors of Chronicle — Dear Sirs: — I have now and then given a lecture at Lyceums, on the History and Poetry of Tobacco. Partial judges have thought it both amusing and instructive, and have awarded to it the rare characteristic of making a greater *dent* on the *habits* of gentlemen than on their *purses*, or of making more converts than dollars.

Permit me to say to your readers, that when current lectures, like pleasant coruscations, shall leave our skies, I shall be glad to give this lecture wherever invited, with the hope that its more humble lightning may *strike* somewhere and leave a *dent* that may be visible.

Ladies whose friends love the "*weed*" a little better than they love *them*, or gentlemen who have a taste for *facts*—*facts* both grave and humorous, on a mighty theme, may pay for the lecture what they please; I ask no more. Geo. Trask.

Fitchburg, Mass, 1859.

☞ The editor of the Journal don't like the Sewing Machine Concert, advertised in the papers, to take place on the 18th inst. *He* announces a lottery—but we learn from the manager of *this* entertainment, that there will be no lottery about it; but that a committee chosen by the audience, will distribute the ten Sewing Machines among the ticket-holders as they see fit.

The Journal man also talks of having a good time generally at Jefferson Hall, with all sorts of gambling implements—most of which we never saw, and some of which we never heard of before. Perhaps he will have the Printer's Annual Lottery drawn there—and if he does, we advise all the ticket-holders to look out, for the Deacon is pretty sure of *that* prize. r.

☞ Mrs. Macready, to comply with numerous requests, will on Wednesday evening appear in her celebrated character, as arranged by herself, of the Maniac Wife.

☞ The ice in some of the streets is formidable,—especially in Fleet street, where the oozings of some Stygian Pool come out in dingy streams, and congeal to the depth of a foot or two above the proper level, at once unsightly and dangerous.

☞ The editor of a weakly journal published in an obscure back alley, somehow gets or thinks he gets light brighter than his neighbors—and thence dictates to those whom he deems surrounded by darkness equal to his own, as to the manner in which they ought to spend their evenings and their dollars. w.

Social Levee.—The Levee of the Ladies' Charitable Society of Greenland, was postponed, on account of the weather; and will be held on Wednesday next, Jan. 12th, at Academy Hall. Admission 25 cents. Collation free. A general invitation is extended.

An Extraordinary Platform.—A Democratic newspaper at Grand Rapids, Wisconsin, thus lays down its platform:

"It will advocate the principles of that party of which Jefferson was the founder, of which James Buchanan is, to-day, the representative, and Stephen A. Douglas the able expounder."

If that editor hasn't got his hands full, no man ever had. It is like the announcement of the Hard Shell Baptist expounder that he should preach the doctrines of the Apostle Paul as illustrated in the lives and labors of Voltaire and Brigham Young. —*Atlas.*

Tileston E. Barker of Westmoreland, N. H., has been appointed special routeagent from Lawrence, Mass., to Bradford, N. H., with a salary of $600 per annum. Mr. Barker was removed from a similar position about a year since by a process known in New Hampshire politics as "*Burking*," and is probably indebted for his re-appointment to the postal service, to the intercession of Mr. Merriam o the Concord Patriot.—*Boston Journal.*

BY THE TEHUANTEPEC ROUTE.

New Orleans, Jan. 8.—The steamship Quaker City, with 120 passengers, and San Francisco dates of Dec. 20, arrived here this evening.

The Pacific mail steamer John L. Stevens had on board $1,366,000 for New York, 100,000 for this city, and $743,000 for England.

Business at San Francisco was dull, and the market generally unchanged.

Dates from the city of Mexico are to the 26th ult. Gen. Zulonga had been deposed by the forces under Gen. Rables, and had taken refuge in the house of the English Minister.

Gen. Rables announces himself as the head of the Conservatives and has sent Commissioners to Vera Cruz to treat with Gen. Juarez for a union with the Liberals.

COURTSHIP OF MILES STANDISH.
A True Historical Romance.
BY MOSES BULLINS, 1792.

Miles Standish in the Mayflower came
Across the stormy wave,
And in that little band was none
More generous or brave.

'Midst cold December's sleet and snow
On Plymouth rock they land; [hearts,
Weak were their hands, but strong their
That pious pilgrim band.

Oh, sad it was in their poor huts,
To hear the storm wind blow;
And terrible at midnight hour
When yelled the savage foe.

And when the savage, grim and dire,
His bloody work began,
For a champion brave, I have been told,
Miles Standish was the man.

But oh, his heart was made to bow
With grief and pain full low,
For sickness on the pilgrim band
Now dealt a dreadful blow.

In arms of death so fast they fell,
They scarce were buried,
And his dear wife, whose name was Rose,
Was laid among the dead.

His sorrow was not loud but deep—
For her he did bemoan;
And such keen anguish wrung his heart,
He could not live alone.

Then to John Alden he did speak;
For Alden was his friend;
And said, "friend John, unto my wish
I pray thee now attend.

"My heart is sad, 'tis very sad,
My poor wife Rose has gone;
And in this wild and savage land
I cannot live alone.

"To Mr. William Mullins, then,
I wish you would repair,
And see if he will give me leave
To wed his daughter fair."

Priscilla was this daughter's name,
Comely and fair was she,
And kind of heart she was withal,
As any maid could be.

John Alden, to oblige his friend,
Straightway to Mullins went,
And told his errand like a man,
And asked for his consent.

Now Mr. Mullins was a sire
Quite rational and kind,
And such consent would never give
Against his daughter's mind.

He told John Alden if his child
Should be inclin'd that way,
And Capt. Standish was her choice,
He had no more to say.

He then called in his daughter dear,
And straightway did retire,
That she might with more freedom speak
In absence of her sire.

John Alden had a bright blue eye,
And was a handsome man,
And when he spoke, a pleasant look
O'er all his features ran.

He rose, and in a courteous way,
His errand did declare,
And said, "fair maid, what word shall I
To Captain Standish bear?"

Warm blushes glowed upon the cheeks
Of that fair maiden then;
And first she turned away her eyes,
Then looked at John again;

And then, with downcast, modest mein,
She said with trembling tone,
"Now prithee John, why dost thou not
Speak for thyself alone?"

Deep red then grew John Alden's face,
He bade the maid good bye;
But well she read before he went,
The language of his eye.

No matter what the language said,
Which in that eye was rife—
In one short month Priscilla was
John Alden's loving wife.

Just Twenty One years ago this day, appeared in the Portsmouth Journal my first advertisement to the citizens of Portsmouth and its vicinity, under the head of

"A NEW APOTHECARY STORE,"

a young man's first appearance before the public, soliciting a share of their patronage in an important era in his lifetime; and it was with no small degree of diffidence, mingled with hopes and fears for the result, that I commenced life for myself, as an utter stranger among strangers.

But friends and patrons soon responded liberally to my call; and as I look back upon this long series of years, I recall to mind many, very many, warm friends and patrons, many of whom are still living, while many others have been called to that bourne from whence no traveller e er returns; yet their memory still lives, and their deeds of kindness ever bring to recollection my warmest gratitude.

To all my patrons I extend my sincere and heartfelt thanks, and in soliciting a continuance of their favors, I assure them in return my most devoted attention.

SCRIPTURE TEXTS AGAINST INTEMPERANCE.

OLD TESTAMENT.

LEV. x: 8, 9. And the Lord spake unto Aaron, saying, Do not drink wine nor strong drink, thou, nor thy sons with thee, when ye go into the tabernacle of the congregation, lest ye die: it shall be a statute *forever* throughout your generations.

PROV. xx: 1. Wine is a mocker, strong drink is raging: and whosoever is deceived thereby is not wise.

PROV. xxiii: 20, 21, 29, 30, 31, 32. Be not among wine-bibbers; among riotous eaters of flesh: for the drunkard and the glutton shall come to poverty: and drowsiness shall clothe a man with rags. Who hath woe? who hath sorrow? who hath contentions? who hath babbling? who hath wounds without cause? who hath redness of eyes? They that tarry long at the wine; they that go to seek mixed wine. Look not thou upon the wine when it is red, when it giveth his color in the cup, when it moveth itself aright. At the last it biteth like a serpent, and stingeth like an adder.

ECCL. x: 17. Blessed art thou, O land, when thy king is the son of nobles, and thy princes eat in due season, for strength, and not for drunkenness.

IS. v: 11, 20, 21, 22. Woe unto them that rise up early in the morning, that they may follow strong drink; that continue until night, till wine inflame them! Woe unto them that call evil good, and good evil; that put darkness for light, and light for darkness; that put bitter for sweet, and sweet for bitter! Woe unto them that are wise in their own eyes, and prudent in their own sight! Woe unto them that are mighty to drink wine, and men of strength to mingle strong drink.

IS. xxviii: 7. But they also have erred through wine, and through strong drink are out of the way; the priest and the prophet have erred through strong drink, they are swallowed up of wine, they are out of the way through strong drink; they err in vision, they stumble in judgment.

JER. xxxv. The Rechabites in obedience to a command of their father, refuse to take wine, and receive in consequence the special blessing of God.

DAN. i: 8. But Daniel purposed in his heart that he would not defile himself with the portion of the king's meat, nor with the wine which he drank.

HOSEA iv. 11. Whoredom and wine and new wine take away the heart.

HAB. ii. 15. Woe unto him that giveth his neighbor drink, that puttest thy bottle to him, and makest him drunken also.

NEW TESTAMENT.

LUKE i: 13, 14, 15. Fear not, Zacharias: for thy prayer is heard; and thy wife Elizabeth shall bear thee a son, and thou shalt call his name John. And thou shalt have joy and gladness; and many shall rejoice at his birth. For he shall be great in the sight of the Lord, and shall drink neither wine nor strong drink.

LUKE xxi: 34. And take heed to yourselves, lest at any time your hearts be overcharged with surfeiting and drunkenness, and cares of this life, and so that day come upon you unawares.

ROMANS xiii: 13, 14. Let us walk honestly, as in the day; not in rioting and drunkenness, not in chambering and wantonness, not in strife and envying: but put ye on the Lord Jesus Christ, and make not provision for the flesh, to fulfil the lusts thereof.

I COR. v: 11. But now I have written unto you not to keep company, if any man that is called a brother be a fornicator, or covetous, or an idolater, or a railer, or a drunkard, or an extortioner; with such a one no, not to eat.

I COR. vi: 10. Nor thieves, nor covetous, nor drunkards, nor revilers, nor extortioners, shall inherit the kingdom of God.

GAL. v: 19, 20, 21. Now the works of the flesh are manifest, which are these: adultery, fornication, uncleanness, lasciviousness, idolatry, witchcraft, hatred, variance, emulations, wrath, strife, seditions, heresies, envyings, murders, drunkenness, revellings, and such like: of the which I tell you before, as I have told you in time past, that they which do such things shall not inherit the kingdom of God.

EPH. v: 18. And be not drunk with wine, wherein is excess.

TITUS i: 7, 8. For a bishop must be blameless, as the steward of God; not self-willed, not soon angry, not given to wine, no striker, not given to filthy lucre; but a lover of hospitality, a lover of good men, sober, just, holy, temperate.

Indian Physician.

Dr. B. S. GOODWIN

Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.

ADVICE FREE.

Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are the best for purifying the blood, and eradicate all diseases from the system.

THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in first stage, Coughs, Colds, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsy; Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.

No Mercury! No Bleeding! No Blisters! Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1858.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably two-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it; I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some, I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to complain of its effects. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here who plying towns. And you can say make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, and retails for $1.75; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove a sel morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, and giving it a great well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long time.

One bottle taken for Jaundice removed sallowness or nauralgia from the skin.

Bilious Attacks are cured, and, what is generally dreaded by all occasional use of the Liver Invigorator.

One dose taken after eating, is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents nightly fears.

Only one dose taken at night, loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Colic.

One dose, often repeated, cures Chronic Diarrhœa in its worst form, while Summer Diarrhœa and Dysentery yield almost to the first dose.

A few doses will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chills and Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE ONE DOLLAR PER BOTTLE.

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Inventor of this Roofing labored many year to combine articles which would answer the above purposes, and claims the difficulties of Nest and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this has succeeded in doing, and now *after Five Years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN!

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or 1 n, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

Great Falls, Nov. 22, 1858.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all prizes drawn are at right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same come to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $70,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to Samuel Swan, Augusta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who will suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or other means, to any place in the country, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicine sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from his place by the false pretence of his experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS! These pills are unrivalled in efficacy and superior virtues in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practised by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with the directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. 1y2 dly

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

Look at that gentleman's whiskers—Hutchins' Hair Dye makes them look so handsome.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents.

(Late Agent of U. S. Patent Office, Washington, under the Act of 1857.)

No. 76 State st, opp. Kilby st, Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

Boston, February 8 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their case, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

R. H. EDDY.

WEDNESDAY, JANUARY 18, 1859.

A SAD STORY.

A few days since the remains of a woman were found in a filthy tenant house in Mulberry street, New York, wholly divested of clothing, and in the same room a bright lad eight years old, nearly famished. It was at first supposed that the woman had died of starvation, but the facts brought out at the coroner's inquest showed that she was a victim of intoxicating liquors, and died of delirium tremens. The woman was the widow of the late Col. Thomas Hughes, formerly of the U. S. army, who committed suicide at a madhouse in France. Only a year ago Mrs. Hughes was living at the Metropolitan Hotel in New York, and afterwards at the Prescott House. Her descent was rapid. She formed habits of intoxication; her friends deserted her, and her money was soon gone. One by one she sold and pawned her articles of jewelry and dress, and spent the avails for liquor, until she actually sold the last article of dress she had for a drink of brandy. What can be more affecting than the story of her little son before the coroner:

Thomas Hughes, sworn—I am eight years old; the deceased was my mother;—she has been ill five or six weeks, and complained of pains in her head and limbs; sometimes we had nothing to eat for two or three days; I was at one time three days without anything to eat except a small piece of crust; Mr. H. B. Tebbetts, my uncle who lives on Broadway, used to assist us occasionally; my mother used to drink a great deal of liquor; she was crazy a few days before she died, and said she was going to kill me with an axe; and she one time got a knife, and tried to stab me with it; just before she died she said she was very cold; she asked me to take hold of her hands and help her to the fire, so that she might warm herself; her eyes looked wild and strange; I tried to help her to the fire, but she died.

Mother sold all her clothes before she died for rum; she took everything off from her; I pledged a skirt for her for six cents at a junk shop; they told me I might have it again for seven cents; she took off her clothes, one by one, and sold them till all were gone, so that she had nothing on her when she died; she sold her chemise to a woman for three cents, and sent me with the money to buy brandy.

This is very plain talk, and carries with it a most obvious moral, viz.: Touch not, taste not, handle not, anything that intoxicates. It is a dismal story to tell of *such* a woman: but why is it really worse than some similar stories of more obscure women or men in this city?

We know whereof we affirm, when we say, that for the last two years, at least one homicide, suicide, or death by drink direct, has occurred for each and every sixty days! We think the number is larger, but we could put names to those we mention; and no well informed person can dispute the fact. Why then does there come up such a howl or squeak from filthy sty, or corrupt kennel, when any moral suasion is applied to the moral cancer!—And why does any bloated poodle or starveling cur bark out his impotent rage at the noble men and women who endeavor to stay the progress of the evil?

That there is a sottish public opinion to a certain extent in favor of intemperance, is doubtless true; but it is not universal, nor is it gaining among decent people.—such examples as the above are the things to make it *odious*, as it ought to be—and this is a good reason for their publication.

A man named Ricker, who recently eloped with and married a fair damsel at Milford, Mass., where he passed by the name of Merrow, has been arrested for cattle-stealing at Rochester, N. H., where he also has a wife, to whom he will now have an opportunity of explaining his absence from home for the last six months. —*Exchange.*

The Rochester Review says, the individual above alluded to, is Isaac Ricker, who was convicted of stealing a number of sheep and a heifer and selling them to Mr. Leonard Smith of Rochester. He avoided arrest and went to Massachusetts, and by altering his name, he escaped detection until his whereabouts were discovered about a week ago, he having located in Holliston, Mass. Deputy Sheriff Legro immediately went to Holliston, took him in custody, and brought him to Dover jail, where he is awaiting his trial.

A NOBLE DONATION. — A noble commencement has been made by some generous friend of science in Boston or vicinity, to the fund for the preservation of the priceless zoological collection of Professor Agassiz, of Harvard University. The sum donated is fifty thousand dollars, which is not to be used for the erection of a building or salaries.

A SURPRISE.—Not a surprise party, gentle reader,—no, no,—the people didn't come to give Uncle Toby a gold watch, or a silver pitcher, or any such trifle. But just as he had set history right about his friend Hackett, whom he had relieved from some apocryphal fame, an unknown friend sent him a copy of the "Minutes of the General Association of New Hampshire," at their 49th Annual Meeting, held at Hampton last August.

For this document he feels much obliged; and he read it with great interest, as he always does. But when he came, at the end of the book, to the very convenient Alphabetical Catalogue of the Congregational and Presbyterian Ministers of New Hampshire, he was quite *surprised* to see among the M's, "Miller, Tobias H., Portsmouth," with a reference purporting to show that he is a member of the Piscataqua Association.

He would say, in correcting the error, that though he was formerly of the last named body, he withdrew about ten years ago, on account of a change in views of doctrine, and was dismissed from it at his own request, since which time he supposes his name has not appeared on their list till now.

The error can occasion him no inconvenience; does him no harm, and is surely no ground of offence to him nor probably to any one else. But by what means the error crept in, or who made it, he has no idea. He corrects it now, merely to set history right.

☞ A Sing Sing letter says there are at present in the State Prison there 1013 male convicts and 112 female. Mrs. Robinson, the veiled murderess, and Mrs. Littles, are the lions among the latter.—Mrs. Robinson is employed in trimming hats, when employed at all. For two months she has been locked in her room, her conduct being so vicious as to render it necessary. She has wholly failed to make any one believe her insane. Mrs. Littles is employed in the same business, and conducts herself with propriety and obedience to the discipline. Huntington, the Wall street forger, is the lion among the male convicts. He is bookkeeper to the cabinet shop, and is one of the best prisoners ever in the institution, states the Rochester Union.

☞ In the case of the yacht Wanderer, in the U. S. Commissioner's Court at Savannah on the 3d inst., Dr. Dukes, physician, testified to medical treatment upon certain negroes who spoke no language that he understood. He did not know where they came from nor anything about them. One died and two were spirited away, having suffered some time from the itch, pneumonia and pleurisy. Lieut. Upshur was then sworn, but before proceeding to examine the witness' counsel conferred together and District Attorney Ganahl asked Judge Henry to commit the prisoners to answer before the next term of the United States District Court.—Judge Henry replied that the evidence before him was sufficient to warrant their committal, and he would do so unhesitatingly. The court then adjourned.

☞ In the U. S. *Senate* on Monday, Senator Douglas took his seat, and voted against the bill to pay off the old French claim, which passed the Se e 28 to 20. The Senate also passed the Military Appropriation bill.

The House passed the Indian appropriation bill.

AN OLD SETTLER.—Mrs. Winn of Somerville, now in her 90th year of age, visited Boston one evening last week for the purpose of paying her respects to a great great grand-daughter, who has lately become a bride. Mrs. Winn has lived to see the fourth generation of her family connections married. Mrs. Winn enjoys good health at the present time, and can read without the use of glasses.

☞ The Washington correspondent of the N. Y. Tribune says:

The friends of the French Spoliation bill figure out in the House a majority of three in their favor.

There are intimations of an intention to recommit the Pacific Railroad bill to the Select Committee, thus disposing of it till the next Congress. It is understood that Senator Wilson will speak on the subject to-morrow, Tuesday, and that he will discuss the practicability of the extreme Southern route, and expose the partiality shown to that route by the past and present administrations.

The Committee on Foreign Affairs meet to-morrow, Tuesday, to consider the proposition to put ten millions of dollars at the disposal of the President to purchase Cuba.

A SEASONABLE TOAST—Here's to the banks of our rivers—the *banks* that never fail; and here's to the plough-*share*—the more of which a man has in the aforesaid *banks* the better for him.

☞ The following letter is from a former minister of this city, who feels deeply and labors earnestly in the cause of humanity.

FREETOWN, Mass, Jan. 8.

Messrs. Editors:—In traveling from place to place, in different states of New England, I see everywhere the terrible effects of intemperance. I think I see abundant proofs of the correctness of opinions which I expressed four years ago last November, at a Temperance Convention held in the Temple in your favored city. It was then my opinion, and I ventured to express it, that the friends of Temperance were cherishing unreasonable anticipations of the good effects to follow the enactment of prohibitory laws. I then said—perhaps you may recollect my remarks—that such a law as we desired for every State must, of course, be obnoxious to all those who loved free rum; and could not possibly effect what many were expecting from its enactment, without a strong moral influence to back it up; and that no law having such an object, could *of itself* effect anything. The power of any law to effect the prohibition of the sale of liquor, must be in the strong moral determination of the masses of the people against such sale. The character and action of the Christian ministry, and of the churches, must ever determine the question of successful prohibition, so far as human instrumentality is concerned.

(*An Interruption.*)—Just as I penned the above, my son came in, bearing in his arms, a bright boy of nine years of age, that he found, sick and unable to walk, two miles from here, and a little further from his own home. The little fellow reports having been severely pounded, this morning, by a man whom he ought to have been permitted to love and honor as father.

Is this liberty? Is this *Democracy*? Not such liberty, or such Democracy as I can support. If it be a crime for a minister of the gospel to oppose such democracy as the kind which wants for an emblem a negro in chains, whipt to carry rum-barrels up a long ladder to the garret of a great mill where madmen, murderers, paupers and politicians are made to order, then I shall be a criminal, I trust, as long as I can speak.

I have no hope of my country, nor of any part of it, aside from a pure and determinedly active church. I have no hope of such a church, without a minority of the moral courage of John the Baptist—men who dare to rebuke kings for their crimes, or Presidents, or Senators, even if it should cost them the loss of their heads. Of all things under the skies, deserving the contempt of angels, and of the terrible words from the lips of Jesus—"Depart from me"—I can think of nothing else like professed ministers of the Gospel purchasing popular favor by ignoring the great moral interests of man, and selling the great promises of the Lord to parry sinners, for the few shillings they may drop into the contribution-box. There always were such, doubtless, and will be. How prudent they are! A little more faith in them might give them a little success. Success to the right.

Yours as ever, A. G. C.

☞ At Montpelier, Vt., on Monday night, the mercury indicated 50° below, remaining congealed from midnight to sunrise.

In New York City a Broadway omnibus driver was frozen to death on his box; another was partially frozen, and fell off, and a driver on a horse rail-road is in a similar condition. Both in danger.

On Sunday afternoon, two boys discovered the dead body of a man in the snow at East Woburn, near the watering place of the Boston and Lowell Railroad. It proved to be the last remains of an Irishman named Timothy Harrington, a morocco dresser, in the employ of Dow & Sneed, Woburn Centre. His age was about 23 years; had been missed from his home one week, and when last seen was laboring under delirium tremens, and probably perished in the last snow storm. —*Traveller.*

Mr. WINGATE N. ILSLEY, Bass, and an accomplised Alto—will furnish the Music on the occasion.

Tickets, One Dollar.

1000 numbered Tickets will be sold,—and at the close of the Musical Exercises, a Committee of three gentlemen chosen by the audience, will distribute among the ticket-holders,

Ten New Sewing Machines,

VALUED AT
$100 Each,
from the celebrated Manufacturing Co. of
GROVER & BAKER.

The Programme of the Musical Performances,—which will be of a superior order—will be shortly announced.

C. C. WHITTEMORE,
Agent for Grover & Baker Sewing Machine Co.
Portsmouth, Dec. 24, 1858.

THE GROVER & BAKER
SEWING MACHINE CO.,
18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;
PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of FIFTEEN HUNDRED STITCHES A MINUTE, and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

C. C. WHITTEMORE,
d24 Agent in Portsmouth.

$50
SEWING MACHINE

ON EXHIBITION
AT ROOM NO. 1 FRANKLIN HOUSE.

This Machine takes a stitch that cannot be pulled out, and is the best machine before the public.—The people of Portsmouth are requested to call and examine the machine and its work, whether they wish to purchase or not.

Being the sole Agent for New Hampshire and Vermont, I can sell you a machine at the same price you will have to pay in Boston or New York, and save all the expense of going to purchase one, and also the expense on the same.

Any lady having stitching to do, will please call and have it done on the Machine free of charge.

SPECIAL NOTICES.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using DR. CHURCH'S Patent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

TESTIMONY.—Des. J. B. N. Gould, Niles' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

R. R. R.
WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The R. R. RELIEF remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The R. R. R. will raise you from your bed of suffering in a few hours.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

W. R. PRESTON agent for Portsmouth.

The only place in Portsmouth where a fine Melotype (taken on Glass and by the aid of heat brought in the glass,) can be procured, is Salen's Daguerrean Gallery, Congress Block.

Melainotypes, beautifully colored, (imitation of Ivory Painting,) taken in superior style, on light or dark ground. Photographs, Ambrographs, Ollographs, plain and splendidly finished in oil, any size up to Life Size, from 88 to $25. Pictures taken on Patent Leather, Enamelled Cloth and Bristol Board for sending in letters, or to put in Hats, Caps, Porte-Bonnaies, Albums, very cheap.

Please call at Salen's Daguerrean Gallery, Congress Block, only one flight of stairs.

N. B.—Any size of picture taken from a small likeness of a Deceased Friend.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about Three thousand pedatory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN FIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible remedy. It is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Fimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

C. H. GARDNER & CO., Proprietors,

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

To the Citizens of New Hampshire.
Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED, FRESH FROM THE MANUFACTORY.

Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable properties of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, SICKNESS DURING PREGNANCY, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c.; whilst the weaker sex will find it a most grateful relief from those distressing uneasiness which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is powerfully recommended to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER is genuine.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Foster, 121 Elm st.; J. Morse & Co., 100 Milk street; M. Davis & Co., 51 Blackstone st.; R. Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Broad st.; Deland & Snow, 35 Elm st, and others. In Portsmouth by H. H. Hill & Co., C. W. Atwell, and C. C. Mitchell & Son.

A CARD TO THE LADIES.

DR. DUPONCO'S
French Periodical Golden Pills,
FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever; as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by JOSEPH H. THACHER, in Dover by Chas. A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N. B.—Ladies will be particular in asking for *Dr. Duponco's Golden Pills.* Observe the signature *J. D. ponco* in upon each box. You will then obtain a Pill you can rely upon.

FIRE DEPARTMENT.

Under a new law, the Firemen of this city choose their Chief Engineer and Assistants. They held their first meeting on Tuesday evening at Jefferson Hall, with the following result:

Whole number of votes	176
Number of votes necessary for choice	89
Leonard Cotton had	42
Josiah G. Hadley had	133

And Mr. Hadley was declared elected.

The following gentlemen were chosen Assistant Engineers: Charles E. Main, Sam'l G. Folsom; John H. Moran.

Directors.—No. 1, Thomas P. Dennett; No. 2, Wm. B. Grogan; No. 3, Joseph Holmes; No. 4, Henry Danielson; No. 5, Enoch F. Wiggin; No. 6, John E. Rider. Hook and Ladder, Benj. M. Parker.

For the Chronicle.

MRS. MACREADY AND HER ENTERTAINMENTS.—We cannot allow this talented lady to depart from our midst without alluding to her wonderful and singular powers as a delineator of character, in terms more marked than we have yet found opportunity to do. Mrs. Macready is no ordinary woman. She comes before her audience, not as does Mrs. Kemble, seated at a desk with book in hand—but unaided by book or prompter, and depending solely upon the gigantic powers of her memory. And thus she repeats whole plays of Shakspeare—no word omitted—no syllable interpolated. But she does infinitely more than this. To repeat, even without oratorical embellishment, from beginning to end, a five-act play, unhesitatingly, would prove a task which most of us would shrink from, and which the study of a life-time would leave many of us incapable of performing; yet this lady stands before you and in Shakspeare's "Midsummer Night's Dream"—tells you the whole story of Puck and Oberon and Titania, representing each character in its true light—changing voice, manner and position with marvelous celerity, and ever "suiting the action to the word and the word to the action." It is a tax upon the powers of mind and memory, that the actor, who represents only one character of a play—the lecturer or the preacher, who reads from his manuscript—the lawyer, who speaks from his carefully prepared "brief"—know nothing of.

And not only is she at home in the one play alluded to; we find in her volume of "Opinions from the Press" allusions to other performances, of like magnitude.—And those who have attended her "Evenings with the Poets" here, know something of the rich stores of poetic and dramatic gems which she has treasured up.

P. S.—Remember Mrs. Macready appears in her celebrated character of the Maniac Wife, this evening. It is the last opportunity our citizens will have of hearing her, as she goes to Newburyport tomorrow to read before the Lyceum.

☞ The Musical Performances announced for the Sewing Machine Concert, next week, are of a superior order. Mr. Thompson's name has become a household word all through this and other lands, as the author of "Lilly Dale," "Willie's on the dark blue sea," &c., of which *hundreds of thousands* of copies have been sold; and he is one of the best and most pleasing singers and concert givers in the country.

Mrs. Newell is a vocalist of rare excellence, such as is seldom heard in this city. She has been filling the place of Mrs. E. A. Wentworth, as first soprano at Charles street Church, Boston, in the absence of that lady in Europe.

Mr. W. N. Isley is well known as one of the best Bass singers in our city.

The lady announced to sing Alto is a new resident here; but has already won high reputation as a performers from the best judges.

Together they form a most powerful and talented quartet, such as it is not common to hear anywhere—and their programme will embrace a good variety of popular music.

Then the Portsmouth Cornet Band will play a half dozen of their best pieces—thus furnishing a double concert in one.

Of course these performers have nothing to do with the affair, beyond the music.—The business is in charge of the gentleman who advertises it, and who is amply able to carry it through in a manner satisfactory to all who hold tickets.

☞ Wonder how our musical weekly cotemporary makes it out that the Portsmouth Cornet Band *alone* will give a good concert; but in *connection* with a fine Quartet Club, can't help out a programme respectably? He must be a musical genius. F.

☞ If everything is beautiful in its season, then this icy weather, at mid-winter, is beautiful! Monday, here, was a very cold day, the thermometer, in the morning, standing from 9 to 12 degrees below zero. Tuesday was the same, as to cold, only much more abundant; for on Tuesday morning, different thermometers varied from 19 to 24 below zero, and the cold held on, vigorously, during the forenoon.

The harbor smoked like a furnace; the mouths and noses of such horses and men as were fringed with hair, were also ornamented with icicles and frost work; old men and feeble for the most part kept within doors; and even the lazy man, *mirabile dictu*, stepped about the streets "as spry as a cat."

We expect to hear of much suffering among the unfortunate, the improvident, and the intemperate.

In the afternoon, the mercury rising, and the snow falling, varied the scene.

MERCANTILE LIBRARY ASSOCIATION.—The new rooms of this Association will be dedicated on Friday evening, Dec. 14.

Addresses will be made by Honorary members of the Association, and there will be other appropriate exercises on the occasion.

Members are invited to be present with their friends. J. W. TUCKERMAN, Secretary.

☞ We learn that a large schooner, apparently of 150 tons, said to belong to Rockland, Me. went ashore at Odiorne's Point, Rye, on Monday morning: The people on board supposed themselves out at sea, but being deceived by the steam which covered the ocean, found themselves among unknown rocks, from which they knew not how to escape.

QUAKER CITY INSURANCE COMPANY.—Our readers will find in another column the advertisement of the Quaker City Insurance company, to which we would call their special attention. The exhibit of their business for the past year is highly favorable, and we congratulate the able management in having placed the company upon such an enduring basis.—*Philadelphia Press, Jan. 6.*

John S. Harvey is agent for the above Company in this city. See advertisement in another column.

SOCIAL LEVEE.—The Levee of the Ladies' Charitable Society of Greenland, was postponed, on account of the weather; and will be held on Wednesday next, Jan. 12th, at Academy Hall. Admission 25 cents. Collation free. A general invitation is extended.

We see by the papers that Mrs. Macready has, in some places, given afternoon recitations in order to afford an opportunity for schools to attend. May not the children of Portsmouth be allowed this privilege?

☞ A certain weakly editor thinks it strange that the Sewing Machine Concert is advertised in the newspapers of towns ten or twenty miles off—and says of course no one expects auditors to come so far. He is as much mistaken there, as when he announces a lottery, outlawry, &c.; for if the weather and travelling are good, there will be scores if not hundreds of visitors from the towns he speaks of.—Better be sure you have knowledge equal to your zeal, neighbor, before you talk about public entertainments. Just Twenty One years ago this day, appeared in the Portsmouth Journal my first advertisement to the citizens of Portsmouth and its vicinity, under the head of

"A NEW APOTHECARY STORE,"

a young man's first appearance before the public, soliciting a share of their patronage in an important era in his lifetime; and it was with no small degree of diffidence, mingled with hopes and fears for the result, that I commenced life for myself, as an utter stranger among strangers.

But friends and patrons soon responded liberally to my call; and as I look back upon this long series of years, I recall to mind many, very many, warm friends and patrons, many of whom are still living, while many others have been called to that bourne from whence no traveller e er returns; yet their memory still lives, and their deeds of kindness ever bring to recollection my warmest gratitude.

To all my patrons I extend my sincere and heartfelt thanks, and in soliciting a continuance of their favors, I assure them in return my most devoted attention.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to sprout disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor, health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent-up, tottering form straightening upon them; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; see his stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give him these pills; see how quick the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see the late leper that is clean. Give them to him whose agony humored from joint to joint seems in his joints and bones; move him and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man.—See her that was radiant with health and loveliness blanched and too early withered by the worm of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, and changed her locks of gray, pallid as their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstruction, and infuse a new life into the sick blood. Now look again—the roses blossom on her cheek, and where lately sorrow sat joy bursts from every feature. See the sweet infant wrung and writhed with worms. Its wan sickly features tell you without disguise, and painfully distinct, that they are eating its life away. Its pinched-up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows.—Give it the PILLS in large doses to sweep these vile parasites from the little sufferer. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these distempers, they are the easier cured. Gaundice, Costiveness, Headache, Sick Headache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout and kindred complaints all arise from the derangements which these PILLS do rapidly cure.—Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must barrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1.

Through a trial of many years and through every nation of civilized men, AYER'S CATHARTIC PILLS has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were doomed beyond the reach of human aid have been restored to their friends and to perfect health, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Have a cold settled on the lungs.—The dry, hacking cough, the pain in the breast, the pale, thin features of him who was lately lusty and strong, whisper to all but him Consumption. He knows every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any disease of the lungs can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable name. But its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The countless colds and coughs which it cures are the seed which would ripen into fatal disease, and a fearful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious approach of what cut the parent sheep from many a flock, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish three millions, and whatever them broadcast over the earth, in order that the sick every where may have before them the information it contains. Druggists and dealers in medicine generally have them for distribution gratis, and also for sale these remedies, prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

Sold by WM. R. PRESTON, and all Druggists in Portsmouth, and Druggists everywhere.

YOU HAD BETTER TRY

MOTHER'S SALVE

MY MOTHER'S SALVE.

This celebrated preparation has obtained an enviable and world-wide reputation for SURPRIZING CURATIVE PROPERTIES, and has been the cause of relieving so many sufferers, restoring them to health and strength, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Balsamic Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in it an important good relief, and in most cases a Permanent Cure.

"My Mother's Salve" is a BURN or SCALD, takes out the fire, soothes the painful sensation, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, bathe the parts freely with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case an important good result follows the use of the Salve. Prepared by A. M. Beck.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must be felt and weighed by every reader as a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-fifth part, I say, my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now safely to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, J. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and to words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent; it removing inflammation, dandruff and a constant tendency to itching with which I have been troubled for many years. It has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion than the pint for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These **Gums** remove all morbid or bad matter from the system, supplying instead a healthy flow of bile, invigorating the stomach, causing food to digest well, **purifying the blood,** giving tone and health to the whole system.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

One dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **constipation.**

One dose taken after each meal will cure **Dyspepsia.**

Two or three of two teaspoonfuls will always relieve **Sick Headaches.**

Only one dose immediately relieves **Colic.**

One dose often repeated is a sure cure for **Cholera Morbus,** and is a preventative of **Cholera.**

Only one bottle is needed to throw out of the system the effect of medicine after a long sickness.

One bottle taken for **Jaundice** removes all callousness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and produces the food digest well.

One dose, often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Liver Complaint** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever, Bilious Fever.**

Biliousness is operates with certainty, and thousands will bear testimony to the wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

E. P. RUSSELL'S

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Inventor of this Roofing labored many year to combine articles which would answer the above purposes, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now *after Five Years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN!

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*, and after a seven test of many years, it stands as reliable and as good as when first put on, without change or decay.

On and after Monday, Nov. 22d, trains over the Great Falls & Conway and Great Falls & South Berwick Branch Railroads will run in connection with trains over the Eastern; Portland, Saco & Portsmouth, and Boston & Maine Railroads as follows:

Leave Union Village, Wakefield, for Gt. Falls, Portsmouth and Boston, at 8 20 A M, 2 30 P M.

Leave Great Falls for Portsmouth, Salem and Boston, at 9 50 A M and 4 P M.

Leave P. S. & P. Junction, at Brock's Crossing, for South Berwick, Salmon Falls, Great Falls and South Berwick, at 10 28 A M and 5 28 P M: on the arrival of trains from Boston and Portsmouth.

☞ Each train connects at Rochester with trains on the Cocheco Railroad, to and from Farmington, and all other stations on that road above Rochester.

Stages leave Union Village daily for Milton Mills, Wakefield, West Ossipee, and intermediate towns—Tuesdays, Thursdays and Saturdays for Brookfield, North Wakefield, Water Village, Parsonsfield, Madison, Eaton and Conway—Mondays, Wednesdays and Fridays for Tamworth Village.

A. A. PERKINS, Supt.

Great Falls, Nov. 22, 1858.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify the proceeding connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well secured as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $70,000; every prize below a million, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Augusta, Georgia

Prizes paid in full, no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m181y

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and to consult a physician, would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of obstinate disease have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are incurled upon his books as perfect cures.

Patents treated by letter, and addressed to Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing eyes.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments on his skill and fictitious remedies at the expense of destroying health, the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of DR. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. They are specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in possession of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 diy

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

Look at that gentleman's whiskers—Hutchins' Hair Dye makes them look so handsome.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, oppo. Kilby st, Boston,
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and succesful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.

Morning Chronicle.

THURSDAY, JANUARY 13, 1859.

FEDERAL TREASURY DEPICTED. — The Kansas correspondent of Forney's Press furnishes the items of the expenses of the transportation of the Utah army: the large items only, the smaller being left out. The money was paid to the firm of Russell, Majore and Waddell, who have been the chief contractors for furnishing the supplies to the invading army.

The expense in money was $4,500,000; the number of men to go with the train was 4,380; and large numbers of men were employed besides, to furnish chains, yokes, sheets, &c. &c. The number of men employed as agents, clerks and salesmen, was 300.

At St. Louis is the chief point where all these supplies were purchased, and where consequently as immense amount of Federal Gold was put in circulation, the facilities for influencing votes there were very great. Hence we see how the defeat of Frank Blair was consummated, and a fraudulent victory given to his opponent. Large numbers of men were not only bribed to vote a certain way, but they were hired to induce non-residents to vote, and to vote indeed, twice or thrice by going to different precincts. It is certainly an alarming fact when the patronage of the Federal Government can thus be concentrated in a few hands, and so administered as to defeat the will of the people.

It is well understood, that the several navy yards, custom houses, &c., are electioneering machines, and no one knows better than Forney, how this machinery can be used: for *he carried Pennsylvania* for Mr. Buchanan, though the democratic votes of the present time, in Pennsylvania, Illinois, and New Hampshire, show that he *is not*, and probably *was not* their choice.

What we call elections, are likely to become the merest farce, if such abuses are suffered, and encouraged, and rewarded.

CRIME IN BOSTON.—During the year 19,753 persons were arrested, of whom 16,101 were foreigners, 4688 non-residents, 4092 females, and 3277 minors. Of the crimes, 5 were arrested on the charge of murder, 19 assault with intent to kill, 61 assault with deadly weapons, 24 for adultery, 1214 for simple assaults, 1243 simple larcenies, 7 bigamy, 423 (females) as common night-walkers, 1037 as common drunkards, and 8930 for drunkenness.—During the year 908 persons were assisted home drunk; 5128 disturbances were quelled; 648 lost children were restored, and 1736 stores were found open. There are 1940 dram shops in the city, of which 1578 are kept by foreigners. The number of such shops is stated to be eighty-two less than last year. Of the 169 cases under the nuisance act sent to the Grand Jury, convictions took place in eighty cases. During the year 13,904 destitute persons have taken refuge in the various stationhouses, a surplus over the previous year of 2991. The number of houses of ill-fame in the city is stated at 208, being 37 less than last year.

AN AGREEABLE SURPRISE.—Two or three nights ago an agreeable incident occurred at a wedding in New York. The father of the bridegroom was sick and unable to attend the wedding, but desired to see the bride in her bridal dress. So, immediately after the performance of the ceremony, the "happy pair" stepped into a carriage and drove to his residence. On their arrival they found the sidewalk, steps, halls and stairs covered with flowers, and, in addition to the warm congratulations of the old gentleman, the bride received the deed of an elegant new house, superbly furnished and elegantly fitted up in every respect.

YEAS AND NAYS.—In the U. S. Senate, on the passage of the French Spoliations bill, the yeas were 26, viz.:

Bates, Bayard, Bell, Benjamin, Broderick, Cameron, Chandler, Chestnut, Clark, Clingman, Collamer, Crittenden, Dixon, Doolittle, Durkee, Foot, Foster, Hamlin, Hammond, Houston, Pearce, Seward, Simmons, Stuart, Toombs, Wilson.

The nays were 20, viz.:

Bigler, Bright, Clay, Davis, Douglas, Fitch, Fitzpatrick, Harlan, Hunter, Iverson, Johnson of Tenn., King, Mason, Polk, Reid, Rice, Slidell, Trumbull, Ward, Yulee.

NEW YORK, Jan. 2.—The steamship Moses Taylor, from Aspinwall 3d inst, arrived at midnight. She brings about 200 passengers and nearly $1,400,000 in treasure.

The gold exports from San Francisco for the current year, up to Dec. 20, were nearly forty-eight millions.

The weather in California has been quite cold, and snow had fallen in some places to the depth of three feet.

Dates from British Columbia are to Dec. 11. Mining on Frazer River improving, but weather very inclement, and provisions scarce and dear.

EXETER CORRESPONDENCE.

EXETER, Jan. 3, 1859.

Messrs. Editors:—In your last paper, commenting on the "Decrease of Marriages" in Boston, you say, "May there not be a scarcity of men?" Fearing lest you should make a full discovery of what seems to be glimmering on your mind, I hasten to write you and claim the honor for myself.

Society has heretofore been divided into men, women and children. A new classification ought, and soon will, be made by scientific men. The subdivisions will probably be large, leaving rumsellers, deservedly, the lower in the scale. The two grand divisions will be men and gentlemen; the former a small minority. The latter class embraces the jewelry-wearers, the cigar-smokers, milliners, &c., many of whom, to be sure, are harmless and inoffensive as kittens.

The weather here, as elsewhere in the neighborhood, resembles some very eminent politicians—"all things by turns and nothing long." Men (I should have said gentlemen) are very busy slaying their own or somebody's else horses. After the Christmas week of fairs and festivals, it has been quite dull. The Young Men's Christian Association keep up their lectures. I cannot help thinking, however, that they would do more good by employing some one to visit and clothe those who go nowhere on the Sabbath or week day; or by paying an extra police officer—if they could find one not afraid—to put in force the law against rum-selling. It is said there was a boxing school, for the juveniles, here, last Sunday. Such things can be nipped in the bud quite easily, but if suffered to go on, it will be here as it is in New York—the police will be afraid to interfere.

We shall have a rich treat this week in hearing Wendell Phillips, before the Lyceum. They have not been *very* successful, owing to the illness of several of their lecturers, and perhaps a little to the impression the Honorable Caleb Cushing made in the first one. I hoped the ladies would leave *en masse* when he announced *his* subject. I suppose they did not think it related to them, however, as he used the term *woman*, and they are getting to be almost as scarce as men. I suppose there were *real bona fide* ladies,

"Whose tears like little brooks did flow,"

at the Downing trial—embroidered handkerchiefs, quizzing glasses, and all, were they not? But, to return to the Honorable, I think he was the last person to lecture on women, unless it were Mexican women.

Mr. Peabody gave us a gem of a lecture, but it was difficult to hear it in the Hall. It speaks well for his people that they value the matter more than the manner, when it is so generally the reverse. Why do not the society publish and distribute it broadcast? Are they not on the watch for opportunities to do good?

I should think the Episcopal church in your city would employ a missionary here. There are fifty or more English families and persons who worship steadily nowhere. *Probably* they were educated in the faith of the church of England. Surely they are worth looking after, if they are righteous, (ten such would have saved a whole city); and if they are not, they *need* to be. Then there are others who would worship with them, if they had a sincere, earnest preacher. Paul says he was *made* a preacher. Have we not reason to fear that too many make themselves preachers, now-a-days, to display white hands and live without work? Yours, very truly,

SCRIBBLER.

FROZEN TO DEATH.—The Bath Times gives the sad case of Mrs. Lee of Edgecombe perishing in the snow storm on the night of Tuesday last week:—Her husband had gone to the school house for his children, and returning after nightfall became bewildered in the storm, and halloo'd for aid. The deceased heard him, and instead of placing a light so as to be seen, sallied out into the storm to render aid, and soon found Mr. L. and the children.

Both parties became bewildered, but Mr. Lee finally, with the children, succeeded in reaching the house, when he found his wife was missing. Search was unavailing till morning, when her lifeless frozen body was found partially covered with snow at a short distance from the house.

☞ Ex-Governor Bingham was elected United States Senator from Michigan on the 8th inst. He, a Republican, succeeds Stuart, a Douglas Democrat. Slowly the Senate, the conservative branch of the government, feels the change in public sentiment, and it cannot be long before a majority of its members will be anti-slavery.

☞ Senator Fessenden has been re-elected to Congress from Maine.

A TRIP TO TEXAS.

MOBILE, ALA., Jan. 3.

Dear Chronicle:—Almost every crime will admit of extenuating circumstances, but there is one crime for which nothing will answer as a palliation, except, indeed, ignorance may be pleaded. I refer to writing poetry laudatory of "a Life on the Ocean Wave." I have the charity to believe that most of the culprits of this order have never seen the full horrors of the life they have depicted in such false colors, inflaming the minds of our youth with ideas of achieving honor, fame and wealth in its pursuit: that they have never been three months or even weeks out of sight of land, except, it may be some island, (such as I saw) which it would be an insult to offer to present to a farmer on the line of the Atlantic & St. Lawrence Railroad, where land is all on edge, and *trees* nailed to the sides of the mountains by scrub pine and birch; never been confined for weeks in a small, damp, wooden dungeon, that constantly shifts its centre of gravity, jarring the prisoners therein, so that dame nature revolts thereat;—but I protest against the legality of publishing such falsities.

Previous to my departure, I was advised by every person to whom I mentioned my intended voyage, to take such things as seemed best to the individual in question, as a preventation of sea-sickness;—but I pride myself on having discovered a perfect panacea—that is, don't go to sea.

The Bay of Mobile presents a very busy appearance at present. There are about fifty ships at the anchorage, including a greater tonnage than ever before. Freights have gone down, but it is supposed they will soon rise again. We arrived in the Bay, Thursday, and after waiting two nights we finally procured a passage to the city in one of the steamers; said steamers having plenty to do, and no opposition, are very independent now, but let business be dull, and each ship will be followed as pertinaciously by them as by a shadow.

Just before we reached the city, we saw the steamer Fashion, (the same which took out Walker's fillibusters,) aground; an omen of what followed in the afternoon.—We had the pleasure of seeing a man shot in Conti street, soon after we landed, a fine row just after dinner, etc., but the great event of the day, was the return of the fillibusters who left here in the schooner Susan, Dec. 6th, carrying with them Lieut. George F. White, of the revenue cutter Robert McClelland, who was returned to New Orleans in the bark Oregon, (Nov. 13) and who furnishes the following account of the operation:—

On Monday, Dec. 6, Lieut. S. B. Caldwell and a boat's crew from the McClelland, boarded the Susan, then lying in the bay of Mobile, some six miles above the fleet, and demanded her papers. The answer was that the Susan would wait at the fleet for them. Lieut. Caldwell made this report to Capt. Morrison, of the cutter, who ordered Lieut. Caldwell to take the Susan to Dog River Bar, and there keep her; and ordered Lieut. White to remain on board until otherwise directed.

Capt. Maury would not permit this, and Captain Morrison concluded to accompany the Susan to the fleet, and the two vessels went down on Monday night. Here they remained within one hundred yards of each other all night. Captain Morrison having informed Captain Maury that if he attempted to go out he would sink him.

On Tuesday morning, about ten o'clock, both vessels weighed anchor and sailed about the bay until three o'clock. From three until dusk the time was passed in sending and receiving communications from each other. The last communication from the Susan to the McClelland was received at ten o'clock on Tuesday night. Lieutenant White was then told there was an agreement that the vessel should come to anchor for the night, and hearing the anchor chains, supposed the Susan was coming to anchor, and retired to the cabin, and it was not until midnight that he heard orders that led him to believe that the vessel was still under way.

On returning to the deck he found the vessel heading down the channel to the Mobile Point light, and discovered that she had not anchored at all, but by letting out the chains had deceived both himself and the officers of the revenue cutter. It was a foggy night, and but one vessel was visible which was supposed to be the revenue cutter: but this of course was a mistake. The lieutenant then immediately ordered the vessel to come to anchor, but he was informed by Captain Maury that, though it was the duty of the lieutenant to make the order, it would not be obeyed. The vessel then proceeded on her way uninterrupted, Capt. Maury stating that she was bound to Greytown, and had Mississippi and Minnie rifles on board.

There are 220 men on board, besides the crew. Among them besides Capt. Maury, there were Col. Frank Anderson, Col. Bruno Natzmer, Col. McDonald, Major Ellis, Col. Rudler, Capt. West and Capt. Dreux. All the men were armed with revolvers, and there were swords and other weapons on board.

Lieutenant White was kindly treated by the officers on the Susan and remained on board until Thursday, when he was placed on the Oregon.

They were wrecked on South West Key, Glover's Reef, Honduras, on the morning of Dec. 16th, whence they were taken by H. B. M. steamer Basilisk, Capt. Phagre, on Christmas Day, and arrived in Mobile, on New Year's day. They paraded up to Royal street, near the new Post-Office, with the fillibuster flag flying, and then their leader, Harry Maury, addressed the crowd, declaring it as his intention to be on blue water again in ten days, and avowing that in ninety days his flag would float from the highest peak in Central America. Maury is a fine-looking man, and was for a number of years City Marshal of Mobile. Last winter he shot DeRiviere, of Blount notoriety, in the mouth, in a duel. The rest of the crowd were decidedly "roughs."—The absence of the Prohibitory Law was seen before night in the drunken condition of these outside barbarians.

New Year's Day is kept here as a holiday, and the streets are full of equipages conveying parties on their call-making tours. The evening before there were two grand processions, with transparencies, representations of almost everything.

The morals of Mobile are said to have improved much since the present Mayor came into office. The bar-rooms are shut up on Sunday, and the practice of Sunday store-keeping is about broken up.

The sights in Mobile are few. The cotton presses, the new Custom House, the vegetation differing from that of the North, and the shipping, comprise about all.

Besides your correspondent, there are several other distinguished personages stopping at the Battle House, among them "John Phenix." ION.

AN ENGLISH VIEW OF AMERICA.—The London Times, in an editorial on the President's message, calls attention to the striking proportion of foreign and domestic politics, and asks how comes it that China, Japan, Nicaragua, Costa Rica, Spain, Brazil, Paraguay and Mexico should occupy the attention of Congress, to the exclusion of interests so much nearer home and so much more valuable to a people whose occupation is to increase rather than to conquer. The Times then points to the condition of the Post Office in America, characterizing it as discreditable to the civilization of the country. It then proceeds to criticise the quarrelsome spirit which it sees under the studiously moderate tone of the message, and the article concludes as follows:

We have enough to show that we ought not to be too much dazzled by the moderation of the President, and that, if his voice is the voice of Jacob, his hands are undoubtedly the hands of Esau. We will only add one other reflection—can it be that the whole American continent has entered into a vile conspiracy to insult, despoil and ill-use the United States—that the weaker is in all cases the aggressor, and the stronger in all cases the attacked and injured? Is it not at any rate very remarkable that the United States should be at this moment provided with a *casus belli* against almost every State from the Gulf of Mexico to Cape Horn, and that, though in a spirit of tolerant moderation, they content themselves with merely seizing two provinces of Mexico, taking armed possession of the transit route from Ocean to Ocean, and sending an armed flotilla up the Parana to the dreamy repose of Paraguay. They have grievances and claims in store for a number of strictly defensive expeditions. Is the wolf always so entirely in the right? are the lambs always so completely in the wrong?"

☞ The sale of oysters in Baltimore, and those shipped from that port, amount to $3,000,000 annually.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYLE MACHINE;
PRICE $50.
It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

SPECIAL NOTICES.

AN ENEMY CONQUERED.—John B. Vance, of Seekonk, Mass., was cured of Consumption after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case.—It was a great victory. Sold by all in the day Mather & Yarrell, Portsmouth, supply the invalid with the same article.

CONVULSIONS.—Spasmodic convulsions, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

TESTIMONY.—Des. J. B. N. Gould, Niles' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

R. R. R.
WHY SUFFER WITH PAIN?
When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The **R. R. RELIEF** remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or sore throat, Diarrhœa, Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators regulate every organ to a healthy action. Let the sick linger in pain. The **R. R. R.** will raise you from your bed of suffering in a few hours.
R. R. R. Office, 103 Fulton street, New York.
N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.
Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.
The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes Tan in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

To the Citizens of New Hampshire.
Charles's London Cordial Gin.
THE ORIGINAL AND ONLY LONDON GIN IMPORTED.—THIS GIN, Distilled in London, from sound Malt Barley, and rectified according to the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it the most pleasant and most eminent of all gins, the purest and safest stimulant or diuretic thing in use.
It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.
Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, GENERAL DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS, and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.
Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "but one degree inferior to any other, but the best article of the kind he has ever seen."
It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.
For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, traiteurs and country merchants. Beware of imitations. Buy only CHARLES'.—NONE GENUINE IMPORTED.
May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. K. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.
Prepared from a prescription of Sir Jas. Clarke M.D., Physician Extraordinary to the Queen.
THIS invaluable medicine is unrivalled in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excessive or painful menses, removes all obstructions, and a speedy cure may be relied on.
TO MARRIED LADIES
It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.
Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.
For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.
CAUTION.
These Pills should not be taken by females that are pregnant, during the first three months, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.
In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.
Full directions accompany each package.
Sole Agent for the United States and Canada
JOB MOSES,
(late J. C. BALWDIN & CO.,) Rochester, N. Y.

LOCAL.

☞ Our Portsmouth Cornet Band give their leader a Benefit Concert to-night.—The tickets are too low—and the friends of the Band must fill the Temple to *make* it much of a benefit to him. A good Band is a blessing to any city, and a good leader very necessary. We have both—let us encourage them.

We understand that several of our engine companies will attend, in uniform, in compliment to the Band. That's right—all hands turn out.

MERCANTILE LIBRARY ASSOCIATION.—The new rooms of this Association will be dedicated on Friday evening, Dec. 14.

Addresses will be made by Honorary members of the Association, and there will be other appropriate exercises on the occasion.

Members are invited to be present with their friends. J. W. TUCKERMAN, Secretary.

☞ Our readers will recollect that on Mrs. Macready's last visit to this city, she gave a Sacred Reading from the Poets, which was much admired, though given on a most inclement Sunday evening. She has been requested to give a similar entertainment on Sundeay evening next, and has consented so to do. She will therefore return from Newburyport,—where she is engaged to appear before the Lyceum,—and will offer an excellent Selection of Sacred Poems on Sunday evening.

☞ We were not aware till Wednesday that the Printer's Annual Lottery of this city (the drawing by lot among the offices, which shall print the City Accounts for the year) had taken place last week, during the absence of the publisher of the Chronicle from the city—the senior editor representing this office. City Clerk Bennet made the lot, and Gen. Whittem of the Ballot drew the prize—not a very great one this time, owing to the change in the city fiscal year.

So our neighbor of the Journal can't include that in his good time at Jefferson Hall. But that is a lottery, a "game of chance," and not a whit less objectionable than what he so loudly decries. In fact there is no real sound objection to the Sewing Machine Concert, which will not hold against the Printer's Lottery, Insurance of all kinds, and all or nearly all trade.

The Concert is certainly worth half the dollar asked for admission, (we and thousands of others in Boston last week, paid one and two dollars each for tickets to the Opera,) and somebody will get ten splendid Sewing Machines for the other half of all the tickets. There is nothing illegal or improper in the whole affair—and it will pass off to the satisfaction and delight of all—excepting perhaps our hyper-critical friend of the Journal. F.

GOOD SUBSCRIBERS.—We have a valuable subscriber on our Weekly list, who sends us annually $2 or $3, "one dollar for the paper, and the rest for the cause." We wish we had five hundred such on our list—they would make up for those who have forgotten to send us even their "one dollars" due.

Our neighbor of the Gazette tells us of *his* best subscriber—who sends him the price of a year's subscription, every time he puts a dunning notice in his paper.

All our good subscribers approve of our cash plan for our Weekly paper. Any man can see that $1 a year leaves no margin for loss or expense of collection.

OSSIPEE CENTER, Jan. 10.

I most heartily approve of your advance system, and am glad to be reminded when my advance pay has closed. My family are desirous to have Uncle T. visit us another year. Enclosed $1. L. S.

Another bill we sent out, comes back inscribed, "I have got my $1—Please sign me." Yes, that's just what we like to do. Come on! we won't cry "hold!"

BURNING THE OLD PORTER TAVERN.—The Cambridge Chronicle, in speaking of the destruction of the old Porter Tavern, says:—

"The Porter tavern, once the property of the late Israel Porter, is probably known all over the Union—certainly, wherever there lives a graduate of Harvard College. The tavern was famous before the revolution, and was then kept by the widow Bradish. The officers of Burgoyne's army once quartered here; and not long ago might have been seen names traced with a diamond on the window panes of the ancient parlor, by the British officers.—However glorious this pile might have seemed a hundred and thirty years ago, it has lately been anything but ornamental. It long since ceased to be an object of pride to the modern Cantabrigians.—Not even the stop once made there by Burgoyne and his officers, in their historic campaign, would have tempted a British officer of to-day to rent the place. Probably a new building will sometime grace the street."

MARRIED.

In this city, at Glen Cottage, Jan. 9th, by Rev. A. J. Patterson, Mr. CHARLES E. HUTCHINS, to Miss MARTHA J. WILSON, both of Kittery, Maine.

In Exeter, Mr. Alexander Manson of Newmarket, to Miss Harriet E. Cilley of Nottingham.

In Danville, Mr. John S. Tuck of Fremont, to Miss Sarah E. Gordon of Brentwood.

DIED.

In Exeter, Mrs. Joanna Osgood, widow of the late Philip Osgood, aged 87.

SUICIDE OF JUDSON HUTCHINSON.—About half past six on Tuesday evening, Mr. Judson J. Hutchinson was found hanging by the neck, dead, in the new unfinished house of his brother, Mr. John Hutchinson, at High Rock, Lynn. He probably committed suicide while laboring under an attack of insanity.

Mr. Hutchinson was a member of the renowned "Hutchinson Family" of singers, and will be remembered as a very droll singer of comic songs. Several years ago he became insane, and was confined temporarily in an insane asylum. He recovered however from the attack in a short time, and since then has been in fair health and very good spirits.

☞ The colored people of Indiana are holding a convention at Indianapolis, for the purpose of considering the best means for bringing about a modification or repeal of the various laws of the State with regard to negro suffrage, etc.

☞ J. A. Abbott, a lawyer of Boston, killed himself by jumping into a well staircase, on Monday night, while in a state of insanity, probably.

☞ Augustus Thorndike's will was before the Probate Court of Suffolk on Monday, and action adjourned to Friday. Rufus Choate and B. R. Curtis appeared against it.

Just Twenty One years ago this day, appeared in the Portsmouth Journal my first advertisement to the citizens of Portsmouth and its vicinity, under the head of

"A NEW APOTHECARY STORE,"

a young man's first appearance before the public, soliciting a share of their patronage in an important era in his lifetime; and it was with no small degree of diffidence, mingled with hopes and fears for the result, that I commenced life for myself, as an utter stranger among strangers.

But friends and patrons soon responded liberally to my call; and as I look back upon this long series of years, I recall to mind many, very many, warm friends and patrons, many of whom are still living, while many others have been called to that bourne from whence no traveller ever returns; yet their memory still lives, and their deeds of kindness ever bring to recollection my warmest gratitude.

To all my patrons I extend my sincere and heartfelt thanks, and in soliciting a continuance of their favors, I assure them in return my most devoted attention.

E. GREEN & CO.,

Take the pleasure of returning their sincere thanks to their patrons and the public generally, for past patronage, and hope for a continance and increase of favor in future. Now as it is a well established fact how cheap we have let clothing slide during the past month, the public will be satisfied that it is no *humbug*, if we hold out still greater inducement in offering Clothing without regard to cost. Therefore, for your advantage we call your attention.

Come to see us soon, while the Stock is large; we assure you that if you are a judge of Goods, you'll not leave our place without buying, on account of the quality and price. This inducement, corresponding well with the present season, we expect this enlightened community will give us as great a rush for Gent's Wearing Apparel, as last month.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they remove the foundations of life and vigor—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they scarcely hurt little at feet. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with safety. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features bloom into health; see them in some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with nauseous potions which instantly could suggest. Give him those PILLS, and mark the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see the late leper that is clean. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him and he screeches with pain; he can hardly bear to be touched; every muscle or his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for cases "there are cases which no cures power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the leaden, sour, haggard dyspeptic, whose life-long misery has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man—See later that was radiant with health and loveliness blasted and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, assimilation or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. Now look again—the roses blossom on her cheek, and where lately sorrow sat joy bursts from every feature. See the sweet infant wasted with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they are wasting its life away. Its pinched-up mouth and ears, and restless sleepings, tell the dreadful truth in language which every mother knows.—Give it the PILLS for a few days, and the worms, vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

Have you the less serious symptoms of these distempers, they are bad enough—Costiveness, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, Lassitude, Languid, Nervous, Gout and kindred complaints all arise from the derangements which these PILLS rapidly cure—Take them perseveringly, and under the counsel of a sound Physician if you can, if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must barrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1.

Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid, have been restored to their friends and acquaintance, to sound health and the enjoyments of life, by this all-powerful antidote to those dreadfu lsieges and throat. Here a cold had settled on the lungs.—The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whispered to his friends, Consumption. He tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more over all his frame. Let him try the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues of the CHERRY PECTORAL, the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by preventing than curing. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable disease. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Prudent Mothers will have it by them, and they will find it an invaluable protection from the insidious premier which carries off the parent sheep from many a flock, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish three millions, and scatter them broadcast over the earth, in order that the sick every where may have before them the information it contains. Druggists and other large dealers in medicine generally have them for distribution gratis, and also for sale these remedies, prepared by DR. J. C. AYER & CO., Practical and Analytical Chemist, Lowell, Mass.

Sold by WM. R. PRESTON, and all Druggists in Portsmouth, and Druggists everywhere.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLDWIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in one Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in it a great relief, and in most cases a Permanent Cure.

"My Mother's Salve" is a BURN OR SCALD, take out the fire, takes out the inflammation and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using "My Mother's Salve" are simple. Every parent and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M.Beck, BURRILL & HUNTING, Sole Proprietors,

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months ago to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; it was growing very much in the same character. A three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had claimed. I used about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above statement I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a native of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of this letter, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1853, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no one would suppose the disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid, have been restored to their friends and acquaintance, to sound health and the enjoyments of life, by this all-powerful antidote to those dreadfu lsieges and throat. Here a cold had settled on the lungs.—The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whispered to his friends, Consumption. Let him try the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues of the CHERRY PECTORAL, the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by preventing than curing. The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, **purifying the blood**, giving tone and health to the whole system, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the seasonable use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and distress, and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

One dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken before each meal will cure **dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

One dose immediately relieves **Colic.**

One dose operates easily on the bowels, removes all morbid matter, and yield almost to the first dose.

A few bottles will cure **Dyspepsia** by exciting the absorbents.

We take pleasure in recommending this invigorator for **Fever and Ague, Chill Fever, and all fevers of a Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

E. P. RUSSELL'S

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE inventor of this Roofing labored many year to combine articles which would answer the above purposes, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now, *after Five Years of the severest trial*, he would invite the carefu lattention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respect we do most strongly assert that ITS EQUAL IS NOT KNOWN!

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*, and after a decided test of many years, it stands as reliable and as good as when first put on, without change or decay.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and faithfully and honestly conducted with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to order tickets upon as favorable terms, the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year; all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one drawn each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $50 to $70,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Mercury*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & CO., Augusta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m15ly

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands and tens of thousands in these towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of Gonorrhoea have been successfully treated by empyrics have come under his care, and more than three-fourths of this number are incurable upon the hands of pretenders.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing eyes.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments upon your health and constitution at the expense of destroying what is the great prize of life, a healthy constitution.

The medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all those irregularities the first action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

☞ The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 dly

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

Look at that gentleman's whiskers—Hutchins' Hair Dye makes them look so handsome.

IMMORTELLES.

SELECTED OR WRITTEN FOR THE CHRONICLE,
BY ALBERT LAIGHTON.

THE SUN.

The earth lies buried in a shroud of snow;
Life lingers, and would die, but thy return
Gives to their gladdened hearts a thrill in overflow
Of all the power, that brooded in the urn
Of their chilled frames, and then they proudly spurn
All bands that would confine, and give to air
Hues, fragrance, shapes of beauty till they burn,
When, on a dewy morn, thou dartest there
Rich waves of gold to wreath with fairer light the fair.
—*Percival.*

THE GRAVE OF BURNS.

O, consecrated ground it is,
The last, the hallowed home of one
Who lives upon all memories,
Though with the buried gone.

Such graves as his are pilgrim-shrines,
Shrines to no code or creed confined,—
The Delphian vales, the Holy Palestines,
The Meccas of the mind. —*Halleck.*

A CHILD'S PRAYER.

If there is anything that will endure
The eye of God, because it still is pure,
It is the spirit of a little child.
Fresh from his hand, and therefore undefiled.
Near the gates of Paradise that show
Our children breathe its airs; its angels see;
And when they pray, God hears their simple prayer,
Yea, even sheathes his sword, in judgment bare.
—*Stoddard.*

ALL IS OF GOD.

All is of God! If he but wave his hand,
The mists collect, the rain falls thick and loud,
Till, with a smile of light on sea and land,
Lo! he looks back from the departed cloud.
—*Longfellow.*

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for ITS GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantage for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none BUT SUCCESSFUL, AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 3, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

FRIDAY, JANUARY 14, 1859.

THE LOT—AND LOTTERIES.

It is well known that Lotteries were not only allowed, but encouraged and established, in former years, by nearly every government in Europe, and by almost every State in our union, and perhaps in every one.

It is equally well known, that nearly all these governments and states now discourage lotteries, and refuse to charter any new schemes; and that many of them have passed penal laws against lotteries that have no charter, or none issued by themselves.

There must have been some cause for this change, as it is not to be supposed any government would make so radical a revolution in its policy, from mere caprice.—Indeed there must have been something in human nature and civilized society which made lotteries a State institution; and then something else, some re-action, or disappointment, or conviction, which destroyed them or made them unlawful.

Among the causes which created lotteries, were the ancient use of the lot in administering religious and civil government, —as for example in Leviticus, chap. 16, "Aaron shall cast lots upon the two goats, one lot for the Lord, and the other lot for the scape-goat." So in Numbers, chap. 26, "the land shall be divided by lot."

The lot was used among the Jews, to settle questions of civil law, pecuniary right, criminality or military precedence, as in Proverbs, chap. 16. "The lot is cast into the lap, but the whole disposal thereof is with the Lord,"—so among the heathen, "the lot fell upon Jonah," and he was cast overboard.

It would seem to be better to settle civil actions by lot now than to go through the courts with them,—and with as good a chance for justice, in some cases.

Another cause may be found in the passion, or propensity, existing in many persons, for games of chance, guessing and betting;—and allied to this, or growing out of it, the idea that some persons, some days, or some numbers, are more *lucky*, or *fortunate*, than others.

A lottery in England, was established by royal grant, in 1630,—and for nearly two centuries lotteries remained a popular and political institution. It was, like most of the other customs of the mother country, copied by the Colonies; and when they became States, most of them set up lotteries, to aid in building bridges, colleges, churches, &c.

New Hampshire had her Dixville Road Lottery, Piscataqua Bridge Lottery, and Dartmouth College Lottery. The town of Portsmouth once voted to buy certain shares in Piscataqua Bridge Lottery, and to apply the *prize money* to some public object, we think the town library.

The spirit of adventure, the enterprize or restlessness of the English and New Englanders, helped to nationalize lotteries on both sides of the water.

But all this has greatly changed, within the last quarter of a century, as we have suggested above.

The reasons of this change are fairly to be inferred from the manner of it.

In England, some industrious, economical, orderly men complained to Parliament that thousands of poor people neglected their work for days together, to attend the drawing of the Royal Lottery; that many of them invested their all in tickets; and that of the disappointed ones who drew blanks, many were driven to despair, and some to suicide. After a course of years, these complaints were answered by the abolition of the royal lottery, and the suppression of the system.

In New England, the evils complained of were similar in kind to those of the mother country, but were quite inferior in magnitude; and it was not until a clerk in Boston, who had robbed his employers, committed suicide, that any laws were made against lotteries in general. This clerk confessed that he had spent his master's money in lottery tickets. The legislature of Massachusetts was in session, and promptly passed a law against lotteries.

This example was soon followed by all the New England States except Rhode Island. In the latter State, lotteries and lottery dealers now centered, until the whole thing was overdone, and in self-defence, Rhode Island went with the rest.

The same process has gone on through the country, till now Georgia, the last one, is abolishing lotteries in her borders.

It will be seen that lotteries in these two countries have had the governmental license withdrawn from them, because they produced bad effects or consequences, rather than from any change of principle, or from any conviction that lotteries were immoral *per se*.

We read in Webster's dictionary, however, this sentence.

Lotteries are often authorized by law, but many good men deem them immoral in principle, and almost all men concur in the opinion that their effects are pernicious.

It is obvious, however, that the feeling against their immorality is not very keen in most minds,—for the fairs of religious societies, the grab bags, the guess cakes, ring cakes, &c.,—with the almost numberless joint stock schemes,—the buying and selling of stocks and goods to be delivered on time, and depending on the future uncertain rise or fall of these things in the market,—all partake of the same nature.

There are two classes of moral objections urged against the lottery, viz. irreverence, in invoking the deity to decide a trifle; and coveting, in desiring gain without an equivalent. Both deserve examination:—but we must defer this to another number, as the article grows long.

It seems possible that Cancemi, the murderer, will be turned loose on society, notwithstanding his sentence to imprisonment for life. His counsel, Mr. Ashmead of New York, has issued a protest against the legality of the proceedings by which he was convicted, in which he asserts that the whole of the proceedings of the General Term, sentencing the defendant, in the existing condition of the record, "is without precedent in England or America, and without authority of law."

In one respect, Mr. Ashmead is right; the whole case is *without precedent* anywhere. The evidence against the culprit is abundant and conclusive. If there be not court, and law, and lawyers enough in New York to keep him in the State's Prison—then it were better to rub them all out, and begin again with the *lex talionis*.

☞ In the U. S. Senate, Tuesday, Jan. 12, Mr. Mason of Va., called up the bill equalizing the salaries of the Ministers of France, England and the United States during a certain period. The object of this bill is to give eighteen months difference of back pay to the Ministers to France, about $3700.

Messrs. Trumbull, Pugh and Clingman opposed it as an insidious precedent.

The bill was lost—28 against 9.

Mr. Fitch of Ind., from the Committee on Printing, reported against printing numerous documents, and among others against printing 50,000 copies of Messrs. Crittenden's and Breckinridge's speeches on leaving the old chambers.

The Pacific Railroad bill was then taken up, the question being on Mr. Iverson's amendment that the bill be recommitted to the old Committee, with instructions to report a bill for a Northern and Southern road.

Mr. Doolittle moved to amend by inserting "and central" roads.

A debate on slavery ensued, which lasted during the sitting.

In the House, Mr. Stephens of Georgia tried hard to get in the Oregon bill—but failed.

The House resumed the consideration of the motion to refer the Naval Appropriation bill to the Committee on Naval Affairs. The economists wished to refer it to the Committee of Ways and Means, so as to cut it down. Debate ensued on this also, in which fillibustering and slavery had a large share.

STEALING A WOMAN.—One John Lansing of Ballston, N. Y., stole his wife the other day. Because of his dissipation, she had left him and procured a situation at a milliner's. On Monday evening he called there and insisted upon her going with him, but she peremptorily refused. During a temporary absence of the lady of the establishment, Lansing seized his wife and carried her out of the house, (she screaming and making all the resistance possible,) and threw her into a sleigh he had prepared for the occasion, and drove off at a rapid rate. The neighborhood was aroused, but not in time to overtake the thief. The result was a little tempest in the village, but Mrs. L. returned next day.

☞ The New York State Prison Inspectors have made a report upon the case of the convict Moore, who died recently from the effects of the punishment of the shower bath in Auburn State Prison. The Inspectors exculpate the officers of the Prison from blame for intentional recklessness or cruelty; but, in view of the danger attending the shower bath as a means of punishment, have directed its discontinuance.

☞ The Washington correspondent of the New York Tribune writes as follows:

The House deserves high credit for its signal rebuke of fillibusterism to-day. The fillibusters could muster only 56 votes.—This shows that the corruption of the administration on international relations has not visited Congress.

PETTY LARCENY—*In the Second Degree.* Judge Russell of the Boston Police Court, missed his overcoat on Monday, a bitter cold day, just as he left the bench to get his dinner. He naturally supposed some poor thief had put it on, and ordered the police to be on the watch for the man that wore the stolen overcoat. Shortly after, Chief Justice Rogers, who had only preceded Judge Russell a few moments in leaving the court room, returned, and found himself the wearer of an extra coat, which Judge Russell identified as his missing property. An explanation, which necessarily followed, showed that Judge Rogers had, on account of the extreme cold, worn his overcoat during the forenoon in the court room, and on retiring had unthinkingly habited himself in his associate's coat. He was not sent to jail, as he gave up the coat without resistance.

☞ News from Moscow states that the nobles are by no means inclined to emancipate their serfs without receiving a full indemnification, and they do not attempt to conceal from the Imperial authorities their disinclination to obey the instructions which they received from his Majesty. The nobles hold secret conventicles, and publicly decry the newfangled ideas which have been introduced into Russia.—To the west of Moscow, however, no one dares openly to express disapproval of the projects of the Czar, "who is idolized by the lower classes.

SAFETY OF RAILROAD TRAVEL.—The Saxonville trains have been running more than twelve years, and have carried in that time in the aggregate, nearly a million and a half of passengers. No serious accident has ever happened to any of the passengers on these trains, though one or two have been killed by getting on the track, or attempting to get on the cars while in motion.

This fact goes to show what all statistics of the kind confirm, that the railroad is the safest mode of travel in the world.—There is a circumstantial horror connected with railroad accidents which give them greater publicity and prominence in the public mind, while those from the old and ordinary mode of travel, which are constantly occurring all over the land, pass unnoticed.

THE SPIRITS DRIVING NAILS WITH A HAMMER.—At the last Spiritual Conference a believer informed the audience that a woman in New York was recently putting down a carpet, and having left her hammer and tacks on the floor near the hall, behind an open door, she soon discovered that the spirits had driven several tacks into the wall, in such a manner as to form the initial letters of her name.

☞ The Courier of Wednesday says the ice in Boston harbor is from three to four inches thick, and the docks are completely blocked. The ferry-boats have managed to keep channels open from the city proper to Chelsea and East Boston. No vessel can get out of port without the aid of steam tugs. On the flats, the ice is very thick, and hundreds of persons were out upon it Tuesday, skating and fishing.

☞ We learn from the Portland Argus that Capt. Benj. J. Willard has been outside for nine days and nights, looking for the North American. His pilot boat iced up so much that she nearly sunk by the head. The steam-tug Uncle Sam towed his boat in on Monday, and she looked more like an iceberg than anything else. Capt. Ben. then took the steam-tug and went out and piloted the North American in.

The New York Evening Post says,—We are pained to hear that Dr. John F. Gray, of New York, the eminent homœopathic practitioner, has lost a son, Edward H. Gray, a most promising youth, in his seventeenth year. He was a student of Cambridge College, and only last week left the house of his parents apparently in full health. On his arrival at Cambridge, he was attacked with scarlet fever, and on Sunday last, after a brief illness, expired.

☞ In Boston, on Thursday morning, at 8 o'clock, a fire broke out in the granite warehouse Nos. 54 and 56 Federal street, occupied on the first floor by Mr. Charles C. Nichols, dealer in fancy and dry goods, and in the upper stories by the Chicopee Manufacturing Co. as a ware-house and sales-room for their goods. The steam engines quelled it. Loss $30,000.

☞ The Tribune publishes the statistics of vice and swindling in New York city, from which it appears that about fourteen thousand persons make nearly sixteen millions of dollars annually in the various walks of vice and minor crimes.

ATTEMPT TO COMMIT SUICIDE.—A correspondent of the Adams Transcript gives an account of an attempt made by a young lady in Great Barrington to poison herself. He speaks of her as a well educated, modest girl of seventeen, who had been obliged by her father, who kept a second-rate hotel and drinking den, to associate with such company as injured her reputation. To liberate herself from those influences, she married one whom she supposed to be an honorable man, and when he proved a reprobate and a libertine, her courage gave out, and in despair she swallowed a dose of poison. The quantity, however, was so large, that a physician easily caused it to be thrown up, though much against her will, and in spite of her earnest entreaties to be left alone to die.

UNCLE TOM TRAVESTIED.—The Paris correspondent of the Traveller says:

You should get Professor Monti to translate Uncle Tom's Cabin from Italian to English. Mrs. Stowe herself would not recognize her bantling. The Pope having read Uncle Tom and being delighted with it, determined to have it done into Italian for the edification of his subjects. Strange changes took place in the sleight of words, and by the time Uncle Tom and the rest of the characters in the book had learned to speak Italian fluently, the "good people" become fervent papists, and the "bad folks" deep-dyed Protestants, and finally Legree puts Uncle Tom to death because the poor negro would not forsake his belief in the doctrine of the——Immaculate Conception of the Virgin Mary!

FROM JAPAN.—A letter to the Journal of Commerce, dated Naganski, Japan, Oct. 8, says: The U. S. steamer Powhatan will leave here for Shanghae, Hong Kong, and Canton, at the end of this month. Rev. Henry Wood, Chaplain of that vessel, was, at the request of the Governor, engaged daily in teaching English, and many other things to his six interpreters. Strangely, remarks Mr. Wood, it devolved on me to preach the first sermon, and hold the first religious service in Japan, since the day when Christianity was expelled; and now, as I, hope I am laying the foundation of some future Christian College. Certainly I am the first to teach Christianity indirectly, and without offense.

LYNCH LAW IN ENGLAND.—The London Times of Dec. 23 contains the particulars of a resort to the American code of "lynch law" at Reading, England, on the previous day. It appears that a woman named Mary Newell was found guilty of the murder of her illegitimate child, and sentenced to death. William Francis, the seducer of the unfortunate girl, admitted in his evidence that he had refused to give her shelter after she had walked with her child a distance of eight miles to see him. At the conclusion of the trial he was attacked by a large crowd of the laboring classes, who ducked him, plunged him into a ditch, where they kept him for a quarter of an hour, tore off his clothing, and otherwise maltreated him. His life was saved by the police, with great difficulty,

☞ Hon. Neal Dow, in behalf of the Maine State Temperance Committee, invites "the friends of Temperance throughout Maine, of every organization and of no organization," to assemble in Convention at Augusta, on Wednesday, Jan. 19th, at 10 o'clock, to devise means for the wise and faithful execution of the Maine Law.

☞ The St. Louis Democrat states that the slaves of Missouri are rapidly finding purchasers who take them out of the State, and leave in their stead thousands of good dollars, enabling their former owners to pay for the labor of white men in tilling the ground and raising the rich crops which the farms are capable of producing under labor intelligently directed.

☞ Gen. John Couldock Calhoun, formerly border ruffian dictator in Kansas, is now a quiet citizen of Nebraska City, in Nebraska Territory, where he has, by his urbanity of manners, quiet demeanor and his gentlemanly manners, won a host of friends.

FAST DAY.—At the recent session of the Governor and Council, Thursday, the 7th day of April next, was appointed as a Day of Public Fasting and Prayer throughout the State of New Hampshire.

☞ The brig Echo, registered Putnam, which vessel was forfeited to the United States for engaging in the slave trade, was sold at Charleston, S. C., on Thursday last, by the U. S. Marshal, for $2,300 cash.

☞ For kindling wood it is estimated that $600,000 are annually expended in New York. The Clearmont Kindling Wood Company control a tract of land on the James River in Virginia, from which they bring thousands of cords every year.

☞ The four Banks in Dover have each declared a semi-annual dividend of four per cent.

SPECIAL NOTICES.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the disturbing cause, and the prevention of the predisposition.

TESTIMONY.—Dea. J. B. N. Gould, Niles' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. 3d24

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quickly as possible, and not to let the victim linger in pain. The **R. R RELIEF** remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c. &c. in a comparatively short time. And the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The **R. R. R.** will relieve you from your bed of suffering in a few hours.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfurnement of their beauty arising from the unsightly appearance of the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the India of America, plain and simple, the original "Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED. THIS GIN, Distilled in London, rom scand A Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, one of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of the harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Tonstone Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is particularly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts and pints, and in cases of 1 and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE GENUINE IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. R. Tucker, 20 Elm st; J. J. Moran, 1 Blackstone st; M. Davis & Co., 57 Blackstone st; R. Smith & Co., 20 Exchange st; Gilbert, Abbott & Co., 78 Second st. and by Druggists and Fancy Goods Dealers. In Portland, Me., of H. H. Hay & Co; C. W. Atwell, and C. C. Mitchell & Son.

The Great English Remedy.

SIR JAMES CLARKE'S

Celebrated Female Pills.

Prepared from a prescription of Sir James Clarke M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada

JOB MOSES,

(late I. C. BALDWIN & CO.,) Rochester, N. Y.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

☞ Deaths in Portsmouth, in December, 1858—*Males* 7, ages 1y 4m, 3, 15, 48, 51, 63, 76 years. *Females* 6, ages 2 months, 1 year, 6, 20, 29, 40, 81. Total 13.

The whole number of deaths for the year 1858 is, males 81, females 111; total 192.

These items are furnished by Mr. Robert Bell, and are believed to be accurate.

MERCANTILE LIBRARY ASSOCIATION.—The new rooms of this Association will be dedicated this (Friday) evening, Jan. 14.

Addresses will be made by Honorary members of the Association, and there will be other appropriate exercises on the occasion.

Members and their friends, and all ladies who assisted in the recent M. L. A. Fair are invited to be present.

J. W. TUCKERMAN, Sec.

☞ The Levee of the Ladies' Charitable Society, at Greenland, Wednesday evening, was a very agreeable and successful entertainment. Portsmouth sent up a large delegation, who enjoyed themselves hugely. Academy Hall was tastefully decorated, and an excellent collation provided—a quintet of ladies and gentleman furnished music, and Messrs. G. M. and J. C. Goodrich of this city sang duets and ballads,—beautiful Tableaux were presented, without expense in their getting up—and all passed off exceedingly well. Our Portsmouth friends who attended, express themselves under especial obligations to Messrs. Blaisdell and Mann, for their successful efforts to render the visit agreeable.

☞ Once more we must correct our error in regard to the Printer's Lottery. The prize was not drawn by the Ballot office, but did fall to the Journal, which was represented by the junior partner. We are sure we don't begrudge that establishment this trifling luck, or any other good fortune—though the Journal editor denounces all who don't exactly agree with him in sentiment on the chance question.

F.

☞ See the programme for the Sewing Machine Concert, in the advertisement; and if all the hearers who know auld lang syne from old hundred, don't value it at least 50 cents, then we are no judge of musical entertainments.

F.

☞ All the numerous trees and shrubs in this city and vicinity, were most beautifully frosted on Thursday. No work of art can approach the splendor of the display.

NOTICE TO MARINERS.—Notice is hereby given, that a Spar buoy has been placed at Boon Island Ledge for the winter; when changed due notice will be given.

A Spar buoy has also been placed at Stielman's Rock, mouth of Portsmouth Harbor, in place of the Nun buoy removed.

By order of the Lighthouse Board,

PRESIDENT POLK'S SLAVES ON TRIAL—A NEGRO INSURRECTION.—A correspondent of the Memphis Avalanche furnishes the following account of a novel slave trial in Tallahatchie county:—

"The case of the State against Giles and Emanuel, slaves belonging to Mrs. James K. Polk, of Nashville, was the last case of importance upon the State Docket, and elicited much discussion from the bar, and feeling from the community at large. The defendants were charged with 'a conspiracy to make insurrection,' an offence under our law punishable with death. The evidence shows that the overseer, a timid man, and afraid of the negroes, was in the habit of calling upon his associates to assist him in correcting them; that upon one of such occasions, they resisted him and his friends, and apparently with concerted purpose.

"Our State declares the term insurrection to mean 'an armed assembly of slaves or freeholders, or both, having intent to resist or subvert lawful authority. The indictment having been drawn under this statute, Judge Fisher, the counsel for the defendants, contended with great force that it charged no legal offence, because the authority to be resisted or subverted must be governmental authority—that is, the power of the State itself; that the term lawful authority does not mean such authority as that of the master over his slave; and although the law sanctions and regulates this magisterial authority, it is but an authority derived from a domestic relation—not the creature of the law, but existing independently of it. This view was not, however, sustained by Judge Cothran, and the case was submitted without argument to the jury, who found the defendants "guilty as charged." The case being one of life and death, will doubtless, be appealed; and, as the question to be determined is one of novelty and great importance, the bar look forward with much interest to the decision of the Appellate Court.

JOKE CONNECTED WITH SUSAN'S PASSAGE. The sailors of the Susan deserted before the vessel got out of the bay. There were none but landsmen on board, except the captain, and it is traditional at sea that it is not easy to convert a landsman into a sailor at short notice. The sea-dogs have phrases of their own which are Greek to the others. To obviate this defect, Capt. Maury resorted to a novel and ingenious expedient. Every man on board, we suppose, knew how to play cards, and the captain, taking advantage of this skill, tied a card to each of the ropes of the vessel. The orders then ran somewhat in this fashion: "Haul on the ace of hearts!" "Let go the king of diamonds!" "Belay on the deuce of spades!" &c. By this means the extemporized sailors soon got the hang of the ropes, and affairs went on pretty smoothly.

PRINTERS ESQUIRES.—The art of printing was practiced in Germany, Italy, etc., as a genteel pastime, in the houses of the educated and wealthy, who, however, could not entirely dispense with the aid of the artisan. From this intermixing of rank arose the privilege of the printers to wear arms, (to be an *armiger*, esquire.) In 1541 Francis 1 suppressed that right relative to journeymen and apprentices.

NEW HAVEN, Jan. 12.—The ice has so impeded Sound navigation that the Norwich and Worcester, and the Stonington lines of steamers are withdrawn. The new Shore Railroad to Boston, in consequence, brought in 150 passengers for New York.

☞ The ladies of Washington, Iowa, forewarned by the unpleasant experience of Christmas, of the reckless frolicking of their husbands and sons on New Year's Day, prepared for that holiday on the previous Tuesday by destroying all the liquor for sale in town.

☞ We learn from the Christian Freeman that Rev. John H. Moore has resigned his position of Pastor of the Universalist church in Concord.

A robust mother of three children, 28 years old, and apparently in excellent health, at Minnetonka, Minnesota, professes to have lived for two years with no other nourishment than three cups of coffee per day.

THE VANDERBILT.—The last news from this ill-starred steamer is that she is breaking up. A part of her machinery has been saved.

☞ James McMahon was executed at Newark, N. J., Wednesday, for the murder of his sister-in-law.

☞ A letter from our Australian Correspondent will appear to-morrow.

☞ Senator Wilson has been re-elected to Congress from Massachusetts.

SEWING MACHINE CO.,

18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;

PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Just Twenty One years ago this day, appeared in the Portsmouth Journal my first advertisement to the citizens of Portsmouth and its vicinity, under the head of

"A NEW APOTHECARY STORE,"

a young man's first appearance before the public, soliciting a share of their patronage in an important era in his lifetime; and it was with no small degree of diffidence, mingled with hopes and fears for the result, that I commenced life for myself, as an utter stranger among strangers.

But friends and patrons soon responded liberally to my call; and as I look back upon this long series of years, I recall to mind many, very many, warm friends and patrons, many of whom are still living, while many others have been called to that bourne from whence no traveller e er returns; yet their memory still lives, and their deeds of kindness ever bring to recollection my warmest gratitude.

To all my patrons I extend my sincere and heartfelt thanks, and in soliciting a continuance of their favors, I assure them in return my most devoted attention.

Dr. B. S. GOODWIN

Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.

ADVICE FREE.

Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.

THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Costiveness, Piles, Diarrhœa, Cholera Morbus, Cancers, Dropsy, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations, Pain of all kinds, Rheumatism and all kindred Diseases.

No Mercury! No Bleeding! No Blisters!

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guaranteed truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; and it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in good standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that the effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying their place with a healthy flow of bile, invigorating the stomach, causing food to digest well, **purifying the blood**, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One spoonful of two teaspoonfuls will always relieve **Sick Headache.**

One dose immediately relieves **Colic.**

One dose often repeated is a sure cure for **Cholera Morbus**, and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for **Jaundice** removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all **Fevers of a Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 545 Broadway, N. Y.

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Inventor of this Roofing labored many years to combine articles which would answer the above purposes, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now *after Five Years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN!

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and not one case of failure has occurred, and he is ready to show his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of DR. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REGULATING PILLS are the pillars unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. ly2 dly

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

Look at that gentleman's whiskers—Hutchins' Hair Dye makes them look so handsome.

IMMORTELLES.

SELECTED OR WRITTEN FOR THE CHRONICLE,
BY ALBERT LAIGHTON.

THE SUN.

The earth lies buried in a shroud of snow;
Life lingers, and would die, but thy return
Gives to those pulses, hearts are overflow
Of all the power, that brooded in the urn
Of their chilled frames, and then they proudly
spurn
All bands that would confine, and give to air
Hues, fragrance, shapes of beauty till they burn,
When, on a dewy morn, thou darkest there
Rich waves of gold to wreath with fairer light the
fair. —*Percival.*

THE GRAVE OF BURNS.

O, consecrated ground it is,
The last, the hallowed home of one
Who lives upon all memories,
Though with the buried gone.

Such graves as his are pilgrim-shrines,
Shrines to no code or creed confined,—
The Delphi of modern times, the Palestines,
The Meccas of the mind. —*Halleck.*

A CHILD'S PRAYER.

If there is anything that will endure
The eye of God, because it still is pure,
It is the spirit of a little child,
Fresh from his hand, and therefore undefiled.
Nearest the gate of Paradise he lies,
Our children breathe its airs, its angels see;
And when they pray, God hears their simple
prayer,
Yea, even breathes his sword, in judgment bare.
—*Stoddard.*

ALL IS OF GOD.

All is of God! He but wave his hand,
The mists collect, the rain falls thick and loud,
Till, with a smile of light on sea and land,
Lo! he looks back from the departed cloud.
—*Longfellow.*

YOU HAD BETTER TRY
MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other application.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M.Beck.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for profession of services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twelve rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

THE LOT—AND LOTTERIES. NO. 2.

In looking over the moral objections urged against lotteries, we shall take the strongest and best we can find. Rev. Thomas Scott, D. D, in his commentary on the bible, says, on Leviticus 16;8:

Two kids of the goats having been provided as a sin-offering, it was decided *by lot*, which should be slain, and which should escape. A lot is a solemn appeal to God in a doubtful matter, relative to practice, as an oath is in testimonies and engagements; and each of them ought to be the last resource, when other methods of decision fail, and to be used as a solemn act of religion, or not at all. It is therefore an unanswerable objection to all lotteries and games of chance, that they are a profanation of a *religious ordinance;* for so it is everywhere spoken of in the Scripture. "The lot is cast into the lap, but the whole disposal of it is with the Lord:" they are therefore an appeal to God to decide in a matter of covetousness, or of diversion, and so form a species of "taking his name in vain," not much unlike rash and profane swearing in trifling conversation, or when men are striking bargains.

This could not be stated more clearly,—but it is an over-strained, extravagant view of the matter. In the 14th of Levitic us the priest is to kill one bird, and let another loose, in cleansing the leper. The choice between them is left to the priest, but his *whim* is as really a *lot*, as if two sticks or bits of paper were drawn, and we cannot see why one is more irreverent than the other.

The Portsmouth Printer's Lottery, in which is decided the question who shall print the Town Accounts this year, is certainly, on Dr. Scott's theory, *irreverent*, and therefore *profane*, because it is an appeal to God's Providence about a trifle.—But there is not a man engaged in it, from the City Clerk to Uncle Toby, who believes there is the least possible harm in it to any man, or the slightest irreverence to the higher powers. This objection, then, is not fatal, in this, nor, we suppose, in any case. There is no real objection to *the Lot*, in itself considered.

But there are objections to Lotteries, and no man can state them better than Scott. He grounds them on the command "Thou shalt not covet," in Exodus. chap. 20.

We may desire that part of a man's property, which he is inclined to dispose of. If we mean to obtain it only on equitable terms; but what he chooses to keep we may not covet. The poor man may desire moderate relief from the rich, but he must not covet his affluence, or repine even if he do not relieve him. Men exposed to equal hazards, may agree to a proportionable contribution to him who suffers loss, for it accords with the law of love to help the distressed. This excludes *insurance* when fairly conducted.—But every species of *gaming* originates from an undue hope of increasing our own property by proportionably impoverishing other men; and is therefore a direct violation of this law.—Public gaming by lotteries, so far from being less criminal than other species of that vice, is the worst of them all: for it abets and sanctions, as far as example and concurrence by statute can do it, a practice which opens to every species of fraud and villainy; which is pregnant with the most extensive evils to the community and to individuals; which seldom fails annually to bring several to an untimely end, by suicide or the sentence of the law, which unsettles an immense multitude from the honest employments of their station, to run in quest of imaginary wealth, and which exposes them to manifold temptations, unfits them for returning to their usual modes of life, and materially injures their circumstances, breaks their spirit, sours their tempers, and excites the worst passions of which they are susceptible.—Indeed, the evils, political, moral and religious, of lotteries, are too glaring to be denied, even by those who plead *necessity* for continuing them, and too numerous to be recapitulated in this place. Can it therefore consist with the law of God, 'Thou shalt not covet,' or with the character of a Christian, to concur in so iniquitous and injurious a system, from a vain desire of irregular gain? Whatever argument proves it unlawful for two or three men to cast lots for a sum of money, or to game in any other way, is much more strongly conclusive against a million of persons gaming publicly by a lottery, to the stagnation, in great measure, of every other business, while the gain made by government, and by individuals, from the stakes deposited with them, renders it as imprudent as it is sinful in the adventure; for every individual stakes at least *three to two on an even chance*, if a covetous appeal to Providence may be called chance.

Even *Tontines* are by no means to be justified, as they constitute a kind of complicated wager about longevity, to be decided by Providence in favor of the survivors; and must, therefore, partake of the nature of other games of chance.—Coveting the property of others contrary to the law of love, and enriching the survivors, commonly at the expense of the relatives of the deceased, are intimately connected with them; while they lead men into the strong temptation secretly to wish the death of others, for the sake of advantages which they inordinately desire, and irregularly pursue.

Let us look carefully at these objections, and we shall see that they bear quite as strongly on every form of *selfishness* or *covetousness*, that they forbid all *hard bargains*, all sharp practice in business,—and all great risks!

Is it any wonder, then, that the *lottery spirit* has kept alive, and increased, under the forms of speculation, stock-jobbing, wire-pulling, and humbug generally? Not very wonderful, but quite natural. Yet this covetous spirit, this making haste to be rich, is not promotive of happiness, but quite the contrary. The evils then, which unquestionably grow out of lotteries, come not from the *lot* itself,—but of the discontent, ambition, or avarice, which prompts to venture *all*, or *much*, or *little*, on the turn of the dice.

The same qualification belongs to Dr. Scott's remarks about Insurance. Two men go in at the same time to get their houses insured. A has borrowed $500 to pay for his, and he insures his house for that sum, though it is worth $1000,—that his creditors may not suffer. B insures his for $1000, though it is above the value—meaning to burn it down, and thus turn it into money.

A's insurance is innocent, we think praiseworthy;—while everybody will condemn B's. And life insurance, even tontines, or annuities, though condemned by Dr. S., are often acts of honesty, kindness, and benevolence.

The merit or demerit of any scheme, where property goes by lot, must be decided in the same way, viz. judged by its fruits;—and there can be no question that sober, honest, quiet industry, with content, is preferable to the most high-wrought schemes of sudden gain, whether by speculation, by lot or otherwise.

Yet this, to many men in this fast age, seems like idle talk—they will run the risks, and prefer the *chance* of making a fortune, to the *certainty* of getting bread. They perhaps will not read the following from Dr. Scott, on the same subject—in which he classes the worldly selfish man, who may be too selfish to risk a copper, with him who risks all. He says:

In fine, discontent, distrust, love of wealth, pleasure, and grandeur, desire of change, the habit of wishing, and every inordinate affection, are the evils here prohibited; and we know them to be the sources of all other crimes and man's misery. The command requires moderation in respect of all worldly things, submission to God, acquiescence in his will, love to his commands, and a reliance on him for the *daily* supply of all our wants, as he sees good. "This is right and reasonable, fit for God to command, and profitable for man to obey—the very temper and felicity of heaven itself; but it is so contrary to the disposition of our heart, *by nature*, and so superior to the actual attainment of the best Christians on earth, that it is very difficult to persuade men in general that God requires such perfection; still more difficult to satisfy them that it is indispensable to the happiness of rational creatures; and most difficult of all to convince them that everything inconsistent with this, or short of it, *is sin*.

☞ If a man with whom you do business, is prompt and faithful, you can ask no more—but it is vastly more pleasant, if, in addition to this, he prove so agreeable as to become a valued acquaintance and friend. We have bought many thousand dollars' worth of paper on which to print the Daily and Weekly Chronicle, within the six or seven years of its publication; and nearly all of it from the old Flagg Mill, or Pickpocket Mill, situated a little out of Exeter, N. H. We can nowhere buy so cheap and so satisfactorily as there. Mr. Charles J. Fuller has had charge of the mill for the past few years,—and has much improved the premises. He is an honorable and efficient gentleman—and we commend him to the patronage of the craft.

☞ A bright little girl ten years of age, says the Lee Gleaner, daughter of Mr. Leverett Tillotson of Monterey, came to her death on Wednesday, 5th inst., from the following singular cause:—Some few months since, the little girl was eating pumpkin seeds, and got part of a shuck in her windpipe, which finally got into her lung, produced a cough, and caused her death by consumption.

☞ A very much injured man, all bloody and senseless, was picked up on a street in Cincinnati lately and conveyed to the city hospital. The doctors examined him, found his skull fractured, and said he could not possibly live but a few hours. He was left in charge of watchers who were very much astonished at being disturbed in their slumbers by the wounded man's getting deliberately out of bed, dressing himself, putting on his hat and walking off. He has not been seen since, and is believed to be a fastious ghost, as he smiled grimly when he went out of the door.

LETTER FROM AUSTRALIA.

SANDBRIDGE, Australia, Sept. 15, '58.

It will be a long time before I get pleased with Australia, at the rate I am progressing at present. Business is still dull, and on two railroads commenced by the the government to give relief to the working classes, the men have struck, in consequence of not being paid their wages weekly. The farmers have hired some of the surplus population, and many more are making the best of their way to the mines, but the numbers of unemployed are not sensibly diminished, the ranks being kept full by constant accessions of immigrants and unsuccessful miners.

The bread here is very poor, being dry and hard, even when fresh, and I have yet to get a draught of good water in the colony. Fruit is very scarce and poor as well—apples sixpence per pound, and hardly worth wasting time to eat. Potatoes are sold at twelve shillings per cwt., with some bad ones included. Wood is worth sixteen shillings per *load*—how much there is in a load I am unable to say with certainty, but think it to be nearly one-fourth of a cord.

This place (Sandbridge) is about two miles from Melbourne, and, as its name implies, is merely a bank of sand, and very low at that. Its population is about 2000, and to accommodate this vast number, they have one very small school-house, one Catholic church, *nine "hotels,"* (rumboles I think Uncle Toby would call them,) seventy-one *other* places where intoxicating liquors can be procured, two large stores, and about twenty smaller ones. It also boasts its bullies, two of whom recently had a fight for £200 a side, and thrashed each other handsomely. The winner has accepted a challenge from a winner on the Balaarat diggings to fight him for £250 a side, the encounter to take place next month. 'Twill be a great pity if they don't kill each other.

The principal productions of the place are dogs, empty bottles, and swarms of fleas. These last are the most annoying vermin I have ever fallen in with,—they completely destroy all peace of body and mind, day and night. As to the bottles, I have never seen so many of them any where,—they lay in heaps of thousands in every yard, hole and corner; and each house has two or three dogs. When it rains, which it does more or less every day, there is a plenty of mud—but when the sun comes out the fleas come out too, and then woe to every human hereabouts.

Somebody has started a lottery at Melbourne within a few days, with 30,000 tickets at £2 each. There is but one prize—an enormous nugget of native gold, said to weigh (including some quartz) nearly 170 lbs. I would be very much pleased to have the lump myself, but don't think it prudent to give two pounds sterling for the privilege of holding one of 29,999 blanks.

The gold fields yield largely at the present time—more so than at any former period; but accounts from the various diggings represent want to be very prevalent owing to the immense rush of miners.—Where one miner saves gold, fifty are unable to pay expenses. Many persons are trying to get to Vancouver's Island in a hurry, while more are waiting the arrival of the mail from America to see what accounts are given of the new diggings, before they try their luck.

I have lately had the pleasure of witnessing the method of conducting an English election, bribery and all. The ballot was for delegates to the Colonial Legislative Assembly, and the contest was between two candidates named Nicholson and Anderson,—the first being a well known, and to all appearance, a popular man, while his competitor was known to but few, and disliked by those. There seemed scarce a shadow of a chance for Mr. A., but he paid the laboring men their regular daily wages, (those who voted for him, of course,) and he had five places for his supporters to go to get free drinks and cigars, and had them open for a week before the day of election, while Mr. Nicholson had but two "refreshment stands," and those only on election day.—The consequence was that Mr. Anderson was chosen by an overwhelming majority and his antagonist stigmatized as the soul of meanness and parsimony. During the day I saw about twenty fights, (and I was not near the polls one half the day,) and as to drunken men,—they were nearly as thickly strown about as the dogs or empty bottles: and more noise and confusion was created by the election of a single person, than would be made in Portsmouth over a City, State, and Presidential election, all put together; and on the whole, I think our elections in America are quite as well managed as Australian ones.

The Sabbath receives but little of the respect shown it in New England, all the stores being open till evening, and doing more business than on any other day of the week. If the day is fine the people mostly stroll about the piers, and if wet or chilly they smoke and play cards in-doors; in either case drinking large quantities of bad liquor, many of them being hardly able to stagger home at night, while some bring up in the gutters. The rattle of dice and the click of billiard balls are heard louder and more frequently than at any other time, and those belligerent characters who wish to beat each other, and not lose time doing it, go a few furlongs outside of the town, and there pummel each other to their heart's content. I think the Sabbath is regarded less even than it is on the Spanish Main, for there the people do wait till after mass before fighting their game-cocks, while here they attend divine service only as a last resort to kill time.

I can now hear a military band, who are discoursing music to the multitude in attendance on a government land sale.—But the music is a secondary attraction, for liquor is furnished to the crowd, free,—as well as cigars. Several lots have been sold at the rate of fifteen shillings per foot, which I consider a pretty good price for land worth absolutely nothing for farming purposes, and about as valuable for building upon as for cultivation.

I'm done—and am in serious doubts as to whether the Chronicle will get many more scraps from me, for if the weather is as intensely hot in summer as it is said to be by old settlers, no alternative remains free for my choice but to take to the mountains or be reduced to melted ICE

WASHINGTON NEWS.—*New York*, Jan. 14.—The President has declared himself decidedly opposed to the organization of Colona.

The Treasury is absolutely bankrupt.—Capt. Meigs was unable to pay to-day the money due upon the Capitol extension.

The Postmaster General, in reply to the resolution presented a few days since by Senator Hunter, has expressed the opinion that the only way to render the Post Office self-sustaining, is to return to the basis of the law of 1845, establish a uniform postage of *five cents*, and abolish the franking privilege.

Theodore Parker's Society have disbanded and given up Music Hall, in consequence of his illness and departure South.

SPECIAL NOTICES.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every home since the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement, or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

TESTIMONY.—Dea. J. B. N. Gould, Niles' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The **R. R. RELIEF** remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick ones is felt, take one dose, if there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, unnerved and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators are to regulate every organ to a healthy action. Let not the sick linger in pain. The **R. R. R.** will raise you from your bed of suffering in a few hours.

R. R. R. Office, 102 Fulton Street, New York.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They find out that there are no preparatory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to be in the hands of America to be the original Parisian Pimple Destroyer. It also removes in a few hours King Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

☞ Reader, do you want the picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

To the Citizens of New Hampshire,

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED. THIS GIN, Distilled in London, from second Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and possesses the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally for cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., which the weaker sex will find to be an infinite blessing, relief from these distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE GENUINE but imported.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. R. Parker, 20 Tremont st; Wm. Ware & Co., Boylston st.; M. Davis & Co., 57 Blackstone st.; R. Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Broad st.; Leighton & Spear, 45 Blackstone st. Agents.—In Portland, Me., of H. H. Hay & Co., C. W. Atwell, and C. C. Mitchell & Son.

A CARD TO THE LADIES.

DR. DUPONCO'S

French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for more than 110 years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by JOSEPH H. THACHER, in Dover by Chas. A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N. B.—Ladies will be particular in asking for *Dr. Duponco's Golden Pills.* Observe the signature *J. Duponco* is upon each box. You will then obtain a Pill you can rely upon.

LOCAL.

For the Chronicle.

☞ Mrs. Macready, whose Sunday evening entertainment is advertised in our columns, was the first lady who ever attempted a sacred reading in this country. It was on her previous visit to Portsmouth that the idea was first suggested to her by a gentleman of this city, at whose desire, and the concurrent solicitation of several of our clergymen and others, she was induced to make the attempt. Those who attended her sacred reading then, cannot have forgotten the profound emotions awakened by her signally beautiful rendering of the very appropriate selections which constituted the programme.

In other parts of the country, Mrs. Macready has been favored with the largest audiences on Sunday evenings, and it is to be hoped that her determination to give one more entertainment of this nature, in the very hall where this portion of her public life was entered upon, may meet with a fitting response. Those who have thus far attended her recitations here, will not be likely to absent themselves on Sunday evening.

The entertainment will commence at 7 o'clock, instead of 7 1-2, as advertised erroneously upon the hand-bills; doors open at 6.

☞ Funeral honors were paid at our Navy Yard, Friday, to the memory of the late Colonel Commandant of the Marine Corps, Brig. Gen. Archibald Henderson,—by hoisting the flag at half mast, and firing minute guns at noon. Gen. Henderson died suddenly at Washington, a few days since.

☞ The sooner the Journal resumes its old name, Oracle, with a recumbent prefix, the better for definiteness. In an article of half a column, on the Sewing Machine Concert, the senior editor of that paper makes at least half a dozen false statements. First he calls it "a *knavish* effort to sell a stock of machines in an illegal manner"—which is simply a lie; as there will be nothing illegal about it,—and the machines are new and warranted perfect.

Then he says "the Chronicle advertises a lottery," &c., when there is no lottery advertised; and if we know anything about the affair, there will be nothing against the letter or spirit of any law, moral or civil.

The Journal also states, repeatedly, that Mr. Whittemore voted for a certain anti-lottery law—which that gentleman emphatically denies.

Then after calling the manager "a respectable gentleman," in a former article, "who would not do anything which he esteemed derogatory to the public morals," he now insinuates (what he dare not state) that Mr. W. may not do up the thing fairly.

His advice to "all respectable people,"—probably including those who traduce their neighbors—to keep away from the Concert, comes too late; as hundreds of that class have bought tickets, and about a thousand such will do so before Tuesday night.

The Journal wonders why the city authorities don't put a stop to the concert. Well, they probably have not the slightest inclination, and certainly not the least power. The Journal has repeatedly falsely charged the affair with illegality; but there is nothing in it which conflicts with any law or gospel. The charges of the Journal are as devoid of truth as they are destitute of manliness. F.

☞ The Portland Advertiser states that Capt. Samuel R. Carter, late Postmaster at Paris, Maine, has received the appointment of Chief Clerk to the Naval Storekeeper, at Portsmouth, N. H., and will enter upon his duties in a few days.

☞ The pews in the Stone Church owned by Mr. William Sheafe, will be sold at auction, by Wm. H. Hackett, to-day at 12 o'clock. This presents a rare opportunity for obtaining desirable pews in this church.

☞ The concert by the Cornet Band, Thursday evening, was a decided success, musically and pecuniarily. Of course the editor of the Chronicle, who first publicly proposed the organization of this creditable and valuable Band, will rejoice at this as greatly as anybody—even the editor of the Journal, who has given them two or three raps for being hired to perform at the Sewing Machine Concert—where will be their next public performance, on Tuesday evening. F.

☞ The Rockingham Weekly Chronicle containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room; price 3 cts. $1 per year, in advance.

Mercantile Library Association.—On account of the meeting at the Unitarian Church, at which the new organ was exhibited, and the consequent absence of many honorary members, the dedication of the new Mercantile Rooms was postponed till Thursday evening next, Jan. 20, 1859, at 7 1-2 o'clock. Members, with their friends, and those ladies who assisted in the recent M. L. A. Fair, are invited to be present. J. W. Tuckerman, Sec.

☞ The Journal once asked for a sermon on lotteries, from Uncle Toby. They have it in another column. We don't think it helps their side of the discussion much. Wonder why the Journal don't give us the statement of the difference between insurance companies and other lotteries, which it promised so long ago. The Chronicle isn't afraid to discuss lotteries—though the Journal leaves off the *dis* in reference to all save the Printer's Lottery. F.

IMMORTELLES.

SELECTED OR WRITTEN FOR THE CHRONICLE,

BY ALBERT LAIGHTON.

MANKIND.

Man is but man; inconstant still, and various;
There's no to-morrow in him like to-day.
Perhaps the atoms rolling in his brain
Make him think honestly this present hour;
The next, a swarm of base, ungrateful thoughts
May mount aloft; and where's our Egypt then?
Who would trust chance? since all men have the seeds
Of good and ill, which should work upward first.
—Dryden.

DEAD.

I heard a sorrowful woman say,
"Come in and look at our child!"
I saw an angel at shut of day.
And it never spoke,—but smiled!
I think of it in the city's streets,
I dream of it when I rest—
The violet eyes, the waxen hands,
And the one white rose on the breast.
—T. B. Aldrich.

HAPPINESS.

O Happiness! our being's end and aim,
Good, Pleasure, Ease, Content, whate'er thy name;
That something still which prompts the eternal sigh,
For which we bear to live, or dare to die,
Which still so near us, still beyond us lies,
O'erlooked, seen double, by the fool, and wise!
Plant of celestial seed! if dropped below,
Say, in what mortal soil thou deign'st to grow?
Fair opening to some court's propitious shine,
Or deep with diamonds in the flaming mine?
Trimmed with the wreath Parnassian laurels yield,
Or reaped in iron harvests of the field?
Where grows?—where grows it not? If vain our toil,
We ought to blame the culture, not the soil.
—Pope.

INGRATITUDE.

Freeze, freeze, thou bitter sky,
That dost not bite so nigh
As benefits forgot:
Though thou the waters warp,
Thy sting is not so sharp
As friend remembered not.
—Shakspeare.

☞ Gradually the small-pox has been shorn of its fatality and severity. Ten years ago not a winter passed by in the city of Manchester, but its presence was heralded by the ominous red flag. For several years, however, not a single case has occurred, and the Boston Board of Health have just announced that for two years past but two deaths have been caused by it in that city.

A Drunken Monster.—John Bauman, a laborer, went home intoxicated a few nights since, snatched his little boy, six years of age, from the bed where he was sleeping beside his mother, and, without the slightest provocation, beat him so inhumanly that the poor child died on the following day. The drunken monster was arrested and is in jail at Providence.

☞ Barque Oakland, (of Bath, Me.,) from Charleston for Liverpool, was struck by lightning Dec. 19, and caught fire; the crew left her in three boats about three hundred miles from Cape Clear. One boat containing the chief officer and four of the crew, was picked up and arrived at Milford haven—the others have not yet been heard from.

☞ A poem on Love, by Mr. John G. Saxe, has lately been read by him in public. The following brief and reverent passage on Divine Love concluded the performance:

"The thoughtful Pagan, worshipper of Jove,
In Heaven's loud thunder heard no voice of *love;*
E'en the rapt Hebrew bowed his spirit down
In shuddering fear before Jehovah's frown;
The Christian sees with reverential awe
The God of Hosts that trembling Moses saw,
But sees a Savior, smiling from above,
And in 'Our Father' learns that God is love."

☞ The death of the Emperor of Japan is confirmed, and there is little doubt that he died by his own hand, in his chagrin at having been drawn into making treaties with outside barbarians. Opposition to intercourse with foreigners has revived among the ruling classes in Japan.

☞ The Boston Bee says that Rev. Theodore Parker's Society has not disbanded, but will probably give up the use of the Music Hall during the pastor's temporary absence.

THE GROVER & BAKER

SEWING MACHINE CO.,

18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their Celebrated Family Machines, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;

PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Just Twenty One years ago this day, appeared in the Portsmouth Journal my first advertisement to the citizens of Portsmouth and its vicinity, under the head of

"A NEW APOTHECARY STORE,"

a young man's first appearance before the public, soliciting a share of their patronage in an important era in his lifetime; and it was with no small degree of diffidence, mingled with hopes and fears for the result, that I commenced life for myself, as an utter stranger among strangers.

But friends and patrons soon responded liberally to my call; and as I look back upon this long series of years, I recall to mind many, very many, warm friends and patrons, many of whom are still living, while many others have been called to that bourne from whence no traveller ever returns; and their memory still lives, and their deeds of kindness ever bring to recollection my warmest gratitude.

To all my patrons I extend my sincere and heartfelt thanks, and in soliciting a continuance of their favors, I assure them in return my most devoted attention.

From the N. H. Gazette.

To Advertisers.

The present circulation of the Gazette exceeds eighteen hundred copies, nearly double the circulation of the paper when we took charge of it, one year ago. We are confident that its circulation will not be materially less during the coming year, and we have assurances that it will be considerably increased. In the neighboring towns of North Hampton, Rye, Greenland, Newington, Newcastle, Kittery, York & Eliot, our circulation much exceeds that of any other paper published in this county. The Gazette is the only Democratic paper in the county, and reaches the members of a political party, (not a minority in either of the towns named,) who cannot be reached by any other paper published in this vicinity. From these facts advertisers can judge whether the Gazette affords a medium worthy of their patronage, and calculate whether it is for their interests to occupy a place in our columns.—*N. H. It will be seen by the above that the mortality has been greater the last year than on any of the 7 preceeding. In the month of September the deaths were 35—more than one a day.

In 1858, there were 44 deaths of persons above 60 years of age; between 60 and 70, 8 males and 5 females; between 70 and 80, 7 males and 11 females; between 80 and 90, 2 males and 10 females; over 90, 1 male. [The age of Thomas, a negro, was probably not much over 90, although he called himself a centenarian.]

Portsmouth Athenæum.—At the annual meeting, held last week, the following officers were elected for the current year:

Rev. Charles Burroughs, D. D., *President;* Alfred W. Haven, Esq., Rev. A. P. Peabody, D. D., Richard Jenness, Esq., Jonathan M. Tredick, Esq., Albert R. Hatch, Esq., *Directors;* Wm. H. Rollins, Esq., *Secretary and Treasurer.*

It is gratifying to state the prosperity and progress of this valuable institution, which now contains one of the most extensive and choice libraries in New Hampshire. Its volumes now number 8461, of which 242 have been added the past year. Only two of its one hundred shares were reported as in the market, one of which has been sold since the meeting.

The price of shares is one hundred dollars. The value of the building and books is not far from thirty thousand dollars. The institution is wholly free from debt.

Sickness of John Ball.—By a letter just received from a friend in Salem, we regret to hear that Mr. John Ball, the City Missionary, is seriously ill, and cannot survive long. His trouble is over-exertion of the brain. His sickness was hastened by falling from a car on the railroad at Lancaster, Mass. some time since. Mr. Ball has many warm friends in Portsmouth, his native place, who will hear these tidings with regret.

Mr. Ball's Death.—P. S.—Just as we go to press we have a telegraphic despatch stating that Mr. Ball died on Friday morning. His funeral will take place at Salem on Sunday next. His age was 65.—Journal.

Rev. R. I. Robinson, of Winchester, Mass., will preach at the North Church on Sunday next.

THE LOSS OF THE SHIP MARGARET TYSON.

Provincetown, Jan. 9.—Barque Azor at this port from Fayal 15th ult., brought home William Kennedy, the man picked up at sea by the schooner Oread, from the house of ship Margaret Tyson, Morris, from New York for San Francisco.

He states that the ship capsized in a gale on Saturday night (does not know date, latitude or longitude), and lay upon her beam ends until Sunday morning, when she was settling very fast. Capt. Morris then called all the men aft and told them to look out for themselves as he should go down in the ship. She soon had every appearance of sinking. The ship had six boats, three of which were stove by the drifting spars about the deck, two were stove alongside, and the sixth boat was launched in safety; five of the crew jumped into her, but she was capsized soon after by a heavy sea, four of the men got on her bottom, and the fifth (the man saved) caught a rope hanging from the ship, and hauled himself on board again. He then stripped off part of his clothes and swam to the ship's house which had become detached from the wreck. He found two of the crew on it, and was soon after joined by two more who had been floating on portions of the wreck.

At this time the ship had entirely disappeared. Two men soon died from exposure. The third man became delirious on the 9th day and jumped overboard, the fourth died two days before Kennedy was picked up. He says that he caught 7 small fish with his hands, and occasionally caught water when it rained.

Particular Notice.

The subscriber having made arrangements to engage in business in a distant State, has disposed of his Stock and Trade to Mr. E. A. STEVENS, and solicits for him, from his friends and patrons, a continuance of their favors. In retiring from business in Portsmouth, he tenders to his Fellow Citizens his most grateful acknowledgements, not only for their liberal patronage during his residence here, but for the many acts of kindness of which he has been the recipient. Those having demands against him are requested to present them for settlement, and those indebted to him to make payment.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, which has found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FRITZ JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan. 12, 1853.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Inventor of this Roofing labored many year to combine articles which would answer the above purposes, and at last has the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now *after Five Years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will be *fully convinced of its practical* value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN!

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we would bring to your notice, is far superior to anything of the kind yet discovered, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, and the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing eyes.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. These are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

American and Foreign Patents.
R. H. EDDY, Solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

NOTES, ON THE GAZETTE. — We have a column, mostly political, from the N. H. Gazette, on our third page to-day,—to which we here affix some brief notes.

First, on the *Correction*. We did not *deny* any thing about Guy Fawkes or Magna Charta, simply because no *assertion* was made about them! We did contradict and correct the errors. As to what any man *would* have been, had he lived 20 years or 100 years before he did, it does not matter much.

If Uncle Toby had died before Alexander the Great was born, then they might never have met at Thermopyla—or Bunker Hill, —and if Eve had never seen the Serpent nor eaten the apple, perhaps Noah would have had no flood, never would cursed Canaan, Ham might not have turned black, and the Dred Scott decision could not have been pronounced.

But you say, all this is not history, but moonshine. Even so: and so is the Gazette article, "Correction" and all.

The articles headed "A Suggestion," and "Maine Democracy," are copied as a curious illustration of the harmony of the democratic party, and of its different platforms in different States.

In the first resolution from Maine, there is this grand error, viz. "if the people of a territory are in *favor of slavery*, they have a *right* to make laws to establish slavery."

This, let us say, is all wrong. The people of a territory may or may not have the *power* to uphold slavery; but it being a wrong from the beginning, can have no more *right* than any other robbery or theft.

Mr. Cobb, when he came here to instruct us to vote for Mr. Wells, in order to uphold Pierce, told us expressly he *would not* discuss the *right* or *wrong* of slavery, but simply hold us to an old bargain!

Now the freemen and independent democrats of Maine and New Hampshire have never made any bargain to extend slavery over new territory, and it will be a long day before they will do so.

A CURIOUS RAILROAD INCIDENT.—A few days ago, Mr. John Linwood, of Cadiz, Henry county, Indiana, was a passenger in a train on the Baltimore and Ohio Railroad. He occupied a seat near the door, and after dark dropped into a snooze, from which he was aroused by the passenger in the seat behind him withdrawing his hand from his breast pocket with his pocket book in it. He attempted to seize the hand but missed it, and the pickpocket immediately started for the door. Mr. Linwood caught one of the skirts of his coat, just as he emerged from the door. It gave way, and he then caught the other skirt, which also gave way, and though the train was under full headway, the thief jumped off and escaped with the pocket-book, containing $61. In the pockets of the coat-skirt Mr. L. found, however, to compensate him, two costly gold watches, worth $150.

☞ A good citizen of our neighboring town of Newington keeps a public school in Durham, on the opposite side of the Bay. The weather has been such that he has gone across regularly, in his boat, until the cold Monday, Jan. 10, when he found the ice so thick and strong in the morning as to embarge the boat; but he found also, on trial with an oel-spear and an axe, that it was only from half an inch to an inch in thickness, and that in some places thinner, so as not to bear a man.

He therefore constructed in a few moments a temporary and extemporaneous sledge of pine boards, making the sides about four feet long and six inches high, with good bars across, and nailed two boards crosswise, each four or five feet long. On this sledge he laid down, and with his boot toes propelled himself over the rough ice. When he came to smooth spots, he sat up and pushed the sledge along by a plaice spear. In this way he crossed safely, easily and rapidly. By sunset the ice was so strong that he could walk across easily and draw his sledge.

We mention this, not only as an uncommon occurrence, but also as a good practical device for crossing new ice of doubtful strength.

☞ Dr. Hatch, who is charged by his pretty wife with having refused to provide for her a suitable quantity of drawers and petticoats, purposes to make an exposure of spiritualism, of which his wife is a professor. He'd better remain quiet, for no one would believe a man who wouldn't let his wife have flannel enough, to be paid for out of her own money.

LETTER FROM AUSTRALIA.

MELBOURNE, Australia, Oct. 17.

Dear Chronicle:—When the last homeward bound mail steamer was on the eve of departure, the residents in this part of the Colony were engaged in industriously circulating various wild rumors concerning the discovery of a new gold field, situated about a thousand miles to the Northward and Eastwasd of here, in the Canorna District, on the Fitzroy river. In my zeal to ferret out the truth of the various accounts I missed the mail—but being unwilling to let your readers lose the benefits which must result from my valuable labors, I posted my letter, and you'll go two of them this week in consequence. Since that time we have had a genuine exodus to Port Curtis, (the nearest landing-place for persons bound to Canorna,) some 12,000 having sailed from this place and Sydney. The reports from the new diggings are most unfavorable, representing the climate as excessively hot and unhealthy, provisions as scarce and very dear; gold scarce, and most of the people suffering great privations. Notwithstanding this report and the fact that the last steamer from Sidney brought 250 return passengers, two ships sailed yesterday with 300 passengers each, and the steamer was crowded with adventurers. Thirty ships and barques are now on the berth for Port Curtis, and it is supposed 3000 more diggers will leave for there next week.

At one time I was seriously attacked with the fever, having the premonitory symptoms very badly,—couldn't pass a hard-ware store without trying the 'hang' of picks and shovels,—had to try the weight of every tin pan that came within reach,—rose at four o'clock to read the papers, and rushed on board the Sydney steamers as soon as they touched the pier, to get the latest news,—but thanks to the bad news, I am now convalescent, though not yet out if danger of a relapse.

The weather for the past week has been intensely hot, to me at least, although the natives and old residents call it fine and comfortable,—but last night a change took place, and I wake up to find my hammock, (for I sleep in a hammock to escape the blood-thirsty fleas,) half full of water, and my linen in a very dubious condition in consequence. I hope to get to the States some time or another, where I can sleep in a bed without losing my patience and my life together—where a man can see a little snow in the winter, and a good thunderstorm in summer,—and where he can live as becometh an American and a Christian. New England is the only place, in my estimation, fitted for white men to dwell in; the Pacific islands do very well for Kanakas, Peru and New Granada for Spaniards,—and Australia for gold-hunters,—but all of them together can't equal the land of Pilgrims.

As you get a double dose of trash this mail, you will have enough to last for three months, at least, so I shall write no more for that period, unless something unexpected turns up for me to write about. If gold should be found in such quantities as to cause another fever to lay hold of me, I shall communicate from the diggings. If not, I shall remain where I am, and keep silent. In the meantime, you must make "Islington" do double duty,—and, in case you *should* wish to hear from such a cold-natured article as myself, you will certainly have no need, during an American winter, of depending upon Australia for your supply of ICE.

☞ Another case of rum's doings is given in the Vermont papers. A rumseller's victim, named Shurtleff, drove his horse and sleigh on to the railroad bridge, at the mouth of Dog River, near the Montpelier Junction. The horse, of course was soon on the cross beams, his legs hanging down under the bridge, his body and the sleigh lying directly on the track. The driver, finding himself thus, got out of his sleigh and clung to the side of the bridge. While in this condition the train came along. In the dark the engine rushed on, tearing the horse, sleigh and harness into hundreds of pieces! The engine was thrown from the track, the truck, wheels and bridge broken, while the rum jug and the rum drinker were both preserved uninjured.

☞ Rev. John E. Farwell died in Fitchburg, Mass., on the 24th ult., aged 49.—Mr. Farwell was a native of Ashby, Mass., graduated at Amherst in 1836, and at Andover in 1839, and settled over the Congregational church in Rochester this State, where he labored ten years. His last ministerial labors were in Pelham, where he was attacked with a disease which has ended his life. Mr. Farwell was possessed of more than ordinary talents and attainments, and was highly esteemed as a preacher, pastor and Christian.

[For the Chronicle.]

THE CHURCH AND TEMPERANCE.—I have found a few persons of great religious pretensions, regarding whom it puzzles me to know in what their religion consists. I will describe one, and then the reader will have an idea of several of this class.

He lives between two villages, one called Guzzleville, the other Slabtown. His father drank liquors, and in early life he was trained to use them. Becoming of age, he made a profession of faith, and united with a church. The temperance reform was agitated, but he spoke against it. Some twenty-five years have passed, and he has never been known to say a word in its favor, but often has thrown out unkind remarks against the measures employed to stay drunkenness. He will not attend temperance meetings, and has been known to try to prevent their being held in the meeting house where he goes on the Sabbath. It is known that he has drank intoxicating liquors so as to feel their inebriating power. At times the show of his face has been a sufficient witness against him—this when cider was plenty, and after he had put a number of barrels in his cellar.

Now this man is very forward in religious affairs, and evidently thinks himself a zealous Christian. But really I wish to know in what his religion consists, and of what use it is to him. If our faith does not lead to a good life and to good works, is it the right kind? Is it true faith? If Christianity is not for reform, it is not so good as the heathen morals of Seneca. See to it, ye churches, for the world all around us is looking to you for light, truth, purity and peace. TEMPERANCEVILLE.

☞ A fearful catastrophe occurred at the Victoria Theatre, London, on the 27th. Just before the termination of an afternoon performance, and when the gallery stairs were crowded with the evening audience waiting for admission, a false alarm of fire was raised, and a panic set in, during which the pressure on the gallery stairs was such that sixteen boys were crushed and trampled to death, while many more were injured. The theatre is situated in a very low neighborhood, and so rapidly did the excitement abate, that the evening's performance was proceeded with as usual.

POLITICAL GOSSIP.—The Washington correspondent of the New York Evening Post says that he had it from good authority that Douglas will 'stand up and fight the Administration;' that he will not seek the nomination of the Charleston Democratic Convention for the Presidency, and that if he runs for this office at all, he will do so as an independent candidate.—The same correspondent says:

"When Iverson was making his disunion speech the other day, his colleague, Toombs, remarked in his seat to some gentlemen who were near him, thus: 'Iverson hasn't read up the markets. The price of niggers has gone up. I am going to remain in the Union, and I rather think Georgia will too. More than all, I am rather in favor of a Northern President, for, as a general thing, we in the South always make more out of a Northern than a Southern man!'"

☞ A young lady named Georgianna Chaze went from New York to Norfolk, Va., on a steamer, a few weeks since, and proving to be insane was left there. She is evidently the victim of seduction, and is about 17 years old, beautiful, and highly educated. She is placed in an insane hospital, to await the care of her friends. She has letters from Mary A. Webb, from a brother named Frank, and from a lover named Henry, which may lead to her identification.

☞ By means of a machine invented by Mr. Wm. Wickersham, almost any number of thicknesses of the stoutest leather may be firmly sewed at once. Waxed thread of any size desired is used with perfect facility. There is an awl that first pierces the leather, and the needle follows. A girl using one of these machines can side from eight to twelve cases of boots per day.

☞ At Chicago, a few days since, the case of Curran vs. Beach, an action instituted for the recovery of damages for alleged malpractice, was terminated by a verdict of $15,000 for the plaintiff. All the medical witnesses concurred in the opinion that the treatment of the fracture in the first place was unskilful and improper, and that the amputation was a bungling piece of butchery.

☞ The city marshal of Concord, is engaged in the work of *searching* the groggeries, and has made some curious discoveries. One shop had a keg so fixed as to draw cider from a faucet in plain sight, while gin came out of a concealed faucet.

☞ Another sad accident resulting from the practice of leaving children alone in a house, has occurred at Fostoria, Pa. The mother went to the stable to milk her cows, and while she was gone her three children, who had been locked in, set the house on fire, and were all burnt to death.

☞ A slave named Milford, was burnt to death by a mob, in Alabama, during the last week of December, for the murder of his master. At Troy, Missouri, a slave met with the same fate, on the 24th ult., at the hands of the citizens, for a similar offence.

A Pennsylvania Dutchman, named Henry Swingle, married Miss Angelina Baker, in New York, a few days since, promising to take the whole family home. But at the breakfast table, on the morning after the ceremony, an officer appeared and lugged off the lumber merchant, who was found to have stolen his wedding suit at a boarding-house.

☞ A "smart, likely young negro" with his wife and child, who recently arrived in Lowell in an exhausted condition, have been forwarded to Canada by the Underground Railroad.

SPECIAL NOTICES.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Consumptive Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

CONVULSIONS.—Spasmodic symptoms, whether depending on functional derangement or a disease of the nervous centres, are happily modified by the tonic and alterative power of the PERUVIAN SYRUP; the terrifying convulsions cease, and order is restored by removing the exciting cause, and the prevention of the predisposition.

TESTIMONY.—Des. J. B. N. Gould, Niles' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quickly as possible, and not to let the victim linger in pain. The R. R. RELIEF provides us with the means for this principle. No useless time is wasted, for from the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhœa, or Flux of any sort, R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The R. R. R. will raise you from your bed of suffering in a few hours.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators. d3 eod 3m

BEAUTIFUL LADIES.

Many ladies are annoyed at the disagreement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevent the free flow of perspiration, causing the various pimples and eruptions. These can be easily removed by an application of GANNETT'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietor, and is now put up for the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN BROKEN. THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other GIN, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, confectioners and liquor merchants. Beware of imitations. Buy only CHARLES'—NONE OTHER IS IMPORTED.

A CARD TO THE LADIES.

DR. DUPONCO'S

French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is prepared to say that thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by JOSEPH H. THACHER, in Dover by Chas. A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's price, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N. B.—Ladies will be particular in asking for *Dr. Duponco's Golden Pills*. Observe the signature *J. Duponco* is upon each box. You will then obtain a Pill you can rely upon.

J. DUPONCO, Proprietor.

LOCAL.

For the Chronicle.

MRS. MACready.—We are glad to learn that this highly talented lady and finished artist has decided—at the request of many citizens—to give the scholars of our several schools an opportunity to attend one of her entertainments on Wednesday afternoon next. On this occasion she will read some of her most popular pieces, among which is Whittier's beautiful poem of "Maud Muller." To hear this poem alone, rendered in Mrs. M.'s classic style, is worth double the price of admission. In the evening the entire play of "Midsummer Night's Dream" will be recited without the aid of note or book, a feat which, we believe, no other lady ever attempted. In addition to the above named attractions, and as a thank-offering for her cordial reception among us, Mrs. M. has kindly offered to give one-half the proceeds of the afternoon in aid of the City Mission, and of the evening to the Howard Benevolent Society.

We earnestly hope that teachers will interest themselves in the matter, and induce their pupils to attend *en masse*, for by thus encouraging and developing in them a love of the beautiful in nature or art, they confer upon them a lasting benefit. L.

To the Editor of the Portsmouth Journal.

SIR:—It was a frequent remark of a noted merchant, that to be successful in business, a man must have his name prominently before the people—no matter how, or in what connexion. It may be satisfactory to you to know that I appreciate the aid you have so generously bestowed in advertising my name. But whether I am very deeply indebted to you for your late efforts, may depend more upon your intentions, than the truth of your statements—which I wish to correct.

The idea that my name appearing as agent for Grover & Baker Sewing Machine Company, is equivalent to signing a lottery advertised in the Journal or elsewhere, is too foolish to appear in any save *one* journal in the country. But perhaps there are those who believe that Grover & Baker own some of the principal railroads, because their advertisements appear upon the companies' maps.

Whether you are honest, Mr. Journal, in your denunciation of lotteries, or were making a seedy attempt at irony, may be a question, in view of your adroitness in gambling at the printers' lottery. Since the late drawing, it is not to be wondered at that you have had a view of the cloven foot in front and tail behind—a vision that would never trouble the dreams of honest men.

The false statement which you have repeatedly made, that I gave my sanction to a certain law passed by the Legislature of '55, is not only one beyond your knowledge, but you have taken no means to ascertain its correctness. This falsehood can injure no one except he who has the boldness to publish it; but, taking it in connexion with your other statements, and your lottery drawings, to use your own language,

("Thank thee, Jew!")

I "envy not your reputation." C. C. W.

MERCANTILE LIBRARY ASSOCIATION.—On account of the meeting at the Unitarian Church, at which the new organ was exhibited, and the consequent absence of many honorary members, the dedication of the new Mercantile Rooms was postponed till Thursday evening next, Jan. 20, 1859, at 7 1-2 o'clock. Members, with their friends, and those ladies who assisted in the recent M. L. A. Fair, are invited to be present. J. W. TUCKERMAN, Sec.

☞ We learn that a very well behaved and industrious Irishman was attacked on Thursday evening in Bridge street, by four ruffians who had been drinking, and severely beaten and kicked, without provocation on his part. One of the roughs said, "he's got enough," and then they left him. Behold the beauties of the groggery.

☞ The ocean steamship North American, from Portland, arrived here at the Navy Yard on Sunday about sunset. She is to be taken into the dry dock for repairs.

☞ The Portland Advertiser says the Reform School narrowly escaped being burned on Monday morning. Fire took place in the neighborhood of the *register*, and was extinguished with little damage. Had the fire occurred in the night, the consequences might have been most disastrous.

To discover a truth, and to separate it from a falsehood, is surely an occupation worthy of the best intellect, and not at all unworthy of the best heart.

CONGRESS.

THURSDAY, Jan. 14.

SENATE.—Mr. Hunter, of Va., called for the yeas and nays on the resolution to pay $150 for the funeral expenses and a salary of Morton, the deceased furnace keeper. It was carried, 33 to 17.

Capt. Hartstein was allowed $2008 extra expenses in the matter of the Arctic discovery bark. Resolute, by a unanimous resolution.

The Pacific Railroad bill coming up as the special order, another discussion arose whether it or the private calendar should be taken up. The yeas and nays resulted in favor, of the former—34 against 32.

A vote was then taken on Mr. Bigler's amendments to limit the road between the 37th and 43d parallels of latitude, which was lost—nays 25, yeas 19.

Mr. Chandler (of Mich.) spoke strongly against the bill, after which Mr. Wilson's amendment, providing for the appointment of a commission to locate the roadbetween the 34th and 43d parallel, and for its being built by the general government, was voted on, and lost—31 against 23.

The bill was debated all day.

Mr. Doolittle submitted an amendment, providing that any contract by the President be submitted by him to Congress, and take effect only by joint resolution.

The Doolittle amendment was adopted.

A motion by Mr. Mason, to recommit the bill was lost, by 29 against 53; and another by Mr. Toombs, to lay it on the table, was also lost by 29 against 27.

NEW YORK, Jan. 13.—Among the passengers in the Africa were Dominic Lynch of Hong Kong, who crossed the Isthmus of Suez in December, by railroad in eleven hours. It was the first trip over the road. There was a large number of passengers, and a heavy freight of India silks, &c.

The frigate Macedonia was at Alexandria, all well.

A dispatch from Washington says the Territorial Committee yesterday agreed to report the Arizona bill.

THE FISHING BOUNTIES.—The Washington Union prints the whole of Senator Clay's speech against the fishing bounties made at the last session of Congress. It also says that this cod-fish bounty is one of those sung little abuses which often escape for a long periods the attention of the most vigilant legislators. It has been perpetuated for a quarter of a century by the *laches* of Congress." A half a column of stuff like this indicates the spirit of the administration on this question.

☞ The Concord Statesman of Jan. 15 says, at a meeting of the Universalist Society, (Rev. Mr. Moore's) on Wednesday evening, it was voted that he continue the pastoral relation with them the present year.

☞ In Manchester, at the Supreme Court, Lafayette Goodenough, the assaulter, was *defaulted*, on his bonds. Rather a costly assault, as it ought to be.

☞ Mr. Daniel Brown of Rye, slaughtered a hog on the 13th instant, weighing when dressed, 578 pounds,—about twenty months old,—having grown nearly a pound a day on an average, from birth.

☞ The New York Tribune denies emphatically that Mr. Greeley contemplated leaving that paper and connecting himself with another journal.

☞ Godey for February, contains, The Masonic Slipper, Winter, a most beautifully engraved plate, ten full length figures of fashions, and a good variety of matter.

☞ It is said that the Legislature of Delaware will pass an act granting lottery privileges, so as to aid in the construction of railroads in that State, without involving the State's credit.

☞ Barnum has made his first appearance in London as a lecturer. St. James Hall was crowded to excess, and the newspapers generally speak quite flatteringly of his essay. His theme was "money-making."

Anthony Eilding, a German, went into a liquor store in New York on Tuesday morning, and drank three pints of gin, after which he managed to get to his house and died there.

☞ Gov. Weller of California last year pardoned 21 state prison convicts: one of those has since committed two murders.

☞ Senators Douglas and Slidell are indulging in a very unsenatorial controversy just now.

☞ Four people were burned to death, last week, at different times, in Brooklyn, N. Y.

SCENE IN A SCHOOL ROOM.—The Springfield Republican is responsible for the following:

"Come here, George, I wish to examine you in punctuation. What's that?

George—That? that's a comma.

Mistress—Right; now what's that?

George—Ah! now you've got me where my hair is short; I dun know.

Mistress—George, I do not wish you to use any slang phrases here. When you are unable to give the correct replies, say so, but do not repeat such phrases as that which you have just used. Now, what's that?

George—I dun know.

Mistress—Don't know what that is?—Why that's a period.

George—(looking critically at the point in question.) Ha! ha! ha! Now I've got *you* where your hair's short! *that ain't nuthin' only a fly dirt!*

Mistress—(re-examing critically.) George you are dismissed.

A farmer who had married a rich wife after promising another of meaner circumstances, endeavored to palliate his conduct to a clergyman who told him it was so wrong that he didn't know of anything like it. "It you don't, I do," says Hodge; "it is like your leaving a poor parish for a rich one."

LUNAR BEAUX.—Says an astronomer to a bright-eyed girl when talking of rainbows, "Did you ever see a lunar bow, miss?" "I have seen beaux by moonlight, if that's what you mean," was the sly rejoinder.

An eloquent writer says:—"Let us take destiny, though man may exact unjust and hard things of us; but our hearts will see God through it, and the music of angels will play through our souls, and all will beam with radiance and peace."

☞ James Gaffney was burnt to death in a house on 18th street, New York, which was partially destroyed by fire on Tuesday morning.

☞ Orders have been received at the Philadelphia Navy to discharge five hundred workmen on Saturday.

THE GROVER & BAKER SEWING MACHINE CO.,

18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;

PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Just Twenty One years ago this day, appeared in the Portsmouth Journal my first advertisement to the citizens of Portsmouth and its vicinity, under the head of

"A NEW APOTHECARY STORE,"

a young man's first appearance before the public, soliciting a share of their patronage in an important era in his lifetime; and it was with no small degree of diffidence, mingled with hopes and fears for the result, that I commenced life for myself, as an utter stranger among strangers.

But friends and patrons soon responded liberally to my call; and as I look back upon this long series of years, I recall to mind many, very many, warm friends and patrons, many of whom are still living, while many others have been called to that bourne from whence no traveller ever returns; yet their memory still lives, and their deeds of kindness ever bring to recollection my warmest gratitude.

To all my patrons I extend my sincere and heartfelt thanks, and in soliciting a continuance of their favors, I assure them in return my most devoted attention.

CORRECTION.—The Chronicle corrects a slight mistake into which we fell last week in relation to the early political history of this country. The Chronicle says, that so far from Mr. Hackett's being a coadjutor of Alexander Hamilton, that gentleman did not even become a voter till after Hamilton had been killed by Aaron Burr, and that at the time of the Hartford Convention, Mr. Hackett was making pot hooks and trammels in his first writing book. But note the fact, the Chronicle does not deny that Esquire Hackett opposed MAGNA CHARTA, and was concerned with Guy Fawkes in the Gunpowder Plot.

If this is to be taken as a fair sample of the Chronicle's skill and zeal in defending the old blue light federalists, that paper will be a *valuable* aid to the cause of federalism revived.

In relation to our original statements, we stand corrected, but are very sure, had the gentleman been 20 years older, he would have figured in both the capacities mentioned, and to day been proud of the honor; and so would Goodwin, Marston, Edwards, and the whole tribe of *blue* black Republicans recently put in nomination by our opponents.

A SUGGESTION.—Wouldn't it be well for certain people to remember that we live in the State of New Hampshire, and not in Illinois, that Douglas has not been before the people of this State as a candidate for the U. S. Senate, and no especial motive exists for the distraction and prostration of Democracy hereabouts, either for the benefit of the Little Giant or for the comfort of the individuals who were sufficiently humbled in the failure of their ill-begotten scheme to defeat his triumph over black Republicanism and its allies in his own State? If we are right in this matter, there can be no doubt that the best method of pleasing the Administration, the friends of Mr. Douglas, and all the other embryo Presidents, will be to rally in one harmonious and vigorous phalanx, and fight our way to a State triumph, which shall restore New Hampshire to her former proud position in the National councils, and regain for the voice of her Democracy its wonted influence in the great National party.

If anybody knows of a better or a more expeditious method of certifying our devotion to Democratic principles, one that will better please the Administration and every body who feels an interests in the triumph of sound Democratic doctrine, we will gladly accept the amendment.

Maine Democracy.

The following resolutions were passed by the Democratic members of the Maine Legislature in Convention, at Augusta, last Monday. The were reported by Mr. Pierce of Kittery for the Convention, were separately read and *unanimously* adopted.

Resolved, That we hold it to be sound and unexceptionable doctrine, that if the people of a territory are in favor of slavery, they have a right to make laws to establish and protect it, and if they are opposed to slavery, they have an equal right to make laws to exclude it.

Resolved, That it is our deliberate and fixed purpose, to declare that Congress should, in no event, pass any act to establish, protect or sustain slavery in the territories of the United States, or to exclude it therefrom, but should promptly guarantee to the sovereign people thereof, the undisturbed right to dispose of it, in their own way, and without interference or molestation from any quarter, subject only to the express provisions of the Constitution.

Resolved, That we are in favor of the immediate admission of Oregon, and also of the admission of Kansas into the Union, whenever a constitution, republican in form, truly and honestly ratified by the popular vote of said territory, shall be presented to Congress.

Resolved, That the newspapers of this State be respectfully requested to publish the foregoing resolutions, unanimously adopted by the Democratic members of the Maine Legislature, in Convention assembled.

GOLDEN WEDDING.—At Seabrook, N. H., Jan. 11, 1859, Mr. David Gove and Mrs. Susan Gove, having been joined together in the holy bands of wedlock 50 years, and having been blessed with ten children, all of whom lived to become heads of families, celebrated their Golden Wedding last Tuesday. Their children, all living except one, assembled together to greet each other on this happy occasion. Their hearts were warm with love toward each other. The golden wedding cake was passed around, remarks were made by several of the friends and relatives present, and the festivities of the day closed. *

Indian Physician.

Dr. B. S. GOODWIN

Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.

ADVICE FREE.

Dr. Goodwin would assure all that his Medicines are purely vegetable, and perfectly innocuous, and are calculated to purify the blood, and eradicate all diseases from the system.

THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Dysentery, Tapeworm, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.

No Mercury! No Bleeding! No Blisters!

Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks highly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantee of truth, the Dr. needs no encouraging, nor useless puffery from the press.

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

PROFESSOR WOOD: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodist Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 26 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all bad or bad humors from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease, effectually and radical cure.

Billous Attacks are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent food from rising and souring.

Only one dose taken before retiring, prevents **nightmare**.

Only one dose taken at night, loosens the bowels gently, and **cures costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves the worst **Colic.**

One dose often repeated, is a sure cure for **Cholera Morbus,** and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effects of mercurial poison after a long sickness.

One bottle taken for **Jaundice** removes all traces of the mercurial color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow together.

PRICE, ONE DOLLAR PER BOTTLE.

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Inventor of this Roofing labored many year to combine articles which would answer the purpose, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now *after Five Years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN.

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most confidently and unhesitatingly assert that the article which we now bring to your notice is *far superior to anything of the kind yet discovered*, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, upon receipt of the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female functions, and the action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

Indian Physician.
Dr. E. S. GOODWIN
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN:
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for successful services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 3, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and the one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on (since rejected) applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Morning Chronicle.

TUESDAY, JANUARY 18, 1859.

NAVAL.—Letters have been received in this city from Lieut. Parker of the U. S. Store-ship Release, of the Paraguay Squadron;—dated December 7th and 13th last; On the 24th Nov. spoke Sch. Burdett Hart, Albert Thomas, master, 23 days from Malaga for New York, and supplied her with 125 lbs. of bread.

On the 13th ult. spoke ship Norseman, from Batavia for Boston, at Lat. 1° South, Long. 35° W.

SUICIDE.—Capt. Richard Y. Baker of Harwich, Mass., committed suicide in Providence on Wednesday night, as we learn from the Journal, by taking strychnine. He was 33 years old, and leaves two children at Dennis, Mass. No specific cause is assigned for the act. The coroner's jury rendered a verdict that he took the strychnine with '*malice* aforethought,' which is rather a novel verdict, to say the least. One of the witnesses testified that the deceased wrote a number of letters to his friends before swallowing the poison, and that after he had taken the fatal draft he sat quietly beside the stove and commenced singing a familiar hymn.

He was a crazy man, that's all.—The idea of any man's having malice against himself, is preposterous,—and to entertain it by the jury, ought to stamp them as a jury of *non compos mentis* gents,—*Anglice*, Nincompoops.

☞ Prof. Peck, one of the indicted Oberlin (Ohio) fugitive slave rescuers, writes to the Cleveland Herald that the prosecution has granted a "struck" jury for the trial of the indicted, and adds that this unexpected liberality seems to give promise that the prosecution will conduct the trial with fairness, and the defendants will be permitted to enjoy the ordinary privilege of parties charged with breach of laws.

SERVED THEM RIGHT.—In Portland, on the 14th, the harbor was frozen over as far as the Breakwater. As Ralph Butler, Jr., was crossing the ice, it gave way under him, and after being in the water some fifteen minutes, with the thermometer fifteen degrees below zero, he was rescued by two of the crew of the schooner Delmont, of Bucksport, to each of whom he presented a beautiful watch, at a dinner given the crew at Ingersoll & Sons.

☞ The Detroit Tribune says that a recent election for Councilmen in the township of Raleigh, Kent county, near Chatham, C. W., a negro named Shadd, was triumphantly elected, beating his opponent, a white man, by a handsome majority. Shadd is "as black as the ace of spades," and figured prominently in a recent slave case as the harborer of the fugitive. Raleigh is the place where most of the refugee negroes locate.

☞ A suspension bridge just erected over the St. John's River, at Grand Falls, C. W., and which had just been open to the public, fell on Saturday last, in consequence of the chains snapping. Three teams were lost, and two men seriously injured. The cause of the disaster was most probably owing to the contraction of the iron during the severe cold of last week.—The bridge cost over $20,000.

TO DOUGLAS DEMOCRATS.—Col. Forney thus addresses this class of fellow citizens, upon what he deems their political duties at the present crisis:

"We must deny the right of any administration to control our conventions and to alter our creeds. We must repudiate the present administration, boldly and everywhere, and on its ruins re-erect the old Democratic flag, and re-assert the old Democratic principles. Before such an organization all other parties would give way. The general opposition of the Democratic party can prevail only in the failure to press this movement vigorously forward. If Charleston accepts the creed upon which we fought and won the battles of 1856, and upon which we won a greater victory over Federal power in 1858—well. If not, then Charleston will pass away and be forgotten, like an idiot's dream.

☞ The German in New York did *not* drink three pints of gin; he only took enough to kill him; this correction is made from respect to his memory. Another German, reported to have frozen to death, really died of starvation.

DR. BIGELOW, STEALING DR. COGGSWELL'S THUNDER.—The following communication is from the Boston Transcript of a few months since. The work in question is attracting attention among the M. D.'s.

MEDICAL HERESY IN 1843 IS GOOD ORTHODOXY 1858—*Mr. Editor*:—In last evening's Transcript, I noticed the following extract, from a work recently published, by Jacob Bigelow, M. D., of Boston, viz:

"I certainly believe that the unbiased opinion of most medica men of sound judgement and long experience is made up, that the amount of death and disaster in the world would be less, if all disease was left to itself, than it now is, under the multiform, reckless, and contradictory modes of practice."

Now, sir, will you believe it, that for my presumption in giving publicity to a precisely similar sentiment fifteen years ago, (heresy then,) a clique of my professional brethren of Boston seriously contemplated presenting me with a "coat," more ostentatious than comfortable to wear. In 1843, Jan. 12, is published in the Boston Atlas, over my own signature, a medical communication, in which is made the following confession, viz.:

"I cannot answer it to my conscience to withhold the acknowledgement of firm belief that the Medical Profession (with its prevailing mode of practice) is productive of va,tly more evil than good; and *were it absolutely abolished*, mankind would be infinitely the gainer. Not, however, that the established practice never does any good, but, on the whole, more hurt than good."

The reader will observe a striking likeness in the sentiment, if not the language, of the above two extracts.

F. COGGSWELL, M. D.

Dr. Coggswell is the discoverer and manufacturer of the Anti-Phlogistic Salt, advertised on the first page, by Thacher.

☞ A Beggerly Account of Empty Boxes, is given from our Independent Treasury at Washington, of which the Atlas correspondent says:

The Treasury is cleaned out and payment stopped. Nothing now remains but the ten million loan with which to carry on the government. This may suffice if successfully negotiated to keep up credit until Congress comes to the relief of the strong box. It has been suggested that now is the best time to dissolve the Union and let each section set up independently upon "its own hook!" Congress seems to care very little about it and Secretary Cobb and Mr. Buchanan are in a quandary.

THE LECTURE SEASON.—The Lecture Season in Boston, says a correspondent of the Worcester Spy, has proved a failure, with one exception—that of the Fraternity Course. The latter, now concluded, has paid its way. The lecturers have been handsomely remunerated. Mr. Parker received $125 each, for his four; Henry Ward Beecher, $200 for his one; and none have been paid less than $50. They have averaged $100. The Mercantile Library course will not meet its expenses by $700, and the Mechanic Apprintices' by $500. The deficit in the latter will be made up by the friends of the institution; but the Mercantile will suffer from its own vitals.

SECRETARY COBB will not pay the fishing bounties. Avowed cause, want of money; real cause want of disposition. This gentleman has been supposed more friendly to New England than most southern democrats, but he has to go with the stream of his party,—and a very dirty stream it is. Perhaps he has become disgusted because Maine did not allow herself to be "redeemed." New England must be given up by the democrats, unless something should "turn up" for them at the next New Hampshire election; but that couldn't help them much, as it would be made a reason for pressing poor Frank Pierce's claim to the democratic nomination, which he pants for like the hart for the springs, but which he has as much chance of getting as the hart has of getting to the springs when the hounds are at its heels.—*Traveler.*

Messrs. Editors:—An old subscriber, on reading your valued Australia ("Ice") correspondence, notices the call upon your old correspondent, "Islington" to fill up the gap. Well, where *is* Islington? Is he dead, or peradventure does he only sleep? Wake him up, for the sake of your READERS.

SUDDEN DEATH.—Isaac Cushing Esq., a wealthy merchant of Salem, was found dead in his bed Friday morning. He retired in his usual health, and no signs of disease were visible. A medical examination showed that he died from paralysis. The deceased was a single man, seventy-nine years of age.

A census of the population of Rome has just been completed, from which it appears that the total of the inhabitants is 180,367,—a figure at which this storeotyped city has remained for the last 250 years.

WASHINGTON NEWS.—At a meeting on Saturday, of the Committee of Ways and Means, Secretary Cobb presented a report, showing that more than $18,000,000 of Treasury notes fall due by the first of July, which there are no means available to meet. Mr. Phelps stated that he was not prepared to bring forward any plan to supply the deficiencies in the revenue, but will do so on Tuesday, to which day the Committee adjourned. The deficiency, by the 1st of July, it is believed, will be $30,000,000.

☞ In Essex, Mass., the Assessors have levied a tax of one dollar each on fifty-two dogs; and one gentleman, rather than pay the tax, hung his dog from the great beam in his barn, on Sunday afternoon Jan. 9.

So says the Cape Ann Advertiser,—but Uncle Toby says it could be no gentleman who hung the dog, but a biped puppy, inferior to any decent dog, and worthy to be haunted by a pack of canine ghosts.

☞ It is now said that the legatees of Mr. Thorndike, late of Boston, will not resist the motion, made by the counsel of his disinherited daughter, to have a special administration appointed.—This looks as if the family, and the community, have more sense and *sanity* than the devisor.

NEW YORK, Jan. 17.—The man killed in Elm street yesterday morning by rowdies was named Richard Owens,—a respectable rigger and stevedore. The wounded man is Wm. Becker, a German. Two of the assassins were arrested, one named John Glass, an ex-Constable of the 5th Ward, and the other a young man named James Higgins. Becker will not live.

The kernelling mills of the Gorham Powder Works, containing eighty kegs of powder, blew up on Saturday afternoon, killing Mr. David R. Jones.

MERCANTILE LIBRARY ASSOCIATION.—On account of the meeting at the Unitarian Church, at which the new organ was exhibited, and the consequent absence of many honorary members, the dedication of the new Mercantile Rooms was postponed till Thursday evening next, Jan. 20, 1859, at 7 1-2 o'clock. IMPORTANT TO
TOBACCO CHEWERS.

DR. GUSTAV LINNARD'S
TASTE RESTORATIVE TROCHES,
The Great Substitute for Tobacco.

IT is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe

MENTAL AND PHYSICAL DISORDERS

to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also the entire nervous system, manifesting itself—as all who have ever used the noxious weed will testify—in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES are designed and compounded with the utmost care, and have proved entirely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying trickling sensation of the Throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco Chewing.

These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 Cents per Box. A liberal discount to the Trade.

Prepared solely by the undersigned, to whom all orders should be addressed.

THE GREAT ENGLISH REMEDY FOR
Colds, Coughs, Asthma, and Consumption.

Astonishing Cures of Consumption.
Two cases pronounced beyond the reach of Medical Aid.

AUGUSTA, Me., May 27, 1845.

DR. BRADLEE—SIR—The Hungarian Balsam, has been of almost infinite service to me. I have been cured of an affection of the Lungs, which was thought to be incurable by all my friends, by the use of a few bottles. One of my children was also restored to health, after being pronounced BEYOND THE REACH OF MEDICAL AID, and this medicine is now my constant resort in case of any difficulty in the Throat and Lungs.

Yours truly, FRANCIS J. WEEKS.

BELFAST, Me., June, 1846.

DR. BRADLEE—SIR—Mr. Clark of Palmyra, Me., a friend of mine, was taken sick about a year ago with bad Cough, Pain in the side, general debility, &c. He consulted several doctors, who prescribed for him—but was finally told HE COULD NOT GET WELL! He stopped taking medicine, but continued to grow worse, until he was so weak that he could scarcely sit up. He saw a notice of the Hungarian Balsam, procured a bottle, and continued to take it according to the directions—and, strange to say, in a few months he was a strong man and so he believes, permanently cured.

Yours resp'y, H. G. O. WASHBURN, Bookseller.

SPECIAL NOTICES.

ULCERS.—There is no surer sign of deterioration of the vital fluids, and of a general debilitated condition of the system, than the occurrence and persistence of ulcers in various parts of the body. The PERUVIAN SYRUP improves the tone of the stomach, causes the preparation of a purer blood, and of course must repair the unhealthy loss of substance, which it generally has no difficult to fill up.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

TESTIMONY.—Dea. J. B. N. Good, Niles' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

R. R. R.
WHY SUFFER WITH PAIN?

When we are sick, the human system is less in natural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state, if health. We believe in curing the sick as speedily as possible, and not to let the victim linger in pain. The R. R RELIEF remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort R. R. Relief, in an instant, telegraphs its pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Bad Coughs, &c., in an incredibly short time. And the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The R. R. R. will give you from your bed of suffering in a few hours.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from second Barley, under the surveillance of the British Excise Laws, delicately flavored with a bouquet of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, the celebrated New York surgical medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever tested."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to the changes of climate and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of Imitations. Buy only CHARLES'.—None Genuine Imported.

☞ We are pleased to learn that Messrs. Tobey and Littlefield have commenced building another Ship, at their yard on Noble's Island. The keel is laid and the frame mostly up. She is to be about 1000 tons burthen; and, we understand, is for sale.

We learn also that the Ship on the stocks at the Raynes Yard has been sold to parties in New Bedford—and will forthwith be furnished and fitted for sea. She is also about 1000 tons burthen.

These are all the vessels there are in the course of construction, in private yards on the Piscataqua. Uncle Sam has got three on the stocks, at his Navy Yard; but he don't seem to be in a hurry about launching them, when they *are* done.

☞ The British steamship North America, which has come into this harbor for repairs, is a large iron steamer, built with water tight compartments,—so that when she went upon the rocks in a dark night in a snow storm, and beat a hole in her big enough to sink a dozen ships, the leak was not fatal, but she was kept afloat, with no loss of life.

Our open harbor, clear of ice, was just the place wanted for the emergency of her repairs at mid-winter.

The ship was taken into the dock on Monday.

☞ A few days since, an unknown person called at a house in this city, at about 7 o'clock in the evening, and requested permission to enter. No one being at home except the lady of the house and her little girl, they not liking his appearance, refused to admit him, at the same time closing the door against him. At this, he became exasperated, and after growling and threatening, drew a loaded pistol and discharged the contents at the door. We believe the shot did not go through the door, which was a fortunate circumstance. The lady of course, was very much frightened, and would not like to have the experiment repeated.

The fellow was probably drunk or crazy, or both, and it is a pity he cannot be found out, and punished.

☞ Thacher, at the corner of Market Street and the Square, has a large and full assortment of the most delicious French Confectionery. We wouldn't attempt to enumerate or describe—but prefer to place our specimens where "the wicked roll sin as a sweet morsel." The only trouble with this candy is that is so nice, that we fear it will take the flavor off the common confectionery in all coming time.

☞ We are pleased to see our old friend, Conductor Noyes, who was injured at Newmarket Junction, a short time ago, on the road again. His injuries are not so bad as was at first supposed.

SEWING MACHINE CONCERT.

The entertainment advertised at the Temple this (Tuesday) evening, is of no common order—and will call out a large and highly respectable audience.

The full Cornet Band are to perform half a dozen fine pieces—and many who heard them last week will be glad to do so again; while those who did not, can avail themselves of this opportunity.

The Quartet of Singers it would be difficult to excel. Mr. Thompson has often sung before Portsmouth audiences; and nobody is more popular here—or elsewhere. Mrs. Newell, (wife of John N. Newell, Esq., of Boston,—the inventor of the celebrated patent safety lamp,) is a beautiful and talented lady, and a charming singer. All who have heard her will need no urging to go again. The Alto and Bass singers are our own citizens, and among the best performers we have, of their respective parts.

The programme, as will be seen, is excellent—and the novelty of the closing piece cannot fail to please all who have a spark of music in their souls. The programme will be seen on the fourth page—the following is an addition:

☞ After the Committee is chosen, the Band will play "Home, Sweet Home,"—which the Club will sing, and the audience is invited to join.

☞ The following letter is from the Portsmouth correspondent of the Saturday Evening Gazette:

We had an impromptu Organ Concert on Friday evening, 14th inst., and Boston contributed some of her best talent for the occasion. The Messrs. Hook have recently furnished a splendid instrument for the Unitarian Society, and the builders, with the view of giving our people a taste of its quality, came down on Friday with Messrs. Hayter and Lang, of Boston, and Mr. Harris, of Brooklyn. No public announcement was made of the fact, but the members of the parish were privately notified of the treat in store, and the house was well filled at an early hour. The veteran Hayter, organist of Trinity Church in your city, introduced many brilliant improvisations, together with variations on familiar airs, "The Star Spangled Banner," "The Last Rose of Summer," and "Home, Sweet Home." Mr. Lang, whose brilliant execution seemed better calculated to test the capacities of the instrument, delighted the audience with a concerto from Rink, an entire scene from Trovatore, "Wedding March" by Rossini, and numerous brilliant improvisations. Mr. Harris improvised effectively, and his themes were selected with singular fitness for the place and the occasion. The entertainment was an excellent one, and it was decided that the organ, in the two great requisites of power and purity of tone, is not as yet surpassed in the State.

The instrument was a donation to the Society by the late Samuel Sheafe, Esq., whose design has been even more than carried out by his nephew, Wm. Sheafe, Esq., whose liberality, as evinced in various ways to this Society, has hardly met with a fitting acknowledgment, but which should be held in grateful remembrance by the many who now, through his instrumentality, are permitted to worship in the most beautiful sanctuary in the State.

Another event has been the appearance of the eminent dramatic *recitationiste*, Mrs. Macready of Philadelphia. I say *recitationiste*, because this lady succeeds in what nobody else attempts—in giving representations of whole plays of Shakespeare without a book! It is a great feat in itself, but to do it well—to represent each and every character in "A Midsummer Night's Dream," for instance, and so change voice, position and manner that one unfamiliar with the text, shall be cognizant of the slightest change made even in the obscure passages—to render all the beauty and effect, is no slight task. And yet this lady does all this, and more; in some of her recitations she brings out beauties that the authors never thought of, evinces high culture always, wonderful versatility, singular power on occasions, and skill in everything. You will see Mrs. Macready in Boston, and award her the meed of praise which she so well merits. F. F.

☞ The Journal has stated repeatedly that there would be illegal proceedings at the Sewing Machine Concert—and Mr. Whittemore says there will *not*. Wonder who knows most about it?—Well, how *is* the thing to be done, then? To the satisfaction of the ticket-holders, who will be present—and nobody else is interested in knowing, of course, save the City Marshal, who will also be there, and we hope will see that no law is violated. It will be a brilliant, attractive and successful affair, and the Journal man seems to be alone in wishing it harm. F.

☞ We are requested to state that the Sewing Machine Concert will positively take place this (Tuesday) evening—and that there will be no postponement on account of the weather or any other circumstance.

☞ There will be a Temperance Lecture in Academy Hall, this (Tuesday) evening, by Rev. Dr. Lamson, commencing at 1-4 before 8 o'clock.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and world-wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with Rheumatism, Salt Rheum, Erysipelas, Gout, Piles, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a Burn or Scald, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M. Beck.

THE GROVER & BAKER

SEWING MACHINE CO.,

18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their Celebrated Family Machines, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;

PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

1838 - - - January 6th. - - - 1859

Just Twenty One years ago this day, appeared in the Portsmouth Journal my first advertisement to the citizens of Portsmouth and its vicinity, under the head of

"A NEW APOTHECARY STORE,"

a young man's first appearance before the public, soliciting a share of their patronage in an important era in his lifetime; and it was with no small degree of diffidence, mingled with hopes and fears for the result, that I commenced life for myself, as an utter stranger among strangers.

But friends and patrons soon responded liberally to my call; and as I look back upon this long series of years, I recall to mind many, very many, warm friends and patrons, many of whom are still living, while many others have been called to that bourne from whence no traveller ever returns; yet their memory still lives, and their deeds of kindness ever bring to recollection my warmest gratitude.

To all my patrons I extend my sincere and heartfelt thanks, and in soliciting a continuance of their favors, I assure them in return my most devoted attention.

E. P. RUSSELL'S

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Inventor of this Roofing labored many year to combine articles which would answer the above purposes, and obviate the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now *after Five Years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN.

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are invalids upon his books as perfectures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 dly

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

Look at that gentleman's whiskers—Hutchins' Hair Dye makes them look so handsome.

A new lot is just received for the accommodation of the public. by

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

WEDNESDAY, JANUARY 19, 1859.

☞ In the Supreme Court at Manchester, Jan. 14, Lafayette Goodenough and David H. Young were arraigned on a charge of having committed an assault of an aggravated nature upon Wm. Kimball, and plead not guilty.

The aggravation is that the assault was premeditated, deliberate, and unprovoked. The injured man was a witness, (involuntary,) against Goodenough, as keeper of a rum-shop. And for this, Goodenough, (great misnomer that,) and Young, conspired to beat the man, so that all other such witnesses should hereafter perjure themselves, lest they should provoke the wrath of such patriots as Goodenough, Young, and the other powers of rum. On the 17th, Lafayette Goodenough retracted and plead *nole contendere*. He ought to go to State's Prison one year at least.

Wm. Murphy of Manchester, for keeping spirituous and intoxicating liquor for sale ;—plead not guilty.

Jeremiah Hayes of Manchester, for keeping liquor for sale; plead not guilty.

WASHINGTON ITEMS, Jan. 18. — The House Military Committee to-day unanimously agreed to report a bill paying Massachusetts her long-standing claim due for moneys advanced during the war of 1812.

The House Committee on the Pacific Railroad to-day voted down all propositions looking to its construction, leaving (to be acted upon by the Committee only) Mr. Stevenson's resolutions that it is impolitic to embark in the construction of any road at this time.

The Secretary of War has telegraphed to Col. Sumner, who has command of the Department of the West, to proceed immediately to Fort Leavenworth, and hold himself in readiness to aid the civil authorities to enforce the laws against the Montgomery invaders.

"OLD HUNDRED" IN A STATION HOUSE. That grand old tune, "Old Hundred," was sung at station house in Cincinnati two or three nights since, says the Gazette, under peculiar circumstances. Twenty or thirty persons joined in singing, one of whom was formerly leader of a choir in New York, but whom dissipation had brought to the depths of degradation. The poor fellow cried like a child. While the singing and praying was going on, some of the men were hiccoughing from drunkenness, others were snoring, and women in an adjoining room were screaming and blaspheming.

☞ Mayor Tiemann, of New York, received information that an epidemic of a very serious and fatal nature has broken out among the hogs kept at a distillery in Millstone, near Raritan, in New Jersey. Nearly a hundred hogs, it is said, are carried off by it in a day. The first manifestation of this disease, which is known as the "hog cholera," is a staggering of the animal; and the informant states that as soon as the keepers of the pen observe that the hogs stagger, they knock them on the head, and thus more speedily put an end to their existence. Immediately after they drag them out to the exterior of the premises, when the butchers pick them up and undertake to "cure" them. The carcasses are dressed and sent to the New York markets for sale, and thence to the tables of those who rejoice in dinners of pork.

☞ The Bath Times says :

The *only* practical *effect* of the two-thirds rule, which has obtained for years in our National Conventions, is to kill off great men of eminent ability and talent, and to bring forward a class of men whose obscurity is their only protection against sharp criticism.

This is rather a poor puff for Presidents Polk, Pierce, and Buchanan. The Times adds :

Under such a rule we *may* continue to have worthy and able Presidents, as we have heretofore, but the practical influence of the rule is in an opposite direction. It is perfectly democratic for a *majority* to govern.

The same paper says the Bangor Union "is not a democratic paper. It is only the organ of Lecompton and Dred Scott."

☞ The Gloucester Telegraph says that on Tuesday, the coldest day of the season, Mr. Simeon Marshall, who has seen 93 winters, went into the woods, cut his sled-load of wood, and hauled it home. How many of our younger men, of one quarter the age, would have voluntarily performed one-quarter of the labor on such a day?

The Belgian journals record the rare circumstance of the marriage of four brothers to four sisters.

REV. MOSES HOWE.—At New Bedford, on Sunday before last, Rev. Moses Howe, who has been the Chaplain and Agent of the New Bedford Port Society for the last 14 years, preached his farewell sermon at the Bethel to a crowded audience. His text were the words of Paul, "not seeking mine own profit, but the profit of many that they may be saved." 1 Cor. x. : 33. After speaking of Paul as a Christian minister, and the great motive that animated him,—thus standing as a representative of the true Christian minister in every age,—he spoke of the various instrumentalities that had been and are employed in New Bedford "for the profit of the sailor, that he may be saved."

He also spoke of his own multifarious duties, which he had endeavored to discharge under a realizing sense of his accountability to his Maker. During the 14 years, he had preached 2212 sermons; had put on board ships sailing from New Bedford packages containing 5211 Bibles, and 15,228 testaments; had given to individuals 365 bibles and 228 testaments; had settled 886 voyages; had received and expended for benevolent purposes $737.30; had received for a similar purpose from the ladies' branch $515.66; and had received from contributions and paid to the choir $446.62.

He also stated that during his whole ministry, which dates back we know not how far, though he was the pastor of our childhood,—not a very recent period,—he had preached 7368 sermons, had married 1524 couples, and attended more than 2000 funerals. Though he now retires from the responsible and arduous position he has so long held, on account of age and infirmity, we trust he may long be spared to illustrate in more private life the virtues which have for so many years marked his public career as a Christian minister.

Weekly Chronicle Correspondence.

WOLFBOROUGH, Jan. 13.

Gents:—Inclosed please find $2, which according to your bill, is the amount of my subscription for the past and present year. I thought to stop the paper at the close of the last year,—not from any fault of yours, but because the collapsed state of my purse would hardly seem to allow of the expenditure. But on consulting the *woman*, she said "No, it is the best paper we take, and the only one worth reading," (by the way, she is not much of a politician,) and as I thought she was full half right, I have managed to raise the needful; and if you please, you may present your pleasant face at our door, weekly, for another twelve month.

Portsmouth has the *honor* of being my birth-place; and although that is about all she has had to do with me, "I love her still," and rejoice in her prosperity; and bid her God speed in all proper undertakings—even if it be furnishing our good old State with Governors and Members of Congress. In former times, when trying her hand in this line of business, she succeeded admirably; undoubtedly she will do as well now. C. H. P.

☞ The Boston Courier said last week, "the society over which Theodore Parker has so long presided has disbanded, and given up the Music Hall, which they have heretofore used on the Sabbath: the illness and departure of Mr. Parker for the South is the cause of the movement."

Whether the wish was father to the thought, or not, we cannot say,—but we perceive by the Atlas of Monday, that they have *not* yet disbanded, as they held a meeting last Sunday, and had a preacher from Salem, Rev. Mr. Russell.

☞ The Rev. Dr. Cally, President of the State University of Indiana, appears to have fallen. The Indianapolis Journal learns that charges have been preferred against him as follows: "1, Drunkenness. 2, Lewdness; and 3, Offering money to witnesses of misconduct to secure silence. The testimony of a very large number of the most respectable citizens of the place has been procured."

☞ It is stated in the Abeille Medicale that the seed of the "pompion" is a sure remedy against tape worm. About an ounce of these seeds pounded in a mortar, with a sufficient quantity of sugar, is administered at a time, and repeated for two or three days, which is generally sufficient to effect a complete cure. All our women know that pumpkin seeds kill worms.

☞ The Tribune's Washington correspondent says :—

Mr. Douglas attended the Administration caucus on Friday, much to the surprise and disgust of other anti-Lecompton members of Congress.

This is all of a piece with the straddle-bug platform.

DEATH FROM USING PHOSPHORUS.—From Bingen, in the Grand Duchy of Hesse, we hear of a singular accident from the use of friction matches, by which a physician lost his life. It appears that a Dr. Causse, of Budesheim was recently visiting some patients in a neighboring village, and on the road concluded to smoke a cigar. In lighting a match some of the phosphorus flew upon one of his fingers, burning it severely. The pain extended, and became so intense, that the Doctor, who had the necessary instruments, cut out the wound and let it bleed freely, but without experiencing any relief. He then returned to Budesheim and had the finger ambutated. The poison had, however, by this time so inoculated his system that the loss of his finger was of no avail. Meanwhile physicians had arrived from Bingen, who declared that his only hope lay in immediate amputation of the entire arm. The unfortunate man underwent this operation without a murmur, but it likewise proved useless—in a few hours he was a corpse.

☞ The Sullivan County Temperance Society held its annual meeting in Claremont, Jan. 6.

Dr. James A. Gregg was elected President; Rev. R. F. Lawrence and Samuel B. Duncun, Vice Presidents; Rev. H. Cummings, Secretary and Treasurer.

Rev. Mr. Jasper, Hon. Alvah Smith, Wm. F. Newton, Esq., Walter Tufts, Rev. Jacob Scales and Daniel B. Hall, Directors. Interesting reports from the towns represented, were listened to.

The following resolutions were unanimously adopted :

Resolved, That it is the duty of all good citizens to aid the civil authorities to the full extent of their means in their efforts to enforce the laws of the land—and that we see no reason why the "Maine Law," so called, should not be as rigidly enforced as any other law upon our Statute book.

Resolved, That while we disavow all connection with *party politics*, in our temperance movements, we shall nevertheless "pursue the even tenor of our way," uninfluenced by threats of proscription and persecution, from whichever political organization they may proceed, knowing that our cause is just, and believing that it will prevail.

The next annual meeting is to be held at Meriden, and provision is made for special meetings when wanted.

☞ Addison says that the men who are really the most fond of ladies,—who cherish for them the truest respect—are seldom the most popular with the sex. Men of great assurances, whose tongues are lightly hung—who make words supply the place of ideas, and put compliment in the place of sentiment—are the favorites. A due respect for women leads to respectful action towards them; and respect is mistaken by them for neglect or want of love.

☞ Scotch lassies are now employed as clerks on the Edinburgh, Perth and Dundee Railroad. A writer, after praising their ready politeness, says that good-looking and intelligent girls, like those in the Edinburg railway office, will not book many passengers before they are booked themselves for the life-long journey of matrimony, so the company will soon lose their services.

☞ A number of young Chinese, remarkably intelligent, have arrived at Nantes, in order to prepare for the Catholic Priesthood; two of them have been ordained, and one of them preached on a recent Sunday in the Cathedral in that city. A great concourse of the people attended.

OHIO. — Last year the Legislature of Ohio raised the salaries of the Supreme Court Judges to $3000 a year. A bill has been introduced this present session to repeal that law, and fix the salaries at $2000 a year.

☞ A water company has just been formed in St. Petersburg, for distributing the water of the Neva through the city.—The subscriptions amounted to forty-five times the amount offered, and the stock was taken at 120.

☞ The Black Men of Hayti appear to be turning into Black Republicans, having one General Geffards as their leader. They are quite in the style of the white Frenchmen, sometimes crying out for an Emperor, and then again for a Republic.

☞ A Buchanan postmaster in Illinois, who happened to be from home on the day of election, has lost his office. There was not a Buchanan vote polled in his town.

☞ Petitions are in circulation in Michigan, asking for the restoration of the death penalty in that State.

☞ A man named Maloney fell dead in Norwich, Ct., on Tuesday, while attempting to catch his horse, which had started to run. His death was caused by congestion of the lungs, brought on by inhaling the cold air while running.

☞ The Nashville News tells of a venerable old man in Williamson county, Tenn., eighty-five years of age, who never took a chew of tobacco—though making in his life millions of pounds—who never smoked a cigar or pipe, and never had on a pair of boots.

☞ The plan of Senator Mason, to place the Army and Navy at the disposal of the President, in the Spanish American disputes, is virtually to take the power of making war from Congress, which belongs to it exclusively, and confer it upon the President.

☞ Hon. L. D. Campbell of Ohio, who was brutally assaulted a few nights ago, is getting better. His assailant was a drunken man, who wanted money.

DEPRAVITY.—One of the persons thrown from the cars at the late disaster at Columbus, Ga., has been arrested for robbing the dead body of a lady passenger of $700.

☞ It is stated that the whole body of Quakers in England numbers about 15,000, and that for the last twenty years the society has ben slightly but gradually decreasing in numbers.

CONGRESS, Jan. 17.—The Senate Chamber was crowded to excess to hear Mr. Douglas pronounce a eulogy on Mr. Harris of Illinois.

Mr. Seward's resolution appointing Com. Stewart Senior Flag Officer passed the Senate by a vote of 37 against 14.

Mr. Douglas, to the evident disappointment of nearly two thousand spectators who expected to hear an extempore oration, read in a low tone of voice a brief sketch of the life and public services of the deceased.

In the House, on motion of Mr. Phelps of Mo., it was resolved that during the ensuing two weeks from to-day, it shall be in order for the Committee of the Whole to take a recess till 7 o'clock for general debate only.

Mr. Morris, of Ill., announced the death of Mr. Harris of that State, pronouncing an eulogy on his private and public worth.

THE FISHING BOUNTIES.—*New York, Jan.* 17.—The Washington correspondent of the Evening Post says a proposition is on foot to amend the bill entitled a "Codification of the Revenue Laws," with a clause repealing the fishing bounties. It is understood that Speaker Orr will admit the motion.

A notorious desperado named Tom Middleton was lynched in Bastrop, Texas, on the 7th ult. He was taken out of the jail by 100 men and hung to a tree, the whole town, almost, assembling to witness the operation.

SPECIAL NOTICES.

ULCERS.—There is no surer sign of deterioration of the vital fluids, and of a general debilitated condition of the system, than the occurrence and persistence of ulcers in various parts of the body. The PERUVIAN SYRUP improves the tone of the stomach, causes the preparation of a purer blood, and of course must repair the unhealthy loss of substance, which it generally so difficult to fill up.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

TESTIMONY.—Des. J. B. N. Gould, Niles' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

R. R. R.

WHY SUFFER WITH PAIN?

When we are sick, the human system is in an unnatural condition. The longer the body is afflicted with disease, the greater time will be required to restore it again to its natural state of health. We believe in curing the sick as quick as possible, and not to let the victim linger in pain. The **R. R RELIEF** remedies are prepared on this principle. No useless time is wasted, for the very moment they are taken or applied, a great change in the sick one's body takes place. If there is pain, or nervous irritability, or Rheumatism, Neuralgia, Diarrhea, or Pains of any sort, R. R. Relief, is an instant, and decidedly the pain-relieving influence to every part of the diseased body. The lame, the cripple, the stiff-jointed, have felt its effects in a few seconds, for it imparts strength to the weak, emaciated, and feeble parts. The Renovating Resolvent will cure the most obstinate cases of Scrofula, Syphilis, Rickets, Nodes, Tumors, Ulcers, Chronic Coughs, &c., in an incredibly short time. And the R. R. Regulators regulate every organ to a healthy action. Let not the sick linger in pain. The **R. R. R.** will raise you from your bed of suffering in a few hours.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their excretes—thus forcing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED. THIS GIN, Distilled in London, now owned by Bosley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, as it devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted for residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, traverers and country merchants. Beware of imitations. Buy only CHARLES'.—NOTE OTHERS IMPORTED.

LOCAL.

☞ Wishing to see the English steamer in the Dock at the Navy Yard, we procured a passage on Tuesday afternoon, and were courteously conducted to the various points of interest by the engineer of the Navy Yard, B. F. Chandler, Esq.

The iron steamship "North America, of Glasgow," as we read on her round stern, is a three-masted propeller of 1400 tons, and must have been most thoroughly built, for everywhere but in her injured bow, she is all right.

This injury is in so small a space that she can be speedily repaired so far as to make her safe and comfortable in crossing the Atlantic.

While we stood looking at this heavy ship, raised so easily in the dock, and placed in a dry and sheltered workshop, so to speak, we remembered the croakings of some old fogies, who predicted that the dock never could do anything properly.—Time and experience show to the contrary.

From thence we walked across the yard, first to the convenient and well arranged joiner's shop, where many conveniences exist for doing work with more exactness than could be done by hand, and with vastly increased celerity.

Next we visited the Ordnance House, of most substantial architecture and quaker plainness; and of the most elaborate and beautiful finish within; every part is ceiled with wood; and the small arms, rifles, brass cannon, and an hundred other things, are arranged in the most exact order, and labelled with the names of the several ships to which they belong.

Out of doors, fronting this building, lay the great guns for the ships Franklin, Constitution, Portsmouth, and Santee.

A brief survey of the new sloop-of-war on the stocks in one of the old ship houses, reminded us of the change in the shape of ships,—for though she is only half as high as the house, it was needful to build a sort of codicil, or postscript on the end, to include her extreme length.

Two new buildings are to go up next Summer; one connected with the Ordnance Building, and the other for various offices. The foundation is laid for the former,—and the latter is somewhat further advanced. A new coal house was completed the past season; and improvements in building, fencing, grading, and every arrangement on the yard, are visible on every hand.

For the Chronicle.

☞ Mrs. Macready's last appearance before a Portsmouth audience will occur this afternoon and evening. Two excellent programmes are announced, and those desiring to aid the poor in our midst and at the same time enjoy the unexceptionable recitation of some of the most popular literature, should avail themselves of this opportunity.

What easily-earned and long-to-be-remembered popularity could some of our wealthy citizens secure by presenting to the scholars in our public schools tickets of admission to the entertainment this afternoon! What joy would such an investment of a score or two of dollars carry to the hearts of a little army of little folks! What happiness might it not bring to their hearts—hearts newly awakened to a love of poetic beauty in the future! And what misery might the almoners of the fund thus raised, be able to alleviate in our midst!

Those interested in our City Mission and in the Howard Benevolent Society should come forward with open hands to-night, in view of the many inducements to charitable deeds. The nature of the response to the kind offer of this talented lady will depend upon the exertions made by the friends of the charities in whose behalf she makes this generous offer. K.

Messrs. Editors:—Permit me through your columns to express my heartfelt thanks for the strong demonstrations made by the Firemen for me at their late election of Engineers. For this, and their uniform kindness on all former occasions they will ever receive my warmest co-operation and exertions to perform my duties as their Chief Engineer, while I am among them, and to make all their duties as light and agreeable as the circumstances will admit of. J. G. HADLEY.

MERCANTILE LIBRARY ASSOCIATION.—On account of the meeting at the Unitarian Church, at which the new organ was exhibited, and the consequent absence of many honorary members, the dedication of the new Mercantile Rooms was postponed till Thursday evening next, Jan. 20, 1859, at 7 1-2 o'clock. Members, with their friends, and those ladies who assisted in the recent M. L. A. Fair, are invited to be present. J. W. TUCKERMAN, Sec.

☞ The Sewing Machine Concert, on Tuesday Evening, was eminently successful. A large and highly respectable audience, were triply repaid for attendance.—The Cornet Band can play finely, as everybody knows—and on this occasion they did their very best. The singing was excellent—such a quartet as that it is rare to hear anywhere. We haven't had one so good in this city for many a year. Thompson sang as only Thompson can—always fresh, sparkling, pleasing—we never heard his equal, all things considered. Mrs. Nowell sang delightfully—and proved herself one of the best lady vocalists who has ever appeared in public here. Miss Ryan, alto, and Mr. Ilsley, bass, performed their parts admirably. The whole club went through their entire programme astonishingly well, especially in view of the fact that they had but one day for rehearsal together.

Mr. Julius Peyser played the piano accompaniments, with skill and good taste.

The audience chose Messrs. C. J. Colcord, Aaron Akerman and Amos S. Alexander a committee to award the Sewing Machines among the ticket-holders—which was not done in presence of the audience, as at former Gift Concerts; but the committee will announce the result in the Chronicle, Friday morning; and the Machines will be ready for delivery, at the store of C. C. Whittemore, in Daniel street, on Tuesday, Jan. 25th.

After the choice of the committee, the Band played "Home, Sweet Home," and the Club and the audience joined in full chorus, rich and inspiriting—and became so fully impressed with the truth of the song, that they adjourned to try it.

THE GREAT EIGHT-WHEEL CAR SUIT—THE PATENT DEFEATED.—The case of Ross Winans against the New York and Erie Railroad Company, for a patent covering the eight-wheel cars, which was tried two years ago, before Judge N. K. Hall, in the Circuit Court of the United States, at Canandaigua, in which a judgement was rendered against Winans by the jury, under the ruling of the Court, and then appealed by him, was on Monday, the 10th inst., decided against Winans in the Supreme Court of the United States. The highest judicial tribunal affirmed the judgment of the Circuit Court. Thus ends one of the most important patent cases that was ever tried in this country, involving as they did, in its issue, millions of dollars, and affecting directly every railroad company in in the United States.

This decision establishes the fact that Gridley Bryant, formerly Superintendent of the Quincy Railroad, Boston, and now of Scituate, Mass., and Horatio Allen, formerly Chief Engineer of the South Carolina Railroad, and now of the Novelty Works, New York, were the first originators of the eight-wheel cars, now exclusively used on the railroads in this country, and destroys the only eight-wheel patent ever granted for originating the eight-wheel car—the one to Boss Winans, of Baltimore.—*Argus.*

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for ITS GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Everybody and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M.Beck, BURRILL & HUNTING, SOLE PROPRIETORS,

TRIUMPHANT SUCCESS OF

Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR *Colds, Coughs, Asthma, and Consumption.*

Astonishing Cures of Consumption.

Two cases pronounced beyond the reach of Medical Aid.

AUGUSTA, ME., May 27, 1846.

DR. BRADLEY—SIR—The Hungarian Balsam, has been of the most infinite service to me. I have been cured of an affection of the Lungs, which was thought to be incurable by all my friends, by the use of a few bottles. One of my children was also restored to health, after being pronounced BEYOND THE REACH OF MEDICAL AID, and this medicine is now my constant resort in case of any difficulty in the Throat and Lungs.

Yours truly, FRANCIS J. WEEKS.

BELFAST, ME., June, 1845.

DR. BRADLEE—SIR—Mr. Clark of Palmyra, Me., a friend of mine, was taken sick about a year ago with bad Cough, Pain in the side, general debility, &c. He consulted several doctors, who prescribed for him—but was finally told HE COULD NOT GET WELL! He stopped taking medicine, but continued to grow worse, until he was so weak that he could scarcely sit up. He saw a notice of the Hungarian Balsam, procured a bottle, and continued to take it according to the directions—and, strange to say, in a few months he was a strong man, and as he believes, permanently cured.

Yours truly, H. G. O. WASHBURN, Bookseller.

IMPORTANT TO

TOBACCO CHEWERS.

DR. GUSTAV LINNARD'S

TASTE RESTORATIVE TROCHES,

The Great Substitute for Tobacco.

IT is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe

MENTAL AND PHYSICAL DISORDERS

to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most dangerous in their effects, which by entering into the blood deranges the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also the entire nervous system, manifesting itself—as all who have ever used the noxious weed will testify—in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES are designed to counteract these baneful influences, and have proved entirely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the system, restoring the taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the Throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco Chewing.

These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 Cents per Box. A liberal discount to the Trade.

Prepared solely by the undersigned, to whom all orders should be addressed.

Just Twenty One years ago this day, appeared in the Portsmouth Journal my first advertisement to the citizens of Portsmouth and its vicinity, under the head of

"A NEW APOTHECARY STORE,"

a young man's first appearance before the public, soliciting a share of their patronage in an important era in his lifetime; and it was with no small degree of diffidence, mingled with hopes and fears for the result, that I commenced life for myself, as an utter stranger among strangers.

But friends and patrons soon responded liberally to my call; and as I look back upon this long series of years, I recall to mind many, very many, warm friends and patrons, many of whom are still living, while many others have been called to that bourne from whence no traveller ever returns; yet their memory still lives, and their deeds of kindness ever bring to recollection my warmest gratitude.

To all my patrons I extend my sincere and heartfelt thanks, and in soliciting a continuance of their favors, I assure them in return my most devoted attention.

A Revolution in the Hunting World.

Reutbe's Patent Spring Gun Animal Trap.

More certain of its prey than the most perfect Rifle in the hands of the most experienced marksman, without lessening the value of Pelts or Skins, as is the case in ordinary modes of shooting, it effects the capture of the animal either dead or (if preferred) alive: the barrels discharging themselves, simultaneously with the hooks imbedding themselves in the mouth.

It is simple, yet strong and perfect in its construction neither cumbersome nor difficult to arrange.

There are three different sizes, which will effectually operate on Minks, Muskrats, Otters, Wildcats, Lynx, Foxes, Wolves, Deer, Panthers, Tigers, Bears, Buffaloes, etc.: in fact, on all animals which repay hunting.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of this letter, with my name attached, or your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. G. RANDOLPH.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood | Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effect of a bilious fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan. 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds ½ a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying the place of a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents nightmare.

Only one dose taken at night, loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Colic.

One dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all yellowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures Chronic Diarrhœa in its worst form, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and we have thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE inventor of this Roofing labored many year to combine articles which would answer the above purpose, and state the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now *offers Five Years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN!

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we would bring to your notice *is far superior to anything of the kind yet discovered*, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or injury.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is a sure and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain secret diseases, many of whom will suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express to any part of the U. S. who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be induced to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable prenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 1ly

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

Look at that gentleman's whiskers—Hutchins' Hair Dye makes them look so handsome.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Morning Chronicle.

THURSDAY, JANUARY 20, 1859.

BOSTON CORRESPONDENCE.

BOSTON, Jan. 18, 1859.

Dear Chronicle:—With the fresh start of a New Year, business matters generally are giving a little more indication of activity and thorough life. Capital, which has been lying idle for some twelve or fifteen months, now rolls gradually into use, and the result is a steady, though as yet almost silent advancement in business activity on a large monetary scale—a circumstance that cannot fail to be soon felt in all circles of trade and manufacture.

Money now seeks investment; and with the great energy of our working business men, the addition of monetary means with which to carry out large and healthy business plans and improvements cannot fail to make a strong mark the coming year—and so on, until, by the time another re-action comes crushing in upon us, we shall have made some big strides towards the controlling business position of the world.

Stocks are going up—shaky stocks, too; anything that promises a moderate dividend, and has any show of strength, goes jumping up in the market from week to week. Money is easy on first class securities, and the rates of interest under such conditions are very low. If our Boston men of wealth would now pursue the strong policy of extending the best facilities for transporting to distant ports—both foreign and domestic, a great change would commence over our business condition and relative position.

More than anything else we want seagoing steamers. Twenty million dollars of Boston capital could be advantageously invested in lines of steamers to different parts, and give back ample returns for use of capital, and also advance Boston interests and Boston prosperity enormously.

Yet it is not done. Many business men don't see the advantage of it;—others "don't care" either to invest or to investigate, and capitalists generally "soon't." And so the matter rests; and opportunities are being thus wasted at the critical time to seize and use them. So goes the world. With all our vaunted business shrewdness and energy, we pass by and throw away many of our best business advantages. So much for business circles proper. Social circles are a little agitated some way;—at least some are. Scandal is floating about very lively. Perhaps the less said of it the better.

In amusements we have had for new features, a comparatively successful advent of a new singer,—Miss Juliana May. Her first appearance here last Saturday eve, did not sustain the comments of the New York press; and, indeed, it would have been a difficult matter to have done so; as some,—especially those in the Sat. Eve. Gazette, from the N. Y. Times,—were very extravagant in her praise; too much so for her advantage. She is a fair singer, having a brilliant voice, but not an especially musical one.

A young lady of this city now studying in New York, preparatory to visiting Italy, is said to be advancing finely—her teachers being very highly pleased with her natural talents and her ability to acquire the adornments of musical skill. She promises now to take a high rank, and her name will be a tower of strength to old Theatre goers, whenever she appears. Her voice is very musical, clear and sweet, and under her present teacher, and is gaining in power rapidly, as well as in style and execution. Her success, if achieved according to present indications, will be a triumph of woman's perseverance and its power over difficulties, that will deeply interest all admirers of self-reliance and untiring energy. She has been educated by the exertions of a *mother*.

National political affairs are taking some interest now; and it begins to be slowly realized that Douglas and his men are likely to outlive the pressure of withdrawn patronage, and stand yet stronger before the people than it quietly let alone.

BERNARDE.

☞ A meeting was held in the vestry of the Second Baptist Church in Fall River, during which several ladies fainted, or sunk into a lethargic state, which lasted some time, and some of them did not recover until the next day. An investigation showed that the gas fixtures had been frozen, and in the attempt to get the gas to burn it is probable that the room was filled with escaped gas.

☞ The Virginia Conference, in session recently at Portsmouth, by a unanimous vote determined to expunge the General Rule on Slavery from the Discipline.

TRIP TO TEXAS.

ST. CHARLES HOTEL, New Orleans, Jan. 8, 1859.

Dear Chronicle:—Ere leaving Mobile for this city, I encountered a son of old Portsmouth, in the office of the Daily Advertiser, in the person of Mr. Wyatt, who has been resident of that city for twenty-two years, and therefore considers himself acclimated.

Leaving that place by steamer Florida, of the mail line, we had a fine passage to Lake Ponchartrain, where we were transferred to the Lake Ponchartrain R. R., a road which sinks into insignificance when compared with the much-abused "smelt line" between Portsmouth and Concord.—Passing down Mobile Bay, through Grant's Pass and Pascagoula Sound, land is in sight most of the way, I believe, if you only could see it; by which Hibernicism I mean to convey to you the information that the greater part of the journey is performed by night.

Arrived in New Orleans, of course we must see the sights. Those which are remarkable for beauty alone are few. Jackson Square is the finest I have seen, and the grim looking old cathedral which fronts it detracts nothing from its beauty. At present there is on exhibition in this city a statue of "The Coquette," by Wm. Randolph Barbee of Virginia. It is a full-sized figure, about to pierce a heart with an arrow, while a rose is so placed that at the next step her foot will feel the thorn. This is the sculptor's maiden effort, and cost him three years' labor. It is very much admired—by many preferred to Power's "Greek Slave;" and the artist has already orders for two copies, at $5000 each. It will probably be on exhibition at the North the coming summer.

The new Custom House, which has sunk so many millions of Uncle Sam's money, and which has come so near sinking itself, is amply worth a visit. Although commenced about a dozen years since, it is still very far from completion. A number of steam engines are employed in its construction. The immense staging which surrounds it is said to have cost $150,000. The Collector's Room, when finished, will be a most splendid apartment, being of great height, faced with white marble, and adorned with fine sculptures and noble columns. The building entirely covers a large square, and is said to be the largest building in this country, if not in the world. Though unfinished, it is occupied for its designed purpose.

But the Levee is the great feature of New Orleans. Here is a business scene unequalled in any other part of the world; shipping and steamers for miles, three and four abreast; the immense wharves which are between the water and the street covered with the great American product—cotton—and every other product of the known world—ice from the North, oranges from the South, machinery and manufactured articles from the East, grains and raw material from the West; while the intermixture of tongues presents a very pretty idea of Babel, and would soon send the hearers crazy, were it not for the incessant din of the multitude of drays driven in all directions with their heavy loads of merchandise. The receipts of merchandise at this port last year were $176,000,000.

The whole city is flooded with cotton; it is said more than ever before at any one time.

Gen. Scott arrived at this house on the 5th, and John C. Heenan, ("Benicia Boy,") with Aaron Jones his trainer, on the 7th. Gen Scott has met with a most cordial reception. Welcomed to the city by a military and municipal ovation, he has been honored by the thunder of artillery each day of his stay; and to-day, the "New Orleans Fourth of July," he is the principal lion. He attended a ball given at the St. Charles on the evening of the 6th, leading in the introductory march.

The Southern ladies do not, to my mind, present so great a per cent. of beauties as the same number in the North.

Visitors should not fail to attend the French Market on Sunday morning; 'tis there they will have the best opportunity of observing the French Creoles and Quadroons for which this city is noted.

The hotels here are doing an immense business. At the St. Charles there are six beds in some of the rooms, and the Gentlemen's Drawing Room has over a dozen mattresses piled in one corner during the day, to be spread at night.

Last night was the coldest of the season, and a gentleman from Algiers informed me that ice formed nearly half an inch thick.

ION.

The world should have its docket called, and sluggards be defaulted, and those should be the "upper ten" whom labor has exalted.

QUEEN VICTORIA ON SKATES.—Queen Victoria skates. In lieu of straps across the instep, each skate is provided with a patent leather boot. These boots are firmly attached by a strip of plated silver to the clogs, which are of satin wood highly polished. The skate irons terminate front in the very appropriate and graceful form of a swan, and both sides are elegantly chased. The cup that forms the receptacle for the heels is silver-plated, and chased with the design of a rose, shamrock and thistle. The same design is embroidered in white silk upon the black patent leather, to which it forms a pleasing contrast. The size gracefully corresponds to the small foot of her Majesty, and when mounted on them, 'tis said she looks elegantly.

THE EMPRESS OF RUSSIA ON DRESS.—In Russia, it would seem, the passion for dress and display is just as great as in any other country. The Journal Amusant relates an anecdote of the manner in which the Empress of Russia lately rebuked an instance of it:—"The Czar, desiring to recompense a great service rendered by a petty functionary, invited him and his wife to pass a few days at the palace of Peterhoff. The latter, in order to appear of a rank which she does not possess, pledged her husband's salary for three years to raise a sum to buy rich dresses; she was thus able to appear in a new toilette every morning and evening. The Empress, hearing what she had done, resolved to give her a lesson, and on the day of her departure said:—'Do you know, madame, that you are greatly to be pitied for having such a bad dressmaker? She evidently cannot make a dress to fit you, since you are obliged to change so often.'"

CONGRESS.—In the Senate, on Tuesday, a resolution was adopted, calling for correspondence with Spain, relative to the proposed purchase of Cuba. The Pacific railroad bill was taken up and the amendments acted upon. Without reaching the main question, the bill, with its numerous amendments, was ordered to be printed.

In the House, Mr. Million of Va. failed to obtain leave to introduce a resolution directing the Committee on Commerce to report back forthwith the Senate bill repealing the fishing bounties. A select committee was ordered to investigate charges against certain naval officers at Brooklyne and Philadelphia. In Committee of the Whole, the enacting clause of the bill for the modification of the revenue laws was stricken out, and the House concurred in the action by vote of 100 to 84. The consideration of the President's message and the Consular and Diplomatic appropriation bill was resumed in committee, but no action was taken.

FALL OF A CLERGYMAN.—The Indianapolis Journal has the following item concerning the sad fall of a clergyman of the Methodist Episcopal Church:—

We learn that charges have been preferred by the clergymen of the Methodist Episcopal Church, against the Rev. Wm. Daily of that church, and President of the Indiana State University, for three alleged offences: 1st, Drunkenness; 2d, Lewdness; 3d, Offering money to witnesses of his misconduct to secure silence. The testimony of a very large number of the most respectable citizens of this place has been procured, as to these charges, and has been, or will be, forwarded to the Rev. M. Gillett, Presiding Elder of the District in which the Rev. Dr. Daily resides.

☞ We learn from the Portland Advertiser, that, on Friday evening, in Biddeford, a man named George Willey, was shot and mortally wounded, in the store of N. Noble, a low rum-shop. The proprietor has been arrested, charged with the murder. No cause assigned.

The city authorities of Biddeford, if they have any authorities there, should proceed at once to break up that shop, under their nuisance and seizure acts.

☞ The General Assembly of Vermont, at its recent session, enacted a law authorizing the several towns to procure the writing and publication of town histories at the expense of the towns. This will doubtless secure the publication of several local histories now in manuscript, and result in the writing of many more.

☞ There was a striking spectacle afforded to the street public of Washington, near the Baltimore Railroad depot, Friday. A string of slaves, with a white man at their head, loaded pistol in hand, and another in their rear armed in like manner, marched from some private slave-pen to the depot, to take the cars for Baltimore, where they will be sold.

☞ It has been decided, lately, in the Rolls Court, London, that the word "children," in a will, includes grandchildren.

IMMORTELLES.

SELECTED FOR THE CHRONICLE,

BY ALBERT LAIGHTON.

THOUGHTS ON VARIOUS SUBJECTS.

When a true genius appears in the world, you may know him by this infallible sign, that the Dunces are all in confederacy against him.

I have known some men possessed of good qualities, which were very serviceable to others, but useless to themselves; like a sun-dial on the front of a house, to inform the neighbors and passengers, but not the owner within.

Censure is the tax a man payeth to the public for being eminent.

If a man would register all his opinions upon love, politics, religion, learning, &c., beginning from his youth, and so go on to old age, what a bundle of inconsistencies and contradictions would appear at last!

I define bigotry to be laying too much stress upon any circumstantial point of religion or worship, and the making all other essential duties subservient thereto.

If your friend is in want, don't carry him to the tavern, where you treat yourself as well as him, and entail a thirst and headache upon him next morning. To treat a poor wretch with a bottle of Burgundy, or fill his snuff-box, is like giving a pair of lace ruffles to a man that has never a shirt on his back. Put something in his pocket.

Some divines make the same use of fathers and councils as our beaus do of their canes, not for support or defence, but mere ornament or show; and cover themselves with fine cobweb distinctions, as Homer's gods did with a cloud.

Twas a merry saying of Rabelais, that a man ought to buy all the bad books that come out, because they never will be printed again.

One should not dispute with a man who, either through stupidity or shamelessness, denies plain and visible truths.

Moderation is the silken string running through the pearl-chain of all virtues.

CAUSE OF INSANITY.—Dr. Choate, of the Insane Asylum, gives the following among the causes of mental derangement. Another cause undoubtedly acts strongly in this day—which is the unwise system of educating the young:

"For the healthy adult, fully developed and used to the kind of labor, six hours daily of concentrated mental labor is enough to try his strength, and in many cases ultimately to impair his nervous system. Yet our young children, with faculties just beginning to develop, with bodies needing almost constant exercise out of doors, and in the highest degree susceptible to all influences, whether good or bad, are confined for that full period in the regular hours of school, for which they are often compelled several more in preparation."

☞ Mr. Gilman E. Gale, of Manchester, N. H., came near being frozen to death on Thursday. He went fishing, and becoming thoroughly chilled, fell in the road while attempting to walk home. He was conveyed to the residence of Mr. John B. Chase, his employer, where he remained insensible for four hours, when he recovered rapidly.

☞ A burglar was shot in St. Louis a few nights since by a pistol which had been affixed to the window shutter of a shop in such a way as to be discharged in case any one attempted to break in. The rogue was not killed, but received a severed wound in the left breast.

POSTAGE TO HAYTI.—It is semi-officially announced that the single rate of postage on letters, from the United States to Hayti, forwarded in the British mail, via England, on and after the 1st of January, 1859 is 33 cents, pre-payment required; which is in full to destination.

We should have a direct mail to Hayti, with a very small postage!—and we would have had it long ago, but for the miserable policy of truckling to slavery.

☞ At Crawfordsville, Indiana, on Saturday, the 8th inst,, the citizens assembled and destroyed the liquor in the eight grog shops of the town, amounting in all to about forty barrels.

New Crop N. Orleans Molasses

For sale by LAFAYETTE LAIGHTON.

SPECIAL NOTICES.

ULCERS.—There is no surer sign of deterioration of the vital fluids, and of a general debilitated condition of the system, than the occurrence and persistence of ulcers in various parts of the body. The PERUVIAN SYRUP improves the tone of the stomach, causes the preparation of a purer blood, and of course must repair the unhealthy loss of substance, which is generally so difficult to fill up.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

TESTIMONY.—Dea. J. B. N. Gould, Niles' Block, Boston, says Dr. Clarke's Sherry Wine Bitters have done his family more good than any others they ever used. They are essentially a very valuable medicine. Mr. J. H. Thacher has a fresh stock. d24

HEREDITARY DISEASES.

A young gentleman, now at the St. Nicholas, had been afflicted with Salt Rheum from his birth. The first five years, it appeared in his hands only,—he is now twenty-three. On the first day of June, when he commenced the use of R. R. Remedies, it had spread all over his body. Six days' use of Radway's Renovating Resolvent and Regulators, proved their wonderful efficacy. The skin assumed its natural condition, felt moist and healthy. In twelve days the poisonous Rheum was entirely eradicated from his system.

Persons suffering with skin diseases of long standing, with Chronic diseases from their birth, supposed to be transmitted to them by their diseased sires, will find that however impregnated with poisonous virus their system may be, Radway's Renovating Resolvent will cleanse, renovate, resolve, rebuild, and restore the weak and unsound and diseased organs to a pure, healthy and strong condition.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfignement of their beauty arising from eruptions or pimples upon the skin. They have one of Gregory's Thousand Perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and one of the most valuable restoratives of the very able kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, affecting entirely from malt and juniper, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Eastern st.; Delano & Snow, 25 Union st. and others. In Portland, Me., of H. H. Hay & Co., C. W. The Great English Remedy.

SIR JAMES CLARKE'S

Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

LOCAL.

☞ The sleighing in this city and the surrounding country is very fine; could hardly be made better. The livery stables are reaping their harvest—and the poor horses, too many of them, are injured by careless, ignorant, reckless driving. There is no good thing that may not be abused: but the man who will abuse a horse—we will not say what we think of him. It might be deemed extravagant. U. T.

☞ The absence from the city, for a day, of one of the gentlemen chosen on the committee at the Sewing Machine Concert to award the Machines, prevented the decision being made on Wednesday. We expect to announce the result on Friday morning.

MERCANTILE LIBRARY ASSOCIATION.—On account of the meeting at the Unitarian Church, at which the new organ was exhibited, and the consequent absence of many honorary members, the dedication of the new Mercantile Rooms was postponed till Thursday evening next, Jan. 20, 1859, at 7 1-2 o'clock. Members, with their friends, and those ladies who assisted in the recent M. L. A. Fair, are invited to be present. J. W. TUCKERMAN, Sec.

FOUR DAYS LATER FROM EUROPE.

IMPORTANT NEWS.

New York, Jan. 16.—Steamship City of Washington, from Liverpool at 11 A. M. of the 5th inst., arrived here this morning.

The political news by this arrival indicates a disturbed state of feeling in Europe.

At the Emperor's levee on New Year's day, Napoleon addressed the following words to the Austrian Minister: "I regret our relations with your government are not so good as they were, but I request you to tell the Emperor my personal feelings for him have not changed." The emphatic tone of the Emperor and his animated gestures attracted the attention of the assembled diplomatic corps.

The Bourse was closed till the 3d, but on opening quite a panic prevailed, the decline in funds being fully one per cent.—On the 4th the Bourse continued depressed, and again rather lower; threes closed at 71 90 for money, and 71 80 for account.

The London Exchange sympathizes with Paris, the decline at one time being nearly one-half per cent. The market closed flat. At Vienna, also, a panic prevailed under the rumor that Austria will send troops to Belgrade.

Italy is in a very unsettled state, particularly Lombardy. News from all parts is pregnant with alarm. The steps taken in Lombardy are also tantamount to a state of siege.

The staircase fell in the Polytechnic School, London, injuring fifty people and killing one.

The Spanish Ministry declare that Spain would never sell Cuba, and protests against the insulting hypothesis to the contrary implied in President Buchanan's message. Olozaga introduced the motion supporting the ministerial declaration, and it was unanimously approved. Spain has obtained full satisfaction from Mexico for the Tampico affair.

☞ A Cincinnati lawyer recently discovered a flaw in the title to a piece of property in that city, given by a deceased farmer. Going to the widow, he informed her of the fact, told her how valuable the land had become, and offered to secure it for her on shares. She called her sons together for counsel. They declared however, that it would be a dishonorable transaction, and would have nothing to do with it. Such an incident, says the Cincinnati Gazette, "in these days of greed and haste to be rich, will serve to keep alive our faith in human nature."

☞ At Manchester, Jan. 19, the adjourned Republican Convention met, and there were 197 delegates, only one being absent from the entire district. An informal ballot was taken—whole number of votes, 197; Mason W. Tappan of Bradford 71, W. H. Gove of Weare 16, Aaron F. Stevens of Nashua 34, E. H. Rollins of Concord 39, David Cross of Manchester 29, Geo. W. Nesmith of Franklin 7, Chas. Campbell of Amherst 1. Adjourned to dinner.

☞ James Harriman and Moses Atwood left Bucksport for Rockland, Me., on the 2d inst., with a scow loaded with wood. The scow was found aground and abandoned, and it is supposed that the men perished.

☞ Jonathan Wales, the young man at Franklin, Mass., who shot Miss Susan Whiting because she rejected him, it appears now also shot himself. His body has been found.

The oldest piece of furniture is the multiplication table. It was constructed more than two thousand years ago, and is yet as good as new.

☞ The Washington States of Saturday, the Douglas organ in the federal city, has an editorial in favor of a tax on tea and coffee.

LATER FROM CALIFORNIA—OVERLAND.—*St. Louis, Jan.* 18.—The Overland mail, with San Francisco dates of the 24 ult, has arrived.

The California news is that the river was frozen below fort Langley, and it was feared that great suffering would be experienced by the miners, in consequence of the cutting off of the supplies.

Business at Honolulu was very dull.

Considerable rain had fallen at San Francisco, and business was almost at a stand-still. Foreign rice had heavily declined. Candles were realizing low prices at auction; a leading speculator had suspended, the loss to his creditors principally the difference in price now and when he bought.

Major Heintzleman, Indian Agent, had gone from Fort Yuma, to reclaim a woman and two children from the Mohave Indians, taken captive from an emigrant train which was attacked on the Colorado last fall.

The miners were vacating the Gila River gold mines, and the number there is already reduced to about 100.

The trunk, stolen from the Mexican Boundary Commission, had, with its contents, been recovered.

Four counterfeiters were sentenced to six years imprisonment at Cincinnati on Tuesday.

Thieves! Thieves!

Whereas, notwithstanding the extremely low prices at which I am selling pictures, I have had STOLEN from my rooms and the doorway, a number of valuable ones, including a stereoscopic one of my father; and the last one taken, Wednesday P. M., in broad daylight, a Photograph of Mr. F. ——, in an oval gilt frame—

I will give FIFTY DOLLARS and my everlasting thanks to any one who will give information leading to the detection of the thieves.

Indian Physician.

Dr. R. S. GOODWIN

Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.

ADVICE FREE.

Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all disease from the system.

THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.

No Mercury! No Bleeding! No Blisters!

Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

DR. DUPONCO'S
French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent miscarriage in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J. Duponco is upon each box. You will then obtain a Pill you can rely upon.

TRIUMPHANT SUCCESS OF

Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR *Colds, Coughs, Asthma, and Consumption.*

Astonishing Cures of Consumption.

Two cases pronounced beyond the reach of Medical Aid.

AUGUSTA, Me., May 27, 1845.

DR. BRADLEE—SIR—The Hungarian Balsam, has been of the most infinite service to me. I have been cured of an affection of the Lungs, which was thought to be incurable by all my friends, by the use of a few bottles. One of my children was also restored to health, after being pronounced BEYOND THE REACH OF MEDICAL AID, and this medicine is now my constant resort in case of any difficulty in the Throat and Lungs.

Yours truly, FRANCIS J. WEEKS.

BELFAST, Me., June, 1845.

DR. BRADLEE—SIR—Mr. Clark of Palmyra, Me., a friend of mine, was taken sick about a year ago with bad Cough, Pain in the side, general debility, &c. He consulted several doctors, who prescribed for him—but was finally told HE COULD NOT GET WELL! He stopped taking medicine, but continued to grow worse, until he was so weak that he could scarcely sit up. He saw a notice of the Hungarian Balsam, procured a bottle, and continued to take it according to the directions—and, strange to say, in a few months he was a strong man, and as he believes, permanently cured.

Yours res'y, H. G. O. WASHBURN, Bookseller.

IMPORTANT TO

TOBACCO CHEWERS.

DR. GUSTAV LINNARD'S

TASTE RESTORATIVE TROCHES,

The Great Substitute for Tobacco.

IT is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe

MENTAL AND PHYSICAL DISORDERS

to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most injurious in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also the entire nervous system, manifesting itself—as all who have ever used the noxious weed will testify—in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES are designed to counteract these baneful influences, and have proved entirely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the Throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco Chewing.

These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 Cents per Box. A liberal discount to the Trade.

Prepared solely by the undersigned, to whom all orders should be addressed.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;

PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Just Twenty One years ago this day, appeared in the Portsmouth Journal my first advertisement to the citizens of Portsmouth and its vicinity, under the head of

"A NEW APOTHECARY STORE,"

a young man's first appearance before the public, soliciting a share of their patronage in an important era in his lifetime; and it was with no small degree of diffidence, mingled with hopes and fears for the result, that I commenced life for myself, as an utter stranger among strangers.

But friends and patrons soon responded liberally to my call; and as I look back upon this long series of years, I recall to mind many, very many, warm friends and patrons, many of whom are still living, while many others have been called to that bourne from whence no traveller ever returns; yet their memory still lives, and their deeds of kindness ever bring to recollection my warmest gratitude.

To all my patrons I extend my sincere and heartfelt thanks, and in soliciting a continuance of their favors, I assure them in return my most devoted attention.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and world-wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ENVERPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN OR SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M. Beck.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If efficacious guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers took of the same character. In three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty-two old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known personally to one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the benefits of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood, Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodist Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, Jan. 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that the use of it has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, W. R. BLACK.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 40 per cent more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving a healthy tone and health to the whole machinery, removing the cause and not the disease, effecting a radical cure.

Bilious Attacks are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, in a few hours **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Patent Mastic Roofing.

Imperious to Water, and a Sure Protection against Destruction by Fire.

THE inventor of this Roofing labored many year to combine articles which would answer the above purposes, and obviate the difficulties of past and decay attendant on Tarred and Shingles, and the destruction by Sun and Frost of the Pitch and other Cements now in use; this he succeeded in doing, and now *after Five Years of Experience*, he would invite the careful attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN!

This Roofing can be readily applied to roofs of every description, either Step or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing brought to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

Indian Physician.

Dr. B. S. GOODWIN

Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 3 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.

ADVICE FREE.

Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.

THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Tuley, Fits, Gravel, Diarrhea, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism, and all kindred Diseases.

No Mercury! No Bleeding! No Blisters!

Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 16, 1858

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutiniz ing friends.

Be particular in finding Dr. Hughes. Do not be lured from his right path, or induced to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of decisions and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

FRIDAY, JANUARY 21, 1859.

☞ We observe attacks made by certain papers, upon the State Reform School, for the sole purpose of creating, if possible, a little political capital. Now we regard the Reform School as an indispensable institution, quite as much so as the Alms House, the County Jail, and the States Prison. One paper proposes to sell the same at Auction. Rather a difficult process, we opine, when the State has accepted a trust conferred upon it by the donor of some of the funds, for a specific purpose.

Let us suppose, for a moment, that the party, (one of whose organs offers this silly proposition,) should prevail in a State Election—would they sell, or break down the Institution? No indeed! they would put some man of their own at the head of it, and in a year or two increase the expenses 10 or 20 per cent.

Let it be *noted*, that no party has put this item into its *State* platform this year!

☞ In the Supreme Court at Manchester, Jan. 17, Lafayette Goodenough was ordered to pay a fine of $200, imprisonment in the county jail for the term of two months, costs, and commitment until sentence be performed.

Daniel H. Young was arraigned upon the charge of an aggravated assault on Wm. Kimball, in connection with Lafayette Goodenough, upon the 15th November last.

The facts of this case are already familiar to our readers. The jury found a verdict of *guilty*.

Wm. Murphy was then tried upon a charge of keeping intoxicating liquor for sale, contrary to law. This trial occupied but a short time. The jury after an absence of a few minutes returned a verdict of guilty. He was therefore ordered to pay a fine of $50 with costs, and committed until sentence be performed.

Jeremiah Hayes, for same offence, desired to retract his plea of not guilty, and plead *nolo contendere*. Sentenced as above.

Charles W. Hard, for larceny of an overcoat, ordered to pay a fine of $5, to suffer imprisonment in the county jail for the term of two months, also to pay to Wm. H. Plumer, from whom the coat was taken, the sum of $30, and stand committed until sentence be performed.

Dustin Marshall, Jr., was sentenced to hard labor in the State Prison, five years, for burglary.

☞ The travelling iron safe was stolen from the express office in Providence, R. I., on Wednesday morning before day, and was found rifled of its valuable contents. A large trunk in the office was broken open, and its contents strewn about the floor. Among the articles in this trunk was a bag containing $6000 in gold, a bag containing $1000 in silver, and two bags of cents. The robbers carried off the bags of cents and that of silver, but left the bag of gold on the floor.

Wednesday morning both the driver and the watchman went from the office on the wagon together, leaving the office without any one in it for not over twenty minutes, and it was during their brief absence that the robbery was committed.

☞ In the Republican Convention at Manchester, on Wednesday P. M., on the formal ballot for candidate for member of Congress, Hon. M. W. Tappan received 99 votes; all others 98. After the announcement a motion was made to make the nomination unanimous, which was carried. Speeches were made by Judge Cross of Manchester, Hon. E. H. Rollins of Concord, and Hon. Frederick Smyth of Manchester, in support of the nominee.

☞ Temperance seems to be making progress among the peasantry of Russia. A communication from the Governor of Kovno, in the Indicateur Economique, states that the peasants of that government took an oath in the churches three months ago not to drink brandy for the future; and they have fully kept their promise ever since, notwithstanding the seductions of all descriptions which the tavern keepers have thrown in their way, and although strong drinks have considerably diminished in price.

☞ The New Orleans Delta states that the disastrous crevasse which occurred near that city last year, has entirely destroyed the oyster beds in the bay and bayou of Barataria. The enormous body of water forced through these outlets into the Gulf, left a heavy deposit of sediment, which has proved fatal to the bivalves.

☞ The patients received into the Maine insane hospital, in 1858, were 126. The civil condition of those received during the year was as follows: thirty-six males and thirty-two females were married—thirty-four males and fifteen females were single—two were widowers and seven were widows.

The assigned causes of insanity of those admitted during the year are, ill-health, twenty-eight; religious excitement, eleven; domestic affliction, eleven; intemperance, eight; over exertion, seven; injury of head, five; masturbation, five; puerperal, four; spiritualism, three; disappointed affection, three; fright, two;—disappointment in business, two; defective education, two; epilepsy, two; loss of friends, one; poisoning, one; paralysis, one.

KANSAS AFFAIRS.—*St. Louis, Jan. 19.*—The Kansas City Journal of Commerce of the 13th says that Judge Williams of Fort Scott has just arrived en route to confer with Gov. Medary concerning the troubles in Southern Kansas. He represents the neighborhood of Fort Scott to be under a reign of terror. Business was suspended and the women and children had been removed to places of safety. The citizens were under arms and on guard day and night.

This is quite probable. Fort Scott has been a den of thieves and robbers for a long time. By and by, we shall have some explanation of these telegraphic mysteries.

☞ The Worcester Transcript says:—"Among the votes for preacher to the Legislature next year, three votes were cast for the Rev. J. N. Mars, the colored clergyman, formerly of Worcester. It is but justice to our Democratic representatives to state that, desirous of repelling the stigma of oppressing the negro, they cast all three of these votes; one of them by a representative from this city."

☞ The North Carolina Presbyterian, being supported by tobacco planters, gives a weekly report of the state of the market for this noxious weed, and thus, having consulted the temporal prosperity of its subscribers, ministers to their moral, by appending a mass of facts and figures worthy of the zealous anti-tobacco apostle, Mr. Trask.

☞ The mortal remains of Isaac Hadley, a colored Methodist preacher of great popularity among his brethren at Nashville, Tenn., were followed to the grave a few days since by one hundred and seventy-six men on foot, fifty-six carriages and nine buggies, containing two or three hundred men and women.
